## "The General Assembly,

"Recalling its resolutions 3201 (S-VI) and 3202 (S-VI), of 1 May 1974, containing the Declaration and the Programme of Action on the Establishment of a New International Economic Order, 3281 (XXIX), of 12 December 1974, containing the Charter of Economic Rights and Duties of States and 3362 (S-VII), of 16 September 1975, on development and international economic co-operation,

Recalling also its resolution 32/114, of 15 December 1977, in which it, inter alia, urged all States to take measures to provide the United Nations Development Programme with the necessary resources to fulfil the aims, objectives and programmes established in the second programming cycle, 1977-1981, and especially to achieve and even exceed the over-all annual growth rate of 14 per cent for voluntary contributions, on which the indicative planning figures for the cycle are based,

"Recalling further Economic and Social Council resolution 2024 (LXI), of 4 August 1976, on operational activities for development,

"Reaffirming the validity of the consensus of 1970, as set forth in the annex to General Assembly resolution 2688 (XXV) of 11 December 1970,

"Considering that the United Nations Development Programme is making an important contribution to the accelerated development of developing countries,

"Noting with appreciation the continuing increase in programme delivery and the measures taken by the Governing Council and the Administrator of the United Nations Development Programme to improve the quality and efficiency of programme operations and to enhance proper harmonization and complementarity in the technical co-operation activities of the organizations of the United Nations system,

Deeply concerned that the rate of increase in the Programme's resources for 1980 fell far short of the target,

"Having considered the report of the Governing Council of the United Mations Development Programme on its twenty-seventh session, 10/

- "1. Takes note of the report of the Governing Council of the United Nations Development Programme on its twenty-seventh session;

- 3. Motes further Governing Council decision 80/44, of 27 June 1980, concerning the reimbursement by the United Nations Development Programme of agency support costs and the recommendation that the executing agencies of the Programme should review their operational support systems, working methods, arrangements and staffing, with a view to bringing about significant reductions in over-all support costs;

<sup>10/</sup> Official Records of the Economic and Social Council, 1980, Supplement No. 12 (E/1980/42/Rev.l).

<sup>11/</sup> Ibid., chap. XI.

- "4. <u>Urges</u> all Governments to renew their efforts to provide the United nations Development Programme with resources necessary for the implementation of programmed activities for the 1977-1981 development cycle, which are based on an over-all annual growth rate of resources of 14 per cent, thereby providing the sound financial basis needed to implement the Programme's planned activities during the third development cycle, 1982-1986, which also assumes an over-all average annual growth of resources of at least 14 per cent;
- 65. Stresses that the realization of the goals and objectives of the international development strategy will require a renewed emphasis upon technical co-operation and a significant increase in the resources provided for this purpose.
- 31. At its 34th meeting, on 31 October, the Committee had before it a draft resolution (A/C.2/35/L.39) submitted by Mr. J. Valtasaari, Vice-Chairman of the Committee, on the basis of informal consultations held on draft resolution A/C.2/35/L.19.

#### DRAFT RESOLUTION IV

## United Mations Special Fund for Land-locked Developing Countries

The General Assembly,

Recalling its resolution 31/177 of 21 December 1976, by which it approved the statute of the United Nations Special Fund for Land-locked Developing Countries,

Recalling also its resolutions 32/113 of 15 December 1977, 33/85 of 15 December 1978 and 34/209 of 19 December 1979,

Taking note of resolution 123 (V) of 3 June 1979 of the United Nations Conference on Trade and Development and decision 80/21 of 26 June 1980 of the Governing Council of the United Nations Development Programme,

Convinced that access to the world market at the least possible cost is an integral part of meaningful economic development of land-locked developing countries,

Bearing in mind that the majority of countries classified as least developed are land-locked developing countries,

Expressing deep concern at the very low level of contributions for 1980 announced at the 1979 United Mations Pledging Conference for Development Activities, 19/

Moting that, according to the report of the Secretary-General prepared in response to General Assembly resolution 34/207 of 19 December 1979, contributions to the Fund must increase significantly if it is to be effective in meeting the large requirements for reducing the real costs of transit for land-locked developing countries, 20/

Moting further that the demands for assistance from the Fund are additional to, and generally different from, the types of activities financed from other sources of the United Lations system,

- 1. Organ all Member States to give due consideration to the special constraints affecting the oconomic and social development of land-locked developing countries;
- 2. Appeals to all countries to review their position with respect to the United Nations Special Fund for Land-locked Developing Countries and to give serious consideration to having representatives of land-locked developing countries as members of the Board of Governors of the Fund;
- 3. Further appeals to all Member States, in particular developed countries, international organizations and multilateral financial institutions to contribute generously to the Fund at the 1980 United Mations Pledging Conference for Development Activities
- 4. Requests the Administrator of the United Nations Development Programme, in consultation with the Secretary-General of the United Nations Conference on Trade and Development and with other related institutions, to pursue action in favour of land-locked developing countries within the framework of the interim arrangements, taking into account that each country concerned should receive appropriate technical and financial assistance.

Recalling also its resolution 32/114 of 15 December 1977, in which it, inter alia, urged all States to take measures to provide the United Mations Development Programme with the necessary resources to fulfil the aims, objectives and programmes established in the second programming cycle, 1977-1981, and especially to achieve and even exceed the over-all annual growth rate of 14 per cent for voluntary contributions, on which the indicative planning figures for the cycle were based,

Recalling further Economic and Social Council resolution 2024 (LXI) of 4 August 1976 on operational activities for development,

Reaffirming the validity of the consensus of 1970, as set forth in the annex to General Assembly resolution 2688 (XXV) of 11 December 1970,

Considering that the United Nations Development Programme is making an important contribution to the accelerated development of developing countries,

Moting with appreciation the continuing increase in programme delivery and the measures taken by the Governing Council and the Administrator of the United Nations Development Programme to improve the quality and efficiency of programme operations and to enhance proper harmonization and complementarity in the technical co-operation activities of the organizations of the United Nations system,

Deeply concerned that the rate of increase in the resources for 1980 of the United Nations Development Programme fell far short of the target,

Having considered the report of the Governing Council of the United Nations Development Programme on its twenty-seventh session, 21/

- 1. Takes note of the report of the Governing Council of the United Tons Development Programme on its twenty-seventh session;
- 2. Notes, in particular, the decisions taken by the Governing Council on the preparation for the third programming cycle, 1982-1986, including the strengthening of the country programming process through continuous programming and the arrangements for enhancing the involvement of the developing countries in the planning of the regional programmes; 22/
- 3. Motes with approval Governing Council decision 80/44 of 27 June 1980 concerning the reimbursement by the United Nations Development Programme of agency support costs and the recommendation that the executing agencies of the Programme

should review their operational support systems, working methods, arrangements and staffing with a view to bringing about significant reductions in over-all support costs;

- 4. Urges all Covernments to renew their efforts to provide the United Mations Development Programme with the resources necessary for the implementation of activities for the 1977-1981 programming cycle, which are based on an over-all annual growth rate of resources of 14 per cent, thereby providing the sound financial basis needed to implement the Programme's planned activities during the third programming cycle, 1982-1986, which for the purpose of forward planning also assumes an over-all average annual growth of resources of at least 14 per cent;
- 5. Stresses that the realization of the goals and objectives of the International Development Strategy for the Third United Mations Development Decade 23/ will require a renewed emphasis on technical co-operation and a significant increase in the resources provided for this purpose.
