Total	(2 514.8)	15.7	-	-	(107.6)	107.6	(11.3)	(2 510.4)

## REVISED ESTIMATES (Decrease: \$2,510,400)

A. Salaries and common staff costs (Decrease: \$2,514,800)

14.1 The net savings under this heading represent an estimated decrease of \$2,689,900 resulting mainly from a higher than anticipated vacancy rate which was partially offset by an increase in inflation (\$175,100). The net savings (\$2,514,800) fall under "Established posts" (\$2,067,600), "Temporary assistance for meetings" (\$55,500), "Ad hoc expert groups" (\$51,500), "Temporary posts" (\$11,800) and "Common staff costs" (\$356,400) and are partially offset by increases under "General temporary assistance" (\$10,000) and "Consultants" (\$18,000). The additional requirements under "General temporary assistance" reflect increased demands in resources for replacement on maternity leaves. The additional requirements under "Consultants" relate to the preparation and servicing of the Second Arab Conference on National Accounts co-sponsored by ESCWA, the League of Arab States, the Arab Fund for Economic and Social Development and the Arab Statistical Institute and the ad hoc expert group meeting on the appraisal of transport projects.

B. Travel (Increase: \$15,700)

14.2 The additional requirement under this heading, which in part is due to an increase in inflation (\$1,800), relates to the following:

- (a) \$3,500 under the programme "Industrial development" in connection with the travel of staff for the preparation and substantive servicing of the expert group meeting on the development of agro goods industries in the ESCWA region (Cairo, December 1989);
- (b) \$3,700 under the programme "Science and technology" to provide substantive servicing to the ad hoc expert group meeting on the role of specialized financial institutions in the development of local technological capabilities held at Cairo in 1989;
- (c) \$2,500 under the programme "Statistics" to service the Second Arab Conference on National Accounts;
- (d) \$6,000 under the programme "Transport, communications and tourism" to service the ad hoc expert group meeting on the appraisal of transport projects held at Cairo.

C. General operating expenses (Decrease: \$107,600)

14.3 The net savings under this heading represent a decrease of \$126,700, which was partially offset by an increase in inflation (\$19,100). The net savings were used to compensate for the update/replacement of office automation equipment at a total cost of \$164,700.

/...

D. Supplies, materials, furniture and equipment  
(Increase: \$107,600)

14.4 The net increase of \$107,600, which in part is due to inflation (\$5,900), reflects additional requirements of \$164,700 under acquisition of equipment, which is partially offset by savings of \$57,100 under supplies and materials. The additional funds for the update/replacement of office automation equipment were required taking into account in particular the high vacancy rate prevailing in ESCWA.
