Security Council Committee established pursuant to resolution [1540 \(2004\)](#)

Letter dated 18 December 2017 from the Permanent Representative of Zimbabwe to the United Nations addressed to the Chair of the Committee

I wish to refer to your letter dated 29 August 2017 regarding the submission of a first report on the steps my country has taken to implement Security Council resolution [1540 \(2004\)](#).

Zimbabwe submits herewith its first national report on the implementation of the resolution (see annex).

(Signed) F.M.M. Shava
Ambassador
Permanent Representative

Annex to the letter dated 18 December 2017 from the Permanent Representative of Zimbabwe to the United Nations addressed to the Chair of the Committee

Report of Zimbabwe on the implementation of Security Council resolution 1540 (2004)

1. The present report is being submitted to the Security Council Committee established pursuant to resolution 1540 (2004) and has been prepared in accordance with paragraph 4 of that resolution, in which the Council decided to establish, in accordance with rule 28 of its provisional rules of procedure, for a period of no longer than two years, a Committee of the Council, consisting of all members of the Council, which would, calling as appropriate on other expertise, report to the Council for its examination, on the implementation of the resolution, and to that end called upon States to present a report.
2. The Government of the Republic of Zimbabwe expresses its commitment to the maintenance of international peace and security and the promotion of friendly relations and cooperation among States. The Republic of Zimbabwe affirms its support for resolution 1540 (2004), adopted by the Council on 28 April 2004.
3. The Republic of Zimbabwe intends to establish a technical subcommittee on the implementation of resolution 1540 (2004) as part of the existing National Authority on the Chemical Weapons Convention to oversee the full implementation of the resolution, as well as obligations related to the resolution.
4. The Republic of Zimbabwe does not develop, acquire, manufacture, possess, transport, transfer or use nuclear, chemical or biological weapons and their means of delivery, nor does it provide any form of support to non-State actors that attempt to develop, acquire, manufacture, possess, transport, transfer or use nuclear, chemical or biological weapons and their means of delivery.
5. At the international level, the Republic of Zimbabwe has signed, ratified or acceded to the following:
 - Biological Weapons Convention (deposited on 5 November 1990)
 - Chemical Weapons Convention (deposited on 25 April 1997)
 - Treaty on the Non-Proliferation of Nuclear Weapons (deposited on 26 September 1991)
 - Comprehensive Nuclear-Test-Ban Treaty (signed on 13 October 1999)
6. At the regional level, Zimbabwe has signed the African Nuclear-Weapon-Free Zone Treaty (Pelindaba Treaty), which was deposited on 6 April 1998.
7. In section 12 of its Constitution, Zimbabwe commits itself to respecting international law.
8. As stated in its defence policy document, Zimbabwe is committed to the international goals of arms control and disarmament and seeks to strengthen international and regional efforts to contain and prevent the proliferation of weapons of mass destruction.
9. Zimbabwe's legislation provides for appropriate laws and regulations to control the export, transit and trans-shipment of chemicals that may be precursors to chemical weapons, hazardous substances (as defined by the relevant legislation) and other items, and for the enforcement of appropriate criminal or civil penalties for violations of such export control laws and regulations.

10. Border controls and law enforcement efforts are in place to detect, deter, prevent and combat, including through international cooperation, the illicit trafficking and brokering in such items, in accordance with national legal authorities and legislation consistent with international law.

11. In its continuing support for resolution 1540 (2004), Zimbabwe has enacted, inter alia, the following legislation (see the enclosed implementation matrix for more information):

- Chemical Weapons (Prohibition) Act, as amended
- Animal Health Act
- Statutory Instrument on Biosafety Regulations
- Environmental Management Act of 2002
- Hazardous Substances and Articles Act

12. The Chemical Weapons Act has as its purpose to make provisions for giving effect to certain obligations of the Republic of Zimbabwe as a party to the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, and for related matters.

13. The Act establishes a legal framework for the inspection, seizure and forfeiture of goods that are controlled and prohibited under the Convention and provides for penalties for violators.

14. The Act further authorizes the responsible Minister to designate a national authority on chemical weapons. The National Authority is already in operation; it meets once every three months and is chaired by the Ministry of Defence. The Act also grants the Minister responsible for defence the authority to make further regulations.

15. Other national laws which Zimbabwe has in place and which assist in the implementation of resolution 1540 (2004) include the following:

- Customs and Excise Act
- Customs and Excise Regulations, as amended

16. Zimbabwe is a member of the International Atomic Energy Agency, having signed a safeguards agreement, which entered into force on 26 June 1995. It is also a member of the Forum of Nuclear Regulatory Bodies in Africa and has a vibrant regulatory authority, the Radiation Protection Authority of Zimbabwe. More information on the enforcement, control and regulatory bodies established to implement the various regulations related to the implementation of resolution 1540 (2004) is contained in the matrix attached hereto (see enclosure).

Enclosure

Implementation matrix

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to intergovernmental organizations. The matrix, though originally meant for other purposes, has been adopted, modified and/or prepared in support of and as part of the report to the Committee in accordance with paragraph 4 of Security Council resolution [1540 \(2004\)](#) for submission to the Committee established pursuant to the same resolution.

The Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council resolution [1540 \(2004\)](#).

It is understood that the matrices are not to be used as a tool for measuring compliance of States with their non-proliferation obligations but for facilitating the implementation of resolutions [1540 \(2004\)](#), [1673 \(2006\)](#), [1810 \(2008\)](#) and [1977 \(2011\)](#). They do not reflect or prejudice any ongoing discussions outside the Committee, in the Security Council or in any of its organs, of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purposes only and does not constitute in any way a legal obligation arising from resolution [1540 \(2004\)](#) or its successive resolutions.
