ECONOMIC COMMISSION FOR LATIN AMERICA
Fourth session
Mexico, D. F.
Item 6 of the agenda

FOREIGN TRADE PROBLEMS

Implications of the European Payments
Union in Latin America

Note by the Executive Secretary

In view of the recent world disturbances it was the decision of the Executive Secretary to defer the completion of the study on the implication of the European Payments Union on Latin America. This decision was made in spite of the great importance of the study concerned and it is hoped that in the very near future the situation will have improved to an extent that will allow the Secretariat to concentrate its efforts on the completion of this study.
