Annex

Identical letters dated 28 May 1996 from the Minister for Foreign  
Affairs of the Republic of Iraq addressed to the Secretary-General  
and to the President of the Security Council

Sir,

I should like to inform you that the ground and air raids on the Republic of Iraq carried out by the Turkish armed forces are still continuing and have indeed escalated since the beginning of March 1996. They threaten Iraqi sovereignty and the integrity of Iraqi territory and airspace on the pretext of expelling elements that threaten the national security of Turkey. They exploit the abnormal situation in the north of Iraq created by, in particular, the United States of America, in violation not only of the provisions of the Charter of the United Nations and the principles of international law, but also of Security Council resolution 687 (1991).

On 6 May 1996, the Turkish armed forces carried out a fresh raid on the territory of the Republic of Iraq, penetrating 3 to 10 kilometres into Iraqi territory in more than one region. Both warplanes and long-range artillery continue to bombard towns and cities in the north of Iraq. This bombardment was still continuing at the time of writing, and Turkish officials have declared their intention to continue these practices. To give just one example, the official spokesman for the Turkish Ministry of Foreign Affairs stated on 9 May 1996 that Turkey is concerned for its security as a result of the terrorist acts of the Turkish Workers' Party (PKK); that it had the right to enter the north of Iraq to counter that terrorism, and that it would continue to make such forays into the northern part of Iraq until the terrorists were extirpated. I enclose herewith a list of the violations committed by the Turkish armed forces during the period referred to at the beginning of my letter.

The Government of the Republic of Iraq categorically rejects the Turkish allegations and condemns this incursion, which constitutes a flagrant and grave violation of the sovereignty, security and territorial integrity of the Republic of Iraq. The Security Council is requested to take measures to halt the Turkish incursion, ensure it is not repeated and issue a condemnation of it in accordance with the provisions of the Charter and the rules of international law.

Notwithstanding the excuses it has made, the Turkish Government, which has deployed its forces in order to invade Iraqi territory, bears full responsibility for these hostile acts and their consequences, particularly since Iraq, contrary to the allegations of the Turkish Government, is in no way responsible for this situation. The true reason for it is the United States policy of interference in the affairs of the region and the deployment of United States and British forces on Turkish territory in Operation Poised Hammer, in order to intervene militarily in northern Iraq and prevent the latter from exercising its national sovereignty there. This has damaged the security and stability of the region. Had Iraq been able to exercise its authority in the

northern part of the country, armed terrorist groups would not have been able to establish themselves in northern Iraq and southern Turkey.

I should be grateful if you would have this letter circulated to members of the Security Council.

(Signed) Mohammed Said AL-SAHAF  
Minister for Foreign Affairs  
of the Republic of Iraq
