Fifty-second session
FIFTH COMMITTEE
Agenda item 115

PROGRAMME BUDGET FOR THE BIENNIUM 1996-1997

Second performance report

Report of the Secretary-General

I. INTRODUCTION

1. The programme budget for the biennium 1996-1997¹ was adopted and implemented under difficult circumstances: paragraphs 6 to 8 below address the particulars of this situation.

2. Taking the foregoing into consideration, the present report provides an estimate of the anticipated final level of expenditure and income for the biennium, based on actual expenditures for the first 18 months, projected requirements for the last 6 months, changes in inflation and exchange rates and cost-of-living adjustments as compared with the assumptions made in the first performance report that was reviewed by the General Assembly at its fifty-first session (A/C.5/51/38) and formed the basis for the revised appropriations and estimates of income for 1996-1997.

3. The estimates proposed in the present report represent a percentage variation of 1.2 per cent (or a net decrease of \$25.1 million) compared with the revised appropriations and estimates of income approved by the General Assembly in its resolution 51/222 of 18 December 1996, as follows:

	Revised appropriations	A/C.5/52/32	Increase/ (decrease)	Percentage change
	(Millions of United States dollars)			
Expenditure	2 603.3	2 549.4	(53.8)	2.1
Income	447.7	419.0	(28.7)	6.4
Net	2 155.6	2 130.4	(25.1)	1.2

4. The net reduced requirement of \$25.1 million is composed of the following:

	Millions of United States dollars (<u>rounded</u>)
1. <u>Increases</u>	
(a) Changes in inflation assumptions	1.6
(b) Commitments entered into under the provisions of resolution 50/217 of 23 December 1995 on unforeseen and extraordinary expenses	4.3
(c) Commitments authorized by the General Assembly	<u>25.7</u>
Total	31.6
2. <u>Reductions</u>	
(a) Changes in exchange rate assumptions	(49.3)
(b) Variations in post and common staff costs	(30.6)
(c) Adjustments to objects of expenditures other than posts, based on actual anticipated requirements	(5.5)
(d) Decrease in income	<u>28.7</u>
Total	(56.7)
Net decrease	<u>25.1</u>

/...

5. The estimates contained in the present report include additional requirements estimated at \$10.4 million for the Integrated Management Information System (IMIS); full details of those requirements are included in the ninth progress report of the Secretary-General on IMIS (A/52/711).

6. It may be recalled that in adopting the programme budget for the biennium 1996-1997, the General Assembly decided that the total level of expenditures would be \$2,712.3 million and a further projected level of savings to be achieved of \$103,991,200 during the biennium. Further, the Assembly decided that those savings would not affect the full implementation of mandated activities and requested the Secretary-General to report to it on proposals as to how to achieve the savings.

7. Following a review of measures that would need to be taken to respond to the request of the General Assembly, proposals on the reduction and the impact of the approved savings measures on the implementation of mandated programmes and activities were reported to the Assembly during the biennium (see A/C.5/50/57 and Add.1 and A/C.5/51/53). As was indicated at that time, budget implementation during the current biennium would be notably more challenging than in previous bienniums owing to the dynamic efforts required to manage the sharply reduced level of resources within a short budget cycle and within a budgetary structure with limited flexibility or requiring longer lead times to address the necessary savings other than through significant reductions in staff costs.

8. When resources were initially released to offices, the need to exercise utmost caution in incurring expenditures was stressed pending the identification of the level of savings to be achieved during the biennium and the approval by the General Assembly of the savings identified. As would be expected, prolonged periods of uncertainty as to the availability of resources would have an impact on services and lead to delays or postponement of programmed activities. In that context, to promote stability in the delivery of approved programme objectives following the economy measures introduced in 1996, greater implementation flexibility was provided to offices in the early part of 1997 through the allotment process to facilitate the role of programme managers in optimizing the utilization of resources. The effects of the exercise of such flexibility by programme managers are discussed under section II.C, Other changes, below.

9. In the report of the Secretary-General of 20 June 1997 (A/C.5/51/53), it was indicated that the programme performance report which is the responsibility of the Office of Internal Oversight Services, could not be prepared until the biennium was over. The present report focuses on providing financial information on the programme budget performance for the biennium 1996-1997. Once the programme performance report has been prepared, it should be possible to have a more complete picture of the implementation of the programme budget for the biennium 1996-1997.

10. The following schedules provide additional information on changes in requirements and revised budget assumptions, inter alia, rates of exchange and cost of living:

/...

- Schedule 1. Summary of projected expenditure by section and main determining factor
- Schedule 2. Summary of projected expenditure by main object of expenditure and main determining factor
- Schedule 3. Summary of projected expenditure by section, main object of expenditure and main determining factor
- Schedule 4. Rates of exchange and rates of inflation by duty station
- Schedule 5. United Nations operational rates of exchange for 1997
- Schedule 6. Post adjustment multipliers for 1997 applicable to staff in the Professional category and above
- Schedule 7. General Service salaries: changes in local currency terms
- Schedule 8. Common staff costs as a percentage of net salaries
- Schedule 9. Vacancy rates by section

II. EXPENDITURE SECTIONS

11. The overall changes under the expenditure sections are summarized below:

1996-1997 revised appropriations	Rates of exchange	Inflation	Commitment authority and unforeseen and extraordinary expenses	Other changes	Revised estimates
(Millions of United States dollars)					
2 603.3	(49.3)	1.6	30.0	(36.2)	2 549.4

A. Rates of exchange and inflation

(Decrease of \$47.7 million)

12. The total decrease is attributable to the more favourable rate of exchange of the United States dollar in relation to other currencies (decrease of \$49.3 million) and to minor unanticipated inflationary increases and decreases, mainly under post costs (\$1.6 million). The distribution of the \$47.7 million by duty station is shown in table 1.

/...

Table 1. Exchange rate and inflation changes by duty station

(Millions of United States dollars)

Duty station	Rates of exchange	Inflation	Total
New York	-	(0.5)	(0.5)
Geneva	(32.2)	(0.5)	(32.7)
Vienna	(6.0)	0.1	(5.9)
Santiago	0.1	(0.5)	(0.4)
Addis Ababa	(0.7)	0.3	(0.4)
Amman	-	(0.4)	(0.4)
Nairobi	(0.1)	0.8	0.7
Bangkok	(3.6)	0.5	(3.1)
Other	(2.1)	1.4	(0.7)
Staff assessment	<u>(4.7)</u>	<u>0.3</u>	<u>(4.4)</u>
Total	(49.3)	1.6	(47.7)

13. The reduction of \$49.3 million reflects the continuing favourable rates of exchange of the United States dollar against other currencies that have been experienced in 1997 as compared with the budgeted exchange rates of December 1996. It may be recalled that in the report of the Secretary-General of 5 December 1996 (A/C.5/51/38), it was reported that during the course of 1996 the United States dollar had strengthened appreciably since May 1996. That trend has continued throughout 1997. Notably, whereas a rate of 1.29 Swiss francs to the dollar was assumed in the revised appropriations, representing the operational rate of exchange in December 1996, the average rate calculated for 1997, based on actuals through November 1997, is SwF 1.44 to the dollar, representing a variance of 10.4 per cent. With regard to the Austrian schilling, the average for 1997 is S12.03 to the dollar compared with S10.80 assumed in the revised appropriations, a variance of 10.2 per cent. The following figures provide details of the performance of the Swiss franc and the Austrian schilling against the United States dollar based on actual rates per month for 1996 and January to November 1997 and projected December 1997.

/...

14. In considering the recosting parameters used to estimate the effect of exchange rate changes, the Secretariat applied the average 1997 rates actually experienced. Details of assumed and actual rates of exchange for all duty stations may be found in schedules 4 and 5.

15. With regard to inflation, the adjustments are based on the latest available information on consumer price indices as well as adjustments resulting from differences in actual post adjustment indices for staff in the Professional category and above and actual cost-of-living adjustments for staff in the General Service and related categories compared with the assumptions made in the revised appropriations.

16. As concerns post costs, increases totalling \$2 million (net of staff assessment) reflect post adjustment indices and cost-of-living adjustments being slightly higher than anticipated for a number of duty stations. A summary of the increases and decreases by duty station for inflation-related changes to posts are shown in table 2. Further details may be found in schedule 6, which contains information on the evolution of post adjustment indices by duty station and a comparison of the assumed and actual indices, and schedule 7, which provides information by duty station on cost-of-living increases for staff in the General Service and related categories.

Table 2. Increases and decreases by duty station for inflation-related changes to posts

Duty station	Increase/(decrease) (Millions of United States dollars)
New York	(0.1)
Geneva	(0.3)
Vienna	0.1
Santiago	(0.4)
Addis Ababa	0.4
Amman	(0.4)
Nairobi	0.7
Bangkok	0.5
Others	<u>1.5</u>
Net	2.0

17. Regarding the revised inflation rates for objects other than posts, the revised rates for 1997 are, in the majority of cases, at or lower than had been foreseen in the revised appropriations. The net effect is a reduction of \$0.5 million in the rates of inflation for non-post items. Schedule 4 mentioned

/...

above also contains details of the revised inflation rates by duty station for objects other than posts.

B. Commitment authority and unforeseen and extraordinary expenses

(Increase of \$30 million)

18. Under the terms of resolution 50/217, the Secretary-General is authorized, with the prior concurrence of the Advisory Committee on Administrative and Budgetary Questions, to enter into commitments to meet unforeseen and extraordinary expenses, provided that the concurrence of the Committee shall not be necessary for such commitments, not exceeding a total of \$5 million in any one year, as the Secretary-General certifies relate to the maintenance of peace and security, and such commitments as the President of the International Court of Justice certifies relate to expenses occasioned by a number of situations in the Court as prescribed in paragraph 1 (b) of resolution 50/217.

19. Under the provision of the resolution, commitments in the amount of \$4,290,600 have been entered into, as follows:

(a) Certified by the Secretary-General as relating to the maintenance of peace and security (\$4,208,800);

(b) Certified by the President of the International Court of Justice as relating to unforeseen expenses relating to the Court (\$81,800).

20. Commitments for inter-organizational security measures in the amount of \$54,000 were also entered into.

21. These commitments are as follows:

United States dollars

(a) Certified by the Secretary-General as relating to the maintenance of peace and security

Section 3.	(i)	Office of the Joint United Nations/ OAU Special Representative for the Great Lakes Region	578 500
	(ii)	Personal Representative of the Secretary-General for East Timor	159 500
	(iii)	United Nations Political Office for Somalia	511 800
	(iv)	Special Representative of the Secretary-General for Cambodia	477 600
	(v)	Technical survey mission for the United Nations peacekeeping mission to Congo-Brazzaville	94 700

/...

United States dollars

(vi)	Mission of the Special Envoy for Somalia	55 700
(vii)	Mission of the Special Envoy for Afghanistan	73 800
(viii)	United Nations Office in Burundi	1 505 300
(ix)	Special Envoy of the Secretary-General for Sierra Leone	233 400
(x)	United Nations Office in Liberia	518 500
(b)	<u>Certified by the President of the International Court of Justice</u>	
Section 5.	A. The payment of fees and travel costs of ad hoc judges for the cases concerning	
(i)	<u>Fisheries Jurisdiction (Spain v. Canada)</u> ;	700
(ii)	<u>Oil Platforms (Islamic Republic of Iran v. United States of America)</u> ;	16 000
	B. The payment of pensions and travel and removal expenses of retiring judges and travel and removal expenses and installation grant of new members of the Court	60 000
	C. Travel of the Court to the site concerning the case of the <u>Gabcíkovo-Nagymaros Project (Hungary v. Slovenia)</u>	5 100
(c)	<u>Commitments for interorganizational security measures</u>	54 000

22. In addition, at its fifty-first session, commitments of \$25,676,900 were authorized by the General Assembly in implementation of its resolutions 51/198 of 27 March and 51/196 B of 31 July 1997. These are as follows:

/...

United States dollars

Section 3.	(a)	United Nations Verification Mission in Guatemala (resolution 51/198 and A/51/842)	21 013 000
	(b)	International Civilian Mission to Haiti (resolution 51/196 B and A/51/956)	2 585 100
Section 32.		Staff assessment	2 078 800

23. As indicated earlier in the performance report, in view of the continuing favourable exchange rate performance of the United States dollar against other currencies, these additional requirements have been met within the current level of appropriations.

C. Other changes

(Decrease of \$36.2 million)

24. As indicated above, schedule 2 provides details of the other changes by main object of expenditure. Included under this heading are: (a) estimated actual expenditures for common staff costs; (b) difference between realized vacancy rates compared with those assumed in the revised appropriations; (c) differences between actual average salary costs compared with the standards included in the revised appropriations; and (d) adjustments to objects of expenditure other than posts based on actual and anticipated requirements to the end of the biennium.

25. It may be recalled that, in the programme budget, common staff costs include provision for benefits, allowances, other entitlements and expenses in connection with appointment, transfer and separation and are estimated on the basis of the ratio of charges attributable to those costs as a percentage of net salaries for each duty station. Those ratios are calculated on the basis of experience and remain unchanged for this report as assumed in the revised appropriations. Schedule 8 to the present report provides detailed information on the ratios of common staff costs by duty station.

26. As concerns the reduction under posts, amounting to \$34.3 million, it may be recalled that vacancy rates significantly higher than initially budgeted were required and achieved through a number of actions, in particular freezing of posts vacated through the full use of attrition; implementation of a freeze on recruitment, subject to limited exceptions; and a voluntary early separation programme in 1996 to ensure that the savings requested by the General Assembly would be realized. In that connection, target vacancy rates of 10.4 and 7.5 were utilized for staff in the Professional category and above and in the General Service and related categories, respectively. However, the average actual vacancy rate over the biennium, based on 22 months' data, are estimated at 12.8 and 7.6 for the Professional category and above and the General Service

/...

and related categories, respectively. Further information by section on the evolution of vacancy rates under the regular budget are included in schedule 9.

27. It may be recalled that information on the costs of the 1996 early separation programme, which amounted to \$14.7 million, was included as annex VIII.B to the second report of the Advisory Committee on Administrative and Budgetary Questions (A/51/7/Add.1).

28. With regard to other changes to objects of expenditures other than posts, as indicated in schedule 2, a net reduction of \$5.5 million is anticipated, the effect of increases under travel, furniture and equipment amounting to \$16.5 million being offset by significantly reduced requirements amounting to \$22.0 million for other staff costs, general operating expenses, supplies and materials, improvement to premises and the other major expenditure groups.

29. As concerns travel, net additional requirements are associated with such travel undertaken by support staff in connection with the United Nations Conference on Human Settlements (Habitat II), as well as security and communications staff required to provide security coverage and cryptographic support; and the special session of the Committee on Contributions.

30. As it may be recalled, a significant level of resources initially included in the programme budget under furniture and equipment had been released as part of the savings measures introduced during 1996. However, with the continuing evaluation of the long-term infrastructure needs of the Organization, in particular, as it relates to the overall strategy of upgrading the physical information technology infrastructure, resources were required for upgrading and consolidating existing underpowered local area network (LAN) servers, which do not at present provide the full functionality necessary; replacement of obsolete public information capital equipment namely, existing television production equipment; non-fixed furniture for the recently completed new conference facilities at Addis Ababa; and so on.

31. Reduced requirements under other staff costs, supplies and materials, improvement to premises and the other major expenditure groups relate largely to tighter controls on the purchase of such supply needs as photocopying paper and streamlined supply ordering and renegotiated contracts for provision of supplies and so on; non-implementation of certain alterations to premises as a result of ongoing full assessment of the internal structure of the offices away from Headquarters and the consideration of designating certain United Nations offices "common premises" to house common shared facilities; and renegotiated contracts for such contractual services as conference sound engineers. As concerns general operating expenses, the significant reduction is attributable in large part to several energy-saving measures undertaken, such as shutting down the internal air-conditioning fan supply after certain hours; reduced communications requirements from favourable rates negotiated with and paid to commercial carriers; and lower requirements for rental and maintenance of premises as a result of release of space, for new cleaning and other contracts and for rental and maintenance of furniture and equipment arising from such action as the move of the mainframe to the International Computing Centre in Geneva. Net decreases under other staff costs result, inter alia, from reduced honoraria payments to members of the International Law Commission since fewer participants than

/...

anticipated attended its session; fewer meetings of the Joint Advisory Group on the International Trade Centre; use of duty rosters for secretariat support after working hours; and modified shifts to ensure maximum coverage without incurring high overtime costs.

D. Income sections

(Decrease of \$28.7 million)

32. The total decrease under income sections amounts to \$28.7 million, which is broken down by section as follows:

Income section	Approved estimates of income	Increase/ (decrease)	Revised estimates of income
	(Millions of United States dollars)		
1. Income from staff assessment	363.5	(23.5)	340.0
2. General income	82.0	(6.1)	75.9
3. Services to the public	<u>2.2</u>	<u>0.9</u>	<u>3.1</u>
Total	447.7	(28.7)	419.0

Income section 1

33. The decrease of \$23.5 million reflects mainly the adjustment for exchange rates in respect of General Service salaries, the effects of the higher vacancy rates discussed earlier in the report and changes under other staff costs.

Income section 2

34. The net decrease under income section 2 is attributable to a number of factors, but largely to the fall in income from rental of premises, notably at the United Nations Office at Geneva, owing to the move by the United Nations Children's Fund (UNICEF) at the end of 1995 to properties owned by the Geneva authorities, the relocation of United Nations Volunteers to Bonn in 1995 and fluctuations in exchange rates; and for the United Nations Office at Nairobi, owing essentially to the release of some space by the United Nations Environment Programme (UNEP) (\$3.3 million); the decrease of \$1.9 million in relation to reimbursement for services provided to specialized agencies and other administrative services, such as security and safety, communications and issuance of laissez-passers and related certificates and conference services; and the decrease from various other income sources, including the sale of used equipment, reimbursement by specialized agencies of their share of the costs of

/...

the International Civil Service Commission and the share of the costs of the Joint Inspection Unit (\$0.9 million).

Income section 3

35. The increase under income section 3 is due mainly to increases in net revenues arising from, inter alia, the sale of philatelic items (\$1.3 million) and services to visitors (\$1.0 million), offset by decreased net revenues attributable to such operations as the United Nations Gift Centre at Headquarters (\$2.1 million).

Schedule 1. Summary of projected expenditure by section and main determining factor

(Thousands of United States dollars)

Section of expenditure	Revised 1996-1997 appropriation	Rates of exchange	Inflation	Projected changes			Proposed 1996-1997 final appropriation
