* On behalf of the States Members of the United Nations that are members of the Group of 77 and China.

¹ Resolution [70/1](#).

Sustainable Development Goals and targets, its commitment to working tirelessly for the full implementation of the Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions – economic, social and environmental – in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Reaffirming also the Paris Agreement² and its early entry into force, encouraging all its parties to fully implement the Agreement, and parties to the United Nations Framework Convention on Climate Change³ that have not yet done so to deposit their instruments of ratification, acceptance, approval or accession, where appropriate, as soon as possible,

Reiterating the affirmation in the Addis Ababa Action Agenda that achieving gender equality, empowering all women and girls and attaining the full realization of their human rights are essential to achieving sustained, inclusive and equitable economic growth and sustainable development,

Noting with great concern the threat to human health, safety and well-being caused by the coronavirus disease (COVID-19) pandemic, as well as the severe disruption to societies and economies and the devastating impact on the livelihood of people, and recognizing that the poorest and most vulnerable are the hardest hit by the pandemic and that the impact of the crisis will reverse hard-won development gains and hamper progress towards achieving the Sustainable Development Goals,

Noting with concern that the COVID-19 pandemic has triggered a profound economic crisis in countries across the globe, that both developed and developing countries are expected to see large drops in gross domestic product, which are likely to be especially severe in countries that depend on commodity exports, remittances and tourism, that massive losses of employment and income owing to the crisis have also drastically increased global poverty, especially in developing countries, while at the same time the economic repercussions of the COVID-19 pandemic continue to constrain the ability of many countries to respond, by limiting their fiscal space and worsening debt distress, and noting the High-level Event on Financing for Development in the Era of COVID-19 and Beyond, convened by the Governments of Canada and Jamaica and the Secretary-General, and held on 28 May 2020, and the related meetings of ministers of finance and of Heads of State and Government, held on, respectively, 8 and 29 September 2020,

Reaffirming the importance of addressing the diverse needs of and challenges faced by countries in special situations, in particular African countries, the least developed countries, landlocked developing countries and small island developing States and countries in conflict and post-conflict situations, as well as the specific challenges faced by middle-income countries,

Taking note of the holding of preparatory meetings for the Economic and Social Council forum on financing for development follow-up, such as the retreat of the Group of Friends of Monterrey,

Welcoming the convening of two virtual informal meetings of the Economic and Social Council forum on financing for development follow-up, on 23 April and 2 June 2020,
