**Letter dated 27 August 2022 from the Permanent Representative
of the Russian Federation to the United Nations addressed to the
Secretary-General and the President of the Security Council**

I would like to bring to your attention the presentation* by the Ministry of Defence of the Russian Federation on the shelling by the Armed Forces of Ukraine of the Zaporozhye nuclear power plant on 27 August 2022.

Three shells landed near specialized building 2, where the storage facility of the fresh nuclear fuel produced by JSC TVEL is located and hard radioactive waste is stored. The shelling of specialized building 2 damaged the pipelines.

I would be grateful if the present letter could be circulated as a document of the General Assembly, under agenda item 100, and of the Security Council.

(Signed) Vassily Nebenzia
