Item 4 of the agenda

ANNUAL REPORT ON THE ADMINISTRATION OF TANGANYIKA
FOR THE YEAR 1947

(Working Paper Prepared by the Secretariat)

This paper has been prepared in accordance with the decision made by the Trusteeship Council. The accompanying table* is a collection of statistics relating to agriculture in Tanganyika. It is a quantitative presentation of basic facts as contained in the annual report for 1947. These have been supplemented by data from the following official sources:

1. Tanganyika Territory Blue Book 1945.
2. Tanganyika Territory Blue Book 1939.

All other figures, including percentages, have been computed by the Secretariat from those given in the official reports.

While great care has been taken to ensure accuracy, some errors may have occurred on account of the limited time within which this work had to be done.

* As the Secretariat has so far received only a limited number of copies of this table, it is obliged to limit distribution.

A. Land Utilisation (000 acres)				B. Land Utilisation (000 acres)					C. Area Under Cultivation (000 acres)			D. Area Under Cultivation (000 acres)				E. Area, Total Yield and Yield Per Acre of Chief Crops										F. Bananas			G. Groundnuts																																																																																																																																																																																																																																																																																																																																																																																							
Alienated	Unalienated	Total		Arable Under Cultivation	Forests Incl. tons)	Yield Per Acre (tons)	Average (000

a) Maize, millets, and sorghum, Root Crops, Beans and Pulses, Bananas, Groundnuts, Rice, Coffee, Coconuts, Sesame, Wheat, Papaya, Fruit and Vegetables, Tea, Sugar.
b) Sisal, Seed Cotton and Tobacco.
c) Figures from the Report for the Year 1947.
d) Figures from the Tanganyika Territory Blue Books for 1945 and 1939.
e) All Food Crops.
f) The total yield figures are given in the Blue Books in case of bananas, in tons for some areas and in bunches for others, and in the case of cotton, in tons for some areas and in bales for others.
g) Figure calculated for areas for which yield data are given in tons.
* Data not available.
