LISTING AND CLASSIFICATION

Miscellaneous amendment proposals (Parts 2 and 3)

Special Provision 279 for UN 1548 ANILINE HYDROCHLORIDE

Transmitted by the expert from Germany

1. The classification of Aniline hydrochloride, a salt of Aniline, has been based on human experience on poisonings with Aniline. Animal experiments do not present data that would classify this Aniline salt in Class 6.1 Packing Group III. However, the relevant Special Provision 279 has only been allocated to UN 1547 ANILINE, but has not been allocated to UN 1548 ANILINE HYDROCHLORIDE.
2. The expert from Germany proposes to add Special Provision 279 under the entry of UN 1548 of the Dangerous Goods List in column 6.
3. The Sub-Committee is requested to note that proposal and decide accordingly.
