NOTE ON THE DATA

A. Mandate

1. By its decision 81/34 of 27 June 1981, the Governing Council requested the Administrator to continue to provide data on the magnitude and composition of technical cooperation activities (not all activities) funded by organizations of the United Nations system.

B. Presentation of the data

2. The raw data submitted by agencies/organizations for 2000 have been checked for consistency and accuracy prior to processing and presentation in tables 1 to 11, which contain both summary and detailed data. Tables 1 through 8 present data on technical cooperation expenditures while tables 9, 10 and 11 record contributions. Tables 12 through 22 contain historical data on both contributions and expenditures since 1980.

3. In more detail, table 1 presents a summary of grant technical cooperation expenditures by agencies of the entire United Nations system while table 2 shows the same data but distributed according to sectors. These tables should be consulted if interest centres only on broad aggregate information. Table 3, an extremely aggregative table, brings together total United Nations system technical cooperation expenditures according to agency, sector and category of expenditure. Two features of this table are worth observing. First, for each agency/entity, expenditures are broken down according to type of expenditure: regular budget (A); United Nations system extrabudgetary sources other than UNDP (B1); non-United Nations system multilateral sources (B2); bilateral sources channelled through the United Nations system (C1); and unilateral "self-supporting" sources (C2). Second, all expenditures by UNDP, UNICEF and WFP are classified as B1 expenditures, distributed according to sector, which basically implies that these entities were directly responsible for the implementation of their entire programme. In fact, this is not necessarily so, but the aim here is to preserve tractability and to minimize double counting. In the case of UNFPA, because of its size and the ready availability of the requisite data, only a portion of its expenditure is classified as B1 - \$49.7 million out of a total of \$134.1 million in 2000. The message here is that reported B1 expenditures of executing and specialized agencies are augmented by the amount of UNFPA expenditures for which these agencies have been responsible (\$84.5 million). For these reasons, table 3 gives a more detailed picture of the resource linkages among entities of the United Nations system.

4. Tables 4 through 8 amplify on the sources, or expenditure categories, of table 3. More specifically, table 4 breaks down regular budget expenditures (A) by country and agency, which makes it possible to ascertain the amount of regular budgetary expenditure incurred by a given agency in a given country. As a consistency check, it will be noted that the grand total of this table is the same as that shown at the end of table 3, the extreme right column of row A. Table 5 contains the distribution of all non-United Nations system multilateral sources (B2) expenditure by country and agencies; the total in this table agrees with that of line B2 at the end of table 3, the extreme right column of row B2. The detailed country-agency breakdown of bilateral resources channelled to the United Nations executing and specialized agencies (C1) is given in table 6; the total of this table is the same as that of line C1 at the end of table 3, the extreme right column of row C1. Table 7 contains detailed expenditure data from United Nations system multilateral sources (B1), also classified by country and agency; the total in this table equals that shown by line B1 at the end of table 3, the right column of row B1. Finally, the country-agency distribution of unilateral expenditure (C2) routed to executing and specialized agencies and back to the contributing countries is shown by the "self-supporting expenditures" column of table 8; the total of this column agrees with that in line C2 of table 3, the extreme right column of row C2.

/...

5. Table 9 contains data on extrabudgetary contributions to the executing and specialized agencies, organized under the following headings: unilateral and bilateral sources (country or territory and NGOs) and multilateral sources (United Nations system and non-United Nations system). Contributions received by executing and specialized agencies to fund "self-supporting" technical cooperation expenditures are presented in table 10.

6. The remaining tables contain historical data with varying time periods between 1980-2000. Contributions to and expenditure by UNDP, UNFPA, UNICEF, and WFP during 1995-2000 according to various criteria are given in tables 11 to 15. Technical cooperation expenditure, nominal amounts and rates of growth by the entire United Nations system for 1980-2000 can be found in tables 16 and 17. Two new tables have been added: tables 18 and 19, which show historical data on regular and extrabudgetary expenditure by the executing and specialized agencies. Tables 20 and 21 contain historical data and rates of growth of extrabudgetary contributions to the executing and specialized agencies. Finally, table 22 reports historical summary data on voluntary contributions received by UNDP, UNFPA, UNICEF and WFP.

C. Caveats

7. Use of the data in the present document should be guided by the following caveats:

(a) Scope: The data on expenditure/contributions refer only to technical cooperation expenditure/contributions. The report defines technical cooperation activities to include the work of UNDP, the executing and specialized agencies, UNFPA, UNICEF and WFP. A complete account of expenditure incurred on (and contributions to) development activities by the United Nations system can be found in the annual report of the Secretary-General on this topic;

(b) Expenditure coverage: All expenditure data refers to the field programme activities of the entities concerned. All expenditure data is also net of administrative, support and other costs. Expenditure data thus refer to the actual amount of resources directly invested in developmental activities and is referred to in this document and DP/2001/30 as field programme expenditure. The only exception is WHO: its expenditure is inclusive of these other costs;

(c) World Bank/IDA: As a result of the shift in orientation and focus, the World Bank and IDA no longer specifically attempt to capture the technical cooperation components of their projects and are thus not in a position to provide this kind of data. In these changed circumstances, a new lending instrument, the learning and innovations loans (LILs), is now being used increasingly in place of technical assistance loans (TALs). LILs provide structured support for small, time-sensitive projects to pilot promising development initiatives based on a sound development hypothesis, or to experiment in order to develop locally based models prior to a larger-scale intervention. LILs thus focus on experimentation, learning and piloting in search of possible developmental solutions prior to larger-scale interventions. LILs incorporate opportunities for intensive monitoring and evaluation and include an assessment of borrower capacity and stakeholder response as part of the learning exercise when these are unknown. Loan proceeds of up to \$5 million are used for the services of consultants, small works, goods and equipment over a period of 2 to 4 years. Owing to their very diverse nature, LILs are not specifically geared to capacity-building and cannot be equated with technical cooperation;

(e) Contributions – Agency: Data on agency contributions refer to extrabudgetary contributions only; regular budgetary contributions are not included in the report. Because of this, agency contribution data in the present report must not be equated with income;

/...

(f) Contributions – UNDP and UNFPA: Data on contributions to UNDP and UNFPA refer to voluntary contributions only. In the case of UNDP, cost-sharing, contributions to local office costs, government cash counterpart contributions, funds and trust funds and management services agreements and miscellaneous have been excluded from total contributions. For both entities, voluntary contributions are not the same as total contributions or total income;

(g) Contributions – UNICEF: Contribution data refer to voluntary contributions from Governments, the private sector and inter-organizational sources; contributions are not the same as total income.

D. Terminology

8. Usage of the data contained in this addendum can be enhanced considerably from an understanding of the terminology employed, some of which may be unfamiliar. The most important definitions and concepts are given below.

9. Technical cooperation activities. These are activities that aim to promote increasing self-reliance and thus strengthen the conditions necessary for sustainable human development. They include human resources development (education, health, social development), and managerial, technical, administrative and research capabilities required to formulate and implement development plans and policies, including the management and development of appropriate institutions and enterprises, and policy advice. All United Nations entities reviewed in the present report, with the exception of the World Bank/IDA, are considered to engage in technical cooperation activities.

10. Regular budget expenditures (RBE). These refer to technical cooperation expenditures of executing and specialized agencies financed out of their assessed budgets (that is, contributions). They are therefore linked to voting power within agencies. Table 4 in the statistical annex contains detailed data on agency RBE. UNDP, UNICEF, UNFPA and WFP do not have RBE since contributions are entirely voluntary.

11. Extrabudgetary expenditures (EBE). As distinct from regular budget contributions, these refer to agency expenditures financed from voluntary contributions originating from multilateral and bilateral sources.

12. EBE – Multilateral. Multilateral sources are divided into (a) United Nations system (B1) and (b) multilateral sources outside of the United Nations system (B2). Total B1 (see table 3) expenditure comprises agency B1 and the rest of the system B1, excluding World Bank/IDA. Agency B1 expenditure funds technical cooperation activities from resources available within the United Nations system: they are, in other words, essentially payments to agencies by other entities of the United Nations system for services rendered. Considerable efforts have been made to avoid the problem of double-counting – of counting a payment and a receipt twice. The rest of the system B1 comprises expenditures from UNDP, UNICEF, UNFPA and WFP. Line B1 at the end of table 3 shows in summary form total B1 expenditures while a detailed breakdown is given in table 7. Multilateral sources of EBE outside the United Nations system are referred to in the present document as B2 expenditures; they are provided by outside entities such as regional development banks, the Commission of the European Communities, and the various Arab development funds. The crucial aspect of B2 expenditures is that they are passed on from outside multilateral entities to agencies of the United Nations system for the purpose of financing technical cooperation activities in developing countries. Line B2 at the end of table 3 gives a summary account of this category of EBE while the details are contained in table 5.

13. EBE – Bilateral. Bilateral EBE is also grouped into two categories (a) non-United Nations system sources (C1) and (b) unilateral self-supporting sources. The former comprises expenditures incurred against resources provided directly to the agency by a Member State or a non-governmental organization (NGO) to fund technical cooperation activities in developing countries; it is resources made available to the United Nations system from bilateral donors. It also includes expenditures against multi-bilateral contributions (i.e., contributions by one country for a specific project(s) in another country) as well as expenditures by the agency against special purpose funds managed by the agency itself. The term 'unilateral' is used to emphasize the fact that such expenditures finance technical cooperation activities within the country that made the contribution to the United Nations system. Unilateral expenditures are thus passed from the given country to the United Nations system and back to the same country; the only difference is that they have acquired a dual character: unilateral since they return to the contributing country; bilateral since they were routed from a country to the United Nations system.

14. Agency extrabudgetary contributions. These are used to fund EBE: one is the income side of the equation while the other is the expenditure side. Extrabudgetary contributions are voluntary contributions, which may be tied to a specific purpose or geographic location, and which are divided in two broad groups: bilateral and multilateral. Bilateral contributions are broken down into: (a) contributions from countries/territories - representing funds donated to the United Nations system to support activities in developing countries; (b) contributions from NGOs to the United Nations system; and (c) unilateral self-supporting contributions - contributions made by a country to finance technical cooperation activities in that country. Multilateral contributions are subdivided into: (a) contributions from the United Nations system (in essence, such contributions represent an internal transfer (that is, payment) of resources within the United Nations system from (mainly) funding agencies to executing agencies for services rendered) and (b) contributions originating outside of the United Nations system - contributions by multilateral organizations that are not part of the United Nations system. Examples of such organizations are the African Development Bank and the Arab Gulf Fund for United Nations Development Organizations.

(Footnotes on the following page)

Table 1. (continued)

- a/ The sum total of this column is equal to B1 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)]+B2+C1+C2 in table 3 or, alternatively, the sums of table 5 through table 7 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds) + "Self-supporting expenditures" of table 8. In different ways, table 3 through 8 amplify the summary data contained in table 1.
- b/ This column represents UNICEF and WFP expenditures for which the agency breakdown was not available.
- c/ Based on expenditures from regular resources, cost-sharing, SPR, SMF/LDC and SIS.
- d/ Includes DESA (formerly DDSMS) and DESIPA.
- e/ Includes UNDESA only.
- f/ Includes programme expenditures of \$8,138,017 in 1999 and \$8,630,109 in 2000 reported by UNDP country offices for which the detailed distribution will be in effect in the following year.
- g/ UNFPA-funded expenditure of \$0.268 million to UNDP-administered fund of UNIFEM. This amount also comprises expenditures of \$42.871 million (UNCDF), \$16.891 million (UNIFEM), \$0.249 million (UNRFNRE), \$0.282 million (UNSO), \$133.088 million (DEX).
- h/ In 1999, UNRWA reported amended figures for regular budgets and extrabudgetary sources.
- i/ Provisional. See "Note on the data" at the beginning of the report for an explanation of WHO expenditure as regards their two-year biennium.
- j/ UNDP reported this expenditure for government cash counterpart contribution.
- The amount of \$34,000 under UNDP-administered trust funds for 2000 represent the expenditure for the International Organization for Migration (IOM).

Note:

The World Bank/IDA no longer specifically allocates expenditures to technical cooperation activities. See "Note on data" for a clarification of this issue. UNITAR and WMO reported no UNDP-financed technical cooperation expenditures during 1999 and 2000.

a/ The sum total of this column is equal to B1 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)]+B2+C1+C2 in table 3 or, alternatively, the sums of table 7 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)] + table 6 + "Self-supporting expenditures" of table 8.

b/ Based on expenditure from regular resources, cost-sharing, SPR, SMF/LDC and SIS. As of 1997, UNV expenditure is being reported separately.

c/ WFP submitted revised expenditure figures for 1999

Note:

The World Bank/IDA no longer specifically allocate expenditures to technical cooperation activities. See "Note on data" for a clarification of this issue.

a/ For the sector represented by these numbers, see the left-hand column of table 2.

b/ A - Regular budget

B1 - Funded by United Nations system multilateral sources plus UNFPA, UNICEF, WFP and UNDP (central resources and administered funds).

B2 - Non-United Nations system multilateral sources.

C1 - Bilateral resources channelled through the United Nations system.

C2 - Unilaterally financed "self-supporting" expenditures.

c/ Sectoral breakdowns were not available for amounts under "Others".

d/ Includes DESA and DESIPA.

a/ UNFPA-funded expenditures of \$249,500 in the population sector (11) to UNDP-administered fund for UNIFEM.

f/ The data provided by UNESCO under "Regular budget (category "A")" represent expenditures incurred under that organization's participation programme.

g/ Includes support costs.

Notes:

This table is an overall summary of technical cooperation expenditures of the United Nations system. The first two columns on the left shows the executing agency and the category of expenditures; the other columns show the sectoral distribution of expenditures. The purposes of the table is to identify the executing agency and the amount, by sector, of technical cooperation expenditure for which each agency was directly responsible or which it implemented. For example, UNFPA directly implemented \$49.7 million of its \$134.1 million technical cooperation expenditure in 2000.

Source of funds category "A" corresponds to the "Funded by regular budgets" column of tables 1 and 2, while B1+B2+C1+C2 correspond to the "Funded by extrabudgetary sources other than UNDP and UNDP-administered funds, UNFPA, UNICEF and WFP" column of tables 1 and 2 plus the columns of "UNFPA", "UNICEF" and "WFP" and "UNDP central resources" and "UNDP-administered funds". For a more detailed breakdown of each budget source, see tables 4, UNICEF and WFP, and the "Self-supporting expenditures" column of table 6. See notes at the end of these tables for further explanation.

Since total B1 of this table comprises agency expenditures funded from other multilateral sources plus those of UNFPA, UNICEF, WFP and UNDP (central resources and administered funds), then agency B1 expenditure is equal to total B1 - [UNFPA+UNICEF+WFP+UNDP (central resources and administered funds)] ÷ 82.

To assist in the interpretation of table 3, it will be helpful to work with a picture of the flow of resources through the United Nations system, that is, how resources are channelled from one entity to the other. Executing and specialized agencies use their own resources from RBE and EBE to fund activities which they execute themselves. Since these agencies also execute programmes/projects funded by other entities within the system, such as UNDP and UNFPA, they receive payment for such services. These transactions thus have two sides: expenditure for entities making the payment, and income for entities receiving the payment. Some 'funding' agencies also execute a share of their programme. For example, the value of activities funded and executed by UNDP (central resources) was \$2.1 million; for UNFPA, it was \$49.7 million in 2000. Other entities, such as UNICEF and WFP, did not channel any of their expenditure to the rest of the United Nations system in 2000. There are also activities jointly funded and executed by more than one entity. Clearly, the resource linkages among the entities of the United Nations system is a complex one, which also raises the issue of double-counting, but considerable efforts have been taken to minimize this source of error.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.

b/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.

c/ WFP reported revised expenditure figures for 1996, 1997, 1998, 1999.

Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.

Note:

Contribution data refer to voluntary contributions from Member States and therefore present only a partial, albeit important, picture of total contributions. In the case of UNDP, the data in the table exclude cost-sharing, funds and trust funds, government cash counterpart contributions, contributions to local office costs, extrabudgetary activities and management services agreements; for UNICEF, data exclude various private sources interorganizational arrangements and miscellaneous; and for WFP, the data exclude contributions from NGOs, the United Nations system and other multilateral donors.
