## **PART 6**

### **Chapter 6.1**

#### **Wooden barrels**

Amendments to Chapter 6.1 concerning wooden barrels were adopted by the Committee on the basis of a proposal by the International Organization for Standardization (ISO) in ST/SG/AC.10/C.3/2001/24 that 6.1.5.7 should be deleted on the grounds that no testing body had ever carried out the coeprage test. Consequently ISO proposed to delete also 6.1.4.6 and to amend special provision 247 and PP2 in packing instruction P001.

When preparing the thirteenth revised edition of the Recommendations on the Transport of Dangerous Goods, Model Regulations, the secretariat noted that:

- (a) some consequential amendments had been omitted (deletion of 6.1.5.2.4 and reference to wooden barrels in 6.1.5.3.1);
- (b) Ethyl alcohol (UN 1170) and alcoholic beverages (UN 3065) could now be transported in any kind of unspecified and untested wooden barrels, without any quantity limitation;
- (c) in view of (b) above, special provision 247 would no longer make any sense.

Since these consequences are not related to the original ISO proposal which concerned the cooperage test only, the secretariat consulted the Chairman and Vice-Chairman of the Committee and it has been agreed that, for the time being, only the cooperage test (6.1.5.7) should be deleted from the Model Regulations. As a consequence, the following corrections to ST/SG/AC.10/29/Add.1 are to be made:

Delete the amendments to paragraphs: 6.1.2.7, 6.1.4.6, 6.1.4.18.1.1, 6.1.4.18.2.2, 6.1.4.19.2.2 and 6.1.4.19.2.4, 6.1.4.18.2.3 and 6.1.4.19.2.5, 6.1.4.18.2.5, 6.1.4.18.2.6 and 6.1.4.19.2.8, 6.1.4.18.2.7 and 6.1.4.19.2.9, 6.1.4.18.2.8, 6.1.4.18.2.9, 6.1.4.19.2.10, 6.1.5.2.5 and 6.1.5.3.2.
