## **2. Substantive theme: “Bridging the Technology Gap between and within Nations”**

The Economic and Social Council, in its resolution 2005/52 of 27 July 2005, decided that the main substantive theme of the Commission for its ninth session would be “Bridging the technology gap between and within nations”, with a specific emphasis on multi-stakeholder partnerships, not only to bridge the technology gap, but also to prevent the gap from growing wider.

In order to identify and address concrete aspects of the substantive theme, the Commission has organized a Panel discussion in Rabat, Morocco, from 10 to 12 November 2005. The report of this Panel discussion will be before the Commission.

At its eighth session, the Commission recommended that at its next session, representatives of international organizations should be invited to present their ideas during the general discussion of the substantive theme on how they could contribute more effectively to the deliberations on the main theme of the Commission.
