**NEW AGENDA ITEMS**

Regulation No. 6  
(Direction indicators)

Proposal for draft amendments to Regulation No. 6

Submitted by the expert from the Working Party "Brussels 1952" (GTB)

The text reproduced below was prepared by the expert from the Working Party "Brussels 1952" (GTB) in order to include into Regulation No. 6 provisions, which are in line with those of Regulation No. 48 concerning the determination of the limits of the apparent surface. The following text is based upon Supplement 15 to the 01 series of amendments.

The modifications to the existing text of the Regulation are marked in **bold** characters.

A. PROPOSAL

Paragraph 7.5., amend to read

"7.5. The limits of the apparent surface in the direction of the reference axis of a **direction indicator** shall be determined. **However, in the case of category 5 and 6 direction indicators, the limits of the light emitting surface shall be determined.**"

B. JUSTIFICATION

This amendment is intended to align the requirements in UNECE Regulation No. 6 with those of UNECE Regulation No. 48, concerning the determination of the limits of the apparent surface. It also corrects an editorial error in the first sentence.
