**COMMITTEE OF EXPERTS ON THE TRANSPORT OF
DANGEROUS GOODS AND ON THE GLOBALLY
HARMONIZED SYSTEM OF CLASSIFICATION
AND LABELLING OF CHEMICALS**

Sub-Committee of Experts on the
Transport of Dangerous Goods

Thirty-third session
Geneva, 30 June-9 July (a.m.) 2008
Item 7 of the provisional agenda

**MISCELLANEOUS PROPOSALS OF AMENDMENTS TO THE MODEL
REGULATIONS ON THE TRANSPORT OF DANGEROUS GOODS**

Gas cartridges

Transmitted by the Government of France*

SUMMARY

Summary: Make the text more coherent.

Measure to be taken: Move the NOTE concerning gas cartridges under 6.2.1 to 6.2.

* In accordance with the programme of work of the Sub-Committee for 2007-2008 approved by the Committee at its third session (refer to ST/SG/AC.10/C.3/60, para. 100, and ST/SG/AC.10/C.3/34, para. 14).

Introduction

1. The NOTE under “6.2.1 General requirements” reads as follows:

“For aerosol dispensers, small receptacles containing gas (gas cartridges) and fuel cell cartridges containing liquefied flammable gas, see 6.2.4.”
2. The requirements for gas cartridges in Chapter 6.2 come solely under “6.2.4 Requirements for aerosol dispensers, small receptacles containing gas (gas cartridges) and fuel cell cartridges containing liquefied flammable gas”. The NOTE therefore applies to Chapter 6.2 as a whole and not merely to “6.2.1 General requirements”.

Proposal

3. Place the NOTE “*For aerosol dispensers, small receptacles containing gas (gas cartridges) and fuel cell cartridges containing liquefied flammable gas, see 6.2.4.*” before 6.2.1, since the note applies to Chapter 6.2 as a whole and not merely to “6.2.1 General requirements”.

Justification

4. Safety: the aim is to clarify the wording: consequently, there is no safety issue.
5. Feasibility: the aim is to clarify the wording: consequently, there is no feasibility issue.
6. Enforceability: the aim is to clarify the wording: consequently, there is no enforceability issue.
