

General Assembly Security Council

Distr.: General
3 December 2012

Original: English

General Assembly
Sixty-seventh session
Agenda item 33
Prevention of armed conflict

Security Council
Sixty-seventh year

Identical letters dated 12 November 2012 from the Chargé d'affaires a.i. of the Permanent Mission of Uganda to the United Nations addressed to the Secretary-General and the President of the Security Council

I have the honour to transmit herewith a letter dated 12 November 2012 from the Prime Minister of the Republic of Uganda, Amama Mbabazi, transmitting the response of the Government of Uganda to the allegations contained in the report of the United Nations Group of Experts on the Democratic Republic of the Congo (see annex).

I should be grateful if the present letter and its annexes could be circulated as a document of the General Assembly, under agenda item 33, and of the Security Council.

(Signed) **Arthur S. Kafeero**
Chargé d'affaires a.i.

**Annex to the identical letters dated 12 November 2012 from the
Chargé d'affaires a.i. of the Permanent Mission of Uganda to the
United Nations addressed to the Secretary-General and the
President of the Security Council**

I wish to thank you for the warmth with which your Deputy Secretary-General, Jan Eliasson, received our Special Envoy, Ruhakana Rugunda, on 1 November 2012, when he delivered my letter dated 23 October 2012, on the report of the Group of Experts and the Security Council presidential statement on the Democratic Republic of the Congo of 19 October 2012.

It is now my pleasure to forward the attached detailed response of the Government of Uganda to the specific allegations contained in the report of the Group of Experts on the Democratic Republic of the Congo (see enclosure).

I would be grateful if the response could be circulated to the members of the Security Council at the earliest so that it can inform the members of the Sanctions Committee established pursuant to resolution 1533 (2004) concerning the Democratic Republic of the Congo, who will be discussing the report later in the day in New York.

(Signed) Amama **Mbabazi**
Prime Minister

Enclosure

Response of the Government of Uganda to allegations contained in the report of the Group of Experts on the Democratic Republic of the Congo

Introduction

The Government of Uganda makes this submission in response to the report authored by the Group of Experts on the Democratic Republic of the Congo recently leaked to the media. The Government of Uganda has carefully studied the report and noted that it contains allegations against her which are grave but are, however, baseless and fabricated.

From the onset, the Government of Uganda wishes to register that prior to its visit to Uganda, the Group of Experts indicated that they would be in Uganda from 17 to 18 September 2012 and spelled out the areas about which they required information (see attachment). The Group of Experts arrived in the country on 17 September 2012 and held a meeting with Government of Uganda officials on 18 September 2012. The Government of Uganda officials provided them with answers to the issues that had been raised. At the end of the meeting they requested to meet with chiefs of intelligence but it was not possible to arrange a meeting at such short notice because the chiefs were involved in other prior-scheduled duties. The Government of Uganda, nevertheless, asked the team to extend their stay in order for the requested meeting to be arranged but they were unable to do so and they left Uganda. On 15 October 2012, the Government of Uganda wrote to the Group of Experts asking them to come back to Uganda for the meeting with the chiefs of intelligence. On the same day, the Coordinator of the Group of Experts responded that they were unable to come back to Uganda but the chiefs of intelligence could go and meet them in Goma, Democratic Republic of the Congo. As it turns out, the Group of Experts had finalized its report and had on 12 October 2012 submitted the report to the Chair of the Security Council Committee established pursuant to resolution 1533 (2004) concerning the Democratic Republic of the Congo.

The Government of Uganda, therefore, is surprised that issues about which Uganda was not notified prior to the visit of the Group of Experts and which were neither raised nor discussed in the meeting of 18 September 2012 are the subject of the report.

Executive summary

In paragraph 3 of the executive summary of the report, it is alleged that:

Senior Government of Uganda (GoU) Officials have also provided support to M23 in the form of direct troop reinforcement in DRC territory, weapons deliveries, technical assistance, joint planning, political advice and facilitation of external relations. Units of Uganda Peoples' Defence Forces (UPDF) and the Rwandan Defence Forces (RDF) jointly supported M23 in a series of attacks in July 2012 to take over the major town of Rutshuru territory and FARDC base of Rumangabo. Both Governments have also cooperated to support the creation and expansion of M23's political branch and have

consistently advocated on behalf of the rebels. The M23 and its allies include six sanctioned individuals some of whom reside in or regularly travel to Uganda and Rwanda.

The Government of Uganda categorically denies this allegation levelled against her and contends that the Uganda People's Defence Forces has never assisted or provided any support to the Mouvement du 23 mars (M23). On the contrary, Uganda has abided by all the Security Council resolutions on the Democratic Republic of the Congo while addressing her security concerns emanating from the Democratic Republic of the Congo through bilateral cooperation with the Democratic Republic of the Congo and through regional initiatives such as the International Conference on the Great Lakes Region Protocol on Non-Aggression and Mutual Defence. The Government of the Democratic Republic of the Congo has never complained to the Government of Uganda of such violations of her territorial integrity.

Further, the Uganda People's Defence Forces (UPDF) has not jointly supported M23 alongside Rwandan Defence Forces (RDF) as alleged. Even though Uganda and Rwanda have a bilateral cooperation framework in the form of a Joint Permanent Commission that covers different sectors including defence and security, this cooperation has not been extended to support of negative forces such as M23. Therefore, UPDF has at no time had joint planning with RDF to support M23. It is noteworthy that the report does not provide any tangible proof of the alleged joint planning and operations in the form of specifics as to where the joint planning has taken place, the individuals involved or the manner in which the joint planning has been carried out.

Furthermore, Uganda categorically denies that it has cooperated with Rwanda (or any other State for that matter) to support the creation and expansion of M23's political branch. Uganda has also not in any way advocated for or on behalf of the rebels. No sanctioned member of M23 resides or regularly travels to Uganda with the knowledge of the Government of Uganda. It is on record that the only contact between the Government of Uganda and M23 is in the context of the mediation efforts between them and the Government of the Democratic Republic of the Congo, which were initiated at the request of the Secretary-General, the President of the Democratic Republic of the Congo and the International Conference on the Great Lakes Region summit. Moreover, none of the M23 members with whom the Government of Uganda has corresponded with in connection with the mediation efforts are under sanctions.

It is worth noting that the Group of Experts does not show in which forum Uganda has advocated for M23 and what strategic objectives Uganda would wish to achieve by supporting such a group.

In paragraph 13 of the same executive summary, it is alleged:

... Nearly all gold from Eastern Congo is smuggled out of the country and channelled through a few major traders in Kampala who ship out several tons per year, worth hundreds of millions of US dollars ...

The Government of Uganda contends that it neither supports nor allows the smuggling of gold from eastern Democratic Republic of the Congo through its territory. Uganda is a signatory to the International Conference on the Great Lakes Region Heads of State and Government 2010 Declaration on the Fight against the

Illegal Exploitation of Natural Resources in the Great Lakes Region and the Protocol against the Illegal Exploitation of Natural Resources in the Great Lakes Region. Pursuant to the Declaration, Uganda has been implementing the agreed six tools for combating illegal exploitation and trade in natural resources, in particular the regional certification and traceability mechanism. Uganda, therefore, does not condone the use of her territory as a conduit of smuggled gold from the Democratic Republic of the Congo or any other country. Data on the inflow and outflow of minerals from Uganda is submitted to the secretariat of the International Conference on the Great Lakes Region on a quarterly basis. This information was actually provided to the Group of Experts.

Allegations in the main report

The following are specific Government of Uganda responses to the allegations contained in the report:

In paragraph 4 (supported by annex 6) it is alleged:

Both Rwanda and Uganda have been supporting M23 ... Uganda's more subtle support to M23 allowed the rebel group's political branch to operate from within Kampala and boost its external relations. The UPDF's limited assistance to M23 has been, nevertheless, decisive in its seizure of principal towns in Rutshuru.

The Government of Uganda categorically denies that it has cooperated with Rwanda or any State to support the creation and expansion of M23's political branch. Uganda has also not in any way advocated for or on behalf of the rebels. No sanctioned member of the M23 resides or regularly travels to Uganda with the knowledge of the Government of Uganda. It is on record that the only contact between the Government of Uganda and M23 is in the context of the mediation efforts between them and the Government of the Democratic Republic of the Congo, which were initiated at the request of both the Secretary-General, the President of the Democratic Republic of the Congo and the International Conference on the Great Lakes Region. Moreover, none of the M23 members with whom the Government of Uganda has corresponded are sanctioned.

In paragraph 5, it is further reported:

Beginning in July 2012, a series of ICGLR initiatives attempted to resolve the conflict in the east. In this context, the ICGLR mandated Government of Uganda President Yoweri Museveni on 16 August 2012 to convey to M23 the ICGLR's meeting's conclusion that the rebels must cease all offensive activities, leave the border and withdraw to their initial positions (Annex 6). However, nearly two months later, amid ongoing ICGLR efforts, M23 further consolidated its deployments and has gained additional terrain with the help of allied armed groups, as well as continued RDF and UPDF support.

The Government of Uganda categorically denies this allegation and contends that UPDF has never assisted or provided any support to M23. As already stated, Uganda has abided by all the Security Council resolutions on the Democratic Republic of the Congo while addressing her security concerns emanating from the Democratic Republic of the Congo through bilateral cooperation with the Democratic Republic of the Congo and through regional initiatives.

Further, UPDF has not jointly supported M23 alongside the Rwandan Defence Forces, as alleged. It is in the context of the Joint Permanent Commission that UPDF officers regularly communicate and meet with their counterparts in Rwanda. It is in this very context that Brig. Patrick Kankiriho has been meeting with his counterpart Maj. Gen. Alex Kagame of RDF. These meetings have been held in the open and the decisions taken in those meetings have been reported in the media. These have had nothing to do with support to M23. It is instructive that the report does not provide any tangible proof of the alleged joint planning and operations in support of M23 in the form of specifics such as where the joint planning has taken place, the individuals involved or the manner in which the joint planning has been carried out.

It is curious that the Group of Experts acknowledged Uganda's mandate as the Chair of the International Conference on the Great Lakes Region to mediate between the Government of the Democratic Republic of the Congo and M23. In contradiction of itself on this point, the Group of Experts goes ahead to castigate the Government of Uganda for having contact with elements of M23 and for having allowed them to travel to Uganda.

In paragraphs 35 to 43, under the heading "Government of Uganda support to M23", Uganda is alleged to have supported M23 through UPDF troop support and arms supply.

In paragraph 35 (supported by annex 25), it is alleged:

While lower in intensity than GoR involvement, senior UPDF officers have also supported M23 through facilitating M23's permanent presence in Kampala, technical assistance, political advice and military support. UPDF commanders sent troops and weapons to reinforce specific M23 operations and assisted in the M23's recruitment and weapons procurement efforts in Uganda. Ugandan officials equally endorsed a "laissez faire" policy authorizing local military and civil authorities to cooperate with M23 out of their personal ties to the RDF or the rebels. Senior UPDF commanders have also cooperated with Ntaganda and allowed him to visit and acquire a residence in Kampala, in violation of the travel ban and assets freeze. In an official communication with the Committee, lawyers hired by GoR have also cited support for M23 from Ugandan territory (Annex 25)

Uganda categorically denies this allegation. Uganda (or her officials) has not supported M23 by facilitating its permanent presence in Kampala, technical assistance, political advice and military support and, as is shown elsewhere in this document, no proof has been adduced to support these allegations. In addition, the Government of Uganda is not aware that Ntaganda has ever travelled to Uganda or that he maintains a residence in Uganda. If the Group of Experts has any specific information on his alleged residence, the Government of Uganda will welcome that information so that appropriate action may be taken. Moreover, under the Rome Statute of the International Criminal Court, Uganda would be obliged to arrest and surrender him to the International Criminal Court.

Uganda has a professional national army, UPDF, which has a clear chain of command and a system of control that does not allow any individual to exchange arms "at leisure" as the report suggests. A simple check by the Group of Experts would have revealed that every unit in UPDF makes monthly returns of arms and

ammunition to army headquarters. The idea that a “laissez-faire” policy exists, therefore, is baseless.

Annex 25, which is purported proof by the Group of Experts that Uganda supports M23 as cited in the report (“... in an official communication with the Committee, lawyers hired by the GoR cited support for M23 from Ugandan territory ...”), is of no evidential value because it is purely hearsay, if at all it is truly attributed to the lawyers, show the actual evidence supposedly put forward by the lawyers hired by the Government of Rwanda. In any case, how competent are attorneys hired by the Government of Rwanda to adduce evidence on alleged Government of Uganda support to M23?

In paragraph 36, it is alleged that:

The UPDF have also actively supported M23 in DRC, alongside the RDF. The Group confirmed this with three UPDF intelligence officers, two Kampala-based diplomats as well as Ugandan and Congolese politicians.

The Government of Uganda contends that the above allegation is baseless and is not supported by any evidence. Uganda contends that the veracity of such a grave allegation cannot be tested without disclosing the identities of the purported UPDF intelligence officers and local leaders in order for their genuineness to be ascertained. Moreover, the Group of Experts do not tell what kind of “confirmation” they purportedly obtained from the claimed sources.

In paragraph 37, it is alleged that:

Three Ugandan Government officials, a Ugandan local leader, and M23 cadres told the group that the UPDF assembled troops from the Western Division Headquarters at Mbarara and from Kisoro and deployed them to the DRC using Muramba and Muhanguzi UPDF deployments near the border. To facilitate the UPDF troop support, M23 placed agents at Bunagana and Kitagoma border posts. During its visit to Kitagoma in August 2012, the Group observed M23 control on the DRC side and no officials present on the Ugandan side (Annex 26)

This allegation is totally false. First of all, there is no place called Muhanguzi in Kisoro. The Uganda People’s Defence Forces, therefore, would not deploy in a place that does not exist. This exposes the armchair nature of the Group of Experts and the reliance on dubious sources. Secondly, the supporting evidence (annex 26) is a picture of an open place which obviously does not attest deployment or assembly of UPDF in the location as alleged.

Be that as it may, it appears the Group of Experts are oblivious of the fact that the Uganda-Democratic Republic of the Congo border is 765 kilometres. The controlled border points are: Bunagana, Butogota, Ishasha, Mpondwe, Goli and Vurra. These, mainly, coincide with the few roads that enter the Democratic Republic of the Congo from Uganda. This is, mainly, to control trade and customs. Otherwise, elsewhere there are several ungazetted border crossing points used by the locals who have kinsmen on either side of the border in this region. For example, the Kinyarwanda speakers in Kisoro district in Uganda with their kinsmen in Rutshuru Territory of the Democratic Republic of the Congo; the Kinande-Kikonjo speakers of Kasese district in Uganda and their relatives in North Kivu (Beni, Butembo, Goma); the Bamba of Bundibugyo (Uganda), etc. A photograph of

one of the several ungazzeted border points is no proof of military assistance to M23.

On the question of the alleged Government officials, a Ugandan local leader and M23 cadres, Uganda again wishes to register that the identities of the alleged witnesses have not been disclosed, which renders their purported testimonies of no probative value since they cannot be subjected to verification.

In paragraph 38, it is alleged:

Local FARDC commanders as well as current and former M23 Officers informed the Group that in July 2012, UPDF deployed a unit of about 600 soldiers in Busanza, DRC, to prepare the rebel attacks in Rutshuru territory. These same sources stated that the UPDF soldiers reinforced RDF troops already present and formed a “mixed brigade” which outnumbered M23 troops. During the period, a former M23 soldier overheard a conversation between UPDF and M23, using a commercial radio, during which they discussed the need to “decentralize the Kivus”. The Group obtained a copy of the radio intercepts in which Ugandan officers communicate with Rwandan and M23 officers (Annex 27)

It is absolutely false that UPDF deployed a unit of 600 soldiers in the Democratic Republic of the Congo to prepare M23 attacks in Rutshuru Territory. What actually happened is that, on 7 July 2012, over 600 Congolese soldiers overpowered by M23 ran to Uganda with their weapons and were well received by UPDF; the injured were treated. On 11 July 2012, they were all repatriated back to the Democratic Republic of the Congo using UPDF trucks from Kisoro to a safer point of entry at Kasindi border point, and handed over by the Resident District Commissioner in the presence of the 2nd Division Commander, Brigadier Patrick Kankiriho to the Sector Commander of the *Forces armées de la République démocratique du Congo* (FARDC), Colonel Eric Ruhorimbere in the presence of the Democratic Republic of the Congo Ambassador to Uganda Charles Okoto-Lolakombe and a representative of the Kampala United Nations office, Saleh Mahboob. This handover was done in public, reported by local and international media and a handover report countersigned by all concerned parties was made (see attachment 2). For this development to be turned around to imply Uganda’s troop contribution to M23 is unfortunate and absurd.

Further, UPDF does not use commercial radios and the concept of “decentralizing the Kivus” is mysterious to UPDF. In any case, the alleged radio intercepts must be technically cross-checked to identify the language used, the frequencies and the dates of communication to ascertain authenticity.

In paragraph 39 it is also alleged that:

Former M23 soldiers, local authorities and villager[s] were able to easily distinguish the Ugandan troops, as they wore UPDF uniforms with the Ugandan flag and had distinct boots and military equipment. While UPDF troops spoke English, Kiganda, or Kinyankole, RDF troops spoke in Kinyarwanda and M23 in a mix of Kinyarwanda and Swahili.

This is simply not true. Why would Ugandan troops go illegally into Democratic Republic of the Congo territory dressed in uniforms with a Ugandan flag? Official languages of communication in UPDF are Swahili and English and

not Kiganda or Kinyankole as alleged. This is an example of reliance on dubious sources.

In paragraph 41, it is alleged that:

The Group interviewed one UPDF soldier arrested in the DRC who said that after completing military training in Masaka, his commanders sent him to fight in the DRC alongside there groups of 75b UPDF experienced soldiers and other trainees. Two former M23 soldiers who fought together with UPDF stated that some of these soldiers were experienced while the others had recently completed basic training. The Group interviewed twice another Ugandan national captured by FARDC in Rutshuru territory, who both times refused to reveal more than his name and UPDF membership.

The above allegation is totally false. Firstly, in the case of the first alleged captured UPDF soldier, the truth is that there is no UPDF training facility in Masaka where the alleged soldier claims to have trained from. Secondly, the Group of Experts did not provide the said soldier's name, service number and details of his or her Unit in Uganda to back up this claim. The same applies to the second claimed case.

In paragraph 42 it is alleged that:

... UPDF and M23's had evacuated casualties into Uganda and transported them to the military hospital in Mbarara.

It is not true that any one point M23 casualties were evacuated to any hospital in Uganda. On the contrary, the only casualties that were treated by UPDF were among the 600 FARDC that had run to Uganda on 7 July 2012. Three were treated to Mutolere and 13 in Kisoro hospitals.

The only M23 soldiers that the Uganda People's Defence Forces transported to Mbarara are the nine who fled to Uganda on 9 April 2012, after having been overpowered by FARDC. They were later transported to Kampala and remain in the custody of UPDF awaiting further management. Both the Government of the Democratic Republic of the Congo and the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo were formally informed.

In paragraph 43, on procurement of weapons and ammunitions by M23 from Uganda People's Defence Forces Commanders, it is alleged that:

... the 7.62mm cartridges recovered after the M23 attack in July 2012 are most commonly used in Uganda and not registered in FARDC stocks ... (Annex 29).

This is a false and baseless allegation. No weapons have ever been supplied to M23 by UPDF. The report projects a state of anarchy in the management of UPDF stores to the extent that arms, ammos, including support weapons can just be obtained and dished out by anybody. Uganda is a signatory to regional and international Protocols on the control of small arms and light weapons. UPDF has put in place mechanisms to implement these Protocols including marking of all weapons and arms within its security services and destroying excessive stocks. The assertion made in the report that UPDF Commanders can contravene the rules is simply absurd.

The one box, even if the box in question had Uganda Ministry of Defence markings as annex 28 claims, if those markings are correct, could have been a result of Uganda's previous military operations from 1997 to as recently as 2012 during Uganda-Democratic Republic of the Congo joint operations against the Lord's Resistance Army (LRA) specifically in Dungu, Orientale Province. In all these operations, both UPDF and FARDC were using the same calibre of weapons and sometimes would share ammunitions. It would, therefore, not be surprising to find a Uganda Ministry of Defence empty ammunitions box or cartridges in the Democratic Republic of the Congo.

Moreover, the handover report signed by the Democratic Republic of the Congo and Uganda Governments on 11 July 2012 confirms the assortment of arms and ammunitions handed over to the Democratic Republic of the Congo officials which included: SMG — 618, RPG — 42 + RPG BOMBS-29PCS + 38 Fuses, PK — 42, 60MM — 10, 75MM REC, Grenade launcher — 01, 82 MMTR — 02 Pcs, 12.7MM — 02 Pcs and 12.7AAC — 01 Tin. It is clear that the arms repeatedly referred to in the report are not any different from those in the FARDC inventory.

The pertinent question is: Who saw those arms being delivered? To add more confusion, it is also claimed that the arms came from South Sudan. The question is: why would the arms have to come from South Sudan if Uganda wanted to supply arms to M23 rebels? Why not get the arms from her own stocks? Some of the types and calibre have certainly never been used in Uganda. According to our intelligence sources, in July 2012 M23 rebels captured similar equipment from FARDC during their encounters.

Furthermore, the alleged receipt by M23 of "several boxes of AK-47 and sub-machine guns ammunition from UPDF soldiers" purportedly attested by annex 28 is not true. The box alleged to have been found in Col. Makenga's home in Bukavu is, as already stated, of no probative value. Whereas the box in the picture seems to bear Uganda's Ministry of Defence inscription, it provides no proof that it was taken in the location mentioned in the report nor does it in any way prove UPDF's supply of ammunitions to M23.

It should be noted that M23 soldiers are mutineers of FARDC and the logical conclusion is that they ran away with the arms and ammunitions provided by FARDC.

In paragraphs 44, 45, 46 and 47 it is alleged that:

M23 cadres have been recruiting in Uganda with the support of Ugandan authorities, and the report cites among those aiding the recruitment the Resident District Commissioner of Kisoro Milton Bazanye, his ally Wiberforce Nkundizana and local UPDF officer.

These allegations are false. The Government of Uganda demands that the Group of Experts be put on strict proof to adduce evidence on the individuals purportedly named in their report.

In paragraph 48 it is alleged:

M23 has developed its political branch out of Kampala. Politicians, M23 members and intelligence sources told the group that Runiga's M23 delegation travelled to Kampala in August 2012 prior to the first ICGLR summit held in Kampala to resolve the conflict.

In paragraph 49 it is further alleged that:

Since the beginning of the regional initiative M23 members have frequently travelled to Kampala and maintained a permanent presence in the capital.

The first International Conference on the Great Lakes Region summit to resolve the conflict in eastern Democratic Republic of the Congo was held on 15 July 2012 in Addis Ababa, Ethiopia, under the chairmanship of the President of Uganda. The summit was attended by the Presidents of the Democratic Republic of the Congo and Rwanda, other high-level representatives and officials. Following the summit, the Government of the Democratic Republic of the Congo requested Uganda to prevail over M23 to cease hostilities and to facilitate dialogue between the Democratic Republic of the Congo Government and M23. On 6 August 2012, a visiting high-level delegation from the Government of the Democratic Republic of the Congo, in furtherance to their Government's request to Uganda to mediate in the crisis, provided contacts of M23. In a period of two months the Government of Uganda after the first International Conference on the Great Lakes Region summit, hosted three extraordinary summits in Kampala and the outcomes of all the meetings were shared with the Security Council and wider United Nations membership. In all these meetings that Uganda has hosted at its own expense, the Secretary-General has been represented at a high level.

During the high-level meeting on the Democratic Republic of the Congo on 27 September 2012 in New York, organized by the Secretary-General, the Vice President of Uganda in his statement at the meeting said that "in Uganda's capacity as Chair of the International Conference on the Great Lakes Region, and in efforts to resolve the situation in eastern Democratic Republic of the Congo, we have had interaction with the M23".

From the foregoing, it is clear that the interaction by the Government of Uganda with M23 is known to the stakeholders and was undertaken at the request of the Government of the Democratic Republic of the Congo and the Secretary-General within the International Conference on the Great Lakes Region framework. It is therefore disingenuous of the Group of Experts to state that "during the Group's second official visit to Kampala, the Government denied that any M23 had ever been in Uganda". These allegations do not pass the common sense test.

The alleged M23 house in Kampala as per annex 31 of the report is not known to the Government of Uganda. Whenever M23 members are in Kampala for dialogue, as part of the International Conference on the Great Lakes Region regional peace initiatives, they stay in hotels. The Government of Uganda is not aware of any M23 members residing in rented houses as alleged, in Munyonyo or elsewhere. Furthermore, since the report does not indicate the street and plot numbers of the property in Munyonyo that the Group of Experts visited for verification purposes, it is impossible to ascertain. Be that as it may, very many Congolese stay in Uganda because of the instability in the Democratic Republic of the Congo but also by preference of settlement. If there are some Congolese in Munyonyo whose activities were detrimental to the security of the Democratic Republic of the Congo, the Government of Uganda would not know until, possibly, the Government of the Democratic Republic of the Congo complains about them from a security point of view. The Government of Uganda has not received any complaint from the Government of the Democratic Republic of the Congo in this respect, if at all the alleged M23 leaders are there. It is puzzling that the Group of Experts has presented

this as a negative factor against Uganda. Hospitality which Uganda gives to African brothers and sisters should not be turned into an offence.

It is imperative to note that the Group of Experts did not talk of tens of thousands of Congolese in Kyaaka Refugee Camp, in Kisoro, and in other camps. Some Congolese have been there since the 1964 conflict in the Democratic Republic of the Congo. Curiously, the Group of Experts did not give serious considerations to the hundreds of armed terrorists of Allied Democratic Forces who are permanently based in the Ituri region of the Democratic Republic of the Congo.

Equally of no probative value is annex 45 concerning the alleged travels by a certain Roger Lumbala between Burundi, Rwanda and Uganda. Firstly, Ugandan authorities at any of the border points would not under any circumstances know who Roger Lumbala is or his connections with M23. Secondly, if at all he was at any one time issued with a Ugandan visa, it must have been on the strength of his genuine Democratic Republic of the Congo passport just like it would be with any other Democratic Republic of the Congo citizen. In any event, his possession of a Ugandan visa is no proof that he travelled to Uganda on his own denial as reported by the Group of Experts attests to this proposition.

In paragraph 50, the report alleges that:

While there (Kampala), M23 cadres have been meeting with senior Ugandan military and civil authorities on a regular basis. In particular, a UPDF officer, a Ugandan civil society member, several Ugandan politicians, intelligence agents, diplomats, and former RDF officers told the group that M23 met with Presidential Military Advisor Gen. Salim Saleh and with the Ugandan Inspector General of Police General Kale Kayihura. Three M23 cadres and M23 collaborators acknowledged that they have been engaging with these authorities on a weekly basis. M23 leaders and Ugandan Officials told the GoE that UPDF Commanders provided the rebels with technical assistance, political advice, carried out joint planning and coordinated military support. During the GOE's second visit to Kampala, the GoU denied that, any M23 had ever been in Uganda ...

This is a fabrication because the Inspector General of Police, Lt. Gen. Kale Kayihura has never met any M23 cadres in Kampala, or anywhere else or instructed any officer under his command to interact with, meet or assist in any way, any cadre/rebel of M23. Where is the evidence to substantiate this? Lt. Gen. Kale Kayihura has worked closely with his counterpart in the Democratic Republic of the Congo to strengthen bilateral cooperation between the two police forces, cooperation which has been growing, especially in the area of capacity-building, and frequent exchanges of information. There are police delegations between the two countries in pursuance of our cooperation, the latest being a team of trainers from the police of the Democratic Republic of the Congo, with international experts who, recently visited Uganda to assess training facilities and capacities.

Equally false, absurd and malicious is the allegation that Gen. Salim Saleh has been meeting M23 rebels on a weekly basis, that he is principally responsible for UPDF support to the rebels and that he attempted to reconcile Nyamwisi and Kakolele in order to establish a unified M23 command for Beni territory. Gen. Saleh, who incidentally is retired from the military and therefore has no control of the military and its operations, has never had any contact with M23 rebels nor

attempted to broker any deals between whatever military actors that exist in eastern Democratic Republic of the Congo.

Equally false, absurd and malicious is the allegation that the Resident District Commissioner of Kasese District, Lt. Col. Mawa Muhindo, has met M23 rebels in connection with arranging financial and military assistance for the rebels. First of all, Lt. Col. Muhindo is not a Resident District Commissioner of Kasese District as alleged by the Group of Experts. He is the Local Council Vice Chairman of Kasese District, a position that is purely of a civilian nature. One wonders on what basis he would be involved in a rebellion in a foreign country. If the Group of Experts could not bother to verify such information that consistently appears in their report, how can the conclusions be accepted?

These fabricated allegations, like all the others, raise questions about the motives as well as the competence of the authors.

In paragraphs 51, 52, 53, 54 and 55 it is alleged that:

Two current M23 cadres, two former M23 officers, a UPDF officer, a former RDF officer, Kampala based businessman and a diplomat told the group that

These allegations including alleged contacts with Bosco Ntaganda are not true. We have already observed that, Brigadier Patrick Kankiriho received FARDC troops who fled to Uganda in July 2012 and was responsible for ensuring that they were looked after, fed, given medical attention and repatriated. Simple common sense would show that the FARDC troops would never have run into Ugandan territory to UPDF with their arms if they knew or suspected that UPDF was supporting M23. The fact that they handed themselves up to UPDF units is instructive and shows that they felt comfortable to do so.

In paragraph 53 it is alleged that:

A Ugandan Official, a local leader based in Uganda, a current M23 cadre and three former M23 soldiers told GOE that prior to the M23 operations, Makenga travelled to Kisoro to meet with UPDF Officers. Four Ugandan officials and two UPDF officials stated that, Maj. Charles Mukasa, the UPDF 63rd battalion Commander based at Kisoro, as been in charge of the local coordination of the support to M23. A Ugandan Civil Society Member, two M23 cadres and a Ugandan counter-intelligence report also affirmed that UPDF western Division Commander, Gen. Patrick Kankiriho, has overseen Military support to M23 including providing orders to Mukasa (annex 32).

Under the said annex 32, a purported extract of a UPDF counter-intelligence report, the types and calibre of the arms and ammunitions allegedly supplied by UPDF to M23 are indicated. This annex is undoubtedly a fabrication. Logically, a report written by a junior officer would not be addressed to his/her superiors who, incidentally, are being accused of committing internationally wrongful acts. In any case, a counter-intelligence report is by definition an internal document written by an officer to his superiors about certain wrongful acts committed within the system. The major question is: who would be the consumer of such a counter-intelligence report that implicates the Commander-in-Chief (President) and the entire chain of command, the would-be recipients of such a report? Furthermore, whereas the report bears a "confidential" classification, the language used is indicative of reported

speech. This is illogical because a reported speech is not in confidential documents. In addition, if it was classified as purported, it should have borne a service logo and sealed with a stamp, a heading, an addressee and the date the report was written to convey its confidential and classified nature. Moreover, it is clear from sentence construction and presentation that the author of the fake document was not a person who had English as a language of instruction suggesting that he is not a Ugandan. (For example, no Ugandan refers to the President or the CDF in an official document as “UG Bosses”.)

Although the places and people mentioned exist and the people serve in UPDF and intelligence organizations, the allegations therein are false. For example, Bihanga Training School in Ibanda District has been operating as an International Training Centre carrying out training for the Somalia National Army since 2008. This training is facilitated by the United States Government and the European Union. The European Union has got personnel at the school as instructors and they would have detected the presence of M23 recruits if they were there.

General Aronda Nyakairima, the Chief of Defence Forces of the Uganda People's Defence Forces and Brigadier Charles Bakahumura, the Chief of Military Intelligence, who have been mentioned as supporting M23 have never been involved in such activities other than supporting the International Conference on the Great Lakes Region mechanisms. Particularly, the Chief of Defence Forces supported by the Chief of Military Intelligence has been working for the Ugandan Minister of Defence Hon. Dr. Crispus Kiyonga to facilitate International Conference on the Great Lakes Region mechanisms which are coordinated by Uganda as the Chair of the International Conference on the Great Lakes Region. The Director-General of the Internal Security Organization, Col. Ronnie Balya, does not know and has never had any contacts whatsoever with the purported Col. Budwe of M23 or any other M23 leader or operative as alleged on the basis of annex 32 of the report which, the Government of Uganda contends, is a total fabrication.

Further, UPDF has not received and does not require any arms from South Sudan to support M23. This is purely concocted to malign Uganda.

Furthermore, merely throwing around names of Government of Uganda State, army and police officers: President Yoweri Museveni, Gen. Aronda Nyakairima, Gen. Salim Saleh, Lt. Gen. Kale Kayihura, Brig. Patrick Kankiriho, Brig. Charles Bakahumura, Col. Ronnie Balya, Maj. Mukasa, AIGP John Ngaruye Ndungutse, etc., and formations of UPDF such as the 2nd Division and presenting them in a report on political and security problems in the Democratic Republic of the Congo is diversionary. The question is: How are they involved with the problems of the Democratic Republic of the Congo beyond the regional mandate of trying to help the Democratic Republic of the Congo resolve the conflict in eastern Democratic Republic of the Congo?

The fact that Brig. Kankiriho takes orders from President Museveni and Gen. Aronda does not require the Group of Experts to discover. This is provided for in the Constitution of the Republic of Uganda. The relevant question is: Where are the orders of President Museveni or Gen. Aronda or of both to Brig. Kankiriho to intervene in the Democratic Republic of the Congo on the side of the M23 rebels in the manner alleged in the report of the Group of Experts?

In addition Brig. Kankiriho being assisted by Lt. Gen. Kale Kayihura, Inspector General of Police is illogical.

In paragraph 54, the report further alleges that:

According to a Ugandan official, a diplomat in Kampala and an armed member residing in Uganda, General Kayihura in May and July 2012 held meetings in Kisoro and frequently sent his deputy, John Ngaruye Ndungutse, in charge of counter-terrorism to Kisoro to facilitate support to the rebels.

This is another fabrication. A fact check by the Group of Experts would have established that General Kayihura was never in Kisoro in July 2012 and in May 2012 did not hold meetings as alleged. Furthermore, Mr. John Ndungutse is not Deputy Inspector General of Police. The Deputy Inspector General of Police is Mr. John Martin Okoth Ochola. Mr. John Ndungutse is an Assistant Inspector General of Police, and he heads the Directorate of Counter-Terrorism. All the travel to Kisoro by Mr. Ndungutse was on official business such as in May 2012 to attend a District Disaster Management meeting which was attended by UNHCR Officials. He was never in Kisoro in July 2012, as alleged.

In paragraph 111 it is alleged that:

Ugandan Officials acknowledged to the Group that a UPDF battalion based on Mount Rwenzori regularly enters into Congolese territory to conduct recce ops on ADF positions in Beni territory.

This allegation is false. The pattern of anonymous sources is a trademark of the report. It is no secret that negative forces specifically the Allied Democratic Forces are in the area. UPDF and FARDC through an existing bilateral arrangement have agreed to post liaison officers across each other's (Democratic Republic of the Congo-Uganda) border to monitor and report cross-border violations.

The alleged incidents have not been reported by the Democratic Republic of the Congo authorities to Uganda; instead it is the Group of Experts alleging these activities.

Recommendations in the report

The report omits important information regarding ongoing International Conference on the Great Lakes Region initiatives, such as discussions on the operationalization of the expanded Joint Verification Mechanism for the eastern Democratic Republic of the Congo. These developments are useful in supporting implementation of relevant Security Council resolutions on the Democratic Republic of the Congo.

International Conference on the Great Lakes Region Senior Military Experts concluded meetings and submitted a report to the Ministers of Defence who met on 25 and 26 October 2012 in Goma. Their report will be considered at the next International Conference on the Great Lakes Region summit which includes requirements and capabilities to support the Joint Verification Mechanism. The leaked Group of Experts report surprisingly makes recommendations on requirements for the Mechanism.

Observations

Relations between the Democratic Republic of the Congo and Uganda are cordial and have been growing from strength to strength. These relations have been enhanced through bilateral and regional frameworks such as the International Conference on the Great Lakes Region. The bilateral relations have been characterized by regular contacts at different levels including at the levels of Heads of State, Ministers for Foreign Affairs and Defence, Chiefs of Defence Forces and Chiefs of Police. Uganda's role as Chair of the International Conference on the Great Lakes Region in finding a resolution to the situation in eastern Democratic Republic of the Congo was at the express request of the Government of the Democratic Republic of the Congo and the Secretary-General.

The Group of Experts' report is full of falsehoods, concoctions and outright lies. The report as it is undermines the regional efforts which Uganda is spearheading as Chair of the International Conference on the Great Lakes Region. As has been demonstrated, the allegations contained in the report do not even meet the common sense test.

The report further undermines the support of the regional initiative from the United Nations and the rest of the international community.

Methodology of work of the Group of Experts

Before their visit to Uganda, the Group of Experts indicated to the Government of Uganda five specific areas on which they wished to get relevant information, as indicated in their letter dated 9 August 2012. While in Kampala, the Group of Experts were provided with the requested information. The Government of Uganda inquired if the Group of Experts had any other issues they wished to discuss, and they responded that there was none. At no point did the Group of Experts raise the issue of Uganda's alleged support to M23.

It should be recalled that during the United Nations mini-summit on the Democratic Republic of the Congo held on 27 September 2012 at the sidelines of the General Assembly in New York, the Secretary-General and all Heads of State and Government expressed support for the regional efforts spearheaded by Uganda as the Chair of the International Conference on the Great Lakes Region; at no point was the allegation of Uganda's involvement raised or made part of the final record of the mini-summit.

The Government of Uganda cannot comprehend why and how the Group of Experts came up with allegations against Uganda concerning issues on which they did not seek the opinion of the Government of Uganda. Denying Uganda an opportunity to respond to the allegations and information purportedly obtained from witnesses was a violation of the right to a fair hearing. The effect of this is that the Group of Experts came out with a report that is full of falsehoods, concocted evidence and misconceived conclusions.

What the report confirms is that the methodology and approach to work by the Group of Experts did not uphold the highest level of professionalism, by maintaining objectivity, impartiality and transparency in the implementation of its mandate.

While the Group met officials of the Government of Uganda and also gathered information from other questionable sources, it did not share the allegations with Ugandan authorities (in Kampala or New York) for a response before formulating any conclusions. The Government of Uganda cooperated with the Group and was ready to engage with them on any issue of interest or concern.

The Group clearly did not verify the credibility of its sources and the validity of the information provided. Because of this, the evidentiary standards of the Group did not meet the requirements. The Group should have evaluated their sources and source material, and analysed information and evidence they received to attain the higher standards of accuracy which are glaringly lacking in their report.

Lack of evidence: the purported annexes that contain the evidence based upon which the Group of Experts arrived at its conclusions should have been documented and authenticated before publicly leaking the report to the media for publication.

Failure to make the allegations available to the Government of Uganda for appropriate response: Uganda was not only denied the opportunity to respond to the allegations but, most importantly, it got trapped into a conflict of interest when it continued to chair four summits without any knowledge that it was also a prime suspect in “alighting a fire that it was struggling to put out”.

Certainly, issues handled by the Group of Experts are complicated, sensitive and treacherous and involve collecting intelligence with patience. Therefore these are not issues one can come overnight and claim to have collected accurate data to draw accurate conclusions except to depend on hearsay. We found the methodology lacking and the time spent by Group of Experts inadequate. This should be contested.

Anonymous sources: the Group of Experts cites a diplomat, a businessman, two intelligence officers, ex-M23, etc., who are not named. It is likely that these persons are a fabrication. It is also likely that persons the Group of Experts met were low-ranking officers who would not know exactly the true position.

Conclusion

The failure of the Group of Experts to apply high evidentiary standards and fulfil their obligation to provide a credible and fact-based report in respect to their mandate is troubling and constitutes a dereliction of duty on the part of the Group. Troubling because it is not only unhelpful in the implementation of the Democratic Republic of the Congo sanctions regime, but it also undermines regional efforts in finding a lasting solution to the crisis in eastern Democratic Republic of the Congo. We hope that this regrettable experience will provide lessons for the Security Council and Sanctions Committees on the working methods of the Group of Experts.

Therefore, the report should, in as far as it falsely implicates Uganda in unlawful activities in eastern Democratic Republic of the Congo, be rejected and expunged from the records of the United Nations.

Government of the Republic of Uganda

12 November 2012

Attachment 1

Letter dated 9 August 2012 from the Coordinator of the Group of Experts on the Democratic Republic of the Congo addressed to the Chargé d'affaires of the Permanent Mission of Uganda to the United Nations

I have the honour to write to you in my capacity as Coordinator of the Group of Experts on the Democratic Republic of the Congo, which was extended pursuant to Security Council resolution 2021 (2011) of 29 November 2011. A copy of the resolution, together with copies of the letters of appointment of the Group by the Secretary-General (S/2012/85 and S/2012/143), is attached for ease of reference.

As you are aware, the Group of Experts is mandated by the Security Council to monitor implementation and investigate violations of the arms embargo, with a view to recommending individuals and entities for financial and travel sanctions. The scope of the mandate extends, inter alia, to individuals operating in the Democratic Republic of the Congo and committing serious violations of international law involving the targeting of children or women or the recruitment and use of children in armed conflict situations, political and military leaders impeding disarmament, and individuals or entities providing direct or indirect support to armed groups operating in the Democratic Republic of the Congo through the illicit trade of natural resources.

With a view to following up on issues raised during the Group's visit to Kampala on 24-26 May 2012, the Group wishes to express its intention to visit Kampala from 17-18 September 2012. Unfortunately, given its very demanding field research calendar, the Group will not enjoy any flexibility regarding the timing of its regional visits.

The Group would like to continue its cooperation with the Ugandan authorities regarding the activities of armed groups in the eastern Congo, notably the Allied Democratic Forces, as well as Congolese groups such as M23 and its multiple allies. Any relevant information provided the Ugandan authorities on the activities, structure, weapons and financial support networks of these groups would be much appreciated. With regards to the Allied Democratic Forces, the Group would appreciate information particularly regarding specific links between the Islamic rebels based in the Democratic Republic of the Congo and Al-Shabaab. Furthermore, the Group would appreciate any documentation or evidence regarding the travels and/or activities of Burundian politician Alexis Sinduhije during 2011 and 2012.

The Group also requests information relating to seizures of smuggled untaxed minerals from the eastern Democratic Republic of the Congo as well as any statistics for minerals lawfully in transit from the eastern Democratic Republic of the Congo to regional ports such as Mombasa. Ugandan export statistics of minerals and hardwoods would equally be of benefit to the Group's work.

To facilitate such a visit, I would like to invite the Ugandan authorities to identify a focal point to establish contacts with relevant governmental officials present during the Group's visit in the areas of customs, internal security, military intelligence, external security and natural resources.

The Group would like to recall that pursuant to paragraph 16 of resolution 2021 (2011), the Security Council reiterates “its demand that all parties and all States ensure the safety of its members, and unhindered and immediate access, in particular to persons, documents and sites the Group of Experts deems relevant to the execution of its mandate”.

In conclusion, the Group of Experts would like to take this opportunity to thank the Government of Uganda for the extensive support provided to the Group’s previous investigations, including in the sharing of information which proved vital to the successful completion of its mandate. The Group also wishes to thank the Ugandan authorities in advance for their willingness to accommodate such dates and for the important cooperation with the execution of the Group’s mandate.

(Signed) Steve **Hege**

HAND OVER TAKE OVER REPORT OF PERSONNEL AND MILITARY EQUIPMENT

INTRODUCTION

1. The prevailing security situation in our neighbouring Country the Democratic Republic of Congo, which has caused the influx of both civilians and security personnel crossing into Uganda seeking refugee. The clashes between security forces of DR Congo and the rebels against the Gov't and negative forces against our country has resulted into the suffering of security forces and innocent civilians of both countries.

2. This can be witnessed after the different occurrences in DR Congo which include the following:

a. Between 25 and 27 June 12, 06 soldiers from DR Congo were ambushed and injured by ADF rebels at a place called Kamango in DR Congo and were later evacuated from Congo through Butama to 305Bde Hq for treatment and later handed over to DR Congo Gov't Authorities through Mpondwa border Post.

b. Again on the same note between 5 and 6 July 12 the FARDC clashed with insurgent groups in DR Congo at Bunagana which forced the DR Congo Gov't Soldiers, Police and Civilians cross into Uganda through Bunagana border Post for refugee, and were later transferred to 305Bde Hq Hima in preparation for repatriation to their home country.

UGANDA CONSTITUTION AND DEFENCE STRATEGIC POLICY AND OBJECTIVES

3. Uganda is obliged to good neighborhood in the East African Community. The great Lakes region and the whole World. Uganda being a member of UN, etc. Our Gov't is committed to promoting broader understanding between our forces within this region and the rest of the forces and also abides by National and International Security regulations.

SECRET

4. Being committed to the above mentioned obligations in paragraph three, today the day ofJuly 2012, on behalf of the Uganda Gov't I have the honour to hand over the different categories of refugees and military Equipment to DR. Congo Gov't authorities as categorized here below;

a. PERSONNEL For details see annexes

(1) FARDC	=	373	Annex A.
(2) POLICE	=	42	Annex B.
(3) WOMEN	=	35	Annex C.
(4) CHILDREN	=	33	Annex D.
(5) War Casualties.	=	11	in Kisumu
(6) UN Documented	=	49	24
G/TOTAL	=	495	718 (Total Handled is for for 10 cases 11 in all)

b. MILITARY EQUIPT = Annex E

CONCLUSION

5. I do conclude that Uganda and DR Congo (DRC) need each other for co-existence in terms of peace and security, social and economic development. The two neighbor countries are there to co-exist and live for ever. No Country among the two is due to leave tomorrow or in the nearby future because we were geographically joined by our common border which was initiated by our former colonial leaders. Uganda needs to see that peace and security prevails in DRC.

6. On the side of ADF, Uganda's insurgents harbouring in eastern DRC. Uganda will continue to request the government of DRC through peaceful means, so that the DRC government allows UPDF to enter Eastern DRC and carry out joint operations with FARDC to flush out ADF rebels being trained in terrorist activities to come and destabilize peace and security in Uganda and the region. We hope that with good neighborhood, DRC government Will considered our request.

7. As Ugandans, we wish the casualties quick recovery, FARDC and civilians safe journey back to their home country.
