<p>(d) In no event shall the total benefits payable to or on account of a former participant who again becomes a participant exceed the benefits which would have been payable had his participation in the Fund been continuous.</p>	<p>(d) Payment of benefits under (b) or (c) (ii) above shall commence on the date of the resumption or commencement, as the case may be, of payment of benefits suspended under (a) above. In no event shall the total benefits payable to or on account of a former participant in respect of separate periods of contributory service exceed the benefits which would have been payable had his participation in the Fund been continuous.</p>	<p>The purpose of the amendment is to ensure that when a participant becomes eligible for several benefits, the same election would apply to all. For example, a participant will not be able to elect an early retirement benefit at age 55 in respect of one period of participation and a benefit starting at some other age in respect of a second period of participation.</p>
