Subsidiary Body for Implementation

Fortieth session

Bonn, 4–15 June 2014

Item 18(a) of the provisional agenda

Administrative, financial and institutional matters

Financial matters

Proposed revisions to the financial procedures for the Conference of the Parties, its subsidiary bodies and the secretariat required for the adoption of the International Public Sector Accounting Standards

Note by the secretariat

1. The financial procedures govern the financial administration of the Conference of the Parties, its subsidiary bodies and the secretariat. The financial procedures were adopted by the Conference of the Parties (COP) at its fifteenth session.¹
2. By its resolution 60/283, the General Assembly approved the adoption of the International Public Sector Accounting Standards (IPSAS) by the United Nations system, which includes the UNFCCC. Previously, United Nations financial statements were prepared in accordance with the United Nations system accounting standards, which were developed by the United Nations system. The IPSAS are a set of accounting standards issued by the IPSAS Board for use by public sector entities around the world for the preparation of financial statements. The adoption of the IPSAS by the United Nations system has made it necessary to revise some of the current financial procedures of the UNFCCC in order to produce IPSAS-compliant financial statements.
3. The Subsidiary Body for Implementation (SBI) may wish to consider the proposed revisions to the financial procedures, contained in the annex, and make a recommendation to COP 20 on the necessary changes required to implement the IPSAS.
4. If the COP adopts the revised financial procedures on a recommendation of the SBI, they will be promulgated in time for the preparation of the first IPSAS-compliant financial statements of the UNFCCC in early 2015.
