QUESTION OF METHODS OF FACT-FINDING

Guatemala: proposal

The Special Committee,

Having considered the item "The Question of Methods of Fact-Finding", together with the report of the Secretary-General,

Noting that few Member States have as yet, submitted their views in response to General Assembly resolution 1967 (XVIII),

Being unable, due to lack of time, to formulate conclusions on the item,

Recommends that the General Assembly take note of that part of its report which concerns this item, bring to the attention of Member States the report of the Secretary-General and the relevant documents, and invite Member States to submit their comments in writing at an early date.
