Sixth session

TREATS TO THE POLITICAL INDEPENDENCE AND  
TERRITORIAL INTEGRITY OF GREECE

Letter dated 11 November 1951 addressed to the President of the  
General Assembly from the Permanent Representative of Greece

Paris, 11 November 1951

In the letter of the USSR Delegation distributed as document A/1939 I could not help but notice that the Soviet Representative does not seem to trust even in his own informants. Thus, while the "appeal" which they addressed to him from Athens refers to ten people whose life is allegedly in danger, he confines his intervention to the case of one person only.

However, even in this case his information is incomplete. For his Athens informants obviously omitted to mention to him that the tribunal which sentenced K. Mavroskotis to death, at the same time expressed the wish that the sentence be not executed. Thus, the USSR representative, much to his regret, must see himself deprived of a propagandistic opportunity otherwise welcomed by him.

I would be grateful to you, if you were kind enough to arrange for the distribution of this letter as an Assembly document.

(Signed) Alexis KYROU  
Permanent Representative of Greece
