**LETTER DATED 14 FEBRUARY 1991 FROM THE PERMANENT REPRESENTATIVE
OF IRAQ TO THE UNITED NATIONS ADDRESSED TO THE SECRETARY-GENERAL**

On instructions from my Government, I have the honour to transmit to you herewith a letter dated 11 February 1991 from Mr. Tariq Aziz, Deputy Prime Minister and Minister for Foreign Affairs of the Republic of Iraq, giving factual evidence of the savage crimes being committed by the United States, NATO and Zionist coalition forces against Iraqi citizens and against the economic and cultural assets of the Iraqi people.

I should be grateful if you would have this letter and its annex circulated as a document of the Security Council.

(Signed) Abdul Amir A. AL-ANBARI
Ambassador
Permanent Representative

AnnexLetter dated 11 February 1991 from the Deputy Prime Minister and Minister for Foreign Affairs of Iraq addressed to the Secretary-General

I have already sent to you, on 24 January and 1 February 1991, two letters in which I provided you with factual evidence of the savage crimes being committed by the United States, NATO and Zionist coalition forces against Iraqi citizens and against the economic, cultural, scientific and religious assets of the Iraqi people. Those letters contained full details of the factual evidence of the said crimes and of the large-scale human and material losses to which they have given rise.

From the beginning of the aggression against Iraq on 17 January 1991 and up to today, numerous impartial sources have corroborated these crimes, and newspapers and television stations have disseminated information and unequivocal pictures which confirm their wide-scale occurrence in all parts of Iraq. In my two previous letters, I called upon you to adopt the stance required of you by your position as Secretary-General of the United Nations, particularly since the resolution in favour of aggression was adopted in the name of the United Nations and under its aegis. It is clear from the information that I shall provide in this letter that the bombing operations against various kinds of civilian targets and the slaughter of civilians have mounted as the days have passed since the beginning of the aggression and that they are, indeed, escalating daily in a vicious and savage manner. Despite that fact, your reaction to these crimes, including your statement at the meeting of the Security Council held on 8 February 1991, has been reticent and out of keeping with the enormity of the crimes being committed against the Iraqi people and with the responsibilities with which you are entrusted within the framework of the Organization. In the case of previous incidents, however, you have taken spirited action in accordance with your humanitarian responsibilities under the Charter of the United Nations with regard to acts and conduct that do not approach the degree of repulsiveness that characterizes the crimes to which our people has been subjected for four successive weeks of the vengeful and retaliatory character that has marked them.

World public opinion has begun to understand and to condemn the planned and deliberately vengeful, retaliatory and destructive character of the crimes committed by the United States, NATO and Zionist forces of evil and aggression against Iraq, despite all the frantic efforts being made by the leaders of the aggressor countries to obscure the truth. Such crimes have begun to be extended to hospitals, irrigation dams, civilian bridges and food and supply depots designated for civilians. The crimes of the ongoing aggression against Iraq, which have had the goal of cutting the vital arteries of the Iraqi people and of destroying Iraq's infrastructure and which have no relation whatsoever to the military effort, continue to be allowed to pass under the cover of United Nations resolutions. Here, we must recall the statements made by the American General Dugan before the

aggression, when he said that the plan of attack was directed against all that was dear and precious to the Iraqi people. The factual evidence of the aggression has demonstrated that the plan of which the General spoke is indeed the very plan of aggression that was drawn up before the adoption of Security Council resolution 678 (1990), the execution of which in the name of the United Nations was sanctioned by that resolution.

The reticence that characterizes your reaction in the face of these crimes cannot be justified on any moral, humanitarian or legal grounds. If your motive in this has been political, then it constitutes a grave precedent for the first time in the history of the Organization and one for which history will hold the Secretariat responsible to all the peoples of the world as long as it fails to adopt a stance appropriate to the heinous character of the crimes being committed against Iraq.

So that the record of history may be clear to you and for the information of those fair-minded persons who believe in truth and justice, I communicate to you hereunder, further to my two previously mentioned letters, factual evidence of the fresh crimes that have been committed in the name of the United Nations Charter against the people of Iraq.

Baghdad Governorate

1. 30 January 1991

Aerial bombardment of Dawrah and the residential Jihad quarter; two dead and two wounded.

2. 31 January 1991

Aerial bombardment of New Baghdad and the residential Jihad quarter; two wounded.
