TREATY ON CENTRAL AMERICAN SECURITY

The Republics of Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua,

Convinced that peace, development and welfare for their peoples depend on consolidation of the democratic system of government in each of these States,

Certain that the establishment of mutual confidence and regional *détente* and an end to the arms race depend on renouncing the threat or use of force against the sovereignty, territorial integrity or political independence of any State of the region,

Convinced that respect for human rights is a fundamental characteristic of democratic systems of government and a prerequisite for the maintenance of the peace and serenity of nations,

Determined to avoid by all possible means armed conflicts among the States of the isthmus,

Convinced that the maintenance of a stable and lasting peace requires the adoption of measures to build confidence among States and the establishment of a regional military balance,

Aware that the allocation of resources for the maintenance of a disproportionate military capability affects the economic and social endeavours of the Central American peoples,

Concurring in the desirability of establishing an effective system of cooperation, communication and coordination among the armed or security forces of the Central American region in order to promote the security of the isthmus,

Convinced that the pursuit of military superiority on the part of any of the Central American States would constitute a threat to regional security and a destabilizing factor in the area,

In the conviction that their security relies fundamentally on the international system for the maintenance of peace and that, accordingly, their armed services should be essentially defensive in nature,

Disposed to comply fully with the commitment contained in the Procedure for the establishment of a firm and lasting peace in Central America, also known as the Esquipulas Procedure, in particular the obligation to conclude negotiations on security, verification and arms control in the region,

HAVE AGREED ON THE FOLLOWING  
TREATY ON CENTRAL AMERICAN SECURITY

PART ONE

MEASURES TO BUILD CONFIDENCE AMONG THE STATES PARTIES

CHAPTER I

REPORTS

Article 1

The States of Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua, hereinafter referred to as "the Parties", agree on the following confidence-building measures:

(a) The Parties shall submit, in the first half of each year, reports on the composition and organization of their armed services, military installations, weaponry, matériel and equipment;

(b) The reports shall be exchanged in the Security Commission established under the Procedure for the establishment of a firm and lasting peace in Central America.

The reports shall be prepared in accordance with the inventory format agreed by the Security Commission, and shall include, for each ground or amphibious combat unit, down to the battalion level, all the data necessary for ensuring that the information supplied is complete, transparent and easily verifiable.

The same principle in respect of the supply of information shall apply to each air combat formation and single combat aircraft, and to naval and police forces, irrespective of their appellation, situation or line of command.

Article 2

The Parties shall also provide information on their respective military budgets for the current financial year, using the reporting instrument on military expenditures in standardized form adopted by the United Nations on 12 December 1980.

Each State Party may request from any other State Party, through the Security Commission, clarification of the information within the 60 days following the date on which it was delivered.

The Parties undertake to provide such clarification within the 60 days following the date of request.

## CHAPTER II

### RISK REDUCTION

#### Article 3

Each Party shall inform the others sufficiently in advance of any significant military activity which it is about to carry out.

Where, in a national emergency, such notification was not given because it was impossible to predict it, any Party may request an explanation of the situation from the other State, which shall be bound to conform within 24 hours.

If the explanations given are not considered satisfactory and sufficient, the Party concerned may request a meeting of the Security Commission to analyse the situation and take appropriate decisions. The meeting shall take place within the following 24 hours.

#### Article 4

If an incident of a military nature occurs between two or more of the Parties, the Ministers for Foreign Affairs shall immediately establish contact in order to analyse the situation, explain the facts, avoid an escalation of tension, put an end to any military activity and prevent the occurrence of further incidents.

To deal with such cases, the Parties shall establish a standing rapid communication procedure to facilitate immediate contact with their respective authorities.

Any Party may convene the Security Commission in connection with a military incident, if the direct channels of communication are not adequate for achieving the objectives referred to in the preceding paragraph. The meeting shall take place within 24 hours of the formulation of a formal request.

### CHAPTER III

#### MILITARY CONTACTS

- (f) Any naval manoeuvre, deployment or exercise in which more than 100 troops participate;
- (g) Any manoeuvre, deployment or exercise in which 10 or more tanks participate, when it takes place less than 30 kilometres from the frontier with another State Party.

#### Article 7

The obligation to notify within the period referred to in article 6 shall not apply to counterinsurgency operations carried out by one of the armed services. However, the State which conducts such operations must report them as soon as possible if they take place less than 20 kilometres from the frontier with another Party.

#### Article 8

Notification of military activities shall include the following information: the name of the activity; its purpose; the participating States; the number of troops and the type of weapons or equipment to be used and the places where they are to take place; and the dates on which they are to begin and end.

The number of units participating in the activity and the geographic coordinates of the points of arrival and of troop concentrations shall also be communicated.

### CHAPTER V

#### OBSERVATION OF MILITARY ACTIVITIES

#### Article 9

The Parties undertake to invite the other Parties to send observers to follow the course of the activities referred to in article 6 of this Treaty.

It shall be understood that an invitation has been issued simply through notification of the activity, and the notified Party may accept within 10 days of receiving the notification. If it accepts the invitation, it may send not more than two observers.

The host State shall provide the observers with a programme containing all relevant details, such as dates and meeting places, means of transport, the various stages or phases of activity, its duration, and the arrangements made for the observers' food and board. The observer State shall pay the cost of the travel and stay of its observers.
