Overall orientation

2.1   The overall objectives of the programme are: (a) to facilitate, through the provision of procedural and technical secretariat support and authoritative advice, the orderly and effective conduct of the deliberations and follow-up actions of the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and various subsidiary organs and the Economic and Social Council and most of its subsidiary bodies, as well as special United Nations conferences; and to assist in the revitalization efforts of the Assembly and other United Nations bodies, including through the substantive servicing of the Ad Hoc Working Group on the Revitalization of the Work of the General Assembly, and the intergovernmental negotiations on the question of equitable representation on and increase in the membership of the Security Council and other matters related to the Council; (b) to service the Committee on Conferences; (c) to ensure the provision of high-quality conference-servicing support to all intergovernmental and expert bodies meeting at Headquarters and at the United Nations Offices at Geneva, Vienna and Nairobi, and other conferences and meetings held under the auspices of the United Nations, taking into account the principle that equal treatment is to be given to all established official languages in each organ of the Organization; and (d) to provide protocol, liaison and representational functions for the Secretary-General, host Governments and Member States.

2.2   The basic mandates for the programme are contained in the rules of procedure of the principal organs of the United Nations. Additional mandates are stipulated by resolutions of the General Assembly and the Economic and Social Council, in particular resolutions on the revitalization of the Assembly, on the strengthening of the Council, on the pattern of conferences and on multilingualism. Overall intergovernmental direction concerning the organization and servicing of meetings is given by the Assembly on the advice of the Committee on Conferences, in accordance with Assembly resolution 43/222 B. The Under-Secretary-General for General Assembly and Conference Management will continue to be responsible for all the activities of the Department for General Assembly and Conference Management and for guiding integrated global conference management involving Headquarters and the United Nations Offices at Geneva, Vienna and Nairobi, which includes the establishment of conference management policies, practices, standards and procedures, the allocation of resources under the relevant budget section and the global workload and staffing management of the conference management operations in accordance with Assembly resolution 57/283 B.

2.3   The Department at Headquarters and the conference-servicing organizational entities at the United Nations Offices at Geneva, Vienna and Nairobi are responsible for the implementation of the programme and the achievement of its objectives. Guided by General Assembly resolutions 57/300, 66/233, 68/251 and 70/9, as well as the provisions relevant to conference services of the Assembly's resolutions on the revitalization of its work and on multilingualism, the biennial programme plan for the period 2018-2019 is aimed at making further progress in integrated global management in order to provide high-quality documents in a timely manner in all official languages, as well as high-quality conference services to Member States at all duty stations, and to achieve further synergies and full-system benefits through the integrated global management of

conference-servicing operations at the four duty stations. The Department will continue to provide, in a proactive manner, the intergovernmental and expert bodies it services with technical, procedural and substantive secretariat, protocol and liaison and conference-servicing support so as to achieve the above-mentioned synergies and benefits.

2.4   The Department will continue to focus on advance planning for the effective management of conference services, optimize workflow, align capacity with expected output and pay special attention to the end results and overall performance. Through integrated global management, its administrative and substantive policies, practices and procedures will be further standardized across all four conference-servicing duty stations. The global information technology tools that were deployed at all duty stations will continue to be maintained jointly to facilitate efficient and effective resource utilization and maximize the use of electronic tools and processes in conference-servicing operations. The training of staff and targeted outreach to educational institutions that train language professionals and other measures aimed at enhancement of the Department's capacity to support multilingualism will allow the Department to facilitate the transition of institutional memory and specialized expertise and the adoption of contemporary working methods that take advantage of available technologies. Continued collaboration with other international conference-servicing organizations through the International Annual Meeting on Language Arrangements, Documentation and Publications will ensure the benchmarking of its performance indicators and methods of work with best industry practices. Those efforts, subject to the provisions of the above-mentioned General Assembly resolutions, will further enhance the quality, productivity, timeliness and cost-effectiveness of the operations under the programme. Continued analysis of client feedback will be an important tool for measuring performance. The Department will continue to evaluate and implement risk management strategies so as to reduce the impact of operational crises. Centrally coordinated risk management, assessment and evaluation will facilitate informed managerial decision-making and monitoring.

2.5   Continued integration of the Department's activities in all four duty stations, with sensitivity to local specificities and the needs of local clients, including addressing the high workload in Geneva resulting primarily from the work programme of the Human Rights Council, will increase the timeliness and cost-effectiveness of the documentation services and provide better quality assurance in respect of the translation services, including contractual services. Increased emphasis on in-house quality control in respect of contractually translated documents and further harmonization of the quality assurance standards will be facilitated by a common computer-assisted translation and terminology platform (gText) that is also accessible to external contractors.

2.6   Efforts will continue to build a larger and more balanced pool of qualified language staff across languages and duty stations by encouraging promising candidates to apply for open positions through various means, including the language competitive examinations, the Department's Universities Outreach Programme and its internship and traineeship programmes, in compliance with United Nations standards for the recruitment of language staff. The programme will continue to emphasize the mainstreaming of gender perspectives into its subprogrammes.

Overview of resources

2.7   The overall resources proposed for the biennium 2018-2019 for the Department for General Assembly and Conference Management amounts to $624,234,600 before recosting, reflecting a net decrease of $6,866,900 (or 1.1 per cent) compared with the appropriation for the biennium 2016-2017. Resource changes result from four factors, namely: (a) technical adjustments relating to the removal of non-recurrent requirements and the biennial provision of new posts established in the biennium 2016-2017; (b) new and expanded mandates; (c) changes within the section; and (d) other resource changes. The proposed resource level provides for the full, efficient and effective implementation of mandates.

2.8   The distribution of resources is set out in tables 2.3 to 2.5.

Technical adjustments

2.9   Resource changes in the amount of $12,929,800 relate to the removal of non-recurrent provisions in the biennium 2016-2017 ($13,718,600), offset in part by increased requirements due to the biennial provision of 5 new posts (1 P-5, 1 P-4 and 3 P-3) that were established in the context of the proposed programme budget for the biennium 2016-2017.

New and expanded mandates

2.10   Resource changes reflect an increase of $15,695,600 in support of new and expanded mandates in support of:

(a)   Conference management, New York: Follow-up to the Fourth United Nations Conference on the Least Developed Countries (General Assembly resolution 70/216); Universal Declaration on the Achievement of a Nuclear Weapon-Free World (Assembly resolution 70/57); the thirty-fifth anniversary of the United Nations Institute for Disarmament Research (resolution 70/69); the illicit trade in small arms and light weapons in all its aspects (resolution 71/48); Transparency in armaments (resolution 71/44); Countering the threat posed by improvised explosive devices (resolution 71/72); Revised estimates resulting from resolutions and decisions adopted by the Economic and Social Council during 2016 (A/71/633); International Decade for Action, "Water for Sustainable Development", 2018-2028 (resolution 71/222); Political declaration of the high-level meeting of the General Assembly on antimicrobial resistance (resolution 71/3); Cooperation between the United Nations and the International Criminal Police Organization (INTERPOL) (resolution 71/19); Protecting children from bullying (resolution 71/176); Implementation of the outcome of the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) and strengthening of the United Nations Human Settlements Programme (UN-Habitat) (resolution 71/235); Combating sand and dust storms (resolution 71/219); Follow-up to and implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (resolution 71/225); Treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices (resolution 71/259); and Supporting the implementation of the 2030 Agenda for Sustainable Development and the Addis Ababa Action Agenda of the Third International Conference on Financing for Development (A/71/534);

(b)   Conference management, Geneva: Status of the human rights treaty body system (A/71/118); resolutions adopted by the Human Rights Council during its sessions in 2015 and 2016; Nuclear disarmament verification (resolution 71/67); Transparency in armaments (resolution

71/44); and Treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices (resolution 71/259);

(c)   Conference management, Vienna: Fourteenth United Nations Congress on Crime Prevention and Criminal Justice.

Changes within and/or across section(s)

2.11   Resource changes under the Section, reflect, on a cost-neutral basis, the establishment of 18 new posts taking into account the delayed impact of resources in the biennium 2020-2021, the reclassification of 26 posts, the redeployment of one post between subprogrammes, and the abolishment of 32 posts proposed in the biennium 2018-2019.

2.12   As indicated in the Secretary-General's report on the pattern of conferences (A/71/116), quality, timeliness, cost-effectiveness, sustainability and accessibility with regard to conference services, as well as multilingualism, remain the goals of the Secretariat as it seeks to fulfil the mandates given by Member States. Constant as those goals may be, the context in which United Nations conference services are provided has changed profoundly in recent years.

2.13   The most indicative of these is the 39 per cent increase since 2010 in the number of meetings serviced each year, and the accompanying 9 per cent surge in documentation, which resulted in the Secretariat servicing close to 35,000 meetings and translating 246 million words in 2016.

2.14   To manage the increased workload of meetings and documentation, the Department will continue to pursue further efficiency gains by leveraging technology to increase productivity and achieve lower costs across all four conference management duty stations. The streamlining of the workflow, the creation of unified databases and the harmonization of systems, together with the increased use of computer-assisted translation tools, contributed to the sharp 10 per cent rise in productivity in New York and Geneva between 2014 and 2015 and a further 6 per cent increase between 2015 and 2016.

2.15   Efficiency gains will continue to be achieved through:

(a)   Leveraging the development and use of state-of-the-art language-related information technologies, including computer-assisted translation and machine translation;

(b)   Reviewing and improving working methods and staff skills by adjusting them to the fully electronic workflows;

(c)   Increasing external processing of documentation by expanding the pools of qualified contractors and assuring quality in respect of the externally processed documents in order to meet the highest quality standards mandated by the General Assembly.

2.16   These three pillars are the foundation of the continuous improvement and modernization strategy agreed by the four conference servicing duty stations.

2.17   In its resolution 71/262, the General Assembly requested the Secretary-General to take measures to ensure equal treatment of all six official languages and equal quality of service for Member States, while fully respecting the specificities of each official language and different levels of benefit from information technology advances for different languages, including by addressing workload inequalities arising from staffing structures and specificities of language. In order to achieve these goals, the Department needs to rebalance, in a cost-neutral manner, its professional capacity in the documentation processing area. Such rebalancing will ensure that all language services are given equal treatment and are provided with equally favourable working conditions and resources, with a view to achieving the maximum timeliness, quality and cost-effectiveness of the documentation services, with full respect for the specificities of the six official languages and taking into account their respective workloads. Specifically, achieving high levels of quality and increased productivity in a cost-neutral manner will require a change of paradigm in translation working methods from translation-revision (performed by a translator and a reviser) to self-revision (performed by a self-reviser or a reviser). Accordingly, it is proposed to retain fewer translators

whose work requires close supervision (P-3), and have more revisers (P-4) and senior revisers (P-5) who are qualified to self-revise their own drafts and assure quality control for external translation. The increase in the number of Translator (P-4) posts would be beneficial to the production goals as such staff will have significantly increased responsibilities as compared with the P-3 posts since their work will not require input by another reviser, that is to say, will be self-sufficient. This change has been made possible as a result of the introduction of the proprietary translation technologies. Senior Revisers at the P-5 level will have increased responsibilities with regard to quality control for internal and external production, and training and coaching on new project-based working methods to preserve quality in the context of the increased use of automated applications. Self-revision is more cost-effective than translation and revision, while it increases timely delivery since productivity is higher and processing times are shorter given the increasing integration of technology. This measure should also allow the Department to perform more of its translation work contractually, increasing efficiencies while maintaining high quality. The increased shift to in-house revision of contractually translated documents will be facilitated by a common computer-assisted translation and global terminology platform (gText) accessible to external contractors.

2.18 It is proposed that the re-organizaiton of Translation Services as outlined above would be implemented in a phased manner, taking advantage of supporting technology improvements.

2.19 It is also proposed to rationalize the text processing, referencing and editing functions, reflecting benefits from the consolidation of translation and editorial support services and the increasing integration of technology, in particular eLUNa and other components of gText, which have made possible economies of scale and efficiency gains in translation and the related support functions.

Other changes

2.20 Resource changes reflect a reduction of $7,139,000, made possible by efficiencies that the Department plans to bring about in the biennium 2018-2019. The proposed reduction is a result of the efforts of the Department to apply the anticipated Umoja efficiencies presented in the eighth progress report of the Secretary-General on the enterprise resource planning project (A/71/390) to individual day-to-day operations. The Umoja efficiencies set out in the eighth progress report were based on the Organization's experience with the system, anticipated future changes, including future roll-outs, a global review of end-to-end processes, the retirement of legacy systems and improvements to business process and planning capabilities. Efficiencies were expressed, among other things, as the dollar value of a full-time equivalent, where applicable. Further information on the approach is provided in the foreword and introduction to the proposed programme budget for the biennium 2018-2019. Other efficiencies result from, among other things, the reduced use of dictation among translators as a result of the introduction of the eLuna translation tool, and the consolidation of functions through changed workflows as a result of the introduction of gText.

2.21 For the Department for General Assembly and Conference Management, this translates to post and non-post reductions of $7,139,000, which fall under programme of work ($6,248,300) and under programme support ($890,700).

Other assessed and extrabudgetary resources

2.22 It is anticipated that, during the biennium 2018-2019, the regular budget resources under this section will be complemented by extrabudgetary resources in cash estimated at $38,869,500 representing 5.7 per cent of overall resource requirements, which will be derived largely from reimbursements for services provided for the extrabudgetary activities of the United Nations Environment Programme (UNEP), the United Nations Human Settlements Programme (UN-Habitat) and United Nations funds and programmes, as well as from contributions towards certain activities in the area of conference services.

Other information

2.23   Pursuant to General Assembly resolution 58/269, resources were identified within the available capacity in the Professional and General Service categories for the conduct of monitoring and evaluation functions. The resources identified are funded from both the regular budget and extrabudgetary resources and represent a total of 345.0 work-months estimated at $3,630,900 to enable staff to carry out monitoring and evaluation functions at Headquarters and the conference-servicing offices at Geneva, Vienna and Nairobi.

2.24   The issuance of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent publications will be issued as summarized in table 2.6 and as distributed in the output information for each subprogramme.

2.25   In 2016, the Department implemented a pilot project outposting to Vienna a number of staff of the French Translation Service at Headquarters, which has traditionally had a high vacancy rate due to high turnover and to the preference of French language translators to be stationed in Geneva rather than in New York. The advantages of outposting include lower staff costs due to lower post-adjustment rates, overnight processing taking advantage of the time difference between New York and Vienna, increased opportunities for geographical mobility for staff of the Service, and an opportunity to gain management experience for the reviser assigned to supervise the outposted staff. The pilot project represents a two-year assignment for staff. In early 2018, the Department will review the pilot project. If the pilot project proves to be successful, the formalization thereof would be proposed in the context of the proposed programme budget for the biennium 2020-2021.

2.26   The Department expects to continue to improve its performance by pursuing a proactive strategy for the management of documents and meetings, including coordination of the calendar of conferences, advance capacity planning and review of documentation workflows and processes. To further the application of integrated global management, harmonized activities will continue to be centralized to the extent possible to maximize economies of scale, including through workload-sharing and the use of digital technologies.

A.   Policymaking organs

Resource requirements (before recosting): $891,000

2.27   Provisions under this heading relate to those policymaking organs for which the Department for General Assembly and Conference Management provides technical services, namely, the General Assembly, the Trusteeship Council, the Economic and Social Council and the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples. The requirements, which relate only to the Assembly and the Special Committee, are summarized in table 2.7.

2.28   The Trusteeship Council, composed of five Member States, is a principal organ established under Article 7 of the Charter of the United Nations. Its function is to assist the General Assembly and the Security Council in carrying out their responsibilities with respect to the international

trusteeship system. On 10 November 1994, the Security Council, by its resolution 956 (1994), determined that the applicability of the trusteeship agreement had terminated with respect to the last Trust Territory, the Trust Territory of the Pacific Islands (Palau). Consequently, at present no resources are specifically earmarked for the Council. As regards the Economic and Social Council, resources for technical secretariat support and conference services for meetings are provided for under conference management, New York.

2.29   The distribution of resources for the policymaking organs is set out in table 2.7.

1.   General Assembly

Resource requirements (before recosting): $324,400

2.30   Provision is made under this heading for certain estimated direct costs of the seventy-second (resumed), seventy-third (regular and resumed) and seventy-fourth (regular) sessions of the General Assembly. While most meetings of the Assembly are held from September to December, the pattern of those meetings has changed dramatically in recent years, with the Assembly now meeting with increasing frequency throughout the year.

2.31   The distribution of resources for the General Assembly is set out in table 2.8.

Table 2.8   **Resource requirements: General Assembly**

Total	**324.4**	**324.4**	**–**	**–**

2.32   Non-post resources in the amount of $324,400 would provide for general temporary assistance, overtime and contractual services requirements related to the technical secretariat servicing of meetings of the General Assembly and its General and Main Committees that are serviced by the Department and for the printing of official records and supplements of the Assembly in the six official languages of the United Nations.

2.   Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples

Resource requirements (before recosting): $566,600

2.33   The Special Committee, composed of 29 Member States, is the principal subsidiary organ of the General Assembly charged with examining the application of the Declaration on the Granting of Independence to Colonial Countries and Peoples, adopted by the General Assembly in its resolution 1514 (XV). The Special Committee may hold meetings, including some away from Headquarters, to examine the implementation of the Declaration and may send visiting missions to Non-Self-Governing Territories. It may also have consultations and contacts with Governments, specialized agencies and intergovernmental and non-governmental organizations. Its members may participate in conferences, seminars and other special meetings dealing with decolonization sponsored by non-governmental organizations and the United Nations bodies concerned. In accordance with the relevant General Assembly resolutions, the Special Committee promotes an international campaign to disseminate information and publicity for the work of the United Nations in the field of decolonization and reports thereon to the Assembly.

2.34   In pursuing those activities in the implementation of its mandate, the Special Committee is guided by its programme of work, which is approved on an annual basis by the General Assembly. Without prejudice to decisions to be taken by the Assembly at its seventy-second and seventy-third sessions on the programme of work of the Special Committee for the biennium 2018-2019, the estimates are based on the level of activities approved for the year 2016.

2.35   The distribution of resources for the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples is set out in table 2.9.

2.36   Non-post resources in the amount of $566,600 would provide for the operational requirements of the Special Committee for travel, contractual services, general operating expenses, hospitality and supplies and materials, including activities that may be organized away from Headquarters under its programme of work.

B.   Executive direction and management

Resource requirements (before recosting): $6,707,500

2.37   Overall policy direction and management, supervision and coordination of the activities of the Department are provided by the Under-Secretary-General for General Assembly and Conference Management. The Under-Secretary-General is responsible for all the policies, operations and resource utilization of the Department; represents the Secretary-General at meetings related to the functions of the Department and in intergovernmental organs and expert bodies, as required; and provides advice to the Secretary-General and other Secretariat officials on matters relating to the

work of the bodies serviced by the Department. The Under-Secretary-General directs the development of conference-servicing policies, procedures and practices for the United Nations worldwide, the coordination of the global provision of such services by the Secretariat and the allocation of resources. The Under-Secretary-General is responsible for conference services in New York, Geneva, Vienna and Nairobi, and chairs the annual coordination meeting of United Nations conference services managers, as well as the International Annual Meeting on Language Arrangements, Documentation and Publications. In carrying out those functions, the Under-Secretary-General is assisted by the Assistant Secretary-General, who acts as his or her deputy. In the discharge of their responsibilities, the Under-Secretary-General and the Assistant Secretary-General are supported by the Office of the Under-Secretary-General. The Office provides assistance in the development of management strategies and policies, prepares the programme of work of the Department for approval by the Under-Secretary-General, monitors its implementation and coordinates programme evaluation. The Under-Secretary-General also assists the Secretary-General with protocol, liaison and representation functions, organizes official ceremonies and similar functions, and makes arrangements for official receptions and other functions hosted by the Secretary-General.

2.49   Resources in the amount of $11,532,800, reflecting a decrease of $138,200, would provide for 44 posts (1 D-2, 3 D-1, 5 P-5, 7 P-4, 2 P-3, 2 P-2, 8 General Service (Principal level) and 16 General Service (Other level)), and non-post requirements related to travel of staff to support the implementation of mandates under the programme.

2.50   The decrease under posts relates to the net effect of the following: (a) the proposed abolishment of one Intergovernmental Affairs Officer (P-4) in the Economic and Social Council Affairs Branch as a result of efficiencies that the Branch plans to bring about in the biennium 2018-2019 ($351,800); offset in part by (b) the proposed establishment of two General Service (Principal level) posts of Senior Meetings Services Assistants at the Disarmament and Peace Affairs Branch and the Economic and Social Council Affairs Branch. The two additional posts would provide for better assistance with the coordination of organizational arrangements for meetings; the formatting, editing and submission of documents; the coordination of voting arrangements; the updating of public websites; the drafting of correspondence and notes for signature; and for responding to queries from delegations and Secretariat staff ($213,600).

Subprogramme 2
Planning and coordination of conference services

Resource requirements (before recosting): $42,849,700

2.51   The Central Planning and Coordination Division is responsible for the subprogramme. As part of its responsibilities, the Division provides substantive and technical secretariat services to the Committee on Conferences and to the International Annual Meeting on Language Arrangements, Documentation and Publications. During the biennium 2018-2019, the Division will continue to be proactive in carrying out global meeting and documentation management functions by: (a) leading efforts at the four duty stations to rationalize, clarify and standardize performance indicators and costing methods in the context of integrated global management; (b) harmonizing policies and procedures at all conference-servicing centres of the Organization to achieve system-wide benefits; (c) planning and coordinating the calendar of global conferences and meetings of the United Nations on the basis of workload statistics, performance indicators and cost information; (d) analysing available conference resources for mandated meetings through regular consultations with United Nations bodies at Headquarters and other duty stations with a view to assessing their needs and optimizing the submission of all pre-session documentation; (e) establishing and monitoring, through research and consultations, the mandated pre-session documentation requirements for each session of each organ; (f) providing substantive guidance for technological upgrades of conference services in line with new developments and legislative mandates, while keeping the General Assembly aware of new technologies that could be used in the Organization to achieve timeliness and improve the quality of services provided; and (g) managing compliance by author departments and offices of the Secretariat with regulations governing the timely and orderly preparation of parliamentary documentation. The subprogramme will be implemented in accordance with the strategy set out under programme 1, section A, subprogramme 2, of the biennial programme plan for the period 2018-2019.

External factors

2.52   The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

(a)   Changes to the established programme of meetings that are unexpected or requested on short notice will be limited and will have been duly authorized by the relevant intergovernmental body or by the Committee on Conferences acting on its behalf;

(b)   The current policy of providing meetings services to the regional and other major groupings of Member States on an "as available" basis will remain unchanged;

(c)   Unforeseen high-priority documentation that is disruptive to the planned processing of documentation will be minimal;

(d)   Mandated documentation and conference-servicing outputs will be established through proper legislative authority;

(e)   Developments in technology and related industries will support the business processes in meetings and documentation services.

2.55   Resources in the amount of $12,429,500 under posts, reflecting an increase of $48,100, would provide for 58 posts (1 D-2, 4 P-5, 4 P-4, 6 P-3, 9 General Service (Principal level) and 34 General Service (Other level)) to support the implementation of mandates under the programme and in consideration of the estimated volume of services to be provided to the General Assembly, the Security Council, the Economic and Social Council and all other United Nations organs at Headquarters during the biennium 2018-2019 in the context of the proposed programme of meetings.

2.56   The increase under post resources reflects the combined effects of:

(a)   The proposed establishment of two Senior Meetings Services Assistant (General Service (Principal level) posts, one each in the Meetings Management Section and Management Support Section, to augment the capacity to service an increased number of meetings;

(b)   The proposed abolishment of one Programme Management Assistant (General Service (Other level)) in the Management Support Section made possible from efficiencies that the Division plans to bring about in the biennium 2018-2019.

2.57   The requirements of $30,420,200, reflecting a net decrease of $7,364,900, would provide for temporary assistance for meetings, general temporary assistance, overtime, travel of staff, contractual services and other operational expenses. The net decrease relates to: (a) removal of non-recurrent provision related to temporary assistance for meetings for the biennium 2016-2017 ($8,879,700); (b) reductions under overtime made possible from efficiencies that the Office plans to bring about in the biennium 2018-2019, including efforts to curtail overtime consumption ($824,700); offset in part by (c) additional requirements as a result of new mandates (see paragraph 2.10 (a)) for the biennium 2018-2019 ($2,339,500).

2.58   During the biennium 2018-2019, projected extrabudgetary resources amounting to $2,356,700 will complement resources from the regular budget to provide temporary assistance for meetings related to meeting coordination services to clients not funded from the regular budget, including the International Seabed Authority.

2.74 The Division of Conference Management, Geneva, which is governed under the terms of Secretary-General's bulletins ST/SGB/2000/4 and ST/SGB/2005/9 and operates under the policy guidance of the Under-Secretary-General for General Assembly and Conference Management and the operational guidance of the Director-General, United Nations Office at Geneva, comprises the Office of the Director, the Central Planning and Coordination Service (which includes meetings management, documentation management and monitoring and evaluation), the Languages Service (which includes translation, editing, contractual work, terminology, referencing and text-processing), the Interpretation Service and the Production and Support Service (which includes design and production, encompassing the printing, distribution and design as well as information technology functions).

2.75 During the biennium 2018-2019, the Division will continue to be challenged by the implementation of the programme of work of the Human Rights Council, for which the number of meetings increased from 128 a year in 2013 to 153 in 2016. A cap of 130 annual meetings as from 2018 has been proposed to address this situation. In addition, the Council's machinery, including 0.6 weeks of additional meetings of the human rights treaty body system in accordance with the report of the Secretary-General (A/71/118), exacerbates the overall challenge for the conference management programme of work in Geneva. Pursuant to General Assembly resolution 68/268 (paras. 27 and 28), the allocation of meeting time is to be amended biennially and taken into account in the biennial programme budget for the human rights treaty body system. In other words, resource implications resulting from a reassessment of the meeting time needs would take effect as from 2018. The implementation of the strategic heritage plan at the United Nations Office at Geneva would also have an impact on the meeting infrastructure available for the meetings in 2018-2019.

2.76 The Division is adapting to fast-evolving technology that affects the documentation processes and has fully integrated global United Nations information technology tools for computer-assisted translation. Furthermore, the Division is seeking to enhance the timely, efficient and cost-effective delivery of high-quality parliamentary documentation and to increase and improve the efficiency of linear and electronic processing through a cost-neutral strategy leading to the maximum utilization of the resources available. Efforts to further align resources internally within the Languages Service, to strengthen capacity in the Editing and Translation Sections and provide more effective support for contractual translation are continuing. The limited redistribution of Professional posts is proposed to ensure that all language services are given equal treatment and are provided with equally favourable working conditions and resources, with full respect for the specificities of the six official languages.

2.77 Reduced demand for paper copies of parliamentary documentation and improved digital printing technology make it possible for resources to be utilized more strategically. Through the internal redeployment of resources, design capacity and in-house expertise to carry out all technical

developments related to electronic publishing and multimedia products in response to the growing demand for the production of digital publications is being strengthened, with the close collaboration of all stakeholders.

Subprogramme 2
Planning and coordination of conference services

Resource requirements (before recosting): $65,127,400

2.78 Within the Division of Conference Management, substantive responsibility for subprogramme 2 rests with the Office of the Director and the Central Planning and Coordination Service. The subprogramme will be implemented in accordance with the strategy set out under programme 1, section B, subprogramme 2 of the biennial programme plan for the period 2018-2019.

External factors

2.79 The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

(a) Changes to the established programme of meetings that are unexpected or requested on short notice will be limited and will have been duly authorized by the relevant intergovernmental body or by the Committee on Conferences acting on its behalf;

(b) The current policy of providing meetings services to the regional and other major groupings of Member States on an "as available" basis remains unchanged;

(c) Unforeseen high-priority documentation that is disruptive to the planned processing of documentation will be minimal;

(d) Mandated documentation and conference-servicing outputs will be established through proper legislative authority;

(e) Developments in technology and related industries will support the business processes in meetings and documentation services.

Outputs

2.80 The outputs to be delivered in the biennium 2018-2019 are set out in table 2.29.

Extrabudgetary	680.5	680.5	–	–
Total	**58 028.1**	**65 807.9**	**81**	**78**

2.82   Resources in the amount of $22,338,400 under posts, reflecting a decrease of $825,500, would provide for 78 posts (1 D-2, 1 D-1, 3 P-5, 5 P-4, 9 P-3, 6 General Service (Principal level) and 53 General Service (Other level)) to support the implementation of mandates under the programme.

2.83   The net decrease under post requirements reflects the combined effects of:

(a)   The proposed establishment of a Programme Management Officer (P-3) post to provide direct professional support to the Chief of the Central Planning and Coordination Service;

(b)   The proposed abolishment of four posts, comprising:

(i)   Three Documents Management Assistant (General Service (Other level)) posts in the Documents Management Section owing to the streamlining of the operations of the Section;

(ii)   One Accounting Clerk (General Service (Other level)) post in the Office of Director, made possible from efficiencies that the Service plans to achieve in the biennium 2018-2019.

2.84   Non-post requirements in the amount of $42,789,000, reflecting an increase of $8,605,300, comprise resources for temporary assistance for meetings, general temporary assistance, overtime, travel of staff and contractual services. The net increase relates to: (a) additional requirements resulting from new mandates for the biennium 2018-2019 (see para. 2.10 (b) above) ($12,602,700); and (b) additional requirements under temporary assistance for meetings to augment meeting capacity as well as under grants and contributions ($815,500), offset in part by the non-recurrence of a provision for the biennium 2016-2017 ($4,812,900).

2.85   During the biennium 2018-2019, projected extrabudgetary resources amounting to $680,500 will complement resources from the regular budget to provide temporary assistance for meetings related to meeting coordination services for clients not funded from the regular budget.

Subprogramme 3

Total	**111 113.1**	**109 492.7**	**349**	**339**

2.90   Resources in the amount of $107,009,200 under posts, reflecting a decrease of $1,620,400, would provide for 339 posts (1 D-1, 31 P-5, 80 P-4, 93 P-3, 11 General Service (Principal level) and 123 General Service (Other level)) to support the implementation of mandates under the programme, taking into account the estimated volume of conference services to be provided in Geneva on the basis of the programme of meetings for the biennium 2018-2019.

2.91   The decrease reflects the combined effects of:

(a)   Increased requirements due to the biennial provision of four new posts (1 P-5, 1 P-4 and 2 P-3) established in the context of the proposed programme budget for the biennium 2016-2017;

(b)   The proposed reorganization of the translation function and rationalization of the text-processing, referencing and editing functions, which includes:

(i)   The establishment of a Senior Change Management Officer (P-5) post in the Office of the Chief of the Languages Service and three Reviser (P-4) posts in the Spanish Translation Section;

(ii)   The reclassification of six posts:

(iii)   The abolition of six (General Service (Other level)) posts (4 Text-Processing Clerks in the Text-Processing Unit and 2 Editorial Assistants in the Editing Section);

(c)   The abolition of seven General Service (Other level) posts (2 Information Systems Assistants in the Office of the Chief of the Languages Service, 1 Administrative Assistant in the Text-Processing Section, 1 Team Assistant in the Editing Section, 1 Information Systems Assistant in the Text-Processing Section and 2 Desktop Editorial Assistants in the Text-Processing Section), made possible from efficiencies that the Service plans to achieve in the biennium 2018-2019;

(d)   The outward redeployment of one post (General Service (Principal level)) from the Editing Section (subprogramme 3) to the Design and Production Section (subprogramme 4) as a Senior Graphic Design Assistant with a view to bringing the staffing structure in line with operational requirements.

2.92   During the biennium 2018-2019, projected extrabudgetary resources amounting to $2,483,500 would complement resources from the regular budget to provide temporary assistance for meetings related to conference services for clients not funded from the regular budget.

Subprogramme 4
Meetings and publishing services

Resource requirements (before recosting): $57,692,800

2.93   The Interpretation Service and the Production and Support Service are responsible for the implementation of the subprogramme and for achieving its objectives. The subprogramme will be implemented in accordance with the strategy set out under programme 1, section B, subprogramme 4 of the biennial programme plan for the period 2018-2019.

Table 2.34   **Objectives for the biennium, expected accomplishments and indicators of achievement and performance measures**

2.94   The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that changes to the established programme of meetings that are unexpected or submitted on short notice will be made only occasionally.

Outputs

2.95   The outputs to be delivered in the biennium 2018-2019 are set out in table 2.35.

Table 2.35   **Categories of outputs and final outputs**

2.96   The distribution of resources for Geneva under subprogramme 4 is set out in table 2.36.

Table 2.36   **Resource requirements: Geneva, subprogramme 4**

	Resources (thousands of United States dollars)		Posts	
	2016-2017	*2018-2019 (before recosting)*	*2016-2017*	*2018-2019*

Extrabudgetary	3 192.2	3 192.2	–	–
Total	**61 453.9**	**60 885.0**	**173**	**172**

2.97   Resources in the amount of $56,569,600 under posts, reflecting a decrease of $58,800, would provide for 172 posts (2 D-1, 27 P-5, 55 P-4, 23 P-3, 5 General Service (Principal level) and 60 General Service (Other level)) to support the implementation of mandates under the programme, taking into account the estimated volume of conference services to be provided in Geneva on the basis of the programme of meetings for the biennium 2018-2019. The decrease reflects the combined effects of:

(a)   The proposed abolishment of one Staff Assistant (General Service (Other level)) post in the Printing Section, made possible as a result of efficiencies that the Service plans to achieve in the biennium 2018-2019, and one Publishing Assistant (General Service (Other level)) post in the Printing Section to align with the progressive reduction in the number of print copies required, partially offset by the inward redeployment of one post (General Service (Principal level)) from the Editing Section (subprogramme 3) to the Design and Production Section (subprogramme 4) as a Senior Graphic Design Assistant with a view to bringing the staffing structure in line with operational requirements;

(b)   Increased requirements due to the biennial provision of one new P-3 post that was established in the context of the proposed programme budget for the biennium 2016-2017.

2.98   Non-post requirements of $1,123,200, reflecting a decrease of $510,100, would provide for contractual services, general operating expenses and supplies and materials. The decrease under supplies and materials takes into account past expenditure patterns and efficiencies the Service plans to achieve in the biennium 2018-2019.

2.99   During the biennium 2018-2019, extrabudgetary resources amounting to $3,192,200 are projected as a result of reimbursement from clients for conference services provided for activities outside the approved calendar of meetings.

3. Conference management, Vienna

2.100 The General Assembly, in its resolution 49/237, requested the Secretary-General to establish a unified conference-servicing facility at the Vienna International Centre under the management of the United Nations. Consequently, the Conference Management Service in Vienna provides services not only to the United Nations Office at Vienna and the United Nations Office on Drugs and Crime (UNODC), but also to the International Atomic Energy Agency (IAEA), the United Nations Industrial Development Organization (UNIDO) and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization. Under the terms of a memorandum of understanding among the organizations based at the Vienna International Centre, IAEA provides common printing services for all organizations at the Centre.

2.101 For the biennium 2018-2019, the servicing of the non-Secretariat client organizations referred to above is estimated to account for approximately 39 per cent of the interpretation workload, 24 per cent of the meeting servicing workload, 16 per cent of the reproduction workload, 20 per cent of the distribution workload, 12 per cent of the desktop-publishing and copy-preparation workload and 14 per cent of the translation workload of the Service.

2.102 The Conference Management Service is governed by the terms of Secretary-General's bulletins ST/SGB/2004/5 and ST/SGB/2005/9 and operates under the policy guidance of the Under-Secretary-General for General Assembly and Conference Management. The Chief of the Service provides overall direction and management of conference services and supervises the Planning, Coordination and Meetings Section, the Interpretation Section, the Translation and Text-Processing Sections and the Editorial, Publishing and English Translation and Text-Processing Section.

United Nations share (net budget)

2.103 The requirements of the conference services at Vienna are budgeted on a net basis, whereby the appropriation under the United Nations programme budget is made for only the United Nations share of those activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services and which is the basis for the net budget, is also presented for review and approval by the General Assembly. Thus, the estimates that follow are presented on both a gross and a net basis, in terms of reimbursement by non-Secretariat organizations, as summarized in table 2.37.

Table 2.37 **Summary of requirements by component**

(Thousands of United States dollars)

Component	2016-2017	2018-2019 estimate at current rates

United Nations (net budget)	**42 978.8**	**43 535.7**

2.104 As illustrated above, the regular budget resource requirements for the biennium 2018-2019 are estimated at $43,535,700.

2.106   The Office of the Chief, Conference Management Service, and the Planning, Coordination and Meetings Section, which includes the Documents Management Unit, the Reproduction and Distribution Unit and the Meetings Management Unit, are responsible for the implementation of this subprogramme and for attaining its objectives. The subprogramme will be implemented in accordance with the strategy set out under programme 1, section C, subprogramme 2 of the biennial programme plan for the period 2018-2019.

2.125 The Division of Conference Services was established in 1996 as an organizational unit of the United Nations Office at Nairobi through the consolidation of conference-servicing activities and resources previously allocated in the budget sections pertaining to UNEP, UN-Habitat and the United Nations Office at Nairobi. Pursuant to General Assembly resolutions 54/248 and 54/249, the Division (then a Service) was included in Section 2 of the programme budget effective 1 September 2000, and operates under the policy guidance of the Under-Secretary-General for General Assembly and Conference Management, comprises the Office of the Chief, Planning and Coordination Section (which includes meetings management and documentation management),

Translation and Editorial Section (which includes translation, editing, terminology, referencing and text-processing), Interpretation and Publishing Services Sections (which include interpretation, graphic design, printing and distribution) and Conference Support Section (which includes resource management, monitoring, evaluation and reporting).

2.126   The Division provides the full range of conference services to the United Nations programmes located in Nairobi, in particular UNEP and UN-Habitat and their subsidiary organs, and for meetings and conferences of other intergovernmental organizations held at and away from Nairobi.

2.127   A substantial part of the Division's programmes is financed by its clients on a reimbursable basis. The extrabudgetary resources cover four posts in the Professional category and 72 posts at the Local level funded, on a reimbursable basis, by rendering services to United Nations agencies, funds and programmes not funded from regular budget. These posts are in the core areas of conference management and are aimed at enhancing efficiency through timely response and improved support to clients and Member States. They will also increase the capacity of the United Nations Office at Nairobi to deal with meetings servicing, resource management, performance evaluation and reporting; documents management and outsourcing of contractual translations, which is targeted at 52 per cent of all documents translated and are expected to remain at that level during 2018-2019.

Subprogramme 2
Planning and coordination of conference services

D.   Programme support

Resource requirements (before recosting): $29,150,100

2.147   Programme support comprises the Executive Office and the Information and Communications Technology Section based in New York, the Information Technology Section based in Geneva and the Information Technology Units in Vienna and Nairobi.

2.148   The Executive Office of the Department for General Assembly and Conference Management provides central administrative services to the Department in the areas of human resources management and financial and general administration. During the biennium 2018-2019, the Office will be responsible for the recruitment of short-term staff and a number of administrative processing actions, including the recruitment of short-term language staff, the screening of applicants for advertised language posts, the granting of special post allowances, the renewal of contracts and arrangements of travel of staff assigned to service conferences, for training and on

separation, in accordance with the authority delegated to it by the Office of Human Resources Management. Furthermore, in the context of the global management of conference services, the Executive Office will be responsible for harmonizing the administrative and budgetary structures of the conference-servicing components at all four conference-servicing duty stations by coordinating and reviewing the budget proposals as well as monitoring and reporting budget performance by duty station.

2.149   The information and communications technology sections and units within the four duty stations are responsible for maintaining, enhancing and supporting information and communications technology at all four duty stations, consistent with the strategic priorities and operational needs of the Department and in support of the discharge of its mandates.

[a] In conference management, in Vienna, posts and non-post resources are financed on a cost-shared basis.

2.152   Resources in the amount of $29,150,100 would provide for 67 posts (1 D-1, 2 P-5, 4 P-4, 1 P-3, 4 P-2, 5 General Service (Principal level) and 50 General Service (Other level)) and non-post requirements, including general temporary assistance, contractual services and other operational expenses to support the implementation of mandates under the programme.

2.153   The decrease of $162,400 under posts relates to the proposed abolition of an Administrative Assistant post (General Service (Other level)) in the Executive Office in New York, made possible from efficiencies that the Office plans to bring about in the biennium 2018-2019.

2.154   The decrease of $755,800 under non-post resources reflects reductions made possible from efficiencies that the Office plans to bring about in the biennium 2018-2019.

United Nations share (net budget): information technology support, Vienna

2.155   The requirements of information technology support to the conference services at Vienna are budgeted on a net basis, whereby the appropriation under the United Nations programme budget is made for only the United Nations share of those activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services and which is the basis for the net budget, is also presented for review and approval by the General Assembly. Thus, the estimates for information technology that follow are presented on both a gross and a net-of-reimbursement by non-Secretariat organizations basis, as summarized in table 2.60.

Table 2.60   **Summary of requirements by component for information technology, Vienna**

United Nations (net budget)	**2 137.5**	**2 137.5**

2.156   As illustrated above, the regular budget resources requirements for the biennium 2018-2019 are estimated in the amount of $2,137,500.

2.157   Resources in the amount of $2,721,600 would provide for four posts (1 P-4 and 3 General Service (Other level)) and non-post resources related to operational requirements for communications, centrally provided information technology services and hardware, as well as the acquisition and replacement of hardware and software.

Summary of follow-up action taken to implement relevant recommendations of the oversight bodies

Brief description of the recommendation	*Action taken to implement the recommendation*

Advisory Committee on Administrative and Budgetary Questions
(A/70/7)

The Advisory Committee stresses the importance of ensuring that the actual distribution of posts and functions remains aligned with the staffing structure as approved by the General Assembly and therefore considers the regularization of current arrangements to be a necessary step. The Advisory Committee emphasizes, however, that recourse to loans of posts and any other ad hoc arrangements should be considered in exceptional cases only and on a strictly temporary basis, if required for the implementation of mandated activities. Furthermore, any proposals for the regularization of ad hoc staffing arrangements should be submitted for consideration by the General Assembly in a timely manner, supported by fully substantiated justifications (para. I.49).

Proposals for the regularization of ad hoc arrangements are being submitted for the consideration of the General Assembly in the context of the proposed programme budget for 2018-2019.

The Advisory Committee reiterates its request to the Secretary-General to ensure the implementation of the General Assembly decision that all reports adopted by the Working Group on the Universal Periodic Review of the Human Rights Council shall be issued as documents in all official languages of the United Nations in a timely manner before their consideration by the Council (see resolution 67/237, sect. IV, para. 2). (para. I.60).

Universal periodic review outcome reports submitted to the Human Rights Council were slotted as per the 10-4-6 rule against the date of the consideration of the item. For 2016, 31 out of 42 documents were issued on time (six weeks prior to the start of the session) with an overall 74 per cent issuance compliance rate observed. Of the 11 documents that were issued late, all 11 documents (100 per cent) were issued before the start date of the session. The Division of Conference Management at Geneva will continue to give high priority to such reports of the Human Rights Council and will work closely with relevant departments to achieve further improvement.

The Advisory Committee was informed that, in collaboration with all duty stations and the Office of Programme Planning, Budget and Accounts, a working group on costing has been established in the Department for General Assembly and Conference Management to develop a unified methodology and coherent process for updating costings across all duty stations. The results and conclusions of the working group on costing are expected to be reported to the General Assembly at the main part of its seventieth session. The Committee was also informed that the Department was considering a proposal to outpost to the United Nations Office at Vienna a number of staff members of the French Translation Service at Headquarters, which could present a number of advantages, including lower staff

The results and conclusions of the working group on costing were reported to the Advisory Committee in June 2016.

Yearly updates of the costing parameters will continue to be provided to the Committee prior to its consideration of programme budget implications which involve the provision of conference services.

The Department believes that in setting up a continuous review and improvement process, the Department for General Assembly and Conference Management is strengthening its capability for more robust forecasting of programme budget implications by analysing the relevant cost parameters in a more realistic and dynamic way. With regard to the

Brief description of the recommendation	*Action taken to implement the recommendation*

costs owing to lower post adjustment rates; overnight processing, taking advantage of the time difference between New York and Vienna; increased opportunities for geographical mobility for staff of the Service; and an opportunity to gain management experience for the reviser who will supervise the outposted staff (para. I.62).

The Advisory Committee welcomes the above initiatives and looks forward to receiving updates as they are further developed and brought to a conclusion. The Committee encourages the Secretary-General to pursue his efforts in this regard and to seek the most efficient and effective manner for providing the required services (para. I.63).

outposting pilot, as of December 2016, three French revisers had been outposted to the United Nations Office at Vienna. Since the pilot project started in August 2016, it is too soon to draw final conclusions. However, no major issue has been reported thus far, and all the staff members are working productively in close collaboration with their colleagues in New York, including by participating in all staff meetings via videoconference. Two junior translators are expected to join the outposted team by the end of January 2017.

The Advisory Committee commends the Department for General Assembly and Conference Management for its proactive approach in addressing its succession planning requirements and the measures taken thus far. The Committee stresses the need to keep the situation under review and to continue to pursue efforts towards ensuring continuity and smooth succession over the next three-year period with respect to the documentation, translation and interpretation requirements for all six official languages at the four conference-servicing duty stations (para. I.70).

The Department is continuously monitoring the vacancies in the language posts across the four conference-servicing duty stations in a diligent manner.

The measures in place to ensure unbroken succession include an active outreach programme to universities in the Memorandum of Understanding network, the streamlining of the language competitive examinations to increase the yield of qualified candidates for recruitment, and coaching and mentoring of new recruits to enable them to achieve self-revision status within five years of recruitment. Mobility between duty stations is encouraged and indeed incentivized, and turnover is generally within acceptable ranges.

The Advisory Committee welcomes the progress reported in the timely processing of documents. The Committee was able to experience first-hand the improvements made in the planning process and in the timeliness of the issuance of documents in all official languages. The Advisory Committee commends the Department for General Assembly and Conference Management for the proactive approach taken in involving and consulting more closely with its clients from the outset and throughout the planning and processing stages and encourages the Department to continue to pursue such a client-focused approach, which has yielded positive results (para. I.72).
