# ESTIMATED WORLD REQUIREMENTS OF NARCOTIC DRUGS

## AND ESTIMATES OF WORLD PRODUCTION OF OPIUM IN 1969

### Third Supplement

issued by the International Narcotics Control Board under Article 12 of the Single Convention on Narcotic Drugs, 1961.

Geneva, 30 September 1969.

Certain Governments have furnished annual, supplementary or amended estimates of their drug requirements for 1969 since the publication of the original Statement issued by the International Narcotics Control Board (E/INCB/2).

The International Narcotics Control Board has the honour, after examination of these estimates and in accordance with the Article mentioned above, to transmit to Governments the present Supplement amending the original Statement.

The estimates shown in the following tables replace, in respect of the countries and territories mentioned below, the estimates given in the corresponding table of the original Statement for 1969 or in the first or second Supplement to this Statement.

#### Countries and Non-metropolitan Territories

\*\* The estimates replace those appearing in the second Supplement.

# ÉVALUATIONS POUR 1969

## DES BESOINS DU MONDE EN STUPÉFIANTS

### ET DE LA PRODUCTION MONDIALE D'OPIUM

#### Troisième Supplément

dressé par l'Organe international de contrôle des stupéfiants en vertu de l'article 12 de la Convention unique sur les stupéfiants de 1961.

Genève, le 30 septembre 1969.

Certains gouvernements ont fait parvenir des évaluations annuelles, supplémentaires ou révisées, de leurs besoins en stupéfiants en 1969, après la publication de l'état original dressé par l'Organe international de contrôle des stupéfiants (E/INCB/2).

L'Organe international de contrôle des stupéfiants a l'honneur, après examen desdites évaluations, conformément à l'article mentionné ci-dessus, de communiquer aux gouvernements le présent supplément, qui modifie l'état original.

Pour chacun des pays et territoires indiqués ci-dessous, les évaluations insérées dans les tableaux qui suivent remplacent les évaluations qui figurent dans le tableau correspondant de l'état original pour 1969 ou dans le premier ou le deuxième supplément à cet état.

#### Pays et territoires non métropolitains

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

# PREVISIONES PARA 1969 DE LAS NECESIDADES MUNDIALES DE ESTUPEFACIENTES

## Y DE LA PRODUCCIÓN MUNDIAL DE OPIO

### Tercer Suplemento

elaborado por la Junta Internacional de Fiscalización de Estupefacientes en virtud del artículo 12 de la Convención Unica de 1961 sobre Estupefacientes.

Ginebra, 30 de septiembre de 1969.

Ciertos Gobiernos han suministrado previsiones anuales, suplementarias o revisadas, de sus necesidades en estupefacientes para 1969 después de la publicación del estado original, elaborado por la Junta Internacional de Fiscalización de Estupefacientes (E/INCB/2)

De conformidad con el artículo arriba mencionado y después de haber examinado dichas previsiones la Junta Internacional de Fiscalización de Estupefacientes tiene el honor de transmitir a los Gobiernos el actual suplemento que modifica el estado original.

Las previsiones indicadas en los siguientes cuadros sustituyen, en cuanto a los países y territorios mencionados a continuación, las previsiones que figuran en el cuadro correspondiente del estado original para 1969 o en el primer o segundo suplemento al mismo.

<sup>a</sup> Due to difficulties arising from the transition from the application of the earlier treaties to that of the Single Convention, the International Narcotics Control Board found it unfeasible for 1969 to make the deductions of excessive imports and manufacture as required by article 21, paragraph 3, of the Single Convention.

<sup>b</sup> This estimate includes an amount of 80 000 kg, which relates to coca leaves for chewing.

<sup>a</sup> Par suite de difficultés liées à la transition entre l'application des traités antérieurs et celle de la Convention unique, l'Organe international de contrôle des stupéfiants n'a pas trouvé possible de déduire pour 1969 les quantités importées et fabriquées en excédent, comme le stipule le paragraphe 3 de l'article 21 de la Convention unique.

<sup>b</sup> Cette évaluation comprend une quantité de 80 000 kg, évaluation qui se réfère aux feuilles de coca pour la mastication.

<sup>a</sup> A causa de las dificultades motivadas por la transición del sistema de los tratados anteriores a la aplicación de la Convención Unica, la Junta Internacional de Fiscalización de Estupeficientes no ha podido hacer para 1969 las deducciones correspondientes a los excesos de importación y fabricación de conformidad con el párrafo 3 del artículo 21 de la Convención Unica.

<sup>b</sup> En esta previsión están incluidos 80 000 kg de hojas de coca para la masticación.

\* The Board has requested further information regarding this estimate.

<sup>a</sup> This figure includes an amount of 112 320 kg required for non-medical purposes.

<sup>b</sup> This figure includes an amount of 59 288,530 kg required for non-medical purposes.

<sup>c</sup> This figure includes an amount of 8 180 000 kg of coca leaves for chewing.

<sup>d</sup> This figure includes an amount of 5 532 kg of opium required for other than medical purposes.

<sup>e</sup> This figure includes an amount of 2 800 kg of opium required for other than medical purposes.

\* L'Organe a demandé des indications supplémentaires au sujet de cette évaluation.

<sup>a</sup> Ce chiffre comprend une quantité de 112 320 kg requise pour les besoins non médicaux.

<sup>b</sup> Ce chiffre comprend une quantité de 59 288,530 kg requise pour les besoins non médicaux.

<sup>c</sup> Ce chiffre comprend une quantité de 8 180 000 kg de feuilles de coca pour la mastication.

<sup>d</sup> Ce chiffre comprend une quantité de 5 532 kg d'opium requise pour les besoins autres que les besoins médicaux.

<sup>e</sup> Ce chiffre comprend une quantité de 2 800 kg d'opium requise pour les besoins autres que les besoins médicaux.

\* La Junta ha pedido datos suplementarios respecto de esta previsión.

<sup>a</sup> En esta cifra está comprendida una cantidad de 112 320 kg para fines no médicos.

<sup>b</sup> En esta cifra está comprendida una cantidad de 59 288,530 kg para fines no médicos.

<sup>c</sup> En esta cifra está comprendida una cantidad de 8 180 000 kg de hojas de coca para la masticación.

<sup>d</sup> En esta cifra está comprendida una cantidad de 5 532 kg de opio que se necesita para fines que no sean médicos.

<sup>e</sup> En esta cifra está comprendida una cantidad de 2 800 kg de opio que se necesita para fines que no sean médicos.
