#### **United Nations Human Rights Reports in my capacity as United Nations Special Rapporteur**

##### ***Thematic Priority Areas of the Mandate, A/HRC/16/43, 20 December 2010, presented to the Sixteenth Session of the Human Rights Council.***

As the first report to the Human Rights Council, this report laid out the priority areas of the mandate that I intended to examine in the first three years, namely the normative framework for protecting internally displaced persons, climate change induced displacement, internally displaced persons outside camps, and internally displaced women. It also listed the activities undertaken by the previous mandate holder.

##### ***The Situation of Internally Displaced Persons Outside Camps, A/HRC/19/59, 26 December 2011, presented to the 19th Session of the Human Rights Council 2012.***

Protection and assistance to internally displaced persons usually takes place in camps and settlements. Yet the majority of internally displaced persons live outside camps and settlements. For the first time, this original report examines this issue, recommending ways in which internally displaced persons outside camps should be protected. The recommendations of the report are being implemented by the Inter-Agency Standing Committee (IASC), the body comprising of the Principals or Heads of the United Nations Humanitarian Agencies, of which I am a member /principal by virtue of my mandate.

#### **United Nations General Assembly Reports**

##### ***Thematic Review of Climate Change and Internal Displacement, A/66/285, 9 August 2011, presented to the Sixty-sixth session of the General Assembly.***

This report examined the issue of climate change and internal displacement in the context of the recognition of climate change induced displacement in the Cancun Agreement 2010 under the United Nations Framework Convention on Climate Change. It lays out a framework of climate change induced displacement as adaptation alongside mega trends such as urbanisation, and makes key recommendations on approaches to climate change induced displacement.

##### ***Thematic Review of the Evolution, Achievements, and Challenges and Trends to Internal Displacement, A/67/289, 10 August 2012, presented to the Sixty-seventh Session of the General Assembly.***

This report marked the twentieth anniversary of the mandate on the human rights of internally displaced persons by examining developments in the normative framework for the protection of internally displaced persons. It has been commended for publication by the United Nations.

- **Protection of internally displaced persons outside of camps**

*Report on the Mission to the Maldives July 2011, A/HRC/19/5/Add.1, 30 January 2012, presented to the 19th Session of the Human Rights Council 2012.*

This report examined the issue of climate change induced displacement in the context of preparedness by the Government of the Maldives to the risk of submersion as well as the situation of persons who had been displaced by the tsunami. Although the Maldives had a draft policy on climate change, it did not include preparedness for displacement. The mission led to a revision of the draft law that has been prepared by the Government of the Maldives on disasters to include the issue of displacement.

*Report on the Mission to Kenya September 2011, A/HRC/19/54/Add.2, 6 February 2012, presented to the Human Rights Council 19th Session.*

This report examined the situation of internally displaced persons due to electoral violence, natural disasters, development and conservation projects in Kenya. The mission led to the resettlement of more than 200,000 internally displaced persons, and adoption by the Government of Kenya of both a policy and legislation on internally displaced persons. The conduct of the mission was used by the Special Procedures of the Human Rights Council as a model of how to conduct a mission.
