List of issues prior to submission of the sixth periodic report of the United States of America*

Specific information on the implementation of articles 1-16 of the Convention, including with regard to the Committee's previous recommendations

Follow-up questions from the previous reporting cycle

1. In its previous concluding observations (see CAT/C/USA/CO/3-5, para. 33),¹ the Committee requested the United States of America to provide further information regarding areas of particular concern identified by the Committee in paragraphs 12 (a), 14 (c) and 17. Noting that a reply concerning the information sought by the Committee was provided on 26 November 2015 (CAT/C/USA/CO/3-5/Add.1 and Corr.1), the Committee expresses appreciation for the State party's responses on those matters and the substantive information provided. In that connection, the Committee draws the attention of the State party to the letter dated 29 August 2016 from the Committee's Rapporteur for follow-up to concluding observations, addressed to the Permanent Representative of the United States to the United Nations Office and other organizations in Geneva, in which the Rapporteur encouraged the Government of the United States to provide, in its subsequent periodic report, additional information on the following issues: (a) inquiries into allegations of torture overseas; (b) the Guantanamo Bay detention facilities; (c) interrogation techniques; and (d) excessive use of force and police brutality.

Articles 1 and 4

2. With reference to the Committee's previous concluding observations (para. 9), please provide detailed information on the measures taken to criminalize torture at the federal level, in full conformity with article 1 of the Convention, and to ensure that penalties for torture are commensurate with the gravity of the crime. Please provide updated information on any changes in the State party's position on withdrawing its interpretative understandings and reservations to the Convention.

* Adopted by the Committee at its fifty-ninth session (7 November-7 December 2016).

¹ Unless otherwise indicated, paragraph numbers in parentheses refer to the previous concluding observations adopted by the Committee.

Article 2²

3. With regard to the Committee's previous concluding observations (paras. 10 and 11), and in the light of the State party's follow-up replies, please provide detailed information on any relevant legislative, administrative, judicial or other measures taken during the period under review to prevent acts of torture or ill-treatment in any territory under its jurisdiction, as defined in general comment No. 2.

4. Please provide information on the steps taken and procedures in place to ensure, in law and in practice, that all persons deprived of their liberty are guaranteed all legal safeguards from the very outset of the deprivation of their liberty, including the right to be registered at the time of detention, the right to receive prompt legal assistance and the right to inform a family member of their arrest. In this respect, please provide information on any investigation into allegations of unacknowledged detention of individuals at the Chicago Police Department facility known as Homan Square.

5. Have any measures been adopted to establish an independent national human rights institution, in accordance with the principles relating to the status of national institutions for the promotion and protection of human rights (the Paris Principles)?

6. Please provide updated information on legislative, administrative and other measures taken to eliminate all forms of violence against women, including domestic violence. Please also provide updated information on the protection and support services available to victims of gender-based violence in the State party.

7. With respect to the previous concluding observations (para. 30), please inform the Committee about measures taken to prevent and eradicate sexual violence in the military. Please indicate what measures the State party has put in place to ensure impartiality in the investigation of, prosecution in and adjudication of cases involving sexual violence in the United States military. What measures have been taken to ensure that complainants and witnesses are protected from any acts of retaliation or reprisals related to their complaint or testimony? What steps are being taken to provide effective redress to victims of sexual violence in the military?

8. Please provide updated information, disaggregated by the age, sex and ethnicity or nationality of the victims, on the number of complaints, investigations, prosecutions and sentences imposed in cases of human trafficking since the consideration of the State party's previous periodic report. Please also provide information on:

(a) Any new legislation or measures that have been adopted to prevent, combat and criminalize trafficking in persons;

(b) The measures adopted to ensure that victims of trafficking have access to effective remedies and reparation;

(c) The establishment of agreements with other countries to prevent and combat human trafficking.

² The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in paragraph 3 of the Committee's general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1) are indivisible, interdependent and interrelated. The obligation to prevent such ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.

Please indicate the number of refoulements, extraditions and expulsions carried out by the State party during the reporting period on the basis of the acceptance of diplomatic assurances or the equivalent thereof, as well as any instances in which the State party has offered such diplomatic assurances or guarantees. What are the minimum contents of any such assurances, whether given or received, and what measures have been taken in such cases with regard to subsequent monitoring? In this regard, please also indicate the name, sex, age and nationality of individuals not included in the unclassified summary report of the United States Senate Select Committee on Intelligence regarding the 119 Central Intelligence Agency (CIA) detainees that the United States rendered to other countries as part of the CIA rendition, detention and interrogation programme, regardless of the degree of process involved.

Please provide information on the results of the investigations into deaths and on the measures taken to prevent similar cases occurring in the future.
