

**Economic and Social Commission for Western Asia (ESCWA)**

Committee on Social Development  
Eleventh session  
Khartoum, 17-18 October 2017

Item 6 of the provisional agenda

**Proposed programme of work for the biennium 2018-2019  
in the field of social development****Summary**

This document presents the proposed activities to be implemented by the Economic and Social Commission for Western Asia (ESCWA) during the biennium 2018-2019 in the field of social development. The proposed outputs have been formulated with reference to the expected accomplishments envisaged under subprogramme 2 on social development, of the ESCWA strategic framework for the biennium 2018-2019 which was adopted by ESCWA at its twenty-ninth session (Doha, 13-15 December 2016). It constitutes part of the comprehensive proposed programme of work for the biennium 2018-2019 which was presented to and endorsed by the Executive Committee of ESCWA at its third meeting (Rabat, 6-7 May 2017). The responsibility for the implementation of the subprogramme lies with the Social Development Division.

The Committee on Social Development is invited to review the activities listed in the proposed programme of work, and discuss the extent to which they meet the priorities of ESCWA member States and their relevance to the expected accomplishments in the field of social development under subprogramme 2. The Committee is also invited to discuss ways to concretely measure the indicators of achievement in order to accurately monitor progress achieved in member States as a result of implementing the proposed outputs.

### C. STRATEGY\*

19.23 The Social Development Division is responsible for the implementation of subprogramme 2. ESCWA is fully engaged with member States and supports their efforts to identify policy priorities in the field of social development, taking into account major regional trends and emerging issues. It pays particular attention to the impact of the political instability and conflicts on the well-being of the region's population. It promotes a rights-based approach to inclusive social policymaking.

19.24 During the biennium 2018-2019, ESCWA will build on the experience gained during the previous bienniums to support countries in the implementation of the social dimensions of the 2030 Agenda. It will pay specific attention to promoting and implementing policies that foster social inclusion and social protection; mainstreaming key population and human development issues into policymaking, focusing on youth development and international migration; and advocating the principles of social justice as a guiding framework for policymaking.

\* The paragraphs under Strategy are numbered from 19.23 to 19.27, where 19 refers to programme 19 on economic and social development in Western Asia of the United Nations strategic framework for the biennium 2018-2019, and paragraphs 23 to 27 are the consecutive numbers in that document which contains all the United Nations programmes. This numbering is maintained in ESCWA programme of work documents as well as in the programme of work for each of the seven subprogrammes.

19.25 The adoption of equitable, inclusive and sustainable development policies is central to achieving social justice. ESCWA will give special attention to the specific needs of vulnerable groups such as youth, the elderly, persons with disabilities, informal workers, migrants and the poor, including in the context of support it provides for the implementation of the 2030 Agenda at the national level.

19.26 Given the matrix structure of the Sustainable Development Goals as set out in the 2030 Agenda and the Agenda's focus on social inclusion, ESCWA will make use of its multidisciplinary structure to support member States in strengthening policy integration, including in the areas of economic inclusion of vulnerable groups, particularly youth, sustainable communal services and urban development. It will also assist them in improving the governance of social inclusion, including through broader-based civic participation.

19.27 ESCWA will conduct normative analysis to support social policy reform through regional consultations and technical cooperation activities, including advisory services, capacity-building workshops and field projects. It will continue to act as a regional platform for the exchange of experiences, good practices and lessons learned in key social development areas within and beyond the Arab region. It will further strengthen partnerships and cooperation with other regional commissions, United Nations entities, international and regional organizations and civil society organizations.

#### D. EXTERNAL FACTORS

3. Subprogramme 2 will achieve its objective and expected accomplishments provided that: (a) member States remain committed to implementing the 2030 Agenda; (b) member States remain committed to promoting social justice through equitable, inclusive and participatory socioeconomic development; (c) Governments engage with other development stakeholders on key policy areas; (d) the data and information necessary for ESCWA to conduct its analytical work are made available; (e) the resources necessary for the implementation of planned extrabudgetary activities are provided; (f) collaboration with key partners is sustained; and (g) political stability is ensured to allow member States to engage and participate in planned national and regional activities.
