INTRODUCTION

This statistical publication* is prepared in implementation of the Programme of Work and Priorities for 1986-1987 in the field of international trade and development finance (programme element 1.1). It is divided into five main parts comprising nine basic series of tabulations. These tabulations cover various aspects (commodity structure and direction) of the trade of the ESCWA region, with particular reference to intraregional trade and trade with other developing countries and regions. The series are detailed at the country, country-groupings and regional levels for the years 1975 up to 1985.

Part I covers overall trade flows of ESCWA at the regional, sub-regional and country level in current United States dollars. It contains three main series of tabulations. Series I.A provides overall trade flows as well as trade excluding fuels (SITC 3) at the intraregional level and with each of the other developing regions (i.e. aggregates of countries within each developing region). Series I.B and I.C give a detailed picture of intraregional trade and trade with other developing countries. Series I.B covers total trade while Series I.C excludes fuel trade (i.e. SITC 3).

Part II depicts overall trends in terms of annual average compound rates of growth for 1975-1980, 1980-1983, 1983-1984 and 1984-1985. Overall trends are given for the trade of the ESCWA region with the world, intraregional trade and trade with each of the other developing regions. It comprises one series of tabulations for trade at the regional, sub-regional and country level for the total as well as for trade excluding fuels (SITC 3).

Part III consists of a single series of tabulations showing the relative importance (percentage shares) of intraregional trade and trade with other developing regions in total and non-fuel trade of the ESCWA countries, individually and as a group.

Part IV gives the commodity structure of trade of the ESCWA region as a whole, and by country and country-groupings. This part is composed of two main series of tabulations. Series IV.A gives in value terms (current United States dollars) a breakdown of the commodity structure by Major SITC Product Categories of intraregional trade, trade with the other developing regions and trade with the world. Series IV.B gives the relative importance (percentage shares) of intraregional trade and trade with other developing regions as sources and outlets for the region's trade in terms of the Major SITC Product Categories.

Part V is concerned with the destination of exports and sources of imports of the ESCWA region. It consists of two main series of tabulations. Series V.A gives in value terms (current United States dollars) the direction of trade by main markets or countries of origin and destination. Series V.B deals with the relative importance (percentage shares) of the various trading partners in the export and import trade of the ESCWA region.

Explanatory notes

1. The trade statistics provided in this publication are based on the United Nations Statistical Office data derived from the Commodity Trade Statistics according to SITC Statistical Papers Series - D: (COMTRADE DATABASE, SITC Rev.1). The data base used in this document was constructed from officially reported statistics and, in their absence, from partner countries' trade data and United Nations estimates. The source of data used for each of the ESCWA member States is given below:

2. The classification used is intended for statistical convenience and does not necessarily imply any judgement regarding the stage of development of any particular country or region. Thus,

TOTAL DVLPG (less ESCWA) represents the sum of the four developing regions listed below, other than the ESCWA region:

DVLPG ASIA (less ESCWA) stands for the developing countries in Asia, excluding the ESCWA region, i.e. Cyprus, Iran and Turkey plus South and Southeast Asia.

DVLPG AMERICA covers the developing countries in America.

DVLPG AFRICA comprises the developing countries in Africa including the North African Arab countries except Egypt.

DVLPG OCEANIA covers the developing countries in Oceania.

ESCWA REGION is defined to cover:

Bahrain	Jordan	Qatar	Yemen Arab Republic
Democratic Yemen	Kuwait	Saudi Arabia	
Egypt	Lebanon	Syrian Arab Republic	
Traq	Oman	United Arab Emirates	

ESCWA FUEL EXPORTERS comprise in addition to Bahrain, Iraq, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates which were formerly classified as "Oil Economies", Egypt and the Syrian Arab Republic. On the basis of data for 1980, the ESCWA countries whose fuel exports (SITC 3) accounted for at least 50 per cent of their total merchandise exports were assigned to this group. Since Egypt and the Syrian Arab Republic meet this criterion and are net oil exporters (i.e. their oil exports exceed their oil imports) they were included in this group. This group is broken down to two subgroups, the Gulf Co-operation Council (GCC) countries and the Other Fuel Exporters:

GULF CO-OPERATION COUNCIL (GCC):		OTHER FUEL EXPORTERS:
Bahrain	Qatar	Egypt
Kuwait	Saudi Arabia	Iraq
Oman	United Arab Emirates	Syrian Arab Republic

ESCWA NON-FUEL EXPORTERS:

Democratic Yemen	Lebanon
Jordan	Yemen Arab Republic

3. The Major SITC Product Categories are defined as follows:
Food items: SITC (0+1+22+4)
Agricultural raw materials: SITC (2-22-27-28)
Ores and metals: SITC (27+28+67+68)
Fuels: SITC (3)
Chemicals: SITC (5)
Machinery and transport equipment: SITC (7)
Other manufactures: SITC (6+8+67+68)
All commodities: SITC (0 to 9)
4. SITC (331): crude oil
5. SITC (332): petroleum products
6. Data for 1984 and 1985 are preliminary
7. Zero or (0.00) denotes nil or negligible
8. The (\$) is the United States dollar;
9. Details may not add up due to rounding.
10. (X) stands for exports
11. (M) stands for imports
