3/ A/45/380 and Corr.1, annex.

Expressing its concern that, in many developing countries, the burden of debt and debt service constitutes one of the major obstacles to the acceleration of growth and development and eradication of poverty, despite the often strenuous stabilization and structural adjustment programmes of these countries,

1. Urges Member States and multilateral financial institutions, within their prerogatives, to work towards an early, growth-oriented and development-oriented solution to the external debt problems, and, in this connection, urges them to intensify their efforts for the full implementation of General Assembly resolution 45/214;

2. Takes note with interest of the measures already taken by the international community and agrees that there is a need for continuing efforts, through the evolving international debt strategy in both the short term and long term, to achieve an early and durable solution to the external debt problems;

3. Expresses its appreciation to the Secretary-General for his continuing efforts to promote understanding and to improve the relationship among debtor and creditor countries and multilateral financial institutions with a view to contributing towards a durable solution to the external debt problems of developing countries;

4. Emphasizes the importance for debtor developing countries to continue to pursue and intensify their efforts in their stabilization and structural adjustment programmes to raise savings and investment, reduce inflation and improve efficiency, taking into account their individual characteristics and the vulnerability of the poorer strata of their populations;

5. Recognizes the need of the debtor developing countries for a supportive international economic environment, including improved terms of trade, commodity prices, market access and trade practices, and, in this connection, stresses the urgent need for a balanced and successful outcome of the Uruguay Round of multilateral trade negotiations which would result in the liberalization and expansion of world trade to the benefit of all countries, in particular the developing countries;

6. Stresses the need, in addition to debt relief measures which include debt and debt service reduction, for new financial flows to debtor developing countries, and urges the creditor countries and the multilateral financial institutions to continue to extend concessional financial assistance, as appropriate, in order to support the implementation by the developing countries of their stabilization and structural adjustment programmes so as to enable them to extricate themselves from the debt overhang and to assist them in achieving economic growth and development;

7. Urges creditor countries, private banks and, within their prerogatives, multilateral financial institutions to consider the extension of appropriate new financial support to developing countries, in particular the low-income countries with substantial debt burdens which continue to service the debt and meet their international obligations at great cost;

8. Also stresses the urgent need for additional debt relief measures, including further cancellation or reduction of debt and debt service related to official development assistance, as well as other official bilateral debt and debt service, in particular that of low-income countries, and welcomes, in this regard, the call by the Summit of the seven major industrialized nations for additional debt relief measures in favour of the poorest, most indebted countries that go well beyond the Toronto terms;

9. Also stresses the need for more urgent action with regard to the commercial debt owed by developing countries through increased efforts and improved access to and expanded use of existing facilities and arrangements, and encourages the continued consideration and, where appropriate, wider application of innovative measures, such as debt-for-equity swaps, debt swaps for the protection of nature and debt-for-development swaps, as contributions towards addressing the external debt problems of all indebted developing countries concerned;

10. Also takes note of the substantial debt relief and debt reduction agreed by the Paris Club in favour of two middle-income countries;

11. Also stresses the need for the continued examination, in the relevant forum, of appropriate debt-relief measures in favour of indebted low-income and lower-middle-income countries;

12. Recognizes the need for the multilateral financial institutions, within their prerogatives, to continue to explore effective measures to deal with debt owed by developing countries to these institutions;

13. Also recognizes the urgent need to continue to provide a social safety net to vulnerable groups most adversely affected by the implementation of economic reform programmes in the debtor countries, in particular low-income groups, in order to ensure social and political stability;

14. Requests the Secretary-General to report to the General Assembly at its forty-seventh session on the implementation of the present resolution.
