

Note with reference to ST/SGB/94/Rev.4/Amend.13:

The English version of this amendment was apparently never issued. It is determined, following a thorough search, that the English version was lost somewhere between the Documents Control Office on the 15th floor, where it was received on 6 March 1958 and assigned job.no. 58-04902, and the Reproduction Shop in the second basement. The Shop has no record of having received this job for reproduction. However, the Shop does have the stencil for the French version and a photo copy of Amend. 13, as issued in French, is included herein. Additionally, a photo copy of the approved English text, together with the relevant correspondence (contained in Registry file PE 140 GEN), is included herein.
