UNITED NATIONS SCALES OF ASSESSMENTS
FOR THE YEARS 1946-1977

Report of the Secretary-General

1. The United Nations scales of assessments adopted by the General Assembly for the years 1946-1977 are contained in the table annexed hereto. These scales were used by the Organization for the calculation of annual assessments of Member States.
2. In addition, rates of assessment for a full year were established retroactively for the new Members listed below. The resulting contributions were taken into account as income in the assessment of Member States for the following year:

	1957	1959	1963	1964	1968	1971	1972	1975	1976
Japan			1.97						
Morocco			0.12						
Sudan			0.11						
Tunisia			0.05						
Guinea				0.04					
Algeria					0.10				
Burundi					0.04				
Jamaica					0.05				
Rwanda					0.04				
Trinidad and Tobago					0.04				
Uganda					0.04				
Kenya					0.04				
Southern Yemen						0.04			

ANNEX

^{a/} The rates of assessment for Czechoslovakia and Hungary for the years 1962 and 1963 were retroactively decreased by General Assembly resolution 1927 (XVIII) of 11 December 1963 to 1.04 and 0.51 respectively. These decreases were offset in 1964 against additional income arising from the admission of seven new Member States in 1962 and 1963.

^{b/} For the years 1959, 1960 and 1961 Egypt and Syria were assessed jointly as the United Arab Republic.

^{c/} Indonesia ceased to co-operate with the Organization with effect from 1 January 1965, resuming full participation on 28 September 1966.

^{d/} Singapore, which had formed part of Malaysia, became an independent State in August 1965.

3. During the 10 years from 1946 to 1955, annual scales of assessments were adopted by the General Assembly. Thereafter, scales for triennial periods were recommended by the Committee on Contributions, with such additions to the 100 per cent scale as were necessary to provide for the assessment of new Member States during the course of a triennium. In 1963, however, following an expert study on conceptual differences between the United Nations System of National Accounts and the Material Product System, the Committee found that revisions in the rates of assessment for Czechoslovakia and Hungary were warranted. Accordingly, the Committee recommended 1/ and the General Assembly, by its resolution 1927 (XVIII) of 11 December 1963, approved downward adjustments in the rates of assessment for the two States, with retroactive effect to 1962 and 1963. Such reductions were achieved by offsetting the amounts involved against income derived from the contributions of seven States admitted to membership in the Organization during the course of those two years.

4. The recommendations of the Committee on Contributions for triennial scales of assessments were approved by the General Assembly with the following exceptions:

1/ Official Records of the General Assembly, Eighteenth Session, Supplement No. 10 (A/5510).

- (i) Following the admission of 16 new Member States in 1955, the previously adopted scale for 1956-1958 was revised for 1956 and 1957 to incorporate assessments for the new States. These assessments served to reduce, on a pro rata basis the percentage contributions of all Members except for those at the ceiling (33.33 per cent), at the floor (0.04 per cent) and those subject to the per capita ceiling principle. For 1958, the General Assembly, by its resolution 1137 (XII) of 14 October 1957, decided that the maximum contribution of any Member State in principle should not exceed 30 per cent of the total and that the percentage contributions of a further six States admitted to membership in the Organization in 1956 and in 1957 should be incorporated into a 100 per cent scale for 1958. The Assembly further decided that such incorporation was to be accomplished by applying the total amount of the percentage contribution of the six new States to a pro rata reduction of all Members except those at the floor, taking into account the per capita ceiling principle and reductions which might be required as a result of appeals. Accordingly, a new scale was adopted for 1958.
- (ii) More recently, the scale recommended by the Committee for 1977-1979 was adopted for 1977 only pending studies called for by General Assembly resolution 31/95 A of 14 December 1976.
