"The co-efficient of 33.20 zloties to 1 US dollar has been in use since January 1972 inter alia in the following international financial operations:

- tourist exchange purposes,
- transfer of pensions to individuals in Poland,
- social security payments to individuals in Poland,

"It should be noted that in the above operations, during the period under consideration (1972-1974) there were examples of an even higher co-efficient in use than 33.20 zloties which ranged up to the sum of 66.00 zloties to 1 US dollar."
