ANNUAL REPORT OF THE ECONOMIC COMMISSION FOR EUROPE  
Financial implications of Resolution 4 (XXI) adopted by ECE  
(E/4177.Part III)

Note by the Secretary General

1. In its resolution 4 (XXI), adopted on 19 April 1966 (E/4177, part III), the Economic Commission for Europe requested the Secretary-General to prepare and submit to the Commission at its twenty-second session an indexed compendium of all studies and statistical bulletins elaborated by the subsidiary bodies and the secretariat of the Economic Commission for Europe.
2. Prior to the adoption of the report, the Executive Secretary advised the Commission<sup>1/</sup> that the preparation and printing of the compendium as a trilingual publication would involve a total cost of \$2,800, of which \$1,200 would be needed in 1966 for temporary assistance and \$1,600 in 1967 for printing. He also pointed out to the Commission that funds additional to those provided in the Commission's budget would be required to meet the above cost.
3. It is now felt that three separate versions would be preferable to a trilingual version. This change would, however, entail an increase in the printing cost from \$1,600 to \$2,950.
4. Thus, under rule 34 of the rules of procedure of the Council, the Secretary-General wishes to inform the Council that endorsement of the annual report of the Economic Commission for Europe would result in an expenditure of \$4,150, of which \$1,600 would fall in 1966 and \$2,950 in 1967. The Secretary-General would endeavour to absorb the small amounts involved within the total resources available in the relevant sections of the budget for 1966 and 1967.
