INTERNATIONAL HEALTH CONFERENCE

COMMITTEE I (SCOPE OF WORLD HEALTH ORGANIZATION)

Proposal Submitted By The Iranian Delegation

III - Functions.

- (a) To assist Governments in strengthening their national health services particular attention being given to those countries in which epidemic and endemic diseases are especially prevalent.
- (b) To stimulate and advance work to eradicate disease, particularly of an epidemic, endemic or social nature, such as malaria, tuberculosis and venereal diseases.
- (c) To study administrative and social technique affecting sanitation and medical care from a curative and preventative point of view as regards both medical and hospital practice and to promote Social (health) legislation including Health Insurance.
