**ECONOMIC COMMISSION FOR EUROPE**

INLAND TRANSPORT COMMITTEE

Working Party on the Transport  
of Dangerous Goods

Joint Meeting of the RID Safety Committee  
and the Working Party on the Transport of  
Dangerous Goods  
(Bern, 25-28 May 1999)

TABLE OF LIMITED QUANTITIES IN MARGINAL 17(c) RID/10 011 ADR

Transmitted by the Government of Austria

The secretariat has received from the Central Office for International Carriage by Rail (OCTI)\* the comments reproduced below.

The Government of Austria would like clarification of the following questions concerning this table (version of 1 January 1999):

---

\* Distributed by the Central Office for International Carriage by Rail (OCTI) under the symbol OCTI/RID/GT-III/1999/2.

GE.99-20090 (E)

**1. Substances of Class 4.3, 3°:**

These substances appear in transport category 0 and include UN Nos. 1928 and 3207. UN No. 3207, however, may concern Packing Groups I, II or III.

As regards Packing Group III (= transport category 3), there is a double rule for UN No. 3207, since in transport category 3, unlike transport categories 1 and 2, there is no exception in respect of transport category 0.

**2. Substances of Class 6.2, 3°:**

These substances are also quoted in transport category 2, although they are assigned to group (b) (Packing Group II) and because of the introductory sentence fall into transport category 2 (see also Class 6.2, 4°).

**3. Substances of UN Nos. 0081, 0092, 0084, 0241, 0331, 0332, 0482, 1005 and 2007:**

For these substances, which appear in transport categories 1 and 2 respectively, the permissible maximum quantity per wagon/transport unit, in accordance with footnote (b)/1/, amounts to 50 [kg].

No account is taken of this in the "sum" of the second subparagraph/paragraph 3 (the multiplying factor for these substances should logically be 20 and not 50, and 3, respectively).
