Fifty-third session

Agenda item 140

Financing of the United Nations Preventive Deployment Force

Financing of the United Nations Preventive Deployment Force

Report of the Secretary-General

Addendum

Summary

By its resolution 53/20 of 2 November 1998, the General Assembly appropriated the amount of \$29,000,000 gross (\$28,170,800 net) for the maintenance of the United Nations Preventive Deployment Force (UNPREDEP) for the period from 1 July 1998 to 30 June 1999, in addition to the amount of \$21,053,745 gross (\$20,580,245 net) already appropriated under the provisions of its resolution 52/245 of 26 June 1998. The total resources provided by the General Assembly for UNPREDEP for the period amounted to \$50,053,745 gross (\$48,751,045 net). This was done following the decision taken by the Security Council, in its resolution 1186 (1998) of 21 July 1998, to extend the mandate of the Force until 28 February 1999. The mandate of the Force was not extended beyond that date.

The present report contains the revised cost estimates for the maintenance of UNPREDEP for the period from 1 July 1998 to 30 June 1999, including the liquidation of the Force during the period from 1 March to 30 June 1999, which amount to \$43,062,700 gross (\$42,004,600 net).

The actions to be taken by the General Assembly are set out in paragraph 8.

I. Introduction

1. By its resolution 52/245 of 26 June 1998, the General Assembly appropriated the amount of \$21,053,745 gross (\$20,580,245 net) for the maintenance of the United Nations Preventive Deployment Force (UNPREDEP) for the period from 1 July 1998 to 30 June 1999, including the amount of \$1,053,745 for the support account for peacekeeping operations. Those amounts have been assessed on Member States. This was done in accordance with Security Council resolution 1142 (1997) of 4 December 1997, by which the Council extended the mandate of UNPREDEP for a final period until 31 August 1998, with the withdrawal of the military component immediately thereafter.
2. In accordance with Assembly resolution 52/1 B of 26 June 1998, the prorated share of UNPREDEP of \$168,800 in the financing of the United Nations Logistics Base at Brindisi (UNLB) for the period from 1 July 1998 to 30 June 1999 has been absorbed within the overall appropriation provided under Assembly resolution 52/245.
3. Subsequently, in its resolution 1186 (1998) of 21 July 1998, the Council extended the mandate of UNPREDEP until 28 February 1999 in view of the situation in the region. The General Assembly, in its resolution 53/20 of 2 November 1998, decided to appropriate an additional amount of \$29,000,000 gross (\$28,170,800 net) for the maintenance of the Force for the period from 1 July 1998 to 30 June 1999. The total amount appropriated by the General Assembly for the maintenance of UNPREDEP for the period from 1 July 1998 to 30 June 1999 therefore amounted to \$50,053,745 gross (\$48,751,045 net). A total of \$33,369,163 gross (\$32,500,697 net) has been assessed on Member States.
4. In paragraph 34 of his report to the Security Council (S/1999/161) dated 12 February 1999, the Secretary-General requested the extension of UNPREDEP's mandate for a period of six months, from 1 March until 31 August 1999. However, the mandate of the Force was not extended.
5. The present report contains the revised budget for the maintenance of UNPREDEP for the 12-month period from 1 July 1998 to 30 June 1999, including liquidation of the Force during the period from 1 March to 30 June 1999. Total revised requirements amount to \$43,062,700 gross (\$42,004,600 net), which are \$6,991,045 gross (\$6,746,445 net) less than the current appropriations.

II. Liquidation requirements

6. During the period from 1 July to 30 November 1998, the UNPREDEP military component was increased from 750 troops to 1,050 troops. It is projected that the phasing-out will be completed by 1 May 1999, as shown in annex III. The civilian component of the Force, including 26 civilian police, 68 international and 135 local staff, will be gradually phased out in accordance with the schedule shown in annex III. The phasing-out schedule of UNPREDEP vehicles and helicopters is provided in annex IV. Liquidation tasks to be performed in the mission area during the period from 1 March to 30 June 1999 will be as follows:

- (a) Review field accounts with the Accounts Division prior to withdrawal from mission;
- (b) Ensure that outstanding commercial claims are processed prior to final withdrawal of senior staff from field;

- (c) Request the mission to bring its Claims Review Board, Property Survey Board and Board of Inquiries cases up to date and establish receivables;
- (d) Review and forward standard format for disposal of assets and depreciation scales to the mission;
- (e) Ensure final preparation of final disposition of assets report prior to departure of the Chief Administrative Officer/Chief Financial Officer;
- (f) Follow-up on receiving and inspection reports from receiving missions;
- (g) Ensure that final internal audit is executed before withdrawal of senior staff;
- (h) Provide assistance to the Management Review Unit on audit observations;
- (i) Ensure collection of outstanding private telephone calls prior to closure of the mission;
- (j) Review allotment reports, in particular outstanding obligations, in conjunction with the Purchase and Transport Service;
- (k) Collect relevant data for the financial performance report from the Purchase and Transport Service, the Logistics and Communication Section and the Personnel Management and Support Service;
- (l) Review the status of action taken during the first stage with liquidation officers designated by the Personnel Management and Support Service and the Logistics and Communication Section;
- (m) Review with the Accounts Division, three months prior to the closing of the field office, the status of the field accounts;
- (n) Review the work plan submitted by the mission and make recommendations on incomplete matters;
- (o) Verify that all write-off cases have been submitted in accordance with financial regulations and rules.

III. Revised cost estimates for the period from 1 July 1998 to 30 June 1999

Table 1
Revised requirements

	<i>Appropriation General Assembly resolutions 52/245 and 53/20</i>	<i>Revised cost estimates</i>	<i>Reduced requirements</i>
Gross	\$50 053 745	\$43 062 700	(\$6 991 045)
Net	\$48 751 045	\$42 004 600	(\$6 746 445)

7. The revised budget for the maintenance of UNPREDEP for the 1998/99 fiscal year amounts to \$43,062,700 gross (\$42,004,600 net). The cost breakdown in annex I (column 1) shows the apportionment of the appropriation provided under General Assembly resolutions 52/245 of 26 June 1998 and 53/20 of 2 November 1998. The revised requirements for the period from 1 July 1998 to 30 June 1999 are shown in column 2. Expenditures for the period from 1 July 1998 to 28 February 1999 are shown in column 3. Liquidation costs of

UNPREDEP during the period from 1 March to 30 June 1999 are shown in column 4. Column 7 of annex I shows the variances between the apportionment and the revised 1998/99 costs. Supplementary information in respect of liquidation costs of UNPREDEP is provided in annex II, sections A, B and C: section A provides mission-specific costs and ratios, requirements for non-recurrent costs are provided in section B and a supplementary explanation is provided in section C. The phasing-out schedules of military and civilian personnel are provided in annex III and of vehicles and helicopters in annex IV.

IV. Action to be taken by the General Assembly at its fifty-third session

8. The action to be taken by the General Assembly at its fifty-third session in connection with the financing of UNPREDEP is as follows:

(a) To reduce the appropriation provided under General Assembly resolutions 52/245 and 53/20 for the maintenance of UNPREDEP for the period from 1 July 1998 to 30 June 1999 to the amount of \$43,062,700 gross (\$42,004,600 net);

(b) To assess the amount of \$9,693,537 gross (\$9,503,903 net) for the period from 1 July 1998 to 30 June 1999, in addition to the amount of \$33,369,163 gross (\$32,500,697 net) already assessed in accordance with General Assembly resolutions 52/245 and 53/20.

Annex I

Revised cost estimates for the period from 1 July 1998 to 30 June 1999

a In accordance with General Assembly resolutions 52/245 and 53/20.

b In accordance with General Assembly resolution 52/1 B, UNPREDEP's prorated share in the financing of the United Nations Logistics Base (UNLB) for the period from 1 July 1998 to 30 June 1999 has been absorbed within the overall appropriation provided under General Assembly resolution 52/245.

Annex II

Revised cost estimates for the period from 1 July 1998 to 30 June 1999: supplementary information

A. Mission-specific costs and ratios

Description	Previous submission	Average strength	Proposed estimates			Explanation
			Unit or

C. Supplementary explanation

1. The reduced requirements for the maintenance of UNPREDEP from 1 July 1998 until the end of its mandate on 28 February 1999 and its liquidation thereafter, as reflected in column 7 of annex I to the present report, result from the non-extension of the Force's mandate beyond 28 February 1999.

2. *Military observers.* The previous cost estimates were based on requirements for a total of 419 person-months and 35 rotations. The revised cost estimates are lower, primarily due to the reduction in deployment to 287 person-months. All military observers were repatriated in early March 1999 following the termination of the Force's mandate on 28 February 1999. Travel requirements are higher due to the need to provide for repatriation travel as well as rotation travel.

3. *Military contingents.* Provisions under this heading in the previous cost estimates were based on the deployment of a total of 11,700 person-months, deployment travel for 300 additional troops and rotation travel every six months. The revised requirements are lower due to the repatriation of troops following the termination of the mandate on 28 February 1999. The revised requirements also include provision of \$900,000 for reimbursement to a Government for rotation and repatriation of its troops for the period from May 1996 to June 1998 and repatriation of 150 troops pursuant to Security Council resolution 1110 (1997). The phasing-out of contingent personnel was to be completed by 30 April 1999, as shown in annex III of the present report.

4. *Other costs pertaining to military personnel.* Requirements for reimbursement of contingent-owned equipment and self-sustainment from the inception of UNPREDEP to the end of its mandate on 28 February 1999 are estimated at \$29,034,271 and \$6,483,754, respectively. Budgets covering the period from 1 January 1996 to 30 June 1998 were based on reimbursement under the old methodology, i.e., at 10 per cent per annum of the total value of contingent-owned equipment, which had been estimated at \$45,384,000. Separate provision was made for spare parts under various line items, which were to be reimbursed under letter of assist arrangements. Agreements were signed in 1998 with the countries providing equipment in support of the operation, two of which were subsequently revised to take into account changes in the Force's strength authorized by the Security Council in its resolutions 1110 (1997) of 28 May 1997 and 1186 (1998) of 21 July 1998. All troop-contributing countries have opted for the new wet-lease arrangements for reimbursement of contingent-owned equipment. Services to be provided under self-sustainment are shown in annex II.A. The total resources required for reimbursement of contingent-owned equipment and self-sustainment, together with the resources provided to date and the resulting shortfalls, are summarized in the table below. The shortfall amounts are included in the liquidation cost estimates contained in annex I.

Requirements for reimbursement of contingent-owned equipment and self-sustainment
(United States dollars)

	Contingent-owned equipment (COE)	Self-sustainment
1. Total estimated amount owed	29 034 271	6 483 754
2. Funds available for:		
COE	23 522 300	—
Motor vehicles spare parts	3 362 852	—
Communication spare parts	686 048	—
Other equipment spare parts	261 550	—
Self-sustainment	—	2 237 600
Subtotal	27 832 750	2 237 600
3. Shortfall (1 less 2)	1 201 521	4 246 154

5. *Civilian police.* The previous cost estimates were based on requirements for a total of 312 person-months and 26 rotations. The revised cost estimates are lower, partly due to the reduction in deployment to 215 person-months. Nineteen civilian police monitors were transferred to UNMIBH and seven civilian police monitors were repatriated following the termination of the Force's mandate on 28 February 1999. Travel requirements are lower as a result of the transfer of 19 civilian police to UNMIBH.

6. *International and local staff.* Requirements under this heading have been reduced from 791 person-months to 675 person-months for international staff, and from 1,470 person-months to 1,094 person-months for locally recruited staff. Vacancy rates were higher than anticipated during the first eight months and staff were either repatriated or terminated following the expiration of the mandate on 28 February 1999. The monthly deployment of international and local staff is shown in annex III, including those required to perform liquidation activities during the period from 1 March to 30 June 1999.

7. *Premises/accommodation.* The current cost estimates under this heading are lower due to reduced requirements for maintenance supplies and services and utilities as a result of the termination of UNPREDEP's mandate and the repatriation of personnel. However, there are additional requirements under rental of premises to provide for the three-year storage of the Force's files at headquarters and for the renovation of offices and camps prior to handover to the host Government. The detailed breakdown of the renovation projects to be undertaken is shown in annex II.B.

8. *Infrastructure repairs.* Reduced requirements under this heading are due to the fact that fewer projects were undertaken than originally planned in view of the termination of the mandate.

9. *Transport operations.* Requirements under this heading have been reduced significantly for the following reasons: (a) no vehicles or workshop equipment will be procured in view of the termination of the mandate, and (b) the drawdown of vehicles as shown in annex IV, which has resulted in lower operating costs. The revised requirements include also provision of \$171,600 for the repainting of 132 contingent-owned vehicles, at \$1,300 per vehicle.

10. *Air operations.* Reduced requirements under air operations result from the phasing-out of helicopters as shown in annex IV. Limited air support will be needed during the

liquidation period. The revised cost estimates also include provision for the depositing of the two MI-8 helicopters, at \$8,000 each.

11. *Communications.* Lower requirements under communications are due to the non-procurement of most of the items of equipment contained in annex II.B of document A/53/437 and reduced operating costs due to the termination of the mandate.

12. *Other equipment.* The reduced requirements under this heading are due to the fact that most of the items of equipment shown in annex II.B of document A/53/437 were not procured since the mandate of the Force was not extended beyond 28 February 1999.

13. *Supplies and services.* Requirements under this heading have been reduced due to the repatriation of personnel following the termination of the mandate. There are additional requirements, however, for security services. Higher requirements for security services relate to the need to hire 10 security guards during the liquidation period to safeguard United Nations assets at observation posts and the holding area at Petrovec, plus 10 guards at the headquarters buildings following the withdrawal of the military guards at the end of March 1999.

14. *Public information programmes.* Requirements under this heading have been reduced as a result of the termination of the mandate. Provision has been made in the liquidation cost estimates for the hiring of a local photographer with equipment, who will cover events connected with the liquidation of the mission.

15. *Training programmes.* Training programmes were curtailed following the termination of the mandate resulting in reduced budgetary requirements.

16. *Air and surface freight.* Additional requirements under this heading relate to the repatriation of contingent-owned equipment. The previous cost estimates only included provision for the deployment of additional contingent-owned vehicles, not for repatriation.

17. *United Nations Logistics Base, Brindisi.* In accordance with General Assembly resolution 52/1 B of 26 June 1998, the prorated share of UNPREDEP in the financing of the United Nations Logistics Base at Brindisi for the period from 1 July 1998 to 30 June 1999 has been absorbed within the overall appropriation provided under Assembly resolution 52/245.

18. *Support account for peacekeeping operations.* An amount of \$1,053,700 for the support account for peacekeeping operations has been provided for by the General Assembly in resolution 52/245 of 26 June 1998.

19. *Staff assessment.* Staff costs have been shown on a net basis under line item 2 (b) of annex I to the present report. The estimate under this heading represents the difference between gross and net emoluments, that is, the amount of staff assessment to which United Nations staff members are subject, in accordance with the Staff Regulations of the United Nations.

20. *Income from staff assessment.* The staff assessment requirements provided for under expenditure budget line item 19 (see annex I to the present report) have been credited to this item as income from staff assessment, and will be credited to the Tax Equalization Fund established by the General Assembly in its resolution 973 A (X) of 15 December 1955. Member States are given credit in the Fund in proportion to their rates of contribution to the UNPREDEP budget.

Annex III

Phasing-out schedule of military and civilian personnel
