IDENTICAL LETTERS DATED 3 MAY 1999 FROM THE PERMANENT REPRESENTATIVE
OF IRAQ TO THE UNITED NATIONS ADDRESSED TO THE SECRETARY-GENERAL AND
THE PRESIDENT OF THE SECURITY COUNCIL

On instructions from my Government, I have the honour to inform you that United States and United Kingdom aircraft based in Saudi Arabia, Kuwait and Turkey continued to violate Iraqi airspace between 23 and 30 April 1999 for the purposes of aggression, reconnaissance activities and provocation. These violations are detailed in the annex hereto.

I should be grateful if you would intervene with the United States of America, the United Kingdom and the States that facilitate these acts of aggression, namely, Saudi Arabia, Kuwait and Turkey, with a view to bringing a halt to such actions, which threaten the sovereignty and territorial integrity of the Republic of Iraq and constitute a flagrant violation of the Charter of the United Nations and the rules of international law.

These actions continue to cause death and injury to hundreds of civilians as well as damage to public and private property. Through the contemptible support which they provide to the United States of America and the United Kingdom, Saudi Arabia and Kuwait are fully abetting the acts of aggression against Iraq, and hence must bear international responsibility for these acts.

The Republic of Iraq reaffirms its right, as prescribed by law, to seek compensation for the damage which it and the Iraqi people have sustained as a result of these actions.

I should be grateful if you would have this letter and its annex circulated as a document of the Security Council.
