INTERNATIONAL HEALTH CONFERENCE

REGIONAL ARRANGEMENTS

Proposal Submitted by the Brazilian Delegation
1. Alternative B - 2. Regional Offices

1. Whenever regional organizations are already in existence, special agreements should be made with a view to utilizing their facilities and services to the fullest possible extent, as regional offices of the organization are to co-ordinate their specialized work on regional problems with the activities and over-all policy of the World Health Organization, so as to enable their gradual merging into the latter, upon agreement with the government concerned.
