"3. Requests the Secretary-General, through his Personal Representative, to render assistance to the members of the Regional Organization for the Protection of the Marine Environment in the formulation and implementation of a coordinated and consolidated programme of action comprising costed project profiles, to help identify all possible resources for the programme of action and, inter alia, for strengthening the environmental capacities of the members of the Regional Organization for the Protection of the Marine Environment to surmount the problem, and to allocate, within existing resources, the minimum resources required to enable his Personal Representative to continue to help coordinate the activities of the United Nations system to that end;
