Page 6, paragraph 7

The paragraph should read

7. Taking these issues into account, the present report sets out for consideration or action, as appropriate, by the General Assembly a number of proposals for giving effect to section IV of General Assembly resolution 33/202, together with the relevant background material. Section II of the report is concerned with the implementation of the provisions of resolution 33/202 in so far as they relate to the Office of the Director-General for Development and International Economic Co-operation and deals in that context with, *inter alia*, consultative arrangements on policy issues pertaining to economic and social activities; consultative arrangements concerning planning, programming, budgeting and evaluation; the functioning of reporting arrangements and the adjustments required to reflect the dimension of accountability implicit in section IV of resolution 33/202; interagency co-ordination; and the Director-General's resource requirements. Section III deals with the rationalization, streamlining and adjustments in the functioning of the new organizational entities established at Headquarters pursuant to General Assembly resolution 32/197 and with the implications of the restructuring process for other offices and departments. Paragraphs 13 to 15, 17, 24 (and the related organizational chart) and 25, 33, 37 to 39, 46, 56 and 58, and 60 and 61 would, in particular, seem to call for consideration or action by the General Assembly.
