SUBJECT INDEX .....	Yellow fascicle

# General Introduction

## SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

## ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. — .

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

# Introductory Note

1. The information below applies to documents and publications of all organs of the United Nations with the exception of the International Court of Justice.

## DISTRIBUTION CLASSIFICATION

2. The following classification categories apply to documents of the United Nations:

- (a) General: documents receiving full circulation.
- (b) Limited: documents for which wide circulation is unnecessary for any reason other than that given under (c), and, generally, for documents of a provisional nature, such as draft resolutions and amendments thereto, and similar action documents prepared for use at some meetings. Distribution of "Limited" documents is restricted to Representatives or Members of sessions of a particular body and to officially designated Observers of the body concerned. "Limited" documents are not available for distribution to depository libraries. For the most part, these texts are subsequently reproduced in, or become parts of, final reports which are issued in the "General" series.
- (c) Restricted: applied exclusively to documents whose content requires that they be treated as confidential or withheld from public circulation.

## OFFICIAL RECORDS

3. All printed *Official Records* of main organs are published in fascicle form. Each meeting record is published separately, as an individual booklet or fascicle. At the end of each session there is issued a prefatory fascicle which contains the following reference material: title-page, table of contents, list of representatives, agenda, and check list of the documents of the session, with indication of their republication. For ease of recognition, the fascicles of the opening and closing meetings are so identified in the masthead, and the prefatory fascicle is to be placed before the record of the opening meeting. Meeting records and prefatory fascicles of the *Official Records* of the General Assembly, the Economic and Social Council and the Trusteeship Council are bound together, in sessional volumes, for sales purposes. Meeting records of the Security Council and Disarmament Commission are available for sale as individual records of meetings.

## SALE OF PUBLICATIONS

4. Prices of printed documents and publications are indicated. All sales documents and publications are available in national currencies through authorized distributors, to whom all orders and inquiries should be sent. Orders and

inquiries from countries where distributors have not yet been appointed may be sent to:

Sales Section, Publishing Service, United Nations, New York, New York 10017	or	Distribution and Sales Section, United Nations Office, Geneva, Switzerland
--------------------------------------------------------------------------------------	----	----------------------------------------------------------------------------------

5. The studies and reports prepared by the Secretariat cover a variety of fields. For the convenience of purchasers, the United Nations has established a series of numbered categories for its publications other than periodicals, the *Treaty Series* and the various *Official Records*. The following categories have been established:

- I. General
- II. Economics and Finance
  - II.A. Economic Stability and Employment
  - II.B. Economic Development
  - II.C. World Economy
  - II.D. Trade, Finance and Commerce
  - II.E. European Economy
  - II.F. Asian Economy
  - II.G. Latin American Economy
  - II.H. Technical Assistance
  - II.K. African Economy
- III. Public Health
- IV. Social Questions
- V. International Law
- VI. Trusteeship and Non-Self-Governing Territories
- VII. Political and Security Council Affairs
- VIII. Transport and Communications
- IX. Atomic Energy
- X. International Administration
- XI. Narcotic Drugs
- XII. Education, Science and Culture
- XIII. Demography
- XIV. Human Rights
- XV. Relief and Rehabilitation
- XVI. Public Finance and Fiscal Questions
- XVII. International Statistics

6. Each printed publication, with the exception of periodicals, the *Official Records* and the *Treaty Series*, carries on the inside front cover or on the reverse of the title-page a box containing a United Nations publication sales number consisting of the year of publication, the category number of the publication (in roman numerals) and the number of the publication in this particular category (in arabic numerals) issued during the year. The official document number should not be confused with the publication sales number, and need not be quoted unless the document does not bear a publication sales number.

## SUBSCRIPTIONS

7. Certain periodical publications, such as the *United Nations Review* and the *Monthly Bulletin of Statistics*, are offered at a fixed annual subscription. Some mimeographed document series are also available by subscription. For information, see the catalogue of United Nations publications.

## STANDING ORDERS

8. Other publications, such as the *Treaty Series* and the various *Official Records*, appear at intervals in numbered series, but there is at present no established annual subscription price for them. Standing orders for these publications may be accepted by authorized distributors, however. Under this arrangement, publications are mailed by this distributor immediately upon issue and an invoice is rendered periodically for publications dispatched, plus postal charges.

9. Many distributors will also maintain standing orders for persons interested in publications in any of the individual categories listed in paragraph 5 above. It is at present impossible to establish an annual subscription rate in advance for any of these categories.

10. Libraries or individuals desiring a copy of every printed publication issued by the United Nations may arrange with distributors for an "overall" standing order, whereby all *Official Records*, Secretariat studies and reports, etc. (except periodicals), will be mailed to them upon publication. Subscriptions to United Nations periodicals must be entered separately, even by libraries and individuals placing an "overall" standing order.

## FREE DISTRIBUTION

11. Documents and publications are distributed to Member States, specialized agencies, non-governmental organizations, and depository libraries, under agreed arrangements. It should be noted that documents published in Geneva by ECE, in Bangkok by ECAFE, in Santiago by ECLA, or in Addis Ababa by ECA cannot be distributed to some recipients as quickly as those originating at Headquarters. Documents of the subsidiary organs of ECA, ECAFE and ECLA are not distributed to depository libraries outside the respective regions, and are not available upon request, except in special circumstances. Documents of missions in the field are not available for distribution.

12. The Office of Public Information issues basic material which may be obtained on request by the press, schools, centres of international study, public libraries, and non-governmental organizations. Inquiries should be directed to the Office of Public Information, United Nations, New York, or to United Nations Information Centres.

13. For information concerning free publications of the United Nations Children's Fund (UNICEF), address the Information Section, United Nations Children's Fund, United Nations, New York.

## DEPOSITORY LIBRARIES

14. A network of depository libraries has been established by the United Nations, so that throughout the world there are reference collections of documents of the United Nations accessible to the public. A consolidated list of libraries and Information Centres receiving United Nations material is issued under symbol ST/LIB/12/Rev.-.

15. The Library is authorized to designate at least one depository library in each Member State. In States of very large area or population, additional depository libraries may be designated. These depository libraries are entitled to receive all generally distributed documents and publications and in return are expected to make the collection available to the public. Many of these depositories send their own publications in exchange.

16. Centres of international study may also qualify to receive United Nations documents. A few libraries receive United Nations documents on an exchange basis, in return for extensive services and for publications made available to the United Nations Library.

## UNITED NATIONS INFORMATION CENTRES AND OFFICES

17. Information about United Nations documents may also be obtained from the United Nations Information Centres.

# INTERNATIONAL COURT OF JUSTICE

## PUBLICATIONS

1. The publications of the Court include:

The decisions given by the Court, consisting of judgments, advisory opinions and orders. Each decision is printed in a separate unbound edition. It is also possible to obtain, in January of each year, the collected reports for the preceding year in one bound volume (consecutive pagination is used through the year). For the benefit of those who obtain the reports at the time of their publication, a stiff cover may be purchased in which it is possible to assemble the separate reports and the index, which may also be purchased separately. The series in which these decisions are published is entitled *Reports of judgments, advisory opinions and orders*. This series is bilingual, English and French on facing pages.

The documentation of each case: pleadings, oral arguments, and other relevant documents. This publication appears after the Court has given its final decision in a case. The series is entitled *Pleadings, oral arguments, documents*. Documents, speeches of counsel, etc. are printed only in the language, English or French, in which they were submitted to the Court. Introductory material is bilingual, English and French.

Acts and documents concerning the organization of the Court. Only one volume has appeared, containing the English and French texts of the Charter of the United Nations, the Statute of the Court and the Rules of the Court, together with certain other documents. Bilingual, English and French on facing pages.

Yearbook. A yearbook appears in the autumn of each year, covering the period from August 1st of the previous year to July 31st of the current year. It contains information concerning the Court's basic texts, the organization of the Court and its composition (with biographies of the Judges), the Court's jurisdiction in contentious and advisory proceedings, the work of the Court during the year, the administration of the Court, the work of the Registry and the finances of the Court. The texts of declarations recognizing as compulsory the jurisdiction of the Court are reproduced in full, and other instruments governing the Court's jurisdiction are listed. Judgments or advisory opinions given during the course of the year are summarized. This series is published in two editions, the *Yearbook* in English and the *Annuaire* in French.

Bibliography. A bibliography is published at the beginning of each year listing all works and documents relating to the Court which have come to the Registry's attention during the previous year. Bibliographies Nos. 1-18 formed Chapter IX in the appropriate *Yearbook* or *Annuaire* up to the 1963-1964 editions, but Nos. 19 and onwards constitute a separate series of publications. Entries are in the original language of the title of the work or document listed; explanatory matter and indexes (cumulative from No. 19 onwards) are now in both English and French in the same volume.

Catalogue of Publications, in two editions, English and French. The last catalogue was published in 1967; an addendum appears each year.

## DISTRIBUTION AND SALE OF PUBLICATIONS

2. The above publications, which are edited by the Registry, are made available by the Registrar to all States entitled to appear before the Court and to international organizations. They may also be purchased by the public from bookstores and distributors throughout the world in the same way as United Nations publications. Enquiries concerning the sale of the Court's publications should be addressed not to the Registry of the Court but to the United Nations, Sales Section, New York, N.Y. 10017, or to the Distribution and Sales Section, 1211 Geneva 10, Switzerland. Standing orders may be placed with the United Nations Sales Sections for any or all series of I.C.J. publications.

## PRESS COMMUNIQUEs

3. The Registry issues communique's relating to the activities of the Court. These are put at the disposal of the Press and the general public.

## REQUESTS FOR INFORMATION

4. Enquiries concerning the work of the Court should be addressed to:

**UNITED NATIONS  
DOCUMENTS INDEX**

*Subject Index*

**JANUARY 1972  
Volume 23, No. 1**

# Introductory Note

## GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

## ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

## ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

## REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

## LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

SUBJECT INDEX .....	Yellow fascicle

# General Introduction

## SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

## ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. --.

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS  
DOCUMENTS INDEX**

*Subject Index*

**FEBRUARY 1972  
Volume 23, No. 2**

# Introductory Note

## GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

## ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

## ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

## REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

## LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

# General Introduction

## SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

## ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. — .

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS  
DOCUMENTS INDEX**

*Subject Index*

**MARCH 1972  
Volume 23, No. 3**

# Introductory Note

## GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

## ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

## ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

## REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

## LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

# General Introduction

## SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

## ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. - .

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS  
DOCUMENTS INDEX**

*Subject Index*

**APRIL 1972  
Volume 23, No. 4**

# Introductory Note

## GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

## ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

## ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

## REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

## LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

LIST OF DOCUMENTS AND PUBLICATIONS ISSUED .....	p.188
LIST OF SALES PUBLICATIONS .....	p.201
SUBJECT INDEX .....	Yellow fascicle

# General Introduction

## SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

## ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. --

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS  
DOCUMENTS INDEX**

*Subject Index*

**MAY 1972  
Volume 23, No. 5**

# Introductory Note

## GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

## ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

## ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

## REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

## LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

# General Introduction

## SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

## ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. - .

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS  
DOCUMENTS INDEX**

*Subject Index*

**JUNE 1972  
Volume 23, No. 6**

# Introductory Note

## GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

## ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

## ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

## REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

## USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

## LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.
