General Introduction

SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. - .

7. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS
DOCUMENTS INDEX**

Subject Index

**JULY/AUGUST 1972
Volume 23, Nos. 7/8**

Introductory Note

GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

LIST OF DOCUMENTS AND PUBLICATIONS ISSUED ----- p.320
LIST OF SALES PUBLICATIONS ----- p.330
SUBJECT INDEX ----- Yellow fascicle

General Introduction

SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also (a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; (b) a consolidated list of documents republished in the *Official Records* or elsewhere; (c) a consolidated list of sales publications; (d) a list of new document series symbols.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. — .

7. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS
DOCUMENTS INDEX**

Subject Index

SEPTEMBER 1972
Volume 23, No. 9

Introductory Note

GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

LIST OF DOCUMENTS AND PUBLICATIONS ISSUED	p.360
LIST OF DOCUMENTS REPUBLISHED	p.373
LIST OF SALES PUBLICATIONS	p.374
SUBJECT INDEX	Yellow fascicle

General Introduction

SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; b) a consolidated list of documents republished in the *Official Records* or elsewhere; c) a consolidated list of sales publications; d) a list of new document series symbols.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. — .

7. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

**UNITED NATIONS
DOCUMENTS INDEX**

Subject Index

**OCTOBER 1972
Volume 23, No. 10**

Introductory Note

GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

LIST OF DOCUMENTS AND PUBLICATIONS ISSUED ----- p. 406

LIST OF DOCUMENTS REPUBLISHED ----- p. 418

LIST OF SALES PUBLICATIONS ----- p. 421

SUBJECT INDEX ----- Yellow fascicle

General Introduction

SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; b) a consolidated list of documents republished in the *Official Records* or elsewhere; c) a consolidated list of sales publications; d) a list of new document series symbols.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. — .

7. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS
DOCUMENTS INDEX**

Subject Index

**NOVEMBER 1972
Volume 23, No. 11**

Introductory Note

GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.

LIST OF DOCUMENTS AND PUBLICATIONS ISSUED ----- p.457

SUBJECT INDEX ----- Yellow fascicle

General Introduction

SCOPE

1. The *United Nations Documents Index*, prepared by the Documentation Division of the United Nations Headquarters Library, New York, lists and indexes all documents and publications of the United Nations--except restricted material and internal papers-- and all printed publications of the International Court of Justice.

ARRANGEMENT

2. Documents and publications are entered in the checklist section according to their series symbols. Publications which do not bear a symbol are entered by title under the issuing body. The appropriate section in the *Cumulative Index* should be consulted for general information on the system of document series symbols. For information on the sequence of the entries in the checklist see the table of contents, and for the arrangement of the subject index see the introductory note to that section (yellow pages).

MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Documentation Division during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the checklist; b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; c) a list of sales publications. The third section is a combined author-subject index to the documents described in the checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the checklist.

CUMULATIVE EDITIONS

5. Beginning with vol. 14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

The *Cumulative Index* is a consolidation of the twelve monthly subject indexes. It contains also a) a consolidated list by symbol of all documents and publications issued by the United Nations and the International Court of Justice during the year; b) a consolidated list of documents republished in the *Official Records* or elsewhere; c) a consolidated list of sales publications; d) a list of new document series symbols.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications. A list of libraries and Information Centres receiving United Nations material is issued each year under symbol ST/LIB/12/Rev. — .

7. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at annual subscription rate of \$U.S. \$25.00 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at \$U.S. 1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Distribution and Sales Section, United Nations Office at Geneva, 1211 Geneva 10, Switzerland.

**UNITED NATIONS
DOCUMENTS INDEX**

Subject Index

**DECEMBER 1972
Volume 23, No. 12**

Introductory Note

GENERAL

1. This index contains subject as well as author and title headings relating to the entries in the checklist section. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, *e.g.*, Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, *e.g.*, CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, *e.g.*, SEMINAR ON POPULATION PROBLEMS IN AFRICA (ECA/UN), Cairo 1962.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, *e.g.*, ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

ABBREVIATIONS

3. Abbreviations of names of agencies etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the checklist section. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the checklist section where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are not for general distribution, deposit or sale.

USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued. This listing, intended mainly to record translations from the language of original issue, does not necessarily parallel the checklist. The bibliographical description of a given document may therefore be found in an issue of the monthly *United Nations Documents Index* following or preceding the one in which the language editions are listed.
