I. INTRODUCTION

1. The present report is submitted in conjunction with the earlier report of the Secretary-General on the financing of the United Nations Operation in Somalia II (UNOSOM II) (A/48/850/Add.1) to provide the financial performance report of the Operation for the period from 1 November 1993 to 31 May 1994, as indicated in paragraph 24 of that report. In addition, the present report contains the revised cost estimate for the period 1 June to 30 September 1994 and the monthly cost thereafter.
2. In his report to the Security Council on Somalia of 17 August 1994, 1/ the Secretary-General recommended that the UNOSOM II force be reduced by 1,500 by the end of September 1994 and brought down to 15,000, all ranks, by the end of October 1994 from the strength of 22,000 authorized under Security Council resolution 897 (1994) of 4 February 1994. In its Presidential statement of 25 August 1994, 2/ the Council, inter alia, expressed its belief that the Secretary-General's proposed initial reduction of the UNOSOM II troops was appropriate in the circumstances prevailing in Somalia. Accordingly, the Force Commander took immediate steps to reduce the force level in line with the proposals referred to above.
3. In his further report of 17 September 1994 to the Security Council concerning the situation in Somalia 3/ the Secretary-General stated that, in view of the current developments, as well as the assessment of the situation on the ground that was being undertaken by the Secretariat, he expected to be in a position to submit to the Security Council his assessment of the prospects of national reconciliation and recommendations for the future of the United Nations Operation in Somalia by mid-October 1994. The Secretary-General therefore recommended that the Council consider extending the mandate of UNOSOM II for a period of one month until 31 October 1994.
4. By its resolution 946 (1994) of 30 September 1994, the Security Council extended the mandate of UNOSOM II until 31 October 1994, prior to which the Council would undertake a thorough examination of the mandate of UNOSOM II with a view to deciding its future.
5. In anticipation of the decision of the Security Council on the extension of the mandate of UNOSOM II, the Controller requested, in a letter dated 29 September 1994 to the Chairman of the Advisory Committee on Administrative and Budgetary Questions, the Committee's concurrence to utilize part of the projected unencumbered balance of commitment authorization from the mandate period ending 30 September 1994 in the amount of \$54,458,300 gross (\$53,624,600 net) for the maintenance of UNOSOM II for the month of October 1994.
6. In a letter dated 18 October 1994 to the Secretary-General, the Advisory Committee concurred in the request to enter into commitments in the amount of up to \$54,458,300 gross (\$53,624,600 net) from the unencumbered balance for the maintenance of UNOSOM II for the month of October 1994, pending submission of the present report to the General Assembly.

7. In his report of 14 October 1994 to the Security Council concerning the situation in Somalia (S/1994/1166) the Secretary-General stated that if the Security Council maintained its earlier decision to end the mission of UNOSOM II in March 1995, time would be required to ensure that the withdrawal of forces and assets takes place in a secure, orderly and expeditious manner. In the light of these considerations, the Secretary-General recommended that the Security Council extend the mandate of the mission until 31 March 1995.

8. Should the Security Council concur with the recommendation of the Secretary-General, revised cost estimates will be submitted to the General Assembly to provide for the closure of the Operation within the time-frame established by the Council.

II. FINANCIAL PERFORMANCE REPORT FOR THE PERIOD FROM 1 NOVEMBER 1993 TO 31 MAY 1994

9. Annex I to the present report provides a summary of the apportionment, by budget-line item, of the amount appropriated to UNOSOM II of \$639,399,300 gross (\$634,214,900 net) for the period from 1 November 1993 to 31 May 1994 under General Assembly resolution 48/239 of 24 March 1994. It also indicates expenditure for the same period in the amount of \$613,966,100 gross (\$610,439,200 net) and reflects an unutilized balance of \$25,433,200 gross (\$23,775,700 net), after making a provision for an amount of \$3,900,000, pending a final determination as to the loss of cash. Supplementary information on the financial performance report is presented by budget-line item in annex II. The authorized staffing, incumbency and vacancy rate for the civilian personnel, and troop strength, actual deployment and vacancy rate for military contingents for that period are shown in annex VIII.

10. In view of the unusual circumstances under which the mission operated during the reporting period, the estimated expenditures are provisional. Additional information on the performance report will be presented at a later date.

III. REVISED COST ESTIMATE FOR THE PERIOD FROM 1 JUNE TO 30 SEPTEMBER 1994

11. The current revised cost estimate for the maintenance of UNOSOM II for the four-month period from 1 June to 30 September 1994 amounts to \$245,447,700 gross (\$242,110,600 net) and is \$62,243,200 gross (\$61,221,500 net) lower than the original revised cost estimate as shown in annex III and detailed in annex IV of A/48/850/Add.1. A summary of the current revised cost estimate for the period ending 30 September 1994 is shown in column 3 of annex III to the present report, and the budget-line items that reflect an increase/decrease are detailed in annex IV. The proposed staffing for the period 1 June to 30 September 1994 is shown in annex IX.

IV. COST ESTIMATE FOR THE PERIOD FROM 1 TO 31 OCTOBER 1994

12. The cost estimate for the maintenance of UNOSOM II for the month of October 1994 amounts to \$54,456,300 gross (\$53,621,600 net) and is shown in column 3 of annex V. Annex VI contains supplementary information thereon. This amount is \$12,629,600 gross (\$12,074,800 net) lower than the pro-rated monthly cost estimate for the period from 1 October 1994 to 31 March 1995, as contained in annex III to document A/48/850/Add.1. The civilian staff and related costs for the period from 1 to 31 October 1994 are shown in annex XI.

V. MONTHLY COST ESTIMATE FOR THE PERIOD
AFTER 31 OCTOBER 1994

13. The monthly cost estimate for the maintenance of UNOSOM II for the period after 31 October 1994 is based on the average troop strength of 15,000, all ranks, and amounts to \$58,513,300 gross (\$57,678,600 net), inclusive of an additional provision of \$10 million for the reimbursement of the cost of contingent-owned equipment to the troop-contributing Governments. This amount is \$8,572,600 gross (\$8,017,800 net) lower than the pro-rated monthly cost estimate for the period from 1 October 1994 to 31 March 1995 as contained in annex III to document A/48/850/Add.1. A summary of the monthly cost estimate for the maintenance of UNOSOM II after 31 October 1994 is shown in column 4 of annex V, and supplementary information thereon is presented in annex VII. The civilian staff and related costs for the period after 31 October 1994 are shown in annex XI.

VI. ACTION TO BE TAKEN BY THE GENERAL ASSEMBLY
AT ITS FORTY-NINTH SESSION

14. The actions to be taken by the General Assembly at its forty-ninth session in connection with the financing of UNOSOM II are as follows:

(a) The appropriation of \$245,447,700 gross (\$242,110,600 net) for the maintenance of the Operation for the period from 1 June to 30 September 1994, already authorized by the General Assembly in its resolution 48/239;

(b) The assessment of an additional amount of \$90,562,666 gross (\$89,445,776 net) for the maintenance of UNOSOM II for the period from 1 June to 30 September 1994, taking into consideration the amount of \$154,885,034 gross (\$152,664,834 net) already assessed in accordance with resolution 48/239;

(c) A decision to set off against the assessment among Member States for the period from 1 June to 30 September 1994 their respective share in the additional unencumbered balance of \$2,498,300 gross (\$1,920,400 net) for the period ending 31 October 1993;

(d) A decision to set off against the assessment among Member States for the period from 1 June to 30 September 1994 their respective share in an unencumbered balance of \$25,433,200 gross (\$23,775,700 net) for the period ending 31 May 1994;

/...

(e) The appropriation of \$54,456,300 gross (\$53,621,600 net) for the maintenance of the Operation for the period from 1 to 31 October 1994;

(f) With regard to the period after 31 October 1994, provision by means of an authorization of \$58,513,300 gross (\$57,678,600 net) for the maintenance of UNOSOM II on a monthly basis and for the assessment of such amounts, should the Security Council decide to extend the mandate of UNOSOM II beyond 31 October 1994.

Savings totalling \$14,100,900 under standard troop cost reimbursement (\$11,074,400), welfare (\$676,900), daily allowance (\$542,900), meal and accommodation allowance (\$89,600) and emplacement, rotation and repatriation of troops (\$1,717,100) were partially offset by additional requirements of \$2,831,000 under rations.
3. The authorized troop strength was 28,000, all ranks, for the period from 1 November 1993 to 28 February 1994 and 22,000, all ranks, from 1 March to 31 May 1994, with a monthly average of 25,161 troops, all ranks. Resources provided for military contingents were based on the estimated 176,129 person-months.
4. During the reporting period, the actual deployment was 166,219 person-months, with a monthly average troop strength of 23,746, all ranks, resulting in savings under standard troop cost reimbursement, welfare, daily allowance, and emplacement, rotation and repatriation of troops. Savings under meal and accommodation allowance in the amount of \$89,600 were attributable to actual expenditure incurred in respect of travel of 104 person-days, which was lower than the projected 1,000 person-days. Authorized troop strength, deployment and vacancy rate for the period from 1 November 1993 to 31 May 1994 are shown in annex VIII, section B.
5. The overexpenditure under rations is attributable to the payment in the amount of \$5,536,400 for rations provided to one of the contingents in the previous mandate period ending 31 October 1993. No obligation for this expenditure was made in that mandate, and savings in the amount of \$8,494,900 were reported under this heading in the revised financial performance report for that period contained in the report of the Secretary-General on the financing of UNOSOM II (A/48/850/Add.1).

2. Civilian personnel costs

(a) Civilian police -

6. No provision was made under this heading.

(b) International and local staff 9 549 500

7. Savings totalling \$9,649,300 under international staff salaries (\$1,073,200), local staff salaries (\$1,245,400), common staff costs (\$4,007,500), mission subsistence allowance (\$582,300) and travel to and from the mission area (\$2,740,900) were partially offset by additional requirements under other official travel (\$99,800).

8. Savings under international staff salaries, common staff costs, mission subsistence allowance and local staff salaries are attributable to delays in the deployment of international staff and a higher than originally envisioned vacancy rate for local staff. Savings under travel to and from the mission area are the result of lower actual travel (386 trips as compared to the 717 trips originally budgeted). Authorized staffing, incumbency and vacancy rates for civilian personnel are shown in annex VIII, section A.

9. Additional requirements under other official travel are attributable to increased travel for liaison meetings and consultations.

(c) International contractual personnel 1 243 200

10. Provision was made for the deployment of the international contractual personnel for 400 person-months. Actual deployment during the reporting period was 104 person-months, which resulted in the savings.

(d) United Nations Volunteers 2 437 200

11. Provision was made for the phased deployment of up to 225 United Nations Volunteers for 733 person-months. Actual deployment during the reporting period was 48 person-months, which resulted in the savings.

(e) Government-provided personnel 189 300

12. Actual expenditure for the payment of subsistence allowance and travel of government-provided personnel amounted to \$20,700, resulting in savings of \$189,300.

(f) Conference costs (149 100)

13. Additional requirements under this budget-line item are the result of increased participation of Somali representatives in the United Nations-sponsored conferences.

3. Premises/accommodation (9 285 300)

14. Additional requirements of \$10,280,300 under rental of premises (\$3,722,800), alterations and renovation of premises (\$1,182,900), construction/prefabricated buildings (\$2,686,400) and utilities (\$2,688,200) were partially offset by a savings in the amount of \$995,000 under maintenance supplies and services.

15. Additional requirements under rental of premises are attributable to the deteriorating security situation and the need to provide secure accommodation for staff. Additional expenditure was also incurred for the rental of warehouses and container yards. During the reporting period, a total of 103 housing units were rented, while the provision was made for a total of 55 units. Overexpenditure under utilities is directly related to the rental of additional 48 housing units.

16. Additional requirements under alterations and renovation of premises are the result of the increased programme of repairs of living and working premises not included in the budget estimate and of the purchase of general building materials.

17. No provision was made in the reporting mandate period for construction/prefabricated buildings. The expenditure incurred in the amount of \$2,686,400 was related to the costs of completion, furnishing and improvement of the 800-person camp in the embassy compound (\$560,700), rehabilitation of infrastructure utilities at the United States compound (\$125,100), construction work on Skanska camp and 100 pre-fabricated ablution units (\$1,099,400), construction management services (\$835,200) and transportation of accommodation containers (\$66,000).

18. Savings under maintenance services relate to the reduced requirement for the upkeep and maintenance of office and living accommodations in the headquarters compound.

4. Infrastructure repairs 16 846 700

19. Savings realized under this heading were the result of the postponement of the implementation of the programme of infrastructure repairs as a consequence of the security situation in Somalia. The extensive road repair work planned for the reporting period was carried forward to the following mandate period.

5. Transport operations 6 467 100

20. Savings totalling \$8,263,400 under workshop equipment (\$533,300), spare parts, repairs and maintenance (\$6,722,500), petrol, oil and lubricants (\$13,900) and vehicle insurance (\$993,700) were partially offset by additional requirements totalling \$1,796,300 under purchase of vehicles (\$1,024,800) and rental of vehicles (\$771,500).

21. Additional requirements under purchase of vehicles are attributable to the procurement of 10 container load trailers (\$1,153,200), a five-ton forklift

(\$48,000) and an armour-plated driver's cabin for a scoop loader (\$6,300) for which no budgetary provision had been made.

22. Additional requirements under rental of vehicles are attributable to the security situation in Somalia, which necessitated rental of vehicles as opposed to the use of UNOSOM-owned vehicles. The original cost estimate provided for rental of 200 vehicles for seven months and 100 vehicles for three months at a total cost of \$2,550,000. Actual expenditure resulted from the rental of 136 light vehicles at a cost of \$75 per day (\$2,162,400) and 21 heavy vehicles at a cost of \$101 per day (\$449,700), both inclusive of the cost of a driver, petrol, oil and lubricants; rental of vehicles in the Nairobi office (\$67,200), other rental for security reasons (\$403,400) and rental of vehicles in the zones (\$238,800).

23. Savings under workshop equipment are the result of limited purchases of automotive tools and equipment. The planned acquisition of equipment for workshops in the five zones was not completed as originally foreseen.

24. Savings under spare parts, repairs and maintenance are attributable to the following: (a) the amount of \$10,479,900 for spare parts and repairs billed by a Member State as part of logistical support services was reflected under contractual services; and (b) no bills were received for military-pattern vehicles, for which provision was made in the reporting period in the amount of \$16,362,500.

25. Savings of \$13,900 for petrol, oil and lubricants is attributable to reduced consumption of petrol. Savings under vehicle insurance are the result of delays in finalizing insurance arrangements.

6. Air operations

(a) Helicopter operations 4 727 700

26. The original cost estimate provided for a total of 302 helicopter-months, based on the rental of 20 medium-lift MI-17 utility helicopters, four heavy-lift MI-26 helicopters and 19 government-provided military helicopters. The 20 medium-lift MI-17 helicopters were withdrawn from the fleet at the end of February 1994 and were replaced by 27 more fuel-efficient Bell-212 helicopters, resulting in savings under helicopter fuel and lubricants. Savings under helicopter hire/charter costs are attributable to the renegotiation of the rental costs of eight Cobra helicopters, resulting in a reduction of \$3,303,940. Additional savings in the amount of \$437,500 were realized during the phasing-in of Bell-212 helicopters in March 1994. Savings under liability insurance costs are attributable to the fact that these costs were included in the hire costs.

27. Replacement of 20 MI-17 helicopters with 27 Bell-212 helicopters in March 1994 resulted in overexpenditure in painting/preparation/positioning costs.

(b) Fixed-wing aircraft 3 710 200

28. Savings totalling \$3,710,200 under hire/charter costs (\$1,998,800), painting/preparation/positioning (\$207,000) and liability insurance (\$1,504,400) were reported.

29. In the original estimates, provision was made for the commercial hiring of 14 fixed-wing aircraft for a total of 81 aircraft-months, based on the rental of three heavy cargo, one tanker, four medium-lift cargo, two medium-sized passenger/cargo and four light passenger aircraft. The actual configuration of the fixed-wing aircraft fleet was as follows: two heavy cargo, three medium-lift cargo, four medium-sized passenger/cargo and five light passenger aircraft. Additional aircraft were chartered for short periods of time as necessary. The savings of \$1,998,800 under hire/charter costs reflect reported expenditure.

30. Savings under painting/preparation/positioning in the amount of \$207,000 are the result of the fact that some of the aircraft were already positioned in East Africa, reducing the cost of positioning.

31. Savings of \$1,504,400 under liability insurance resulted from insurance costs having been included in the hire/charter costs.

(c) Air crew subsistence allowance 391 500

32. Savings of \$391,500 are attributable to a reduction of flights to Djibouti, resulting in the corresponding reduction in requirements for subsistence allowance.

(d) Other air operation costs

(i) Air traffic control services and equipment -

33. No provision was made under this heading.

(ii) Landing fees and ground handling (660 400)

34. Additional requirements of \$660,400 resulted from the unforeseen charges for ground handling and landing fees by airport authorities of one of the countries neighbouring Somalia.

7. Naval operations -

35. No provision was made under this heading.

8. Communications (3 041 200)

36. Additional requirements totalling \$3,968,100 under communications spare parts and supplies (\$140,400), workshop and test equipment (\$2,853,900) and commercial communications (\$973,800) were partially offset by savings under communications equipment (\$926,900).

37. Additional requirements under spare parts and supplies resulted from purchases to complete the new telephone system at the embassy compound, the UHF trunking system for Mogadishu, VIASAT stations in the zones and for the HF/VHF mobile stations and microwave and radio communications equipment to connect mission headquarters with remote areas.

38. Additional requirements under workshop and test equipment resulted from the payment to one of the troop-contributing countries of the amount of \$2,967,890 in respect of workshop and test equipment that was not budgeted for in the reporting period. In addition, expenditure in the amount of \$61,000 was incurred for the purchase of tool kits, telecommunications tools and equipment and repair kits. Additional requirements under commercial communications resulted from the increase in charges for the rental of mobile telephones, postage, long-distance telephone and pouch services.

39. Savings under communications equipment resulted from the transfer of equipment from UNTAC that was initially budgeted as new equipment, thus resulting in no charge to the mission.

9. Other equipment (11 188 400)

40. Additional requirements totalling \$14,355,800 under office equipment (\$236,400), data-processing equipment (\$561,300), generators (\$2,014,300), petrol tank plus metering equipment (\$1,693,600), accommodation equipment (\$666,000), spare parts, repairs and maintenance (\$8,067,300), refrigeration equipment (\$57,300), medical and dental equipment (\$100,000) and miscellaneous equipment (\$959,600) were partially offset by savings totalling \$3,167,400 under office furniture (\$334,000), water purification and water tank equipment (\$400) and tentage (\$2,833,000).

41. Additional requirements under office and data-processing equipment resulted from local procurement to replace broken/damaged equipment. Acquisition of petrol tank and metering equipment exceeding the original estimate was necessitated by the logistics and security situations during the reporting period. Additional requirements under medical and dental equipment resulted from the purchase of 1,000 first aid kits (\$53,000) and medical equipment for a field hospital of one of the troop-contributing countries (\$47,000), which was not originally envisioned. Additional requirements under accommodation equipment resulted from the acquisition of extra accommodation equipment for the additional 48 rental units. Purchases of miscellaneous equipment in excess of quantities budgeted were required to meet the equipment needs of the mission owing to the security situation in the reporting period. Additional requirements under spare parts, repairs and maintenance were the result of the settlement with participating countries in the amount of \$8,137,400, originally budgeted under contractual services and charged to this account upon receipt of the invoice. Mission requirements necessitated the acquisition of refrigeration equipment and generators, for which no provision had been made.

10. Supplies and services

(a) Miscellaneous services (19 348 100)

42. Additional requirements of \$19,348,100 under contractual services (\$19,830,400) were partially offset by savings of \$482,300 for medical treatment and services (\$86,700), official hospitality (\$4,700) and miscellaneous other services (\$390,900).

43. Additional requirements under contractual services resulted from the reimbursement of logistic support services provided by the United States logistics contingent during the previous mandate period (1 May-31 October 1993) and during the reporting period up to 31 March 1994 totalling \$49,215,700 (\$31,735,800 for contractual services, \$6,000,000 for fuel, \$10,479,900 for spare parts and repairs and \$1,000,000 for ammunition).

44. Savings under medical treatment and services were the result of the fact that fewer than projected medical cases were treated at medical facilities outside Somalia. Savings under hospitality and miscellaneous other services relate to lower than anticipated requirements for these services in the reporting period.

(b) Miscellaneous supplies (2 585 500)

45. Additional requirements totalling \$3,090,300 under stationery and office supplies (\$21,300), medical supplies (\$1,521,600), electrical supplies (\$17,300), uniform items, flags and decals (\$436,600), field defence stores (\$1,045,300), quartermaster and general stores (\$48,200) were partially offset by savings of \$504,800 for sanitation and cleaning materials (\$503,500) and subscriptions (\$1,300).

46. Additional requirements for stationery and office supplies, field defence stores, quartermaster and general stores resulted from increased requirements for general office supplies, stationery, household items for military contingents and various materials required for defence positions. Additional requirements for medical supplies were the result of the outbreak of cholera in Somalia, which necessitated purchases of medical supplies in quantities not originally foreseen. Additional requirements under uniform items, flags and decals were the result of the purchase of additional fragmentation jackets for civilian personnel in connection with the deteriorating security situation in the mission area. Additional requirements for electrical supplies resulted from the purchase of supplies for the new generators for which no provision had been made in the original cost estimate.

47. Savings under sanitation and cleaning materials were the result of their provision under contractual services. Subscription funds were not fully utilized resulting in a savings under this budget-line item.

11. Election-related supplies and services -

48. No provision was made under this heading.

12. Public information programmes 2 635 300

49. Savings under this heading resulted from the cancellation of the planned establishment of a medium-wave radio station for UNOSOM II. The expenditure incurred (\$64,700) relates to the initial technical support costs.

13. Training programmes 3 192 000

50. Requirements under this heading included provision for the establishment of the Somali police force and for the minimal support to meet the cost of restoration of police stations and training facilities. The initial cost estimate provided for a police force strength of up to 10,000 and for the payment of monthly compensation of \$110 to its members. Partial savings under police training programmes were realized owing to the fact that the police force did not reach the projected strength. Savings were also realized because of the deployment of fewer civilian police trainers during the reporting period than originally budgeted. This resulted in savings under mission subsistence allowance and travel for those trainers.

14. Mine-clearing programmes 5 873 300

51. The security situation in Somalia in the reporting period prevented the full execution of mine-clearing programmes resulting in savings under this heading.

15. Assistance for disarmament and demobilization -

52. No provision was made under this heading.

16. Air and surface freight 5 372 000

53. Savings totalling \$12,588,700 for transport of contingent-owned equipment (\$12,260,900) and charter of vessel for resupply (\$327,800) were in part offset by an additional requirement under commercial freight and cartage (\$7,216,700).

54. Savings under transport of contingent-owned equipment were realized because of lower requirements in respect of transportation of military contingents' equipment. Savings under charter of vessel are the result of lower requirements for resupply shipments by sea.

55. Additional requirements under commercial freight and cartage and attributable to charges for the rental of heavy trucks and trailers used for transportation of supplies from Mogadishu to the zone locations, and for moving goods at the Mogadishu airport and seaport.

17. Integrated Management Information System -

56. The amount authorized for this item was fully utilized.

18.	<u>Support account for peace-keeping operations</u>	-
57.	The amount allocated was transferred to the support account for peace-keeping operations.	
19.	<u>Staff assessment</u>	1 657 500
58.	Savings under staff assessment are attributable to the vacancy rate of internationally recruited personnel.	
20.	<u>Provision for loss of cash</u>	(3 900 000)
59.	This provision has been made pending a final determination as to the loss of cash.	
21.	<u>Income from staff assessment</u>	(1 657 500)
60.	This amount is derived from item 19.

ANNEX IV

Revised cost estimate for the period from
1 June to 30 September 1994

Supplementary information

(United States dollars)

I. COST PARAMETERS

1. The revised cost estimate for the mandate period from 1 June to 30 September 1994 is based on the parameters provided below.

A. Military personnel costs

2. The present revised estimate is based on the assumption that the average troop strength of UNOSOM II for the period will be 18,800 troops, all ranks.

B. Civilian personnel costs

3. Parameters for mission subsistence allowance and travel costs and salaries and common staff costs remain the same as indicated in annex IV of document A/48/850/Add.1.

II. COST ESTIMATES

1. Military personnel costs

(a) Military observers -

1. No provision is made under this heading.

(b) Military contingents

(i) Standard troop cost reimbursement 82 406 500

2. Provision is made for reimbursement to troop-contributing Governments for pay and allowance (\$77,142,500), plus a usage factor to cover the cost of personal gear and weapons of contingent personnel (\$5,264,000), at standard rates approved by the General Assembly.

(ii) Welfare 1 212 600

3. Provision is made to pay troops for recreational leave at a rate of \$10.50 per day for up to five days of recreational leave taken during a four-month period of service (\$987,000) and other welfare (\$225,600).

/...

(iii)	<u>Rations</u>	14 445 000
4.	Provision is made to supply food and bottled water to all military personnel in accordance with approved ration scales. The cost per ration is estimated at a rate of \$6.71 per person per day. The total cost has been reduced by a non-usage factor of 3.5 per cent (\$538,700) during absence on recreational leave. A reduction of \$10 per person per day has also been made to reflect payments by international staff for meals provided by UNOSOM (\$406,400). Approximately 65 per cent of international staff are assumed to use this option.	
(iv)	<u>Daily allowance</u>	2 935 800
5.	Provision is made for daily allowance for incidental personal expenses to be paid to all military personnel at a rate of \$1.28 per person per day.	
(v)	<u>Meal and accommodation subsistence allowance</u>	20 000
6.	Provision is made for the payment of an accommodation and meal allowance to military personnel outposted from Somalia to locations where United Nations accommodation and ration arrangements may not be available. The present estimate provides for five days for each of 10 trips per month for a total of 200 person-days at a daily rate of \$100 per person.	
(vi)	<u>Emplacement, rotation and repatriation of troops</u>	10 560 000
7.	Provision is made for the repatriation of 1,500 troops at a cost of \$540 per person and the rotation of 13,000 troops at a cost of \$750 per person.	
(c)	<u>Other costs pertaining to military personnel</u>	
(i)	<u>Contingent-owned equipment</u>	4 475 000
8.	This estimate provides for payment to troop-contributing Governments for the use of contingent-owned vehicles and equipment furnished to their contingents at the request of the United Nations.	
(ii)	<u>Death and disability compensation</u>	2 506 700
9.	The estimate provides for reimbursement to Governments for payments made by them to members of their military personnel for death, injury, disability or illness resulting from service with UNOSOM II.	
2.	<u>Civilian personnel costs</u>	
(a)	<u>Civilian Police</u>	-
10.	No provision is required under this heading.	

(b) International and local staff

11. The original revised cost estimate provided for the deployment of up to 775 international civilian personnel against a proposed staffing table comprising 861 posts and the recruitment of up to 2,888 local staff against a proposed staffing table of 3,000 posts. In addition, provision was made for the deployment of 100 international contractual personnel and of a monthly average of 140 United Nations Volunteers

(i) International staff salaries 8 197 100

12. The current revised cost estimate is based on a vacancy rate of 40 per cent for the international staff, as detailed in annex X.

(ii) Local staff salaries 8 372 000

13. The current revised cost estimate is based on a vacancy rate of 9 per cent for the local staff, as detailed in annex X.

(iii) Common staff costs 6 801 100

14. Provision is made for common staff costs for both international and local staff, including hazard duty pay for international personnel, as detailed in annex X.

(iv) Mission subsistence allowance 5 357 800

15. Provision for mission subsistence allowance is made, as detailed in annex X.

(v) Travel to and from the mission area 1 800 000

16. Provision is made for travel between New York and the mission area for 257 staff members including shipment of personal effects.

(vi) Other official travel 220 000

17. No change.

(c) International contractual personnel 823 200

18. Provision is made for 49 international contractual personnel at a rate of \$4,200 per person per month for four months.

(d) United Nations Volunteers 1 797 600

19. Provision is made for 107 volunteers at a rate of \$4,200 per person per month for four months.

(e) Government-provided personnel -

20. No provision is required under this heading.

/...

(f) Conference costs 550 000

21. Provision is made for the cost of rental of conference facilities for UNOSOM-sponsored meetings and consultations of members of the Somali political factions.

3. Premises/accommodation

22. The provisions under this heading are the result of the withdrawal and relocation of military contingents and the subsequent closure of zone offices in Merka, Hargeisa, Belet Weyne, Bossaso and Bardhere. In addition, a number of new zone/sub-zone offices, which were planned, will not be opened because of the security situation in the mission area.

(a) Rental of premises 1 550 000

(b) Alterations and renovations to premises 210 000

(c) Maintenance supplies 60 000

(d) Maintenance services 400 000

(f) Construction/prefabricated buildings 150 000

4. Infrastructure repairs 810 000

23. Provision is made for gravel and other construction and building materials for repair of roads and runways. As a result of the deteriorating security situation in Somalia, other major programmes of infrastructure repair will be curtailed.

5. Transport operations

(a) Purchase of vehicles -

24. No provision is required under this heading.

(b) Rental of vehicles 2 436 800

25. Provision is made for the rental of 262 vehicles at \$75 per day. The increased number of rental vehicles is the result of the security situation, which prevents wider use of UNOSOM-owned vehicles.

(c) Workshop equipment -

26. No provision is required under this heading.

(d) Spare parts, repairs and maintenance 3 162 500

27. No change.

(e)	<u>Petrol, oil and lubricants</u>	1 071 200

ANNEX VI

Cost estimate for the period from 1 to 31 October 1994

Supplementary information

(United States dollars)

I. COST PARAMETERS

1. The cost estimate for the period from 1 to 31 October 1994 is based on the parameters provided below.

A. Military personnel costs

2. The present revised estimate is based on the assumption that the average troop strength of UNOSOM II during the period will be 17,200 troops, all ranks.

B. Civilian personnel costs

3. Parameters for mission subsistence allowance and travel costs and salaries and common staff costs remain the same as indicated in annex IV of document A/48/850/Add.1.

II. COST ESTIMATES

1. Military personnel costs

(a) Military observers -

1. No provision is made under this heading.

(b) Military contingents

(i) Standard troop cost reimbursement 18 849 100

2. Provision is made for reimbursement to troop-contributing Governments for pay and allowance (\$17,645,100), plus a usage factor to cover the cost of personal gear and weapons of contingent personnel (\$1,204,000), at standard rates approved by the General Assembly.

(ii) Welfare 249 400

3. Provision is made to pay troops for recreational leave at a rate of \$10.50 per day for up to one day of recreational leave taken during the month (\$180,600) and other welfare (\$68,800).

/...

(iii) Rations 2 696 800

4. Provision is made to supply food and bottled water to all military personnel in accordance with approved ration scales. The cost per ration is estimated at a rate of \$5.26 per person per day (\$2,804,600). A reduction of \$10 per person per day is made to reflect payments by international staff for daily meals provided by UNOSOM (\$107,800). Approximately 65 per cent of international staff are assumed to use this option.

(iv) Daily allowance 682 500

5. Provision is made for daily allowance for incidental personal expenses to be paid to all military personnel at the rate of \$1.28 per person per day.

(v) Travel subsistence allowance 5 000

6. Provision is made for the payment of an accommodation and meal allowance to military personnel outposted to locations where United Nation accommodation and ration arrangements may not be available. The present estimate provides for 5 days for each of 10 trips for a total of 50 person-days at a daily rate of \$100 per person.

(vi) Emplacement, rotation and repatriation of troops 1 650 000

7. Provision is made for the repatriation travel of 2,000 military personnel estimated at \$540 per trip and for the rotation of 760 personnel estimated at \$750 per trip.

(c) Other costs pertaining to military personnel

(i) Contingent-owned equipment 683 300

8. This estimate provides for payment to troop-contributing Governments for the use of contingent-owned vehicles and equipment furnished to their contingents at the request of the United Nations as well as for lease of equipment at \$32,850 per month.

(ii) Death and disability compensation 573 300

9. The estimate provides for reimbursement to Governments for payments made by them to members of their military personnel for death, injury, disability or illness resulting from service with UNOSOM II, based on an average payment of \$40,000. The cost estimate is calculated at 1 per cent of the average troop strength of 17,200 for the period.

ANNEX VII

Monthly cost estimate for the period after 31 October 1994

Supplementary information

(United States dollars)

I. COST PARAMETERS

1. The monthly cost estimate for the period after 31 October 1994 is based on the parameters provided below.

A. Military personnel costs

2. The present revised estimate is based on the assumption that the average troop strength of UNOSOM II during the period will be 15,000 troops, all ranks.

B. Civilian personnel costs

3. Mission subsistence allowance and travel costs and salaries and common staff costs remain the same as indicated in annex IV to document A/48/850/Add.1.

II. COST ESTIMATES

1. Military personnel costs

(a) Military observers -

1. No provision is made under this heading.

(b) Military contingents

(i) Standard troop cost reimbursement 16 437 500

2. Provision is made for reimbursement to troop-contributing Governments for pay and allowance (\$15,387,500), plus a usage factor to cover the cost of personal gear and weapons of contingent personnel (\$1,050,000), at standard rates approved by the General Assembly.

(ii) Welfare 217 500

3. Provision is made to pay troops for recreational leave at a rate of \$10.50 per day for up to one day of recreational leave taken during the month (\$157,500) and other welfare (\$60,000).

/...

(iii) Rations 2 338 100

4. Provision is made to supply food and bottled water to all military personnel in accordance with approved ration scales. The cost per ration is estimated at a rate of \$5.26 per person per day (\$2,445,900). A reduction of \$10 per person per day is made to reflect payments by international staff for daily meals provided by UNOSOM (\$107,800). Approximately 65 per cent of international staff are assumed to use this option.

(iv) Daily allowance 595 200

5. A provision is made for daily allowance for incidental personal expenses to be paid to all military personnel at the rate of \$1.28 per person per day.

(v) Meal and accommodation 5 000

6. Provision is made for the payment of an accommodation and meal allowance to military personnel outposted to locations where United Nations accommodation and ration arrangements may not be available. The present estimate provides for 5 days for each of 10 trips for a total of 50 person-days at a daily rate of \$100 per person.

(vi) Emplacement, rotation and repatriation of troops 1 350 000

7. Provision is made for the rotation travel of 1,800 military personnel estimated at \$750 per trip.

(c) Other costs pertaining to military personnel

(i) Contingent-owned equipment 10 000 000

8. This estimate provides for payment to troop-contributing Governments for the use of contingent-owned vehicles and equipment furnished to their contingents at the request of the United Nations. The contingent-owned equipment is currently valued at approximately \$800 million. In accordance with the procedures currently used, troop-contributing Governments are reimbursed for 100 per cent of the cost of consumable items. The rate of reimbursement for contingent-owned equipment is based on 10 per cent of the value of the equipment, after allowing for consumables, prorated over the period of the presence of troops in the mission area. It is currently estimated that the amount of \$60 million is owed to the troop-contributing Governments, for which no provision has been made in prior cost estimates.

(ii) Death and disability compensation 500 000

9. The estimates provides for reimbursement to Governments for payments made by them to members of their military personnel for death, injury, disability or illness resulting from service with UNOSOM II, based on an average payment of \$40,000. The cost estimate is calculated at 1 per cent of the average troop strength.

2. Civilian personnel costs

(a) Civilian police -

10. No provision is required under this heading.

(b) International and local staff

(i) International staff salaries 2 049 700

11. The current revised cost estimate is based on a vacancy rate of 40 per cent for international staff, as detailed in annex XI.

(ii) Local staff salaries 2 093 000

12. The current revised cost estimate is based on a vacancy rate of 9 per cent for local staff, as detailed in annex XI.

(iii) Common staff costs 1 701 200

13. Provision is made for common staff costs for both international and local staff (\$1,252,600), including hazard duty pay for international staff (\$448,600), as detailed in annex XI.

(iv) Mission subsistence allowance 1 361 900

14. Provision for mission subsistence allowance is made, as detailed in annex XI.

(v) Travel to and from the mission area 98 000

15. Provision is made for travel between New York and the mission area for 14 staff members, including shipment of personal effects.

(vi) Other official travel 15 000

16. Provision is made for up to six trips for other official travel between New York and the mission (\$14,000), and for other travel outside the mission area (\$1,000), for liaison meetings and consultations.

(c) International contractual personnel 205 800

17. Provision is made for 49 international contractual personnel at a rate of \$4,200 per person per month.
