Forty-ninth session
Agenda item 119

FINANCING OF THE UNITED NATIONS MISSION FOR THE REFERENDUM IN WESTERN SAHARA

Report of the Secretary-General

Addendum

EXECUTIVE SUMMARY

The present report includes the budget of the United Nations Mission for the Referendum in Western Sahara (MINURSO) for the seven-month period from 1 December 1994 to 30 June 1995 and for the monthly maintenance thereafter. It provides for a mission strength of 231 military observers, 48 other military (Medical Unit and Force Orderly Room) personnel, 160 civilian police monitors, 320 international staff, 90 local staff and 12 observers from the Organization of African Unity (OAU). It reflects the requirements for the expanded activities of the MINURSO Identification Commission authorized by the Security Council on 13 January 1995 and includes, inter alia, the phasing-in of an additional 105 civilian police monitors, 124 international staff, 35 local staff and 12 OAU observers, as well as the additional requirements for transportation, communications, data-processing and other equipment.

The actions to be taken by the General Assembly are set out in paragraph 30 of the report and include the appropriation and assessment of the amount of \$36,785,000 gross (\$33,877,300 net) for the period from 1 December 1994 to 30 June 1995 and provision for the monthly maintenance thereafter in the amount of \$5,666,800 gross (\$5,170,400 net), subject to the decision of the Security Council.

I. INTRODUCTION

1. The United Nations Mission for the Referendum in Western Sahara (MINURSO) was established by the Security Council in its resolution 690 (1991) of 29 April 1991, based on the proposals contained in the report of the Secretary-General of 19 April 1991 (S/22464 and Corr.1). In subsequent reports to the Security Council of 19 December 1991 (S/23299), of 28 February 1992 (S/23662), of 29 May 1992 (S/24040), of 20 August 1992 (S/24464) and of 26 January 1993 (S/25170), the Secretary-General reported on certain difficulties that had arisen with some aspects of the implementation plan. It soon became evident that, notwithstanding the prior acceptance of the general provisions of the Settlement Plan, there were important substantial disagreements between the parties regarding fundamental issues, such as the criteria for the eligibility to vote in the referendum, and that it was therefore necessary to maintain the operation of the Mission at a reduced level.

2. In view of the unresolved questions impeding the implementation of the Settlement Plan and bearing in mind the critical role of MINURSO observers in the maintenance of peace and tranquillity pending the settlement of the conflict, in his report of 19 December 1991 (S/23299), the Secretary-General proposed to the Security Council the maintenance of the existing deployment and staffing of MINURSO in order to sustain the cease-fire. The Council approved each of the proposals to maintain the existing deployment and staffing of the Mission.

3. In his report to the Security Council of 10 March 1994 (S/1994/283), the Secretary-General proposed three options to the Council for its consideration with a view to ensuring that the referendum in Western Sahara took place without further delays. The Security Council, in its resolution 907 (1994) of 29 March 1994, agreed to the option under which the Identification Commission should complete the analysis of all applications received and proceed with the identification and registration of potential voters, in accordance with the Secretary-General's compromise proposal, the terms of reference of the Commission and the relevant provisions of the Settlement Plan.

4. In a subsequent report to the Security Council dated 5 November 1994 (S/1994/1257), the Secretary-General informed the Council, *inter alia*, of his intention to send a technical team to MINURSO to reassess the logistic and other requirements for the possible full deployment of the Mission at full strength. The team visited the mission area from 10 to 14 November 1994. Given the work still to be completed in the identification of potential voters, the technical team found that it was as yet premature to make final arrangements with regard to the logistic and other resources required for the deployment of MINURSO at full strength. However, the team strongly supported the idea of expanding the Identification Commission.

5. In order to expedite the identification and registration process in view of the large number of applications received, the Secretary-General, in his most recent report to the Security Council, dated 14 December 1994 (S/1994/1420 and Add.1), proposed the expansion of the MINURSO Identification Commission. The Security Council, in its resolution 973 (1995) of 13 January 1995, approved the

/...

expansion of MINURSO as proposed in the report of the Secretary-General and expressed the hope that every effort would be made to complete the identification process in a timely fashion in accordance with the Settlement Plan. The Council decided also to continue the mandate of MINURSO to 31 May 1995 and requested the Secretary-General to report by 31 March 1995 in order to confirm the arrangements with regard to the logistic, personnel and other resources required for the deployment of MINURSO at full strength, on his final plans for implementing all elements of the Settlement Plan and on the responses of the parties to his proposals in order to fulfil the United Nations mission in Western Sahara.

6. Following the establishment of MINURSO and in order to provide for the operation of the Mission, the General Assembly, in its resolution 45/266 of 17 May 1991, appropriated an amount of \$143 million gross (\$140 million net).

7. The resources required by MINURSO to implement the activities approved by the Security Council subsequent to the establishment of the Mission were utilized from the unencumbered balance of the initial appropriation of \$143 million gross (\$140 million net).

8. In order to provide the Mission with resources to maintain its activities beyond 30 September 1994, the Advisory Committee on Administrative and Budgetary Questions, in a letter dated 7 October 1994 to the Secretary-General, concurred in entering into commitments in an amount not to exceed \$6,065,200 gross for the period from 1 October to 30 November 1994 under the terms of paragraph 1 of General Assembly resolution 48/229 of 23 December 1993 on unforeseen and extraordinary expenses for the biennium 1994-1995.

9. Based on the report on the financing of MINURSO dated 20 October 1994 (A/49/559), which provided, inter alia, cost estimates for the operation of the Mission for the period after 30 November 1994, the General Assembly, in its decision 49/466 of 23 December 1994, appropriated to the Special Account for MINURSO an additional amount of \$2,670,350 gross (\$7,850 net credit) for the period ended 30 November 1994.

10. In the same decision, the General Assembly authorized the Secretary-General to enter into commitments for the maintenance of the Mission in the amount of \$6.4 million gross (\$5,937,400 net) for the period from 1 December 1994 to 31 January 1995, and an additional amount of \$2.2 million for the month of January 1995, subject to the decision of the Security Council on the deployment of the required staff for the acceleration of the work of the Identification Commission and the review by the Advisory Committee on Administrative and Budgetary Questions.

11. Following a request to the Advisory Committee for authorization to provide additional resources for the expansion relating to the Identification Commission authorized by the Security Council in its resolution 973 (1995), the Advisory Committee, in a letter dated 10 February 1995 from its Chairman to the Secretary-General, concurred with the entering into commitments for the operation of the Mission in an amount not to exceed \$17,290,100 gross (\$16,130,300 net) for the period from 1 January to 31 March 1995. That commitment authorization was made under the terms of General Assembly decision

/...

49/466 in an amount of \$5.4 million gross (\$5,168,700 net) and under the terms of Assembly resolution 49/233 of 23 December 1994 on administrative and budgetary aspects of the financing of the United Nations peace-keeping operations in an amount of \$11,890,100 gross (\$10,961,600 net).

12. The present addendum to the report of the Secretary-General on the financing of MINURSO (A/49/559) covers, inter alia, the costs of the Mission at its pre-expansion level in December 1994, the operating costs of MINURSO in connection with the expansion of the Identification Commission, as approved by the Security Council in its resolution 973 (1995) for the period from 1 January to 30 June 1995, and the monthly costs for the maintenance of the Mission after 30 June 1995. The report is based on the recommendation of the Advisory Committee on Administrative and Budgetary Questions, made in a letter dated 10 February 1995 from its Chairman to the Secretary-General, which indicated, inter alia, that should the Security Council decide to change the existing mandate of the Mission, the revised cost estimates should be submitted to the General Assembly.

II. POLITICAL MANDATE

13. MINURSO was established to organize and conduct a referendum in the Territory to enable the people of Western Sahara to choose between independence or integration with Morocco. In his report to the Security Council of 18 June 1990 (S/21360), the then Secretary-General proposed a Settlement Plan, which provided for a cease-fire and the beginning of the transitional period, a reduction in the number of Moroccan troops in the Territory and confinement of the combatants of both sides to locations designated by the Special Representative of the Secretary-General.

14. In order to ensure that the necessary conditions existed for the holding of a free and fair referendum, the United Nations would monitor the administration of the Territory and would ensure that any laws and regulations that might impede the holding of a free and fair referendum would be suspended as necessary. In addition, all refugees and other Western Saharans living outside the Territory who wished to return would be enabled to do so by the United Nations after their right to vote had been established.

15. To that end, the United Nations Identification Commission was established and military observers and police monitors were stationed in certain areas of the Territory. The role of the MINURSO Identification Commission is to identify and register the potential voters in and outside the Territory. The role of the military observers is to monitor compliance with the cease-fire, to verify the complaints of alleged cease-fire violations and report thereon up the MINURSO chain of command. The civilian police monitors are to provide security at the MINURSO headquarters and at the identification and registration centres established throughout the Territory.

III. OPERATIONAL PLAN

16. In his most recent report to the Security Council on the situation concerning Western Sahara, dated 14 December 1994 (S/1994/1420), the Secretary-General informed the Council, inter alia, that, given the large number of applications received as at the end of November 1994, the only way to complete identification and registration of eligible voters in a reasonable time would be through a major reinforcement of personnel and the establishment of six additional centres (each to include two identification and registration teams) and five mobile identification and registration teams. Each identification centre would consist of six Professionals, namely, three identification commission members (one of them the team leader), two Arab-speaking registration officers and one system analyst. The mobile identification teams would consist of one identification commission member, one Arabic-speaking registration officer and one system analyst. Based on the above, a total of 51 additional Professional staff, 73 administrative support and General Service staff (67 General Service and 6 Field Service), and 35 locally recruited staff would be required.

17. To provide security and assistance in the identification activities, a total of 105 additional civilian police monitors, to supplement the 55 currently authorized, will be required. Approximately 13 and 4 civilian police monitors will be assigned to each identification centre and mobile team, respectively, with 10 officers to be assigned to the civilian police headquarters.

18. The Secretary-General further expressed the hope that, by 31 March 1995, the progress achieved in the identification and registration process would reach a level that would permit him to recommend 1 June 1995 as the date for the start of the transitional period. In accordance with the Settlement Plan, the combatants of the two sides would be confined to designated locations as soon as possible, prisoners of war would be exchanged, amnesties would be proclaimed and all political prisoners or detainees would be released. Not later than mid-August 1995, the reduction of Moroccan forces present in the Territory would be completed and all laws or measures that could obstruct the conduct of a free and fair referendum would be suspended. By mid-August 1995 the identification and registration of voters should be completed and the final list of voters published. By the end of September 1995, the referendum campaign would start to permit the referendum to take place in October 1995.

IV. STATUS OF ASSESSED CONTRIBUTIONS

19. The table below summarizes the status as at 31 January 1995 of assessed contributions received and unpaid for the period from inception through 30 November 1994. As shown, total outstanding assessments of \$21,098,548 are due from Member States. This includes, on a pro-forma basis, the additional appropriation in the amount of \$2,670,350 gross (\$7,850 net credit), authorized by the General Assembly in its decision 49/466.

	<u>United States dollars</u>
Amount appropriated	145 670 350
<u>Less:</u> Applied credits (staff assessment income)	<u>(3 932 699)</u>
Amount assessed	141 737 651
<u>Less:</u> Payments received	<u>(120 639 103)</u>
Balance due	<u>21 098 548</u>

V. VOLUNTARY CONTRIBUTIONS

20. The voluntary contributions provided to MINURSO as in-kind outright contributions by the Governments of Algeria and Morocco and by the Frente para la Liberación de Saguia el-Hamra y de Río de Oro (Frente POLISARIO) are indicated below:

Voluntary contributions received during the period from 1 October 1994 to 31 January 1995

Contributor	Goods and services	Annual value (United States dollars)
Algeria	Food	432 000
	Fuel for heavy-duty vehicles and generators	20 000
	Laundry facilities	10 000
Morocco	Transport workshop	30 000
	Personnel at the team sites (cooks, technicians)	25 000
	Food at Laâyoune, Boujdour and Es Semara	4 147 500
	Water at team sites for hygiene facilities	57 000
Frente POLISARIO	Water at teamsites for hygiene facilities	458 000
	Personnel (technical and other staff)	50 000

21. The annual valuation of these contributions, for which no provision has been made, is estimated at \$5,229,500 based on United Nations standard costing. The pro-rated valuation for the period from 1 October 1994 to 31 January 1995 is, therefore, \$1,743,200.

/...

22. In addition, the following goods and services have been provided by Member States and the Frente POLISARIO to MINURSO during the period from 1 October 1994 to 31 January 1995:

(a) Algeria: Self-contained camp with accommodation and offices for 12 United Nations personnel (annual valuation \$210,500) and transport (annual valuation \$27,000);

(b) Mauritania: Office space at Nouadhibou and Zouerate (annual valuation \$30,000);

(c) Morocco: Twenty-one trucks (annual rental value \$1,054,000); hotel accommodation and meals for transients at Casablanca (annual valuation \$250,000); and accommodation at Laâyoune Centre, Boujdour Centre and Es Semara Centre (annual valuation \$3,399,500);

(d) Frente POLISARIO: Office space for the Identification Commission at Laâyoune, Ad Dakhla, Es Semara and Awserd Camps (annual valuation \$60,000).

VI. FINANCIAL ADMINISTRATION

Resources made available and operating costs for the period ended 31 January 1995

23. Annex VI summarizes the total resources made available to MINURSO by the General Assembly for the period from inception to 31 January 1995, which amount to \$154,270,350 gross (\$148,129,550 net), consisting of \$145,670,350 gross (\$139,992,150 net) from appropriations for the period ended 30 November 1994 and an authorization of \$8,600,000 gross (\$8,137,400 net) for the period from 1 December 1994 to 31 January 1995. Estimated expenditures for this period amount to \$154,270,350 gross (\$148,129,550 net). Interest and miscellaneous income during the period totalled \$237,590 and \$2,627 respectively.

VII. COST ESTIMATE FOR THE OPERATION OF THE MISSION FOR THE PERIOD FROM 1 DECEMBER 1994 TO 30 JUNE 1995 AND MONTHLY COST ESTIMATE FOR THE PERIOD AFTER 30 JUNE 1995

24. The cost estimate for the operation of MINURSO for the period from 1 December 1994 to 30 June 1995 amounts to \$36,785,000 gross (\$33,877,300 net) and is presented in annex I, column 1. The monthly cost estimate of the Mission for the period after 30 June 1995 amounts to \$5,666,800 gross (\$5,170,400 net) and is presented in annex I, column 2. The supplementary information on the detailed requirements by line item is provided in annex II. The proposed staffing of the Mission for the period from 1 December 1994 to 30 June 1995 and after 30 June 1995 is detailed in annex III. The deployment schedule of personnel in the mission area is provided in annex IV. Details of the civilian staff and related costs for the period from 1 December 1994 to 30 June 1995 and on a monthly basis after 30 June 1995 are shown in annex V.

/...

25. The proposed staffing of the Mission represents an increase of 105 civilian police monitors, 124 international staff, 35 local staff and 12 OAU observers, authorized by the Security Council in its resolution 973 (1995) beginning January 1995 for the expansion of the MINURSO Identification Commission.

VIII. STATUS OF REIMBURSEMENT TO TROOP-CONTRIBUTING STATES

26. Military personnel are currently being provided to MINURSO by the Governments of Honduras and the Republic of Korea. Full reimbursement of troop costs in accordance with the standard rates of reimbursement has been made for the period ending 31 August 1994.

IX. OBSERVATIONS AND COMMENTS ON PREVIOUS RECOMMENDATIONS OF THE ADVISORY COMMITTEE ON ADMINISTRATIVE AND BUDGETARY QUESTIONS

27. In its most recent report on the financing of MINURSO, dated 12 December 1994 (A/49/771), the Advisory Committee on Administrative and Budgetary Questions provided comments and observations on certain aspects of the financial and administrative activities of the Mission. These recommendations, together with the comments of the Secretary-General, are as follows:

(a) In paragraph 8 of its report, the Advisory Committee requested the Secretary-General to look into the matter of voluntary contributions provided to MINURSO with a view to determining whether the provision of goods and services to the Mission falls under the category of voluntary contributions. Pursuant to that request, the Secretary-General has examined the question of voluntary contributions provided by Member States to MINURSO. Goods and services that fall under the category of voluntary contributions along with their annual valuation are listed in paragraph 20 of the present report;

(b) In paragraph 18 of its report, the Advisory Committee recommended that the Secretary-General review the current fleet of vehicles in the Mission with a view to reducing the number of vehicles. This recommendation was taken into consideration in the preparation of the current cost estimates. The justifications for the proposed number of vehicles in the mission area are as follows:

- (i) The present fleet of MINURSO vehicles consists of 284 units (286, less 2 vehicles already written off), which include 276 United Nations-owned vehicles and 8 contingent-owned vehicles (4 jeeps and 4 ambulances);
- (ii) The United Nations-owned fleet consists of 251 vehicles (inclusive of 18 12-seater minibuses and 4 26-seater buses, 19 trailers and 6 forklifts), for a total of 276 vehicles;

/...

- (iii) Taking into account the additional 57 vehicles (55 4x4 patrol vehicles and 2 buses) proposed in connection with the expansion of the MINURSO Identification Commission, the number of United Nations-owned vehicles in the mission area will be 333;
- (iv) Out of 333 vehicles, 25 are special-purpose vehicles (19 trailers and 6 forklifts), thus leaving a balance of 308 operational vehicles;
- (v) At present, 6 vehicles (1 minibus and 5 4x4 patrol vehicles) are due to be written off;
- (vi) Consequently, a total of 302 United Nations-owned vehicles will be operational in the mission area.

28. The expansion of the MINURSO Identification Commission and the establishment of six additional identification and registration centres and five additional identification and registration mobile teams require the provision of the following additional vehicles:

- (a) Twelve 4x4 patrol vehicles for six identification centres;
- (b) Five 4x4 patrol vehicles for five mobile teams;
- (c) Thirty-five 4x4 patrol vehicles for 105 police monitors;
- (d) Two medium buses for six identification centres;
- (e) Three 4x4 patrol vehicles for replacement.

The total cost of 55 patrol vehicles at \$16,000 each is \$880,000 and the cost of 2 buses at \$23,000 each is \$46,000. It is currently anticipated that the above vehicles will be shipped to the mission area from United Nations Observer Mission in Liberia (UNOMIL) and provision is currently made for the cost of freight (\$166,700), which is estimated at 18 per cent of the value. The ratio analysis of the MINURSO vehicle fleet, including the additional requirements of 55 patrol vehicles and two medium buses is as follows:

	Staffing	Vehicles	
		Number	Ratio
<u>Civilian staff</u>			
Professional category and above	132	53	1:2.5
General Service	145	51	1:2.8
Field Service	43	30	1:1.4

Civilian police	160	52	1:3.0
OAU observers	<u>12</u>	<u>3</u>	<u>1:4.0</u>
Total, civilian staff	582	200	1:2.9

Grand total	821	302	1:2.7

29. In a letter dated 10 February 1995 from the Chairman of the Advisory Committee to the Secretary-General, the Committee requested further justification for the additional fixed-wing aircraft and satellite earth station proposed in connection with the expansion of the MINURSO Identification Commission. Justifications for the additional fixed-wing aircraft and the satellite earth station are as follows:

(a) Fixed-wing aircraft. Following the expansion of the MINURSO Identification Commission, 10 widely dispersed identification centres are to be in operation by mid-March 1995. The additional fixed-wing aircraft will be required for the following reasons:

- (i) For travel of tribal representatives and observers from each party from both Tindouf and Lagneia simultaneously to each of the 10 centres in order for identification to start;
- (ii) Twice a week, 48 Moroccan delegates plus 8 OAU observers (for a total of 56 passengers) must travel by air to and from Lagneia to participate in identification in four centres in the Tindouf area (Laâyoune Camp, Es Semara Camp, Awserd Camp and Ad Dakhla Camp), plus Es Semara and Ad Dakhla, as well as Zouerate and Nouadhibou in Mauritania;
- (iii) Twice a week, 36 POLISARIO delegates must travel by air to and from Tindouf to participate in identification in the Lagneia, Es Semara and Ad Dakhla camps, as well as at Zouerate and Nouadhibou in Mauritania;
- (iv) Three more flights are required per week originating from both Lagneia and Tindouf to each centre to exchange tribal representatives. By political agreement, these exchanges must occur simultaneously and all representatives must be in place on both sides before identification can proceed;
- (v) To keep the identification process going, flights for the rotation of tribal representatives and observers must be scheduled above and beyond the resupply and maintenance requirements of the Mission. Since all flights must take place in daylight hours because of constraints imposed by the Algerian authorities, flight times for the rotation of observers in and out of Tindouf are limited;

/...

- (vi) In addition to the requirements of the Identification Commission, the Deputy Special Representative of the Secretary-General will need to make four special round-trip flights to Tindouf a month for a total of 12 hours, assuming 1.5 hours per leg. An additional 10 hours a month are needed for flights to take the Deputy Special Representative of the Secretary-General to Rabat, Nouakchott and elsewhere for meetings with ministers and officials;

(b) Satellite earth station. The existing satellite earth station is located in the Mission's headquarters at Laâyoune. There will be four important identification centres in Tindouf, Algeria, where major identification activities are to be undertaken. The only existing communications to and from Tindouf are:

- (i) International maritime satellite (INMARSAT), which currently has only one line and can be used for either fax or telephone at any one time;
- (ii) High-frequency automatic request (HF ARQ), which is a teletype media of communications, is used mainly by the United Nations military observers and is not available for other activities often needed by the Identification Commission;
- (iii) High-frequency voice communication (HF patrol and mission command), which is also used mainly by the United Nations military observers.

The above communication facilities were established for the sole use of the United Nations military observers in the military liaison office situated at Tindouf. Since the deployment of the Identification Commission, with a daily average capacity of 50 persons and the civilian police and administrative personnel, it has not been possible to meet the operational requirements of the Commission. The telephone lines between the two neighbouring countries (Algeria and Morocco) have been unreliable and insecure over the last three years. When all the components of MINURSO - administration, military branches, civilian police and the Identification Commission personnel - have to use these lines at the same time, it is practically impossible for the Deputy Special Representative of the Secretary-General to communicate on the INMARSAT or high-frequency automatic request with the concerned parties, although this is often on an urgent basis. The Mission is thus left with two possible options: an additional INMARSAT or an earth station. The acquisition cost of INMARSAT communications, which is another option for the Mission, is lower than the earth station, but it would not be cost-effective to use an INMARSAT terminal, since the intensive use of INMARSAT would reach the acquisition cost of an earth station within a few weeks. Therefore, provision of the additional mobile earth station is proposed for MINURSO.

X. ACTION TO BE TAKEN BY THE GENERAL ASSEMBLY
AT ITS FORTY-NINTH SESSION

30. The actions to be taken by the General Assembly at its forty-ninth session in connection with the financing of MINURSO are as follows:

(a) The appropriation and the assessment thereof of an amount of \$36,785,000 gross (\$33,877,300 net) for the operation of MINURSO for the period from 1 December 1994 to 30 June 1995. This amount is inclusive of the amount of \$6.4 million gross (\$5,937,400 net) authorized by the General Assembly in its decision 49/466 for the operation of the Mission during the period from 1 December 1994 to 31 January 1995, and the additional amount of \$14,090,100 gross (\$13,161,600 net) authorized by the Advisory Committee for the operation of the Mission during the period from 1 January to 31 March 1995 under the terms of Assembly decision 49/466 and resolution 49/233;

(b) The authorization to enter into commitments in an amount of \$5,666,800 gross (\$5,170,400 net) per month for the period after 30 June 1995 and the assessment thereof, subject to the decision of the Security Council to continue the Mission.

after 30 June 1995

Supplementary information

(United States dollars)

I. COST PARAMETERS

1. The cost estimates for the operation of the Mission for the period from 1 December 1994 to 30 June 1995 and on a monthly basis after 30 June 1995 are based on the parameters provided below.

(a) Mission subsistence allowance

2. Effective 1 July 1994, a mission subsistence allowance rate of \$60 was established throughout the mission area. Mission subsistence allowance is payable to all mission personnel, excluding locally recruited staff.

(b) Travel costs

3. Travel of mission personnel to and from the mission area by commercial means has been calculated at an average one-way cost of \$2,300 per person or \$4,600 round trip.

(c) Civilian personnel costs

4. Salaries and common staff costs for the international staff are net of staff assessment and are based on New York standard costs except for international staff on assignment from other United Nations organizations and staff appointed for the Mission. Salaries and common staff costs of local staff are based on the local salary scale established for Western Sahara.

(d) Rations

5. The daily cost of rations is computed at \$9.50 per person per day. Additional provision is made for bottled drinking-water, estimated at an average of 2.5 bottles per person per day.

(e) Transfer of assets from the United Nations Operation in Mozambique

6. In accordance with paragraph 10 of General Assembly resolution 48/240 B of 29 July 1994, provision is made for the inventory value of assets to be transferred from ONUMOZ to MINURSO, as the residual values of ONUMOZ assets are still not available.
