Colombia, Ecuador, El Salvador, Panama, Paraguay and Venezuela: draft resolution

The World Conference to Review and Appraise the Achievements of the
United Nations Decade for Women: Equality, Development and Peace,

Noting that in the United Nations Decade for Women one of the recommendations of the World Plan of Action has not been fulfilled, namely, the one referring to the introduction of classification parameters to break down data on women in census documents,

Noting also that this recommendation is of the utmost importance for measuring progress in the integration of women in development,

Urges the Governments of the countries to make recommendations to their planning bodies so as to permit an improvement of census data collection forms, separating parameters on women, especially as far as health, education, and employment are concerned.
