Forty-eighth session Agenda item 112

INTERNATIONAL DRUG CONTROL

<u>Draft resolution submitted by the President</u>

Measures to strengthen international cooperation against the illicit production, sale, demand, traffic and distribution of narcotics and psychotropic substances and related activities

The General Assembly,

<u>Profoundly alarmed</u> by the magnitude of the rising trend in drug abuse, illicit production and trafficking of narcotics and psychotropic substances that threaten the health and well being of millions of persons, in particular the youth, in all the countries of the world,

<u>Deeply concerned</u> by the growth of the drug problem whose combat entails the increase of economic costs for Governments, the irreparable loss of human lives, and threatens the economic, social and political structures of the countries affected by acts of violence,

<u>Deeply alarmed</u> by the growing violence and economic power of the criminal organizations that engage in the production, traffic and distribution of drugs, arms and precursors and essential chemicals, which at times places them beyond the reach of the law,

Bearing in mind the provisions of its resolution 47/99 of 16 December 1992, which decided to hold four high-level plenary meetings to improve international cooperation in the fight against drugs, in accordance with the international treaties on drug control, the Comprehensive and Multidisciplinary Outline of Future Activities in Drug Abuse Control adopted by the International Conference on Drug Abuse and Illicit Trafficking, $\underline{1}$ / the Global Programme of Action

adopted at its seventeenth special session, $\underline{2}/$ on 23 February 1990, and other relevant documents,

Reaffirming that action against drug abuse and illicit production and trafficking of narcotic drugs and psychotropic substances should be accorded a higher priority by Governments, the United Nations and all other relevant national, regional and international organizations,

Noting the existing drug conventions, the Global Programme of Action and the United Nations System-Wide Action Plan on Drug Abuse Control, which contain a sound and comprehensive framework for drug control activities by States and all relevant international organizations, and stressing the need for consistency in efforts to implement these instruments,

<u>Welcoming</u> the efforts of the international community and the unflinching commitment assumed at the highest level by Heads of State and/or Government to increase substantially efforts to achieve coordinated action and set priorities in the international fight against abuse, illicit production and traffic of drugs,

<u>Convinced</u> that, given the magnitude and the global nature of the drug problem, it is indispensable for Governments to increase efforts in order to intensify concerted action and international cooperation based on the principle of shared responsibility,

Acknowledging that there are obvious links, under certain circumstances, between poverty and the increase in the illicit production and trafficking of narcotic drugs and psychotropic substances and that the promotion of economic development of countries affected by the illicit drug trade requires appropriate measures, including strengthened international cooperation in support for alternative development activities in the affected areas in those countries,

<u>Acknowledging also</u> the responsibility of Governments in alleviating poverty, reducing the dependency of their citizens on narcotics and narcotics production and enforcing legal measures against narcotics,

<u>Recognizing</u> that the magnitude of the drug menace requires the formulation of new strategies, approaches, objectives and enhanced international cooperation that, respectful of the sovereignty of States, deal more effectively with the international operations of those who get rich through the illegal traffic of drugs, arms and precursors and essential chemicals, threatening the stability of many societies in the world,
