I. INTRODUCTION

1. At its 87th plenary, meeting on 23 December 1993, the General Assembly by its decision 48/478 authorized the Secretary-General, on an exceptional basis, to enter into total commitments up to the amount of \$40,318,000 gross \$39,560,800 net, for the operation of the United Nations Observer Mission in Liberia (UNOMIL) for the period from 22 September 1993 to 21 April 1994. The Assembly further decided, as an ad hoc arrangement, to apportion that amount among Member States and requested the Secretary-General to establish a special account for the Observer Mission.
2. Subsequently, the General Assembly considered the report of the Secretary-General on the financing of UNOMIL for the period from its inception on 22 September 1993 to 21 April 1994 (A/48/592) and the related report of the Advisory Committee on Administrative and Budgetary Questions (A/48/900) and by its resolution 48/247 of 5 April 1994 appropriated to the Special Account for UNOMIL the amount of \$32,797,100 gross (\$32,225,100 net), of the amount previously authorized and apportioned in accordance with General Assembly decision 48/478.
3. By the same resolution, the Assembly, authorized the Secretary-General to enter into commitments for the period beyond 21 April 1994 at a monthly rate not to exceed \$4,359,100 gross (\$4,232,900 net), should the Security Council decide to continue the Mission beyond that date. The General Assembly also decided to apportion the amount of \$7,520,900 gross (\$7,335,700 net) among Member States for the maintenance of the Observer Mission for the period beyond 21 April 1994, and to set off against the assessments an identical amount, representing the balance of the apportionment made in accordance with General Assembly decision 48/478.
4. In paragraph 13 of Security Council resolution 866 (1993) of 22 September 1993, by which the Council authorized the establishment of UNOMIL, the Council requested the Secretary-General to report by 16 December 1993 and by 16 February 1994 on the progress achieved in the implementation of the mandate of UNOMIL.
5. Pursuant to that request, the Secretary-General submitted his report on 13 December 1993. 1/ In that report, he informed the Council that at a meeting held at Cotonou under the chairmanship of the Economic Community of West African States (ECOWAS) from 3 to 5 November 1993, the Liberian parties, namely, the Interim Government of National Unity (IGNU), the National Patriotic Front of Liberia (NPFL) and the United Liberation Movement for Democracy in Liberia (ULIMO), agreed, inter alia, on the distribution between them of 13 out of a total of 17 cabinet posts, on the composition of the Election Commission, on the Speaker of the Legislature and the members of the Supreme Court. Further talks among the parties on the distribution of the remaining four cabinet posts would continue.
6. On 14 February 1994 the Secretary-General submitted a progress report 2/ in which he informed the Council, inter alia, that in December 1993 the three Liberian parties had resumed their talks at Monrovia, but that they had failed

/...

to reach agreement on the disposition of the four remaining ministerial portfolios, i.e., defence, foreign affairs, justice and finance. The parties were also unable to agree on the date for the seating of the Transitional Government and for the beginning of encampment, disarmament and demobilization of combatants.

7. In a subsequent report of 23 February 1994 3/ the Secretary-General informed the Security Council that the three Liberian parties, at a meeting held at Monrovia on 15 February 1994, had reached agreement on most of the outstanding issues which had impeded the commencement of disarmament and the installation of the Transitional Government. It was agreed at the meeting that elections would be held on 7 September 1994. The parties also agreed that the installation of the Transitional Government would take place on 7 March 1994 and that disarmament would commence on the same date.

8. In a further progress report of 18 April 1994, 4/ the Secretary-General informed the Council that the Liberian parties had successfully completed a number of important steps in the implementation of the Cotonou agreement (hereafter referred to as the agreement). Among the completed steps were the following: the Council of State of the Transitional Government had been installed on 7 March 1994, the office of the Transitional Legislative Assembly had been inducted into office on 11 March 1994 and the Supreme Court of Liberia had opened for the 1994 March term on 14 March. The Assembly then proceeded to carry out confirmation hearings. The Ministers whose posts were not in dispute, were sworn in and assumed authority over their Ministries.

9. In view of the progress that had been made towards the implementation of the agreement, the Secretary-General recommended, inter alia that the mandate of UNOMIL be extended for a further period of six months, which would include the elections scheduled for September 1994.

10. By its resolution 911 (1994) of 21 April 1994, the Security Council, inter alia, decided to extend the mandate of UNOMIL until 22 October 1994.

11. In a subsequent report of 18 May 1994, 5/ the Secretary-General informed the Security Council that the Council of State of the Liberian National Transitional Government had reached agreement on the allocation of the four remaining posts that were in dispute on 19 April 1994.

12. The Council allocated the Ministry of Justice to NPFL, the Ministry of Defence to IGNU, the Ministry of Finance to ULIMO, and the Ministry of Foreign Affairs to NPFL. The full Cabinet met for the first time on 13 May 1994.

II. HUMANITARIAN ASSISTANCE

13. As of 18 April 1994, 1.4 million needy civilians were receiving assistance in Liberia, while another 300,000 are inaccessible because of security problems. Some 1,185 tons of humanitarian assistance have been delivered to ULIMO areas, except in upper Lofa, and 3,000 tons have been delivered in NPFL areas using the Côte d'Ivoire route and the Monrovia-to-Gbarnga highway.

/...

14. Since February 1994, approximately 40,000 civilians have been displaced from the south-east region and Grand Bassa county as a result of Liberian Peace Council (LPC) attacks against NPFL, while 10,000 have fled from Lower Lofa to Bong county claiming severe harassment by the Lofa Defence Force (LDF). United Nations agencies joined efforts with non-governmental organizations in bringing relief to the displaced.

15. Owing to security concerns, some 150,000 displaced persons and refugees in Upper Lofa remain cut off from any relief assistance. Those constraints on access should be overcome with the deployment of the ECOWAS Military Observer Group (ECOMOG) and UNOMIL to the areas in question.

16. Some 700,000 Liberian refugees are registered with the Office of the United Nations High Commissioner for Refugees (UNHCR) in five neighbouring west African countries, namely, Côte d'Ivoire, Ghana, Guinea, Nigeria and Sierra Leone. Since the signing of the agreement, approximately 60,000 refugees have returned, including 30,000 assisted by UNHCR. It is expected that an additional 150,000 will return spontaneously before organized repatriation begins. UNHCR has an ongoing programme of assistance for spontaneous returnees in three counties. This programme will be extended to other counties as the security situation improves.

III. ELECTORAL PROCESS

17. In accordance with the Cotonou agreement, general and presidential elections were to have taken place approximately seven months after the signing of the agreement.

18. Subsequently, the United Nations and the International Foundation for Election System (IFES) undertook a joint mission to Liberia in October 1993 to assess the requirements for holding elections and to evaluate the probability of maintaining the timetable set out in the agreement. The mission concluded that the timetable was optimistic, but that elections could possibly be held by May, on the assumption that disarmament and demobilization, installation of the Transitional Government and unification of the country were achieved expeditiously. The mission pointed out, however, that the Transitional Government would require financial assistance in order to hold the elections.

19. The Election Commission has finalized and submitted a draft electoral budget to the Council of State for its consideration. The budget was developed on the basis of a draft budget prepared by the joint mission of the United Nations and IFES in September 1993, and provides an estimate of some \$13.7 million which would be required to carry out the electoral process. It is reported that the Transitional Government will endeavour to provide some \$8.5 million of this amount and will seek international support for the remaining \$5.2 million.

IV. DISARMAMENT AND DEMOBILIZATION

20. The disarmament and demobilization process commenced on 7 March 1994. Three demobilization centres, one for each of the warring parties, were opened on that day. At present, four sites, plus one mobile demobilization team, are operational. It is reported that the total number of combatants of all the parties to be disarmed is approximately 60,000 soldiers.

21. During the period from 7 March to 7 April, more than 2,200 combatants, from all parties, were disarmed and demobilized. Owing to political difficulties, however, disarmament has been slower than expected. From mid-April to mid-June, only 1,000 additional combatants had been disarmed and demobilized. UNOMIL and ECOMOG are consulting intensively with the parties, with a view to keeping the process on course.

22. Combatants are brought to assembly areas and encampment sites under the command and control of their respective parties. ECOMOG is charged with disarming the fighters, monitored by UNOMIL. The demobilization process includes the gathering of information on each ex-combatant in regard to the individual's background and future plans, issuance of an identification card, a medical examination and counselling, after which a reintegration package (second-hand clothes, rice, simple agricultural tools) is given to each ex-combatant. Each individual is then transported to the community of choice.

23. Flexible arrangements have been put in place to accommodate specific target groups, including detainees. By mid-June, over 1,000 prisoners of war and detainees had been processed and released from detention in Monrovia. The child ex-fighters create special problems and are taken to demobilization sites coordinated by the Children's Assistance Programme, a national non-governmental organization. By the end of May, 180 children had been demobilized, of which 130 had been reunited with their families, while the remainder will continue with counselling prior to going home. This programme is funded through voluntary contributions. It is expected that a total of 6,000 child fighters will be disarmed through this process.

V. VOLUNTARY CONTRIBUTIONS

24. In paragraph 13 of its resolution 48/247, the General Assembly invited voluntary contributions to UNOMIL in cash and in the form of services and supplies acceptable to the Secretary-General. To date no voluntary contributions have been provided to UNOMIL.

25. During the period under review, the Government of Germany pledged 20 trucks to assist the transportation needs of the ECOMOG troops. The United States of America has also pledged to provide, on a bilateral basis to ECOWAS, added transportation and communications equipment for the expanded ECOMOG force totalling \$4 million per battalion for the two battalions currently deployed in Liberia.

/...

VI. TRUST FUNDS

26. As indicated in the main report of the Secretary-General on the financing of UNOMIL (A/48/592, para. 33), the Trust Fund for the Implementation of the Cotonou Accord on Liberia was established by the Secretary-General on 23 September 1993.

27. As at 31 May 1994, a total of \$15.1 million had been contributed to the Trust Fund by three Member States, namely, Denmark (\$294,616), the United Kingdom of Great Britain and Northern Ireland (\$1 million, for humanitarian assistance only) and the United States of America (\$13.8 million). In addition, a pledge of \$6 million from the United States remains outstanding.

28. The Secretary-General continues to urge Member States to assist the peace process in Liberia by providing financial assistance through the Trust Fund, particularly for demobilization and reintegration, for the holding of elections and to help ECOMOG to meet the cost of stipends for additional troops and logistic support.

VII. STATUS OF ASSESSED CONTRIBUTIONS

29. The table below summarizes the status of assessed contributions received and unpaid as at 31 May 1994 for the period from 22 September 1993 to 31 July 1994. Total outstanding assessments of \$22,113,900 are due from Member States.

30. Of the total commitment authorization of \$13,077,300 gross for the period from 22 April to 21 July 1994, the amount of \$7,520,900 gross had been apportioned and set off against the assessments on Member States under the terms of General Assembly resolution 48/247.

VIII. PERFORMANCE REPORT FOR THE PERIOD FROM
22 SEPTEMBER 1993 TO 21 APRIL 1994

31. Annex I to the present report sets out by budget-line the apportionment for the period from 22 September 1993 to 21 April 1994 in the amount of \$32,797,100 gross (\$32,225,100 net). Estimated expenditure for the period amounted to \$20,367,200 gross (\$19,872,300 net), resulting in an unencumbered balance of \$12,429,900 gross (\$12,352,800 net). Supplementary information thereon is provided in annex II.

32. Annex IX contains the planned and actual deployment of military observers. Annex XIII presents the planned and actual deployment of military observers, international civilian staff and local staff.

IX. COST ESTIMATES FOR THE PERIOD FROM
22 APRIL TO 22 OCTOBER 1994

33. The requirements for the six-month period from 22 April to 22 October 1994 is shown in annex III. The estimated cost for the period is \$25,467,100 gross (\$24,505,600 net). Supplementary information thereon is presented in annex IV. Annexes VII.A and B provide the current authorized civilian posts of UNOMIL and their distribution by office as well as monthly incumbency data for civilian and military personnel, including corresponding vacancy rates.

34. Annexes VIII.A, B and C contain information on salaries and related costs for currently deployed civilian staff, as well as for the planned deployment for filling the remaining authorized posts. A summary of the total civilian related costs is also provided. Annex X provides a summary of the resources made available, operating costs and the cash position for the period ending 21 April 1994.

35. Annex XI provides an inventory of transportation equipment and related distribution.

36. Annex XII contains an organizational chart of the Observer Mission.

37. Annex XIV contains the operational map of the Mission.

X. COST ESTIMATES FOR THE LIQUIDATION PHASE OF THE MISSION,
FROM 23 OCTOBER TO 31 DECEMBER 1994

38. It is projected that the liquidation of UNOMIL will be completed by 31 December 1994. The cost for the liquidation, estimated at \$5,025,500 gross (\$4,866,300 net), is presented in annex V, with supplementary information in

/...

annex VI. The proposed staffing table for the liquidation period is shown in annex VII.C, and details on civilian staff and related costs are shown in annex VIII.D.

XI. DISPOSITION OF ASSETS

39. It is proposed that, upon completion of UNOMIL, the mission's equipment and other property shall be disposed of in the following manner:

(a) Equipment in good condition that conforms to established standardization or which is considered compatible with existing equipment will be redeployed to other United Nations operations elsewhere in the world or will be placed in reserve to form the "start-up kits" for use by future missions (see A/48/945, paras. 76 and 77);

(b) Equipment that is not required by other peace-keeping missions which may be useful for operations of other United Nations agencies, international organizations or non-governmental organizations, and which it is not feasible to keep in reserve, will be sold;

(c) Any equipment or property which it would not be considered feasible to dispose of in accordance with (a) and (b) above or which is in poor condition, will be subject to commercial disposal, within the country, following standard United Nations regulations, rules and procedures;

(d) Any surplus mission assets after disposition under the terms referred to in (a) to (c) above, and/or any assets which have already been installed in the country and which, if dismantled, would in fact set back the rehabilitation process of the country, will be contributed to the duly recognized Government of the country. This refers in particular to airfield installations and equipment, bridges and mine-clearing equipment. A full report on the disposal of the assets of UNOMIL will be submitted to the Advisory Committee on Administrative and Budgetary Questions and to the General Assembly at a later date.

XII. FINANCIAL ADMINISTRATION

Resources made available and operational costs for the period from 22 September 1993 to 21 April 1994

40. Resources made available for the period from 22 September 1993 to 21 April 1994 and operating costs are shown in annex X.A.

41. Annex X.B reflects the cash position of the UNOMIL Special Account as of 31 May 1994.

XIII. OBSERVATIONS AND COMMENTS ON PREVIOUS RECOMMENDATIONS
BY THE ADVISORY COMMITTEE ON ADMINISTRATIVE AND
BUDGETARY QUESTIONS

42. In its report of 11 March 1994 on the financing of the United Nations Observer Mission in Liberia (A/48/900), the Advisory Committee on Administrative and Budgetary Questions made recommendations and suggestions to the Secretary-General on a number of questions on the financial operations of UNOMIL.

43. In paragraph 12 of its report, the Advisory Committee requested the Secretary-General to include information on the terms and conditions of the use of the Trust Fund in his subsequent report on UNOMIL.

44. The purpose of the Trust Fund is to support the implementation of the Cotonou agreement in Liberia, including deployment of ECOMOG peace-keeping troops, demobilization of combatants, elections and humanitarian assistance, as indicated in the letter dated 27 August 1993 from the President of the Security Council to the Secretary-General. 6/ The Trust Fund has no relationship to either the regular budget or to other current trust funds of the United Nations and is to be administered in conformity with the Financial Regulations and Rules of the United Nations.

45. The resources of the Trust Fund are to be utilized for supporting the activities indicated in paragraph 44 above. The programme manager is the Special Representative of the Secretary-General in Liberia, acting through the Under-Secretary-General for Political Affairs. Before any disbursement of funds, a detailed budget outlining the specific purpose for which funds are to be used is to be prepared by the programme manager, in consultation with relevant departments at Headquarters, and by the office of the Chief Administrative Officer of UNOMIL so as to ensure that the requirements requested are in conformity with the purposes of the Trust Fund and the Financial Regulations and Rules of the United Nations.

46. The Advisory Committee, in paragraph 21 of its report, expressed the view that the cost of travel of \$8,000 per person per round trip may be excessive and that savings might be realized in that regard. Actual expenditure for travel for both military observers and international civilian staff was less than the budgeted amount. As a result, the current cost estimates provide for travel cost at a reduced rate of \$3,400 (\$1,400 for air fare and \$2,000 for 100 kgs of accompanied baggage) per person for one-way travel based on the UNOMIL experience.

47. In paragraph 27 of its report, the Advisory Committee reiterated its observation made with regard to the financing of other missions that justification of the requirements for air operations should be provided in terms of the operational requirements of the mission. The cost estimates for the period 22 April to 22 October 1994 reflect a reduced provision for air operations, taking into consideration the air support actually acquired during the prior mandate period.

48. With regard to the Advisory Committee's observation in paragraph 33 of its report that activities financed through assessment and those financed from other

/...

sources should be specified, and in paragraph 34 the Advisory Committee's emphasis that the equipment of the demobilization and disarmament programme form part of UNOMIL's total inventory, has been taken into account in the preparation of the present report.

XIV. ACTION TO BE TAKEN BY THE GENERAL ASSEMBLY
AT ITS RESUMED FORTY-EIGHTH SESSION

49. The actions to be taken by the General Assembly at its resumed forty-eighth session in connection with the financing of UNOMIL are as follows:

(a) The appropriation of the amount of \$25,467,100 gross (\$24,505,600 net) for the period from 22 April to 22 October 1994, inclusive of the amount of \$13,077,300 gross (\$12,698,700 net) already authorized under the terms of Assembly resolution 48/247 for the three-month period beyond 21 April 1994;

(b) The assessment on Member States of the additional amount of \$17,946,200 gross (\$17,169,900 net) in connection with the maintenance of the Observer Mission for the period 22 April to 22 October 1994, after taking into account the amount of \$7,520,900 gross (\$7,335,700 net) previously assessed in accordance with Assembly decision 48/478;

(c) With regard to the liquidation of the Mission, the authorization of an amount of \$5,025,500 gross (\$4,866,300 net) for the period from 23 October to 31 December 1994 and the assessment thereof;

(d) A decision to set off against the assessment on Member States their respective share in the unencumbered balance of \$12,429,900 gross (\$12,352,800 net) for the period from 22 September 1993 to 21 April 1994.

ANNEX II

United Nations Observer Mission in Liberia

Performance report for the period from 22 September 1993
to 21 April 1994

Supplementary information

(United States dollars)

1. Military personnel costs

(a) Military observer

(i) Mission subsistence allowance (139 000)

Additional requirements of \$139,000 for mission subsistence allowance resulted from the difference between the actual deployment of military observers as compared with planned deployment (398 planned versus 416 actual, see annex IX.A). Cost estimates were based on 52,285 person-days, while actual person-days totalled 53,575 days, resulting in additional mission subsistence allowance payment for 1,290 days.

(ii) Travel costs 997 400

Cost estimates for travel were based on round-trip commercial airfares for the emplacement and repatriation travel of 368 observers. However, with the extension of UNOMIL's mandate period from 22 April to 22 October 1994, 46 observers were rotated instead of the planned repatriation of 368 observers. This resulted in a savings of \$977,400.

(iii) Clothing and equipment allowance (9 700)

Additional requirements for clothing allowance resulted from rotation of military observers which had not been envisaged. Cost estimates had been based on \$200 per annum per person. The actual number of military observers rotated during the period totalled 416 persons (see annex IX.A).

(b) Military contingents -

No provision was made under this heading.

(c) Other costs pertaining to military personnel

(i) Contingent-owned equipment -

No provision was made under this heading.

/...

(ii) Death and disability compensation 200 000

The amount allocated for death and disability compensation has not been utilized, since no claims for injuries or disability had been received.

2. Civilian personnel costs

(a) Civilian police -

No provision was made under this heading.

(b) International and local staff

(i) International staff salaries 155 700

Savings of \$155,700 under international staff salaries resulted from late deployment of international staff. The cost estimates were based on a deployment of 89 staff within six months; however, only 63 were deployed.

(ii) Local staff salaries 81 600

Savings amounting to \$81,600 in respect of local staff salaries resulted from late recruitment of civilian staff. The number of local personnel recruited during the mandate totalled 113 as against the planned deployment of 139 included in the original cost estimates.

(iii) Consultants (23 700)

Additional requirements of \$23,700 for a consultant on demobilization were the result of delays in the implementation of the demobilization programme. UNOMIL, therefore, had to engage the services of the consultant for 7.2 months. In addition, the consultant embarked on official travel to Headquarters and within the region which had not been envisaged in the original cost estimates.

(iv) Overtime -

No provision was made under this heading.

(v) Common staff costs 386 300

Savings for common staff costs resulted from late deployment of international and local staff as noted in line item 2 (b) (i) above.

(vi) Mission subsistence allowance 47 700

Savings of \$47,700 under mission subsistence allowance were the result of the delayed deployment of international civilian staff as indicated in line item 2 (b) (i) above.

/...

(vii) Travel to and from mission area 339 600

Savings of \$339,600 were the result of the late deployment of staff and also of the lower number of trips undertaken. While provision had been made for the round-trip travel of 89 international staff, only 63 one-way trips were undertaken to the mission area.

(viii) Other official travel costs (33 500)

Additional requirements for the cost of other official travel resulted from the fact that 10 round-trip air-fares were provided, but 18 were actually utilized. Additional official travel had to be made by officials from the Mission to Headquarters (New York) and by the Special Representative of the Secretary-General to other African countries and Europe in connection with the peace process in Liberia.

(c) International contractual personnel -

No provision was made under this heading.

(d) United Nations Volunteers 163 100

Savings under this heading resulted from late deployment of fewer United Nations Volunteers to UNOMIL. Forty volunteers were to be deployed for the electoral process, which had been scheduled for March 1994. However, because of the postponement of elections in Liberia to 7 September 1994, the deployment of these volunteers was delayed. During the reporting period, only 17 volunteers were deployed.

(e) Government-provided personnel -

No provision was made under this heading.

(f) Civilian electoral observers 1 060 000

No expenditure was incurred under this heading during the mandate period, as elections in Liberia were rescheduled from March 1994 to September 1994.

3. Premises/accommodation

(a) Rental of premises 83 500

Savings realized under rental of premises were attributed to the delays in identifying suitable buildings for offices and warehouses. This delay did not affect the operations of UNOMIL because of the late deployment of civilian staff and supplies and equipment to be stored in warehouses.

(b) Alterations and renovations of premises 876 700

Savings of \$876,700 were realized in respect of alterations and renovations of premises. The cost estimates include provision for repairs/upgrades to 4 airports, 5 seaports, 16 border-crossings and 11 cantonments (\$900,000) which

/...

could not be carried out during this period owing to the delay in signing an agreement between UNOMIL and the Government of Liberia regarding ownership of these properties.

(c) Maintenance supplies 4 300

Savings were the result of the fact that UNOMIL was successful in identifying and acquiring buildings for offices, particularly regional headquarters and warehouses that were in relatively good condition and needed minimum maintenance work.

(d) Maintenance services 19 900

Savings were also the result of the fact that UNOMIL was successful in acquiring buildings for offices that were in relatively good condition and required a minimum of maintenance work.

(e) Utilities 85 900

Savings of \$85,900 for utilities were the result of the late deployment of civilian staff and the delay in identifying suitable buildings for offices and warehouses.

(f) Construction/prefabricated buildings 1 111 600

Savings of \$1,111,600 under construction of prefabricated buildings were attributable to the fact that UNOMIL was successful in acquiring suitable buildings for almost all its warehousing requirements.

4. Infrastructure repairs -

No provision was made under this heading.

5. Transport operations

(a) Purchase of vehicles 303 600

Savings resulted from the fact that provision had been made for the purchase of 62 new vehicles plus 133 vehicles to be transferred from ex-United Nations Transitional Authority in Cambodia (UNTAC) surplus. However, with the exception of one sedan, all vehicles acquired by UNOMIL during the reporting period were transferred mainly from ex-UNTAC surplus and other United Nations missions. All vehicles transferred were from ex-UNTAC except for 15 jeeps transferred from the United Nations Protection Force (UNPROFOR) and 10 from the United Nations Angola Verification Mission (UNAVEM). At the start of operations, it was realized that water trailers were not suitable for UNOMIL's requirements. The mission has therefore requested that the 25 water trailers be replaced by the rental service for delivery of water to UNOMIL premises by water trucks. Vehicles transferred from UNPROFOR at the beginning of the Mission were to be replaced and UNOMIL, therefore, was charged for the cost of the 15 vehicles (\$306,700).

Total	195	1 129 200	197	825 600	(2)	303 600

(b) Rental of vehicles 127 100

Savings in respect of rental of vehicles were mainly attributable to late deployment of military and civilian personnel in addition to the early arrival of some vehicles from UNPROFOR and ex-UNTAC surplus.

(c) Workshop equipment 12 200

Savings for workshop equipment resulted from the fact that workshop equipment was also transferred from UNTAC along with vehicles.

(d) Spare parts, repairs and maintenance 47 700

Savings realized for spare parts and maintenance were the result of spare parts being transferred from UNTAC, UNPROFOR and UNAVEM, along with the vehicles.

(e) Petrol, oil and lubricants (10 000)

Additional requirements for petrol, oil and lubricants were the result of an additional 28 vehicles being sent to the mission area than was originally estimated.

/...

(f) Vehicle insurance (22 000)

Cost estimates for vehicle insurance were based on third-party liability insurance for a fleet of 169 United Nations-owned vehicles for a period of four months. However, actual insurance costs covered a total of 197 vehicles. The early arrival of these vehicles from UNTAC, UNPROFOR and UNAVEM also contributed to the additional requirements of \$22,000 under this heading.

6. Air operations

(a) Helicopter operations

(i) Hire/charter costs 349 000

Savings resulted from the fact that cost estimates were based on the rental of six helicopters for a six-month period. However, only one helicopter was hired for a period of four and one half months.

(ii) Aviation fuel and lubricants 31 000

Savings were the result of the fact that only one helicopter was deployed during the period. Provision had been made for the fuel needs of six helicopters.

(iii) Positioning/de-positioning costs 150 000

Savings resulted from the reduction of helicopter requirements from six to one. In addition, the contract signed for the helicopter in use excluded positioning and de-positioning costs.

(iv) Resupply flights -

No provision was made under this heading.

(v) Painting preparations 30 000

Savings for the painting of the six helicopters was the result of the reduction in helicopter requirements for the Mission. In addition, the contract signed for the helicopter in use excluded painting costs.

(vi) Liability insurance 83 000

Savings under liability insurance resulted from the reduction of the helicopter requirements for the Mission.

(b) Fixed-wing aircraft 263 600

Savings resulted from the non-hiring of the fixed-wing aircraft for the six-month period.

/...

(c) Air crew subsistence allowance -

No provision was made under this heading.

(d) Other air operation costs

(i) Air traffic control services and equipment -

No provision was made under this heading.

(ii) Landing fees and ground handling 21 000

Because of the changes in operational concepts, no expenses were incurred under this heading.

(iii) Fuel storage containers -

No provision was made under this heading.

7. Naval operations -

No provision was made under this heading.

8. Communications

(a) Complementary communications

(i) Communications equipment 218 600

Savings for communications equipment resulted from the fact that more communications equipment was transferred from ex-UNTAC and other missions rather than purchased, as originally envisaged. Table 2 below shows the planned and actual deployment of communications equipment for the period from 22 September 1993 to 21 April 1994.

(ii) Spare parts and supplies (77 400)

The additional requirements for communications spare parts and supplies were the result of the fact that most of the communications equipment, specifically handie-talkies and radios, transferred from UNTAC were damaged and in poor condition and had to be repaired before use.

(iii) Workshop and test equipment 30 200

Savings for workshop and test equipment were the result principally of the purchase of equipment at slightly lower prices than estimated and of the fact that not all equipment was purchased during this period.

(iv) Commercial communications 729 100

Savings for commercial communications were mainly the result of UNOMIL's delay in installing the satellite communication equipment, estimated at a user charge of \$110,000 per month, and the delay in signing of the status-of-mission agreement for a global beam lease, estimated at hire cost of \$8,300 per month for six months.

(b) Main trunking contract -

No provision was made under this heading.

9. Other equipment

(a) Office furniture (86 500)

Additional requirements resulted from the fact that cost estimates for office furniture had been underestimated. At the time of preparing the cost estimates, UNOMIL was negotiating a rental agreement for its headquarters, which included provision of office furniture by the landlord. However, this agreement did not materialize, resulting in additional requirements. In addition, high prices of these items on the local market contributed to the additional requirement of \$86,500.

(b) Office equipment (53 200)

Over-expenditure was the result of the higher than anticipated cost of office equipment.

(c) Data-processing equipment 22 900

Savings realized under data-processing equipment were the result of postponed acquisitions because of late deployment of staff.

/...

(d) Generators 1 105 000

Savings were realized because provision had been made for the purchase of UNOMIL's total generator requirements; however, a total of 101 generators were transferred from ex-UNTAC at no cost except freight, as indicated in table 3. Even though UNTAC could not supply the required specifications, UNOMIL could substitute UNTAC-provided generators for most of its requirements. The savings in freight charges (\$38,182) resulted from the fact that the freight charges in respect of generators transferred from UNTAC were less than originally budgeted.

(e) Observation equipment 61 000

Savings resulted from the fact that no expenditure was incurred under this heading.

(f) Petrol tank plus metering equipment (6 900)

Additional requirements were the result of the need for the acquisition of water tanks, which were not originally budgeted for. There are no standing pipes in Liberia, therefore, water is supplied by trucks and has to be stored in water tanks.

/...

(g) Medical and dental equipment 190 000

No expenditures were incurred under this heading because the medical personnel from Bangladesh provided the necessary normal range of equipment, which had been provided for in the cost estimates.

(h) Accommodation equipment -

No provision was made under this heading.

(i) Miscellaneous equipment (41 400)

Additional requirements were principally the result of exorbitant prices charged for goods acquired locally, a phenomenon which was not foreseen in the initial cost estimates.

(j) Field defence equipment -

No provision was made under this heading.

(k) Spare parts, repairs and maintenance (8 600)

Additional requirements for spare parts, repairs and maintenance were the result of non-competitive domestic markets for locally acquired goods and services, which resulted in exorbitant prices.

(l) Water purification equipment 145 400

Savings were realized because of the reduced need to purify water, since water was delivered to mission premises.

10. Supplies and services

(a) Miscellaneous services

(i) Audit services -

The amount authorized for this item was fully utilized.

(ii) Contractual services (1 000)

Additional requirements were the result of exorbitant prices for services in Liberia.

(iii) Data-processing services -

No provision was made under this heading.

/...

- (iv) Security services (33 400)
- Additional requirements for contractual services were the result of inadequate provision in the cost estimates for this expenditure item. Provision for 24-hour security services for offices, campsites, regional headquarters and warehouses had not been envisaged during the preparation of the cost estimates.
- (v) Medical treatment and services (1 900)
- Additional requirements were the result of the late deployment of the Bangladesh medical unit to the Mission area. Civilian and military personnel consequently had to utilize medical facilities outside the Mission area for medical treatment and services.
- (vi) Maintenance services -
- No provision was made under this heading.
- (vii) Claims and adjustments 8 300
- Savings amounted to \$8,300 for miscellaneous claims and adjustments arising from the day-to-day operation of the Mission, while expenditure amounted to \$700 for the period.
- (viii) Official hospitality 700
- Savings amounted to \$700 for official hospitality to local dignitaries in the context of good will in the official interest of the Mission, while expenditure amounted to \$2,300 for the period.
- (ix) Miscellaneous and other services (9 600)
- Additional requirements for miscellaneous services were the result of high prices for services in Liberia. These types of services include maintenance of photocopying machines and typewriters and other minor professional services.
- (b) Miscellaneous supplies
- (i) Stationery and office supplies (48 000)
- Additional requirements for office supplies were the result of closed and non-competitive markets in Liberia, hence exorbitant prices, particularly for office supplies.
- (ii) Medical supplies 61 600
- Savings were realized for medical supplies as a result of late deployment of both military and civilian personnel and also because most personnel had completed inoculation processes before arriving in Liberia, thus reducing actual requirements for vaccines.

/...

- (iii) Sanitation and cleaning materials 42 800
- Savings were the result of lower requirements for sanitation and cleaning materials than originally estimated.
- (iv) Subscriptions (1 000)
- Additional requirements for subscriptions were the result principally of closed and limited markets in Liberia, resulting in exorbitant prices for goods and services required on the domestic market.
- (v) Ballistic protective blankets for vehicles -
- No provision was made under this heading.
- (vi) Uniform items, flags and decals 122 500
- The principal reason for savings under this heading was that, with the exception of caps, badges and scarves, uniform items for military observers were provided by the respective contributing countries at no additional cost.
- (vii) Field defence stores 6 800
- Savings for the period resulted from delayed acquisition of supplies and materials for field defence position and for the establishment of observation posts, checkpoints and other defence posts as required.
- (viii) Operational maps -
- No provision was made under this heading.
- (ix) Quartermaster and general stores (28 700)
- Additional requirements for quartermaster and general stores were the result of closed and non-competitive markets in Liberia, which resulted in exorbitant prices being charged for goods and services acquired on the local market. The expenditure includes supplies of gas cylinders, fire extinguishers and, in some remote areas, charcoal.
11. Election-related supplies and services -
- No provision was made under this heading.
12. Public information programmes -
- No provision was made under this heading.
13. Training programmes -
- No provision was made under this heading.

/...

14. Mine-clearing programmes 215 300

Because of delays in the international bidding process, no expenditure was incurred under this item.

15. Assistance for demobilization and disarmament 3 013 900

Savings totalled \$3,013,900 for consultants (\$187,300), travel of consultants (\$21,800), local staff (\$279,200), training (\$18,500), equipment (\$186,700), miscellaneous services (\$456,100) miscellaneous supplies (\$43,200), rations (\$824,700), clothing (\$169,000), agricultural tools (\$403,600) and transportation (\$423,800). Only 5 to 6 per cent of combatants had been demobilized during the reporting period.

Savings resulted from the delayed recruitment of consultants for the programme. The four international medical experts were not recruited for adult combatants, and the project director and international counsellor for child combatants also were not recruited for the period. Savings realized for travel were the result of the fact that only the programme coordinator travelled to the mission area.

Savings under local staff, training, equipment, miscellaneous services, miscellaneous supplies, rations, clothing, agricultural tools and transportation all resulted from the delay in the implementation of the disarmament and demobilization programme.

16. Air and surface freight

- (a) Transport of contingent-owned equipment -

No provision was made under this heading.

- (b) Military airlifts -

No provision was made under this heading.

- (c) Commercial freight and cartage 2 700

Savings of \$2,700 for commercial freight were attributed to lower freight costs than budgeted.

17. Integrated Management Information System -

The amount authorized for this item was fully utilized.

18. Support account for peace-keeping operations -

The amount authorized has been transferred to the support account for peace-keeping operations.

19. Staff assessment 77 100

Savings from staff assessment were the result of the delayed deployment of international and local civilian staff.

20. Income from staff assessment (77 100)

This amount is derived from item 19 above.

ANNEX IV

United Nations Observer Mission in Liberia

Cost estimates for the period from 22 April to 22 October 1994

Supplementary information

(United States dollars)

I. COST PARAMETERS

1. The cost estimates for the six-month period beginning 22 April are based on the parameters provided below.

A. Mission subsistence allowance

2. Mission subsistence allowance is payable to all mission personnel excluding locally recruited staff, at the rate of \$120 per day for the first 30 days and \$85 thereafter, which has been in effect since 20 August 1993. The above rates are subject to supplements of 10 and 25 per cent for staff at the D-1/D-2 and Assistant Secretary-General/Under-Secretary-General levels, respectively.

B. Rotation/travel cost to and from the Mission area

3. The travel cost of military and civilian personnel to the mission area has been estimated at an average cost of \$3,400 per person for a one-way trip (basic air fare, \$1,400, and 100 kgs accompanied baggage, \$2,000). Travel cost for election monitors has been estimated at an average cost of \$2,800 per person per round trip.

C. Civilian personnel costs

4. Salaries and common staff costs of international staff are net of staff assessment and are based on New York standard rates except for international staff on assignment from other United Nations organizations and staff appointed for the Mission. Salaries and common staff costs of local staff are based on the local salary scale established for Monrovia. In addition, international staff are entitled to a hazardous duty station allowance of \$600 per person per month, while locally recruited staff are entitled to an equivalent of 15 per cent of their salaries.

ANNEX VI

United Nations Observer Mission in Liberia

Cost estimates for the liquidation phase of the Mission,
from 23 October to 31 December 1994

Supplementary information

(United States dollars)

I. COST PARAMETERS

1. It is projected that the liquidation of UNOMIL will be completed by 31 December 1994. The requirements detailed below relate to the operation of an UNOMIL liquidation office at Monrovia for the period from 23 October through 31 December 1994. The cost estimates are based on the parameters provided below.

A. Mission subsistence allowance

2. Mission subsistence allowance is payable to all Mission personnel excluding locally recruited staff, at the rate of \$85 per day. The above rates are subject to supplements of 10 and 25 per cent for staff at D-1/D-2 and Assistant Secretary-General/Under-Secretary-General levels, respectively.

B. Rotation/repatriation travel costs to and from
the Mission area

3. The travel costs of military and civilian personnel from the Mission area have been estimated at an average cost of \$3,400 per person per one-way trip (basic air fare, \$1,400, and 100 kgs accompanied baggage, \$2,000), inclusive of the 100 kgs accompanied baggage.

C. Civilian personnel costs

4. Salaries and common staff costs of international staff are net of staff assessment and are based on New York standard rates, except for international staff on assignment from other United Nations organizations and staff appointed for the Mission. Salaries and common staff costs of local staff are based on the local salary scale established for Monrovia. In addition, international staff are entitled to a hazardous duty station allowance of \$600 per person per month, while locally recruited staff are entitled to an equivalent of 15 per cent of their salaries.
