Substantive session of 1994  
New York, 27 June-29 July 1994  
Agenda item 3 (c) (ii)

COORDINATION OF THE POLICIES AND ACTIVITIES OF THE SPECIALIZED  
AGENCIES AND OTHER BODIES OF THE UNITED NATIONS SYSTEM RELATED  
TO IMPLEMENTATION OF THE AGREED CONCLUSIONS OF THE 1993  
COORDINATION SEGMENT OF THE COUNCIL RELATING TO THE FIELDS OF  
PREVENTIVE ACTION AND INTENSIFICATION OF THE STRUGGLE AGAINST  
MALARIA AND DIARRHOEAL DISEASES, IN PARTICULAR CHOLERA

Algeria\* and China: draft resolution

Malaria and diarrhoeal diseases, in particular cholera

The Economic and Social Council,

Recalling the conclusions agreed during the coordination segment of its  
substantive session of 1993,

1. Welcomes with interest and appreciation the report of the Secretary-  
General on preventive action and intensification of the struggle against malaria  
and diarrhoeal diseases, in particular cholera; 1/

2. Notes the absence of goals, work plans, time-frames and resources  
needed for achieving coordination of activities within the United Nations  
system;

3. Decides to retain this topic within the agenda for the general segment  
of the Economic and Social Council at its substantive session of 1995;

---

\* On behalf of the States Members of the United Nations that are members  
of the Group of 77, and in accordance with rule 72 of the rules of procedure of  
the Economic and Social Council.

1/ E/1994/60.

4. Requests the Secretary-General to prepare a report on this topic that further addresses the agreed conclusions of the 1993 coordination segment of the Economic and Social Council and responds specifically to the questions and concerns raised during its discussions in 1994. The report should be prepared with the World Health Organization and other relevant organs, organizations and bodies of the United Nations system, taking into account their expertise in the area of health and development;

5. Also requests the Secretary-General to present options in that report, given the need to increase the resources being devoted to the prevention and control of malaria and diarrhoeal diseases, in particular cholera, in developing countries, particularly in Africa, which options may include establishing special co-sponsored programmes designed to mobilize the national, bilateral and multilateral funds required for this purpose.
