The Economic and Social Council,

Noting with profound concern the ongoing effects of the accident that occurred at the Chernobyl nuclear power plant in April 1986 which had serious national and international consequences owing to its unprecedented scale,

Taking account of the need for continuing comprehensive measures to address and mitigate the consequences of the accident especially measures to safeguard the health of the population, including as appropriate resettling the population in uncontaminated areas, improving the environment in the contaminated area and preventing further possible transboundary radioactive effects,

Having examined the report of the Secretary-General¹⁰ and the report of the President of the Economic and Social Council¹¹ concerning the question of the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations,

Having heard the statements made by the representative of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and by the Vice-Chairman of the Special Committee against *Apartheid*,

Recalling General Assembly resolution 1514 (XV) of 14 December 1960, containing the Declaration on the

¹¹ E/1990/72.

Granting of Independence to Colonial Countries and Peoples, and all other resolutions adopted by United Nations bodies on the subject, including in particular Assembly resolution 44/85 of 11 December 1989 and Economic and Social Council resolution 1989/95 of 26 July 1989,

Reaffirming the responsibility of the specialized agencies and other organizations of the United Nations system to take all effective measures, within their respective spheres of competence, to assist in the full and speedy implementation of the Declaration and other relevant resolutions of United Nations bodies,

Noting with satisfaction the attainment of independence by Namibia following the holding of free and fair elections under the supervision and control of the United Nations, and the subsequent admission of independent Namibia as a Member of the United Nations on 23 April 1990,

Also recalling General Assembly resolution S-16/1 of 14 December 1989, containing the Declaration on *Apartheid* and its Destructive Consequences in Southern Africa,

Noting with deep concern that destabilization by South Africa of the front-line and neighbouring States, whether through direct aggression, sponsorship of surrogates, economic subversion or other means, is unacceptable in all its forms and must not occur,

Recognizing that permanent peace and stability in southern Africa can only be achieved when the system of *apartheid* in South Africa has been eradicated and South Africa has been transformed into a united, democratic and non-racial country, and reiterating, therefore, that all the necessary measures should be adopted at the present time to bring a speedy end to the *apartheid* system in the interest of all the people of southern Africa, the African continent and the world at large,

Deeply concerned that the objectives of the Charter of the United Nations and the Declaration on the Granting of Independence to Colonial Countries and Peoples have not been fully achieved,

Bearing in mind the extremely fragile economies of the small island Territories and their vulnerability to natural disasters, such as hurricanes and cyclones, and recalling relevant General Assembly resolutions,

Deeply conscious of the continuing critical need of the people of Namibia for concrete assistance from the specialized agencies and the international institutions associated with the United Nations,

Noting with appreciation that assistance has continued to be extended to refugees from southern Africa through the Office of the United Nations High Commissioner for Refugees,

1. *Takes note* of the report of the President of the Economic and Social Council, and endorses the observations and suggestions contained therein;

2. *Takes note also* of the report of the Secretary-General;

3. *Reaffirms* that the recognition by the General Assembly, the Security Council and other United Nations organs of the legitimacy of the aspiration of colonial peoples to exercise their right to self-determination and independence entails, as a corollary, the extension by the United Nations system of organizations of all the necessary moral and material assistance to those peoples;

4. *Expresses its appreciation* to those specialized agencies and other organizations of the United Nations system that have continued to co-operate in varying forms and degrees with the United Nations and the regional organizations concerned in the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and other relevant resolutions of United Nations bodies, and urges all the specialized agencies and other organizations of the United Nations system to contribute to the full and speedy implementation of the relevant provisions of those resolutions;

5. *Recommends* that all States intensify their efforts in the specialized agencies and other organizations of the United Nations system to ensure the full and effective implementation of the Declaration and other related resolutions of the United Nations system;

6. *Requests* the specialized agencies and international institutions associated with the United Nations to strengthen existing measures of support and formulate additional programmes of assistance to the remaining Trust and Non-Self-Governing Territories within the framework of their respective mandates;

7. *Requests* the specialized agencies and other organizations of the United Nations system, as well as international and regional organizations, to take appropriate measures within their spheres of competence in order to accelerate progress in the economic and social sectors of those Territories;

8. *Welcomes* the continued initiative exercised by the United Nations Development Programme in maintaining close liaison among the specialized agencies and other organizations of the United Nations system, and in co-ordinating the activities of the specialized agencies in extending effective assistance to the peoples of colonial Territories, and calls upon the specialized agencies and other organizations of the United Nations system, as a matter of urgency, to contribute generously to the relief, rehabilitation and reconstruction efforts in the Non-Self-Governing Territories affected by natural disasters;

9. *Urges* the administering Powers concerned to facilitate the participation of the representatives of the Governments of Trust and Non-Self-Governing Territories at the relevant meetings and conferences of the agencies and organizations so that the Territories may draw the maximum benefits from the related activities of the specialized agencies and other organizations of the United Nations system;

10. *Urges* the governing bodies of those specialized agencies and other organizations of the United Nations system that have not already done so to include in the

agenda of their regular sessions a separate item on the progress made and action to be taken by their organization in the implementation of the Declaration and other relevant resolutions of the United Nations bodies;

11. *Urges* the executive heads of the specialized agencies and other organizations within the United Nations system to formulate, with the active co-operation of the regional organizations concerned, concrete proposals for the full implementation of the relevant United Nations resolutions and to submit the proposals as a matter of priority to their governing and legislative organs;

12. *Urges* the specialized agencies and other organizations of the United Nations system to adhere to the Programme of Action contained in the Declaration on *Apartheid* and its Destructive Consequences in Southern Africa, in particular with regard to increased support for the opponents of *apartheid*, the use of concerted and effective measures aimed at applying pressure to ensure a speedy end to *apartheid* and ensuring the non-relaxation of existing measures to encourage the South African régime to eradicate *apartheid* until there is clear evidence of profound and irreversible changes;

13. *Stresses*, in the context of the Declaration on *Apartheid* and its Destructive Consequences in Southern Africa, the need for the specialized agencies and other organizations of the United Nations system to render all possible assistance to the front-line and neighbouring States to enable them to rebuild their economies, which have been adversely affected by South Africa's acts of aggression and destabilization, to withstand any further such acts and to continue to support the people of South Africa;

14. *Draws the attention* of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples to the present resolution and to the discussion held on the subject at the second regular session of 1990 of the Economic and Social Council;

15. *Requests* the President of the Economic and Social Council to continue to maintain close contact on these matters with the Chairman of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and to report thereon to the Council;

16. *Also requests* the President of the Council to maintain contact with the Chairman of the Special Committee against *Apartheid*, which is the focal point for the international campaign against *apartheid*, and to report thereon to the Council as appropriate;

17. *Requests* the Secretary-General to follow the implementation of the present resolution, with particular attention to co-ordination and integration arrangements for maximizing the efficiency of the assistance activities undertaken by various organizations of the United Nations system, and to report thereon to the Council at its second regular session of 1991;

18. *Decides* to keep these questions under continuous review.

The Economic and Social Council,

Noting with alarm that the screw-worm fly has been introduced into North Africa and is now established, thereby posing a potential threat to people, livestock and wildlife in Africa, the Mediterranean parts of Europe and the Near East,

Recognizing the potentially devastating effects of the screw-worm infestation on people, livestock and wildlife and the adverse socio-economic consequences thereof,

Noting that the resources and technology needed for eradication are not currently available in the infested region and that concerted efforts at the national, subregional, regional and global levels will be required,

4. *Encourages* funding agencies, such as the United Nations Development Programme and the International Fund for Agricultural Development, and the donor community to support an eradication programme;

5. *Invites* the Director-General of the Food and Agriculture Organization of the United Nations to submit to the Economic and Social Council at its second regular session of 1991 an up-to-date report on the screw-worm infestation and efforts undertaken to eradicate it.

Reaffirming that the Office of the United Nations Disaster Relief Co-ordinator is, within the United Nations system, the focal point for disaster matters and therefore should be provided by the donor community, the United Nations and the other organizations of the United Nations system with the support necessary for it to discharge its responsibilities in the area of disaster relief and mitigation,

Taking into account that the Republic of Yemen, as one of the least developed countries, is unable to shoulder the burden of its reconstruction and rehabilitation programmes, in spite of the endeavours of the Government,

Taking into account the requirements to enable the Republic of Yemen to rebuild the country's infrastructure, particularly roads, health centres, schools, water and electricity supply lines, communication networks and other public services, and to reconstruct the villages and reclaim the thousands of hectares of cultivated land that were totally destroyed or swept away during the floods in April 1989,

Recognizing that the Sudan continues to require, as a complement to its own efforts, strong and continued international solidarity and humanitarian support to meet the urgent requirements for relief, rehabilitation and reconstruction,

1. *Expresses its deep gratitude and appreciation* to the States and intergovernmental and non-governmental organizations that are providing assistance to the Government and the people of the Sudan in their relief, rehabilitation and reconstruction efforts in the context of Operation Lifeline Sudan;

3. *Requests* the Secretary-General, in close co-operation with the Government of the Sudan, to continue to co-ordinate the efforts of the United Nations system to help the Sudan in its emergency, rehabilitation and reconstruction programmes, to mobilize resources for the implementation of those programmes and to keep the international community informed of the needs of that country;

4. *Calls upon* all States to continue to contribute generously to the relief and rehabilitation requirements of displaced persons;

6. *Requests* the Secretary-General, in the context of his report on the implementation of General Assembly resolution 44/12, for submission to the General Assembly at its forty-fifth session, to provide information with special reference to the activities mentioned in the report made before the Third (Programme and Co-ordination) Committee at its 1st meeting, on 11 July 1990, by the Special Representative of the Secretary-General for Emergency and Relief Operations in the Sudan.

The Economic and Social Council,

Recalling General Assembly resolutions 43/174 of 9 December 1988 and 44/103 of 11 December 1989 on the restructuring and revitalization of the United Nations in the economic and social fields,

Recalling also its own resolutions 1988/77 of 29 July 1988 and 1989/114 of 28 July 1989 on the revitalization of the Economic and Social Council,

Recalling further its decision 1990/205 of 9 February 1990, containing the multi-year work programme of the Council,

Recognizing the relationship between the process of revitalization of the Council and the restructuring of the United Nations intergovernmental machinery and secretariat support in the economic and social sectors, as further spelt out in General Assembly resolution 44/103,

Taking note of the report of the Secretary-General on the revitalization of the Economic and Social Council,¹⁸ and of the views expressed by the Member States on the subject,

1990/70. Activities of transnational corporations in South Africa

The Economic and Social Council

Recalling its previous resolutions on the activities of transnational corporations in South Africa, in particular resolution 1988/56 of 27 July 1988, in which it urged all transnational corporations to stop immediately all forms of collaboration with the racist minority régime in South Africa and called for specific actions by Member States and transnational corporations to end such collaboration,

Noting with grave concern the brutal perpetuation of the inhuman system of *apartheid* in South Africa and the continued denial of the civil and political rights of the majority of the population in that country,

Welcoming the Declaration on *Apartheid* and its Destructive Consequences in Southern Africa, adopted by the General Assembly in its resolution S-16/1 of 14 December 1989, which contains guidelines on how to end *apartheid* in a peaceful manner,

Bearing in mind the fact that continued investments, trade, technological co-operation and other forms of covert or overt activity by transnational corporations inside and outside South Africa sustain *apartheid*,

Noting with deep regret the unfriendly decision of the Government of the United Kingdom of Great Britain and Northern Ireland to lift unilaterally the ban of the Commission of the European Communities on new investments in South Africa, contrary to the political consensus in the Declaration on *Apartheid* and its Destructive Consequences in Southern Africa that existing measures aimed at encouraging the South African régime to eradicate *apartheid* should not be relaxed until there was clear evidence of profound and irreversible change,

Also noting with deep regret the unprincipled decision of the Government of Hungary, a founding member of the Special Committee against *Apartheid*, to initiate commercial and economic contacts with the *apartheid* régime of South Africa,

Recalling that some transnational banks and other international financial institutions have rescheduled South Africans loans in contemptuous disregard for the overwhelming interest of the international community in dismantling *apartheid* peacefully and speedily,

Also recalling that some transnational companies that have supposedly departed from South Africa have actually maintained non-equity links, such as franchises, licences and royalty agreements, with former subsidiaries,

Having examined the report of the Secretary-General concerning the responsibilities of home countries with respect to the transnational corporations operating in South Africa in violation of the relevant resolutions and decisions of the United Nations,¹⁹

1. *Reiterates* its abhorrence of *apartheid*, which is a crime against humanity, and condemns the South African régime for its perpetuation of *apartheid* and its direct and indirect acts of military and economic destabilization of the neighbouring independent States;

2. *Welcomes* the emerging political climate in South Africa, which has the potential to create an atmosphere conducive to negotiations aimed at the eradication of *apartheid* and at the creation of a non-racial, democratic and united South Africa;

3. *Urges* the Government of South Africa to work speedily to create the conditions necessary for the establishment of genuine democracy in South Africa, based on the guidelines provided in the Declaration on *Apartheid* and its Destructive Consequences in Southern Africa;

4. *Condemns* those transnational corporations that continue to collaborate with the racist minority régime in South Africa, in defiance of resolutions of the United Nations and international public opinion and, in many cases, in violation of measures adopted by their home countries;

5. *Welcomes* as an initial step the measures taken by certain Governments to impose restrictions on investments, bank loans and other economic activities in South Africa, and the divestment by certain transnational corporations of their equity investments in South Africa;

6. *Deeply regrets* that the measures taken so far fall short of the comprehensive and mandatory sanctions against the racist régime in South Africa called for in resolutions of the General Assembly;

7. *Calls upon* the Governments of the home countries of transnational corporations to implement fully the provisions of Economic and Social Council resolution 1988/56 and to consider adopting further measures to prohibit all forms of collaboration by transnational corporations with the racist minority régime in South Africa, including not only direct investments but also services, non-equity forms of business arrangements, technology licensing, distribution and franchising agreements and other such activities;

8. *Condemns* the decision of the Government of the United Kingdom of Great Britain and Northern Ireland to lift unilaterally the ban of the Commission of the European Communities on new investments in South Africa, which serves to embolden the *apartheid* régime to entrench *apartheid* at this critical moment in the struggle for democratic change in South Africa;

9. *Calls upon* the Government of the United Kingdom of Great Britain and Northern Ireland to rescind its decision without delay;

10. *Condemns* the reprehensible decision of the Government of Hungary to initiate commercial, economic and political links with the *apartheid* régime, a move completely inconsistent with the principled stand that Government has been known to take in such matters;

¹⁹ E/C.10/1990/8.

11. *Calls upon* the Government of Hungary to return to its traditional position of opposing racism and to abandon any links with the *apartheid* régime that would serve to sustain that régime;

12. *Urges* all transnational corporations to stop immediately any operations in South Africa and all forms of trade and economic links with the racist minority régime;

13. *Calls upon* all multilateral financial and development institutions to cease immediately any kind of support or other form of collaboration with the racist régime in South Africa;

14. *Takes note with appreciation* of the report and recommendations of the Panel of Eminent Persons established to conduct the second public hearings on the activities of transnational corporations in South Africa;²⁰

15. *Requests* the Secretary-General:

(a) To continue the useful work of collecting and disseminating information on the activities of transnational corporations in South Africa, including the list of transnational corporations still conducting operations there;

(b) To prepare studies on the level and form of operation by transnational corporations in South Africa, including their non-equity business arrangements and their involvement in particular sectors of the South African economy, and an updated study on the responsibilities of home countries with respect to the transnational corporations operating in South Africa in violation of relevant resolutions and decisions of the United Nations;

(c) To report annually to the Commission on Transnational Corporations, the Economic and Social Council, the General Assembly and the Security Council on the implementation of the present resolution.

II

1. *Requests* the Executive Director of the United Nations Centre on Transnational Corporations to prepare, based on the provisions of General Assembly resolution 44/228 of 22 December 1989 on the United Nations Conference on Environment and Development, in accordance with the requirements established by the Preparatory Committee for the Conference, in co-operation with the United Nations Environment Programme and other relevant organs and bodies of the United Nations and in consultation with the Secretary-General of the Conference, a comprehensive and analytical study for submission to the Commission on Transnational Corporations at its seventeenth session, with a view to helping the Commission make a significant and action-oriented contribution to the preparatory work of the Conference;

2. *Also requests* the Executive Director of the Centre, in preparing the study requested, to focus on the role of transnational corporations and other commercial entities of a similar nature in promoting access to and transfer of environmentally sound technologies to developing countries, in accordance with General Assembly resolution 44/228, in particular section I, paragraph 15 (m) thereof, to include specific and innovative proposals to strengthen such transfer and, in co-operation with the United Nations Conference on Trade and Development, the United Nations Industrial Development Organization, the United Nations Environment Programme, the United Nations Educational, Scientific and Cultural Organization, the World Intellectual Property Organization and other relevant organs and organizations of the United Nations system, to investigate the issue as well as other measures that could further encourage and mobilize transnational corporations and other commercial entities of a similar nature to protect and enhance the environment in relation to development;

3. *Takes note with appreciation* of the report of the Secretary-General on transnational corporations and issues relating to the environment,²¹ including the criteria for sustainable development management set out in annex I of the report, and requests the Executive Director of the Centre, pursuant to Economic and Social Council resolution 1989/25 of 24 May 1989 and General Assembly resolution 44/228, in co-operation with the United Nations Environment Programme and other relevant organs and bodies of the United Nations and in consultation with the Secretary-General of the United Nations Conference on Environment and Development, and taking full account of other ongoing work, to continue to examine those issues, including concrete ways and means of strengthening the participation of

transnational corporations and other commercial entities of a similar nature in the efforts to increase environmental protection and provide business enterprises and governmental agencies in developing countries with access to information on cleaner technologies, to examine the feasibility of financial mechanisms that would encourage transnational corporations and other enterprises of a similar nature to contribute to the protection and enhancement of the environment of developing countries, and to report to the Commission on Transnational Corporations at its seventeenth session, with a view to assisting the Commission in its contribution to the Preparatory Committee for the Conference.

III

1. *Requests* the Secretary-General to continue to explore ways and means of promoting regional economic integration and co-operation among developing countries through joint ventures and the potential impact of regional economic integration processes among developed countries, including the impact on regional economic integration processes in developing countries, as called for in Economic and Social Council resolutions 1989/21, 1989/22 and 1989/23 of 24 May 1989;

2. *Supports* the technical co-operation activities of the United Nations Centre on Transnational Corporations, and requests the Centre to continue its efforts to develop its programmes of support for co-operative activities of small and medium-sized enterprises in developing countries;

3. *Requests* the Secretary-General to prepare further studies on the role of transnational corporations in other services, including financial services, and on strengthening the negotiating capacity of developing countries in their dealings with transnational corporations, and to report on other ongoing and future research of the Centre to the Commission on Transnational Corporations at its seventeenth session;

4. *Also requests* the Secretary-General, taking into account the other work being carried out in the United Nations, to prepare an updated report on the role of transnational banks related to the external indebtedness of developing countries, giving particular attention to the obstacles and problems that transnational banks have faced with regard to debt reduction, for submission to the Commission on Transnational Corporations at its seventeenth session;

5. *Further requests* the Secretary-General to prepare an analytical report on debt-equity swaps, taking into account the work already carried out by the Centre, on the effect that swaps could have on foreign direct investment and the overall development of host countries, as well as the experience of countries that have developed such schemes;

6. *Takes note* of the suggestion to undertake country-specific studies on the contribution of foreign direct investment to development, with a view to analysing and stimulating the flow in investment capital, tech-

nology and skills to host countries and identifying proposals for technical assistance designed to support their development objectives, on the understanding that those studies should be undertaken only upon the request of Governments, with their participation and for their use only.²²

IV

1. *Takes note* of the *Conclusions on Accounting and Reporting by Transnational Corporations*,²³ prepared and agreed to by the Intergovernmental Working Group of Experts on International Standards of Accounting and Reporting, and further notes that the conclusions may be useful for both preparers and users of financial statements;

2. *Commends* the Group on its work on international standards of accounting and reporting, and calls upon the Secretary-General to ensure that, without affecting other activities, resources are made available so that the Group and the Centre may effectively carry out their work on international accounting and reporting.

1990/72. Future of the African Institute for Economic Development and Planning

The Economic and Social Council,

Recalling resolution 669 (XXIV) adopted on 7 April 1989 by the Conference of Ministers of the Economic Commission for Africa concerning the future funding of the activities of the African Institute for Economic Development and Planning,²⁴

Recalling the Special Memorandum of the Governing Council of the African Institute for Economic Development and Planning,²⁵

Considering the outstanding record of the Institute in the training of African planners and development specialists,

Considering also the continuing and growing need of African Governments for the services of the Institute in the fields of training, research and advisory services,

Considering further the possibility that the United Nations Development Programme may withdraw its financing of the Institute at the end of 1990 and that the Institute is the only regional institute able to provide training and research services to all States members of the Commission in the area of economic development and planning.

²² See *Official Records of the Economic and Social Council, 1990, Supplement No. 6 (E/1990/26)*, para. 140.

²⁵ *Ibid.*, Supplement No. 16 (E/1989/35), annex II.

Noting with great distress that the persistent and substantial shortfall in the contributions of member States to the Institute will inevitably force its closure in 1990 if no remedial action is taken,

1. *Urgently appeals* to States members of the African Institute for Economic Development and Planning:

(a) To pay immediately to the Institute their contributions for 1990 and their arrears for 1989;

(b) To pay back to the Institute all their remaining arrears according to a schedule to be arranged with the management of the Institute;

(c) To pay their regular annual contribution to the Institute in a timely manner under arrangements to be determined with the management of the Institute;

2. *Calls upon* the General Assembly, as a matter of urgency, to approve the inclusion of four key posts for the Institute in the United Nations regular budget, namely, the Director, the Chief of Administration and Finance and two senior lecturers, in line with the recommendation contained in Economic and Social Council resolution 1985/62 of 26 July 1985, to enable the Institute to carry out its approved work programme and functions on a continued and sustained basis as stipulated in its Statute;

3. *Appeals* to the United Nations Development Programme to help the Institute to survive its present financial crisis and, in particular:

(a) To set up quickly the evaluation mission announced in October 1989;

(b) To give its full backing to the short-term training programme and the research and advisory activities of the Institute;

(c) To continue its support for the activities of the Institute in 1990 and beyond;

4. *Commends* the Governing Council of the Institute on the decisions taken to rationalize the use of resources and urges the management of the Institute to persevere in that endeavour.

1990/73. Improving the technical facilities of the Economic Commission for Africa

The Economic and Social Council,

Recognizing the need for providing adequate equipment and training in the region in current information technology,

Concerned about the paucity of up-to-date office automation and computing equipment at the secretariat of the Economic Commission for Africa,

Also concerned about the constraints that such a situation imposes on the Commission to properly assist African member States in enhancing their planning and monitoring capacities,

Urges the Secretary-General to provide the secretariat of the Economic Commission for Africa with the office automation and computing equipment necessary to enable it to function efficiently and to provide better service to member States.

1990/74. Proposal for interregional co-operation in the area of trade facilitation, and in particular the phased application of the Rules for Electronic Data Interchange for Administration, Commerce and Transport (EDIFACT), whenever appropriate

The Economic and Social Council,

Recalling its resolution 1989/118 of 28 July 1989 on interregional co-operation for facilitation of international trade, in which it invited the regional commissions and the United Nations Conference on Trade and Development to prepare jointly a project proposal in this field,

Recognizing that African countries need to co-operate effectively with the rest of the world and to participate in international trade facilitation, including the use of electronic data interchange for the transmission of trade documentation,

Conscious of the urgent need in Africa to build up, strengthen and upgrade capacities to identify problems and requirements for the facilitation of international and intra-African trade, including the analysis of practices, procedures, laws, regulations, policies and documentation governing international trade, and that such capacity-building would benefit government ministries and departments concerned with planning, trade, transport, customs administration, statistics and data processing,

Recognizing further the desirability of interregional co-operation among the regional commissions jointly with the United Nations Conference on Trade and Development in promoting the global application of agreed measures for the facilitation of international trade,

1. *Decides* fully to support the implementation by participating African States of the project proposal on interregional co-operation for the facilitation of international trade, prepared jointly by the regional commissions and the United Nations Conference on Trade and Development;

2. *Recommends* the proposal for funding by donors;

3. *Invites* all States Members of the United Nations to support the project proposal;

4. *Requests* the United Nations Development Programme, the World Bank, the regional development banks and bilateral donors to provide adequate financing to ensure the full realization of the project;

5. *Also requests* the Executive Secretary of the Economic Commission for Africa to report to the Commis-

sion at its twenty-sixth session on the implementation of the present resolution;

6. *Further requests* the Secretary-General to include in his annual report on regional co-operation, to be submitted to the Economic and Social Council at its second regular session of 1991, a report on the progress made in the implementation of the present resolution, as well as on the further consideration of Council resolution 1989/118 by the regional commissions for Europe, Latin America and the Caribbean, Asia and the Pacific and Western Asia.

1990/75. Final review and appraisal of the United Nations Programme of Action for African Economic Recovery and Development 1986-1990

The Economic and Social Council,

Recalling General Assembly resolution 43/27 of 18 November 1988, in which the Assembly decided that the final review and appraisal for the United Nations Programme of Action for African Economic Recovery and Development 1986-1990 should be conducted at its forty-sixth session,

Noting with appreciation the reports of the Economic Commission for Africa on the progress in the implementation of the Programme of Action²⁶ and on the preparations for the final review and evaluation of the Programme of Action,²⁷

Also noting with appreciation the work of the United Nations Steering Committee and the United Nations Inter-Agency Task Force on the monitoring of the implementation of the Programme of Action,

Convinced that the final review and evaluation of the implementation of the Programme of Action by the General Assembly should be an occasion for an in-depth appraisal of the actions taken by all sides in the implementation of the Programme, as well as of the measures that are needed to sustain accelerated growth and development in Africa beyond 1991,

Convinced also of the need for States members of the Economic Commission for Africa to conduct a thorough assessment of the implementation of the Programme and that such an assessment should be as up-to-date as possible,

Concerned about the continuing deterioration in the economic and social conditions in Africa and the possibility of the continuation of such trends in the 1990s,

1. *Recommends* that mechanisms for the final review and appraisal of the implementation of the United Nations Programme of Action for African Recovery and

Development 1986-1990 be similar to those of the mid-term review of the Programme of Action and that for that purpose an *ad hoc* committee of the whole of the General Assembly be established to appraise the Programme of Action and propose measures for sustained development in Africa beyond 1991;

2. *Decides* that a special memorandum addressed to the proposed *ad hoc* committee of the whole of the General Assembly on the review and appraisal of the United Nations Programme of Action for African Recovery and Development 1986-1990 should be prepared by the Conference of Ministers of the Economic Commission for Africa at its seventeenth meeting, in May 1991, and that the draft of the special memorandum should be considered at an intergovernmental expert group meeting to be convened immediately before the meeting of the Technical Preparatory Committee of the Whole and the Conference of Ministers;

3. *Invites* the Executive Secretary of the Commission to send special multisectoral missions to all States members of the Commission early in the fourth quarter of 1990 to collect up-to-date information on the implementation of the Programme of Action, on the basis of which the special memorandum would be prepared;

4. *Requests* the Secretary-General to make available to the secretariat of the Commission the financial resources required for such special missions on the review and appraisal of the implementation of the Programme of Action;

5. *Urges* member States and their development and planning machineries to participate actively in the preparation of the special memorandum.

1990/76. Transforming and strengthening the Multinational Programming and Operational Centres of the Economic Commission for Africa

The Economic and Social Council,

Recalling resolution 311 (XIII) adopted on 1 March 1977 by the Conference of Ministers of the Economic Commission for Africa establishing the Multinational Programming and Operational Centres,²⁸

Recognizing that, over the years, the Centres have played a vital role in fostering subregional economic co-operation and integration and that the objectives for which they were established are more valid today than they were thirteen years ago,

Considering the imperative need for women to participate positively and effectively in the implementation of programmes aimed at their integration in the process of development in each subregion,

²⁶ E/ECA/CM.16/4.

²⁷ E/ECA/CM.16/5.

²⁸ See *Official Records of the Economic and Social Council, Sixty-third Session, Supplement No. 7 (E/5941)*, vol. I, part III.

Concerned about the poor performance and achievements of the Centres during the past few years, mostly as a result of insufficient financial and human resources and their inadequacy to meet the new tasks that they are to perform towards economic recovery and transformation,

Welcoming General Assembly resolution 43/216 of 21 December 1988, in which the Assembly, having considered the financial report and audited financial statements for the biennium ended 31 December 1987 and the report of the Board of Auditors,²⁹ endorsed the recommendation of the Board³⁰ and the concurring observation of the Advisory Committee on Administrative and Budgetary Questions³¹ that the achievements of the Multinational Programming and Operational Centres be thoroughly evaluated with a view to deciding whether that experiment should be continued or whether the mandate, number and structure of the Centres should be completely reorganized,

Noting with satisfaction the decision of the Secretary-General to appoint a review team whose mandate would be, *inter alia*, to examine the structure and organization of the Centres with a view to determining their suitability for the execution of their tasks, taking into account General Assembly resolution 43/216,

Noting that the current distribution and location of the Centres are in keeping with the spirit of the Final Act of Lagos³² in terms of the need to promote co-operation and integration within the framework of the subregional economic groupings,

1. Takes note of the report of the Review Team on the Structure, Organization and Operations of the Multinational Programming and Operational Centres³³ in which it is concluded that the structure, organization and operations of the Multinational Programming and Operational Centres of the Economic Commission for Africa should be maintained, transformed and strengthened;

2. Warmly congratulates the Review Team on the thorough and objective manner in which it carried out its work and for its findings and recommendations;

3. Strongly supports the conclusions of the Review Team that the Centres' institutions should be transformed and strengthened to provide member States with the required technical assistance and advisory services for the execution of their joint projects within the framework of the intergovernmental organizations;

4. Adopts the new mandate of the Centres as proposed by the Review Team;

5. Strongly urges the General Assembly to provide the Centres with additional human and financial resources to enable them to respond more effectively to multinational and multisectoral programming requirements based on priorities identified by member States, and to provide immediately a minimum core of such resources;

6. Decides that, given the financial constraints and the need for better co-ordination between the Centres and intergovernmental organizations, the Centres should report directly to the Conference of Ministers of the Economic Commission for Africa through the committees of intergovernmental experts that will be responsible for supervising the activities of the Centres at the subregional level;

7. Urges the General Assembly and donor and technical assistance organizations to provide the Centres with sufficient resources for the formulation and implementation of programmes for the effective participation of women in the development process of their respective subregions;

8. Recommends that the current number and composition of the Centres should be maintained since they fit in with the structure of existing subregional economic groups; their distribution could, however, be reviewed in future to make for the rational use of available resources and to reflect developments in the subregional economic groupings;

9. Takes into consideration the memorandum on the strengthening and transformation of the Centres, submitted by the Conference of Ministers of the Economic Commission for Africa and annexed to the present resolution;

10. Appeals to member States to continue their support and assistance to the Centres through the United Nations Trust Fund for African Development and by any other appropriate means;

11. Urges technical assistance and funding agencies to assist in the implementation of the recommendations of the Review Team regarding the need to provide the Centres with sufficient financial and human resources for the effective execution of their mandate.

Administrative and Budgetary Questions with regard to the Multinational Programming and Operational Centres. The Assembly called for a thorough evaluation of the achievements of the Centres with a view to deciding whether the experiment should be continued or whether the mandate, number and structures of the Centres should be completely reorganized.

2. Pursuant to the above-mentioned resolution, an independent review team was commissioned by the Executive Secretary of the Economic Commission for Africa, in collaboration with the Under-Secretary-General for Administration and Management, with the following terms of reference:

(a) To examine the original mandate of the Centres,³⁴ with a view to ascertaining its continued relevance;

(b) To examine the structure and organization of the Centres, with a view to determining their suitability for the execution of their tasks, taking into account the recommendation made in paragraph 91 of the report of the United Nations Board of Auditors;²⁹

(c) To review and report on all aspects of management of the Centres;

(d) To examine the adequacy of resources available and make recommendations aimed at strengthening the Centres for a more efficient execution of their mandate;

(e) To investigate the effectiveness of the linkages with the substantive and service organizational units of the Economic Commission for Africa;

(f) To examine any other relevant matters pertaining to the efficient and effective operations of the Centres;

(g) To report not later than 10 March 1989, or as soon as possible thereafter, to the Executive Secretary of the Economic Commission for Africa and the Under-Secretary-General for Administration and Management.

3. The Conference of Ministers expresses its appreciation to the Secretary-General who, in accordance with the request contained in its resolution 659 (XXIV) of 7 April 1989 on the review of the achievements of the Multinational Programming and Operational Centres of the Commission,³⁵ has enabled the Conference of Ministers to comment on the report of the Review Team. The Conference of Ministers wishes to reiterate that it welcomes the decision of the General Assembly on the review and evaluation of the Centres, as it believes that such a review is opportune. Finally the Conference of Ministers expresses its sincere appreciation to the Review Team for the quality of its work and for the recommendations which it has put forward.

4. The Conference of Ministers wishes in this memorandum to comment on these proposals and recommendations of the Review Team so that the General Assembly will have the benefit of its opinion. The views of the Conference of Ministers are a result of the extensive discussion that took place on the report of the twenty-fifth session of the Commission and sixteenth meeting of the Conference of Ministers, held at Tripoli from 5 to 19 May 1990, which was preceded by an equally extensive discussion at the level of the Technical Preparatory Committee of the Whole.

5. In the light of its critical assessment of the proposals of the Review Team, the Conference of Ministers fully concur with the findings of the Review Team that the objectives and purposes for which the Centres were established are more valid today than they were thirteen years ago, considering the socio-economic challenges that will confront the African countries in the 1990s. Member States argue strongly in favour of the maintenance, transformation and strengthening of an institution such as the Centres provided, with the additional human, technical and financial resources required for the execution of their joint projects within the framework of the intergovernmental organizations they have established.

6. The Conference of Ministers recommend that the number and membership of the Centres should be retained, since they correspond to the existing subregional economic groupings. It will continue to pay the necessary attention to the issue of the subregional distribution of the Centres with a view to ensuring the efficient utilization of available resources and in keeping with the evolution of subregional groupings.

7. The Conference of Ministers expresses its appreciation to the Centres for the services they have rendered and the role which they have played in supporting member countries' endeavours to promote subregional and regional economic co-operation and integration in providing technical assistance to intergovernmental organizations in the various subregions. In particular the Conference stresses the role of the Centres in the establishment of the Preferential Trade Area for Eastern and Southern Africa and the Economic Community of Central African States, and the co-ordinating role of the Centre among the more than forty intergovernmental organizations in West Africa.

8. The Conference of Ministers endorses the findings of the Review Team with regard to the relevance of the Centres as an institution to provide technical assistance in its efforts towards subregional groupings and the need to redefine the terms of reference of the Centres in the light of past experiences and the challenges that are ahead. Accordingly it supports the following terms of reference proposed by the Review Team:

(a) To provide member States and intergovernmental organizations with technical assistance (advisory services) in project identification, planning and the formulation of multisectoral programmes and projects for execution by the Multinational Programming and Operational Centres in association with intergovernmental organization secretariats and the specialized agencies of the United Nations system;

(b) To provide member States and intergovernmental organizations with short-term advisory services in development planning and to assist in the translation of those plans into multinational and multisectoral programmes and projects, including the identification and formulation of programmes and projects for execution by them or at their request by the Economic Commission for Africa-Subregional Technical Assistance Programmes (Multinational Programming and Operational Centres) themselves, in association with the specialized agencies of the United Nations system, as required;

(c) To undertake pre-feasibility and feasibility studies, research on and analyses of priority areas identified by member States and intergovernmental organizations in order to enhance subregional co-operation and integration;

(d) To provide assistance and support in the development of human resources and in organizing training courses, seminars, lectures, workshops and round-tables, and to execute multinational development programmes and projects for socio-economic advancement with a view to strengthening the institutional and organizational capacity of member States;

(e) To develop, in the light of the above, effective working relationships with Governments, intergovernmental organizations, United Nations Development Programme offices and other international organizations, with a view to harmonizing the designing, programming and implementation of technical assistance programmes at the subregional level;

(f) To develop and execute programmes for the more effective participation of women in all aspects of development efforts at the subregional level;

(g) To collect and disseminate, at the subregional level, information and statistical data on macro-economic indicators in member States and to assist them in establishing compatible systems for exchanging information among themselves and with their development partners.

9. The Centres should continue to play the important role of co-ordination among intergovernmental organizations and should contribute to the establishment of the African economic community by undertaking studies for the harmonization and progressive linking of the various subregional economic groupings. They should also contribute to the implementation at the subregional level of strategies

contained in global prospective studies carried out by the secretariat of the Economic Commission for Africa.

10. The Conference of Ministers realizes that the inadequacy of resources has been the major constraint in the ability of the Centres to fulfil their mandate. The build-up of their staff was severely affected by the financial crisis that the United Nations faced during most of the 1980s. Similarly, their operational activities were severely constrained by their lack of resources—financial and human. The Conference of Ministers is concerned about the resulting negative impact on the delivery of the Centres during the past few years. The capacity of the Economic Commission for Africa to decentralize staff and resources to the Centres was stretched to the limit in spite of its own severe resource constraints. It is not surprising that under such circumstances the impact of the Centres began to dwindle.

11. The Conference of Ministers fully endorses the proposal of the Review Team contained in chapter VI of its report that the financial and human resources of the Centres be significantly increased. It proposes that the Centres be provided with a cost-effective minimal core staff that will enable them to have an immediate impact on their respective subregions.

12. The Conference of Ministers does not preclude the possibility of changing the name "Multinational Programming and Operational Centres", in the light of the evolution of their mandate and activities.

13. Finally, the Conference of Ministers reiterates its firm commitment to the Centres. As in the past, it will continue to make every possible effort to create the environment necessary to enhance their effectiveness.

1990/77. Co-operation in fisheries in Africa

The Economic and Social Council,

Aware of the abundant fishery and aquacultural resources of the African continent, particularly with the extension of national jurisdictions in the exclusive economic zones,

Considering the need for African countries to develop inter-State co-operation in order to promote the development of the fishery sector,

Convinced of the determination of African countries to overcome the difficulties they encounter in the development and acquisition of new technologies for the exploitation of fishery resources,

Recognizing the significant contribution that fishing can make to food self-sufficiency, the improvement of nutrition and the diversification of exports,

Considering the dynamism of the Indian Ocean Commission and the shared concerns of the Food and Agriculture Organization of the United Nations, the Economic Commission for Africa and States members of the Indian Ocean Commission regarding multinational co-operation for the development of fishery resources,

Considering that the process set in motion by the Ministerial Conference on Co-operation in Fisheries Among the African States Bordering the Atlantic Ocean, held at Rabat from 30 March to 1 April 1989, encourages the countries of the South to join together in order to promote the fishery sector,

1. *Calls upon* African States to develop joint research programmes, in particular for the evaluation and monitoring of shared stocks;

2. *Also calls upon* African States to promote better integration of the fishery and aquaculture sector in their national economies in order to increase its contribution to development;

3. *Urges* African States to establish an intra-African information network on fishing vessels operating illegally and taking due account of existing international law, to propose measures to be instituted within the context of a regional legal framework to exclude such vessels;

4. *Requests* the Food and Agriculture Organization of the United Nations and the United Nations Development Programme, in association with the Economic Commission for Africa, to assist African countries to establish such a network;

5. *Requests* the specialized agencies and other organizations of the United Nations system, particularly the United Nations Development Programme, the Food and Agriculture Organization of the United Nations, the International Maritime Organization and the Economic Commission for Africa, to take fully into account the recommendations of the ministerial conference on co-operation in fisheries among the African States bordering the Atlantic Ocean, held at Rabat in 1989;

6. *Calls upon* African States to strengthen their co-operation in the implementation of projects for the management, exploitation and marketing of fishery and aquacultural products at the national, subregional and regional levels;

7. *Requests* the Economic Commission for Africa, in the interest of greater coherence and efficiency, to do its utmost to ensure the unification of policies in activities concerning inland and ocean fishery resources and the non-living resources of the sea and legal questions relating thereto;

8. *Requests* Member States:

(a) To make full use of advanced marine training centres in Africa and to strengthen their role;

(b) To promote the exchange of information, to make use of those centres with a view to the development and utilization of a standardized statistical system covering all aspects of fisheries at the subregional level;

(c) To promote the joint negotiation of fishery agreements concerning the high-sea fleets of non-African countries;

(d) To accord greater importance to the development of small-scale fishing whenever possible, because it can be better integrated into the African economy and has a greater capacity for adaptation to the socio-economic requirements of Africa;

(e) To improve the living conditions of African fishermen, particularly in the areas of education and health, which at present hinder development;

(f) To give priority to multinational co-operation in fish marketing and preservation, in order

(i) To facilitate the access of African products to markets of the North, *inter alia*, through product

promotion and the provision of market information and through export infrastructure;

- (ii) To attain self-sufficiency in certain fishery resources through the development of intra-African trade, particularly the harmonization of taxation on fishery products;

9. *Further requests* Member States to promote the development of aquaculture in Africa and, to the extent feasible, pool their national human and financial resources within subregional bodies for applied research;

10. *Exhorts* Member States to explore the possibility of bringing national entrepreneurs and foreign enterprises together for the establishment of joint ventures on the basis of mutual advantageous co-operation.

Aware that AIDS can have serious social and economic consequences, particularly in countries with a high incidence of infection from the human immunodeficiency virus (HIV) and limited public health services and other development resources,

Reaffirming that the struggle against AIDS should be consistent with and divert neither attention nor resources from other national public health priorities and development goals and should not divert international efforts and resources needed for overall health priorities,

⁵³ See World Health Organization, *Forty-third World Health Assembly, Geneva, 7-18 May 1990, Resolutions and Decisions, Annexes* (WHA/4-3/1990/REC/1).

Aware that about one of every four hundred adults in the world today is infected with the human immunodeficiency virus, of which three million are females, and that as heterosexual transmission of HIV infection increases, the percentage of women infected will rise to equal that of men,

Considering the extensive health, economic and psychological implications of HIV infection and AIDS for women, children and families,

Emphasizing that the prevention and control of HIV infection and AIDS for women and children call for the strengthening and improvement of the primary health care system and for educational and other psychological, social and economic support programmes for women, children and families,

Recognizing further that the United Nations System-wide Action Plan on Drug Abuse Control should adequately reflect the balance achieved in the Global Programme of Action adopted by the General Assembly in its resolution S-17/2 of 20 February 1990,

Entrepreneurship as a means of attracting non-debt-creating flows of capital

The Economic and Social Council,

Recalling General Assembly resolution 41/182 of 8 December 1986 on indigenous entrepreneurs in economic development and taking note of the report of the Secretary-General on national entrepreneurs in economic development (A/45/292-E/1990/82),

Recognizing that each country is responsible for its own economic policies for development and that the promotion of growth and development depends on appropriate domestic economic policies and a supportive international economic environment,

Acknowledging the need for effective and responsible governance for setting and implementing each country's national goals in the political, social and economic spheres,

Aware that as the world changes economically, societies must respond positively,

Appreciating that political pluralism and market-oriented economies together provide the optimal flexibility in responding to change in order to provide just and equal opportunities to all peoples to enable them to develop their full potential,

Noting the importance and relevance of private enterprise in the growth and development of countries and the need to provide the necessary incentives and environment to enable the spirit of entrepreneurship and competition to prosper,

Aware that higher domestic savings and inflows of capital, including new investment and the return of flight capital, depend upon free enterprise, a key component of which is entrepreneurship,

Realizing that capital secured by entrepreneurs from investors adds to the non-debt-creating flows of capital within the economy,

1. *Encourages* the development of entrepreneurship in societies seeking to develop or recuperate their economic vitality through free enterprise and market opportunities;

2. *Agrees* that entrepreneurship, in the context of a competitive market economy and supportive governmental policies, attracts non-debt-creating flows of private capital within and between countries and enhances the internationalization of financial markets and a more integrated world economy;

3. *Urges* States to enhance their legal and regulatory frameworks and to make more efficient their capital and credit markets to provide for sound private sector development and its positive benefits for employment opportunities and national wealth;

4. *Looks forward* to the meeting of the Joint Ministerial Committee of the Boards of Governors of the World Bank and the International Monetary Fund on the Transfer of Real Resources to Developing Countries, to be held in September 1990, in particular the deliberations on the issue of giving higher priority to private sector development, including the mobilization of domestic and foreign private capital, and institutionalizing this priority across the entire range of Bank operations;

5. *Requests* the Secretary-General to incorporate in future issues of the *World Economic Survey* a chapter on the role of entrepreneurship as a key element of growth and development;

6. *Requests* the Secretary-General to study measures at the national and international levels to promote the contribution of entrepreneurship to societies seeking to develop or regain their economic vitality through free enterprise and market opportunities, drawing upon the work already in progress in the United Nations system and bearing in mind the need to avoid duplication of effort and cost, and to report thereon to the General Assembly at its forty-sixth session through the Economic and Social Council.
