Geneva, 26 June-28 July 1995  
Item 9 (a) of the provisional agenda\*

COORDINATION QUESTIONS: REPORTS OF THE COORDINATION BODIES

Programmes and resources of the United Nations system for  
the biennium 1994-1995

Report of the Administrative Committee on Coordination

INTRODUCTION

1. This is the third report of the Administrative Committee on Coordination (ACC) on programmes and resources of the United Nations system. The first report, covering the biennium 1990-1991, was presented in 1991, in response to intergovernmental discussions, 1/ and took the form of an addendum to the annual overview report of ACC for 1990 (E/1991/42/Add.1). The second report covered the biennium 1992-1993 and was presented as a separate document (E/1993/84). The reports are prepared once every two years, and their current presentation takes account of comments and suggestions made on the two earlier reports. 2/

2. The aim of the reports is to show, in convenient form, the programme objectives of organizations of the United Nations system in the various areas of activity in which they are engaged, and the corresponding allocations of financial resources. The reports are thus intended as a means both of improving understanding of the work of the system and of contributing to more effective coordination of its activities.

General description of the report

3. On this occasion, the report is being issued in two documents. The present document, taking account of constraints of timing, covers organizations of the system other than the United Nations and related bodies provided for in its

---

\* E/1995/100.

regular budget. Information on these bodies and on the United Nations itself will be incorporated in an addendum to the present document. Subject to these arrangements, the main characteristics of the report are as follows:

(a) It is based on a system-wide programme classification revised by ACC in 1992. Under this classification the activities of organizations of the system are divided between 20 main substantive sectors. Within individual sectors, activities are further divided between more detailed substantive subsectors;

(b) The information is presented in a series of tables. The first three contain financial data and the fourth sets out both programme and financial data. The content of the tables is outlined at greater length in paragraphs 6-9 below;

(c) Information is given separately for the United Nations Children's Fund (UNICEF), the United Nations Development Programme (UNDP), the United Nations Population Fund (UNFPA), the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), the World Food Programme (WFP), each of the 11 technical specialized agencies 3/ and the International Atomic Energy Agency (IAEA).

4. All of the reporting organizations have mandates established in their constitutions or charters and the programmes and budgets adopted by their governing bodies. The fields of competence of many of them are larger than can be reflected in the specific objectives stated for their programmes in the report. Thus the report cannot be taken in isolation from the information in the organizations' programmes, budgets and related documents. These documents are listed in the annex to this report.

5. Organizations of the system concerned essentially with development financing or general international finance - the World Bank group, the International Monetary Fund (IMF) and the International Fund for Agricultural Development (IFAD) - are not included, since their activities are based on loans rather than grants and are thus essentially different from those of the organizations covered in the present report.

#### Summary description of the tables

6. Table 1 shows total estimated expenditure for 1994-1995 from all sources of funds by main programme sector for each of the reporting organizations. 4/

7. Table 2 shows, also by main programme sector, global estimated resources for 1994-1995 of major funding organizations, the amounts expected to be provided by them out of these resources to other reporting organizations and the estimated resulting net total expenditure of the funding organizations.

8. Table 3 shows, again by main programme sector, estimated 1994-1995 expenditures for each of the 11 specialized agencies and IAEA, by principal source of funds (regular budgets and extrabudgetary resources).

/...

9. Table 4 sets out primary programme objectives and estimated expenditure for each of the various subsectors which compose the sectors of the programme classification, and for each of the reporting organizations. <sup>4/</sup> As a new feature, intended to show more clearly the resources devoted to different programme objectives, expenditures financed from the regular budgets and from extrabudgetary sources have been shown separately in this table.

#### Reporting conventions

10. The total figures given in the report by organizations correspond to 100 per cent of the estimated expenditure in cash or in kind of the reporting organizations (or, in table 2, their total estimated resources in the first instance). In order to avoid double counting, individual activities are reported under one heading only, in the light of their primary programme objective. Where one organization finances activities carried out by another the related expenditure is reported by the executing organization. To present a full picture of the cost of organizations' activities, resources devoted to non-substantive work, such as management and support activities, are distributed to the heading for policy-making organs and among the headings and subheadings of the programme classification. There may thus be variations between the financial data reported and the figures appearing under similar titles in the budgets of the organizations, although the data reported remain linked to approved budgets.

11. All data on programmes and resources financed by voluntary contributions are projections, based on information available when the tables were compiled (early 1995); the distribution of activities and of resource allocations among programme sectors and subsectors should therefore be regarded as approximate as far as these operations are concerned.

12. In the case of the United Nations Development Programme (UNDP), the national plans and priorities formulated by Governments of recipient countries constitute the main frame of reference for programmes. UNDP's overall mission is to assist programme countries in their endeavour to achieve sustainable human development, focusing on four priority areas: (a) poverty elimination; (b) environmental regeneration; (c) job creation; and (d) advancement of women. As such, however, there are no sectoral programme objectives comparable to those of other organizations. In the light of these considerations, resource data but no statements of programme objectives are given for UNDP.

#### Conclusion

13. In drawing up this submission ACC has, as noted in paragraph 9 above, attempted to increase its transparency by providing more detailed information on the distribution of reporting organizations' estimated expenditure. More generally, it has also pursued its efforts to improve the report by seeking greater consistency and balance in the presentation of programme objectives and clearer identification of the specific work of each organization, especially where several organizations are active in the same programme area. While recognizing that further efforts are needed in these latter respects, ACC hopes that the improvements made will be found useful.

/...

14. ACC also believes that the time has come to consider possible modifications in the programme classification on which the report is based, particularly at the level of subsectors, taking account, among other things, of shifts in programme priorities resulting from major international conferences such as the United Nations Conference on Environment and Development, the International Conference on Population and Development and the World Summit for Social Development. It is now studying this question and would propose to take account of its findings in the report to be submitted for 1996-1997.

#### Notes

1/ Official Records of the General Assembly, Forty-fifth Session, Supplement No. 16 (A/45/16), part one, para. 402.

2/ Ibid., Forty-sixth Session, Supplement No. 16 (A/46/16), paras. 452-456.

3/ For example, the International Labour Organization (ILO), the Food and Agriculture Organization of the United Nations (FAO), the United Nations Educational, Scientific and Cultural Organization (UNESCO), the International Civil Aviation Organization (ICAO), the World Health Organization (WHO), the Universal Postal Union (UPU), the International Telecommunication Union (ITU), the World Meteorological Organization (WMO), the International Maritime Organization (IMO), the World Intellectual Property Organization (WIPO) and the United Nations Industrial Development Organization (UNIDO).

4/ The totals shown opposite programme headings represent the estimated expenditure of organizations other than the United Nations and related bodies provided for in its regular budget.

(Footnotes on following page)

...

**Footnotes to tables 1, 2 and 3**

- (a) Activities funded by reporting organizations and executed by other reporting organizations are included in the figures for the executing organizations, to avoid double counting. The amounts involved are shown in table 2 in respect of the funding organizations covered by this report.
- (b) UNDP and UNFPA, as funding organizations, provide resources for development as shown in their "Total" columns in table 2. Expenditure is effected through other organizations covered by this report, directly by UNDP or UNFPA, or through other agents (see footnote (e) below).
- (c) The figure shown opposite "Policy-making organs" includes \$1.7 million in respect of the 1994 session of the UPU Congress, which meets once every five years.
- (d) Figures represent the costs to the organizations concerned (including costs of management and support functions, as appropriate) of bodies responsible for general organization policy. For organizations directly related to the United Nations, a large part of such costs is met by the United Nations. To the extent that this is the case, the costs are not shown separately in the table.
- (e) The figures shown in the "Total" columns cover resources expended by the funding organizations concerned, or made available by them either to other organizations covered by this report or to executing agents not covered by the report. For UNDP, for example, the latter agents include Governments responsible for national execution, the World Bank, IMF, regional development banks, the World Tourism Organization (WTO) and other multilateral and regional development bodies.  
  
The figures shown in the columns entitled "Resources reported by other organizations" correspond exclusively to funds made available to other organizations covered by this report. The amounts are shown in brackets as negative figures in order not to be counted in the net expenditure of the organizations providing the funds (see footnote (a) above).
- (f) The figures include estimated expenditure under the UNDP and UNFPA biennial budgets (respectively \$ 463 and \$ 96 million in 1994-1995).
- (g) In this table, "RB" refers to regular budget resources and "XB" to extrabudgetary resources.

Table 4 (continued)

**Sector 110 - Population**

Subsector	Organization	Primary programme objectives	Estimated expenditure (millions of US dollars)	
			RB	XB
111 Population policies and dynamics	UNDP	See paragraph 12.		9.4
	UNFPA	Enhancement of the formulation, implementation and evaluation of comprehensive, multi-sectoral population policies, including the development of legal frameworks, institutional capability and awareness creation on population and development issues; support of the integration of population factors into development planning and policy decision-making (through training, establishment of population units and development of methodologies and computer models). With these ends in view, conduct of analyses and studies aimed at monitoring demographic trends, identifying determinant and conditioning factors as well as the social, economic and environmental implications of population changes, and assessing the efficiency and effectiveness of population programmes.		81.0
	ILO	Enhancement of the capacity of Governments to alleviate poverty, achieve employment-intensive growth and apply international labour standards. Adoption of policies and programmes to deal with the economic and social problems arising from population growth, structure and distribution. Provision of information on the relationships between employment and human resources development policies on the one hand and demographic variables on the other. Provision of operational tools to integrate population and human resources issues into employment and development planning and policies.		9.8
	UNESCO	Enhancement of national capacity for the training of educational personnel, social researchers and communicators, and activities relating to population data bases.		3.0
<b>Total, subsector 111 (Population policies and dynamics)</b>				103.2
112 Data collection and analysis	UNDP	See paragraph 12.		2.0
	UNFPA	Improvement of vital statistics and enhancement of the operation of civil registration systems; dissemination of basic data and findings to relevant audiences; support of the undertaking and analysis of population censuses and sample surveys.		38.0
<b>Total, subsector 112 (Data collection and analysis)</b>				40.0
113 Family planning	UNICEF	Securing of access for all pregnant women to prenatal care and trained attendants during childbirth, and of access by all couples to information and services to prevent pregnancies that are too early, too closely spaced, too late or too many.		10.5
	UNDP	See paragraph 12.		0.7

/...

Table 4 (continued)

Subsector	Organization	Primary programme objectives	Estimated expenditure (millions of US dollars)	
			RB	XB
113 Family planning (continued)	UNFPA	Assistance in the enablement of individuals and couples to decide freely and in an informed manner on the number and spacing of their children. With this aim in view, support of the full spectrum of family planning information and services, including family planning supplies and equipment, training in family planning, counselling services, family planning infrastructures and programme management, technical advisory services, family planning research, including research on the safety and effectiveness of current methods of fertility regulation, and the development and introduction of new methods. In addition, family planning being viewed as an essential component of maternal and child health programmes, support of those components of programmes on women's reproductive health and safe motherhood which are directly related to, and thus enhance, the quality and acceptability of family planning.		277.2
	UNESCO	Integration of family-life education and awareness of family planning.		4.4
	WHO	Protection and promotion of the health of women and children and strengthening of the role of all members of the family in health care, child-rearing and preparation for parenthood; promotion of safe motherhood, child health and development, family planning and reproductive health.	18.3	71.5
<b>Total, subsector 113 (Family planning)</b>			<b>18.3</b>	<b>364.3</b>
114 Population education and communication	UNICEF	Promotion of emphasis in education on the rights and needs of girl children and adolescents.		1.1
	UNFPA	Development of information, communication and education on population issues, by: (a) ensuring that population-related facts and issues are brought to the attention of the public, the scientific community or political leaders; (b) bringing about change in attitudes and behavioural patterns in critical areas such as reproduction and gender issues; (c) furthering, through both formal and non-formal channels, genuine understanding of problems and possible solutions.		95.2
	FAO	Integration of population concerns into rural and agricultural development policies and programmes.	0.8	2.8
	ILO	Provision of assistance in carrying out population and workers' welfare education programmes.		9.8

**Sector 150 - Employment**

Subsector	Organization	Primary programme objectives	Estimated expenditure (millions of US dollars)	
			RB	XB
151 Policies and planning	UNDP	See paragraph 12.		14.1
	ILO	Adoption and implementation of active policies promoting full, productive and freely chosen employment and meeting international standards on employment, human rights, conditions of work and the protection of vulnerable groups. Formulation of policies promoting employment growth and the sustainability of economic reform and structural adjustment programmes. Design of labour market policies to increase productivity, improve access to employment and income and reduce discrimination against vulnerable groups. Development of effective human resources development policies as a means of contributing to overall employment policies. Promotion of appropriate labour market policies based on broad tripartite consultation and commitment. Development of policies designed to achieve equality of opportunity and treatment for men and women in employment.	40.5	27.1
<b>Total, subsector 151 (Policies and planning)</b>			40.5	41.2
152 Employment promotion	UNDP	See paragraph 12.		15.8
	ILO	Adoption and implementation of active labour policies designed to promote full, productive and freely chosen employment. Implementation of manpower planning and rural development policies. Implementation of employment-intensive programmes and encouragement of entrepreneurship as a means of maximizing employment creation and generating income. Enhancement of the capacity of management to contribute to economic and social development. Development of cooperatives and similar economic self-help organizations as participatory institutions contributing to poverty alleviation, employment and income generation. Development of policy frameworks promoting greater responsiveness of training systems to changing labour market conditions and ensuring equitable access to training opportunities.	37.4	71.1
<b>Total, subsector 152 (Employment promotion)</b>			37.4	86.9
153 Management development, technical and vocational training	UNDP	See paragraph 12.		27.0
	ILO	Enhancement of the ability of managers to improve the economic and social performance of their organizations and to adapt to a rapidly changing environment, through management development and training programmes. Development and creation of small enterprises as important means of contributing to the structural adjustment process, to the decentralization of economic activity and to employment and income generation, through the provision of vocational training programmes. Strengthening of the capacity of training systems to respond rapidly to changing labour market demands resulting from technological change, structural adjustment, demographic trends or the transition to a market economy. Enhancement of the capacity of Governments to formulate and implement strategies improving the access of disabled persons to training and employment, including self-employment.	76.6	72.4

Subsector	Organization	Primary programme objectives	Estimated expenditure (millions of US dollars)	
			RB	XB
194 Development and transfer of technology (continued)	FAO	Development of agricultural applications of isotopes and biotechnology; enhancement of the application to agriculture, fisheries and forestry of technology for remote sensing, agrometeorology and geographically referenced information systems (GIS).	12.4	9.2
	UNESCO	Development of national research capabilities and international and regional cooperation in the basic sciences, microbial and plant technologies, the engineering sciences and renewable sources of energy, with a view to enhancing technology transfer; development of national capabilities in the use of informatics and the strengthening of regional informatics networks.	40.0	7.8
	WHO	Promotion and support of the development, use and adaptation of diagnostic, therapeutic and rehabilitative technology; promotion of the proper use of medical drugs and medical services appropriate to specific national systems and institutions; support of the establishment of mechanisms for developing, assessing and transferring technology.	3.9	
	WIPO	Promotion of international protection, mainly through patents, of technology (inventions) by helping developing countries to establish or modernize their patent systems, by making protection and enforcement of patent rights more effective throughout the world, and by encouraging close cooperation among patent offices. Provision of services in the filing, searching and examination and publication of international patent applications. Continued improvement of an international patent classification for the orderly storage, access and retrieval of technological information contained in patent documents. Promotion of technological development through the dissemination of information in patent documents, especially by advanced means such as CD-ROMs.	121.5	10.7
	UNIDO	Expansion and acceleration of the flow of technologies and technological information to developing countries and related monitoring of technological developments; mediation and improvement of negotiating capabilities concerning transfer-of-technology contracts; development of industrial technology research capabilities; promotion of technology options conducive to sustainable development; promotion of long-term capability-building, particularly in respect of new technologies.	11.9	16.5
	IAEA	Improvement of research, data exchange and data processing, through the provision of nuclear and atomic data services; improvement of the design, construction and maintenance of nuclear instruments; enhancement of the use of research reactors and particle accelerators; development of the production of radioisotopes and radiopharmaceuticals, and of labelling techniques for biomolecules, through assistance to laboratories; development and operation of secondary standards dosimetry laboratories, and provision of dosimetry services in nuclear medicine and radiotherapy.	26.0	23.9
<b>Total, subsector 194 (Development and transfer of technology)</b>			215.7	134.3
<b>TOTAL, SECTOR 190 (Science and technology)</b>			363.1	245.6

Table 4 (continued)

**Sector 200 - Environment <sup>b</sup>**

Subsector	Organization	Primary programme objectives	Estimated expenditure (millions of US dollars)	
			RB	XB
201 Policies, planning and legislation	UNDP	See paragraph 12.		180.0
	ILO	Integration of environment-related activities into the ILO's work. Ensuring that environmental policies are compatible with employment creation and poverty alleviation policies and that technologies adopted are both environmentally and socio-economically sustainable. Incorporation of environmental protection measures into all forms of training. Improvement of the understanding of the implications for the world of work (employment, training, conditions of work, etc.) of environmental issues, policies and programmes.	8.8	
	FAO	Enhancement of national policies for sustainable agriculture and of national legislation on environmental aspects of food and agricultural development; improvement of the effectiveness of related international instruments; formulation of national forestry plans; promotion of international cooperation in the rational use of high-seas fisheries.	5.1	3.7
<b>Total, subsector 201 (Policies, planning and legislation)</b>			<b>13.9</b>	<b>183.7</b>
202 Assessment and monitoring	UNDP	See paragraph 12.		41.1
	FAO	Monitoring of major environmental problems related to the food agriculture, fisheries and forestry sectors, including the pollution of fishing grounds and air pollution affecting forests; monitoring of the state of plant genetic resources; enhancement of environmental impact assessment.	6.2	25.0
	WMO	The objectives reported under subsectors 041 (Water resources planning and development) and 193 (Meteorology) are also relevant in this area.		
<b>Total, subsector 202 (Assessment and monitoring)</b>			<b>6.2</b>	<b>66.1</b>
203 Enhancement and management	UNDP	See paragraph 12.		73.4
	FAO	Coordination of international assistance and enhancement of project development under the Tropical Forests Action Programme (TFAP) and similar programmes in other regions; improvement of the control of forest fires; improvement of pollution control in aquaculture, and promotion of integrated coastal areas management systems.	7.4	22.6

<sup>b</sup> Although no objectives or resources are reported under this sector by IAEA, many of the Agency's projects have a significant environmental component.

Table 4 (continued)

Subsector	Organization	Primary programme objectives	Estimated expenditure (millions of US dollars)	
			RB	XB
203 Enhancement and management (continued)	UNESCO	Strengthening of inter-agency and intersectoral cooperation in environment and development, with a view to enhancing the understanding of global change and climatic change.  Relevant objectives concerning the management of natural resources linked to the environment are mentioned above under subsectors 041 (Water resources planning and development), 043 (Biological resources), 044 (Mineral resources) and 191 (Natural and physical sciences).	1.5	0.5
	IMO	Assistance to Governments in enhancing their capacity to prevent, control and combat marine pollution from ships. Provision of assistance and advice to States faced with a major marine pollution emergency from any source. Support of national efforts for the prevention, control and management of marine pollution on a long-term and self-reliant basis, with emphasis on both land-based and sea-based sources of marine pollution, including ship-generated wastes. Provision of advisory services to Governments on the implementation and enforcement of IMO Conventions, in particular with respect to facilities in ports for the reception of wastes and the management of waste disposal at sea.		3.0
	UNIDO	Ensuring the ecological sustainability of industrial development while maximizing the beneficial impact of industry on the quality of life, notably through the promotion of environmentally sound and energy-saving technologies, appropriate governmental policies and legislation, transfers of clean and energy-saving technologies; mobilization of financial resources in support of such aims.	7.6	70.1
<b>Total, subsector 203 (Enhancement and management)</b>			<b>16.5</b>	<b>169.6</b>
204 Awareness and education	UNICEF	Broadening of young people's understanding of environmental issues and development of educational programmes for child participation.		11.0
	UNDP	See paragraph 12.		16.0
	UNESCO	Promotion of public awareness of environmental and sustainable development issues, and improvement of the status of education on these issues at the national level.	5.2	1.5
	IMO	Enhancement of the capacity of developing countries to prevent and mitigate the impact of marine pollution, with emphasis on the implementation of international standards adopted by IMO for the protection of the marine environment.		2.4
<b>Total, subsector 204 (Awareness and education)</b>			<b>5.2</b>	<b>30.9</b>
<b>TOTAL, SECTOR 200 (Environment)</b>			<b>41.8</b>	<b>450.3</b>

Annex

**Documents setting out programmes and resources of the  
United Nations system in 1994-1995**

**United Nations Children's Fund**

Medium-term plan for the period 1992-1995 (E/ICEF/1992/3); see in particular tables 4 and 7

**United Nations Development Programme**

UNDP biennial budget for 1994-1995

Programme Support and Development Support Activities

**United Nations Population Fund**

Report of the Executive Director for 1993 (DP/1994/44)

Work plan for 1994-1997 and request for programme expenditure authority (DP/1993/30)

Work plan for 1995-1998 and request for programme expenditure authority (DP/1994/45)

Biennial budget estimates for administrative and programme support services for the 1994-1995 biennium (DP/1993/35)

**United Nations Relief and Works Agency for Palestine Refugees in the Near East**

Revised programme budget for the biennium 1994-1995

**World Food Programme**

Annual Report of the Executive Director (CFA: 37/P/5)

Review of WFP policies, objectives and strategies (CFA: 37/P/7)

WFP mission statement (CFA: 38/P/5)

/...

**World Food Programme** (continued)

Principles and guidelines for country programming (CFA: 38/P/6)

Guidelines for country programme resource levels (CFA: 38/P/7)

Resource policies (CFA: 38/P/8)

Proposals for long-term financing of WFP (CFA: 38/P/9)

Report of the Open-ended Working Group on implementation of General Assembly resolutions 48/162 and 47/199 (CFA: 38/11)

**International Labour Organisation**

Medium-term plan 1990-1995 (GB.239/PFA/3/1)

Programme and budget for 1994-1995

**Food and Agriculture Organization of the United Nations**

Programme of work and budget for 1994-1995

Programme implementation report for 1994-1995

Programme evaluation report for 1994-1995

Medium-term plan for 1994-1999

**United Nations Educational, Scientific and Cultural Organization**

Medium-Term Plan 1990-1995 (25 C/4)

Approved Programme and Budget for 1994-1995 (27 C/5 [Approved])

Report of the Director-General 1992-1993 (28 C/3)

/...

### **International Civil Aviation Organization**

Work programme (programme budget) of the Organization, 1990-1991-1992 (Doc 9532)

Assembly resolution A28-6

Programme Budget of the Organization for 1993, 1994 and 1995 (Doc 9582)

Assembly resolution A29-29

### **World Health Organization**

Eighth General Programme of Work covering the period 1990-1995 (HFA Series, No. 10)

Proposed programme budget for the financial period 1994-1995 (PB/94-95)

### **Universal Postal Union**

Union budget for 1994 (CE 1993/C2-Doc 4)

Union budget for 1995 (CE 1994/C2-Doc 4)

### **International Telecommunication Union**

ITU Constitution and Convention, Geneva 1992

Decision COM 7/2 and Resolution COM 4/1 of the Kyoto Plenipotentiary Conference, 1994

Budget 1994 (Doc. C93/75 - Resolution, Doc. C93/2)

Budget 1995 (Doc. C95/4 - Resolution, Doc. C94/14)

### **World Meteorological Organization**

WMO Third Long-term Plan, Part I: Overall policy and strategy 1992-2001 (WMO publication No. 768)

Proposed programme and budget for 1994-1995 (EC-XLV/Doc.14)

Approved programme and budget 1994-1995, in: EC-XLV Abridged Report (WMO publication No. 794), Resolution 14 (EC-XLV) and General Summary, chapter 11

**International Maritime Organization**

Work programme and budget for the eighteenth financial period 1994-1995 (C70/23, C/ES.17/17(b)/Add.1, A 18/27 and A 18/27/Add.1)

**World Intellectual Property Organization**

Draft programme and budget for the 1994-1995 biennium (AB/XXII/2)

**United Nations Industrial Development Organization**

Programme and Budget 1994-1995 (GC.5/14/Rev.1)

Work Programme 1994-1995

**International Atomic Energy Agency**

The Agency's Budget for 1994 (GC/XXXVII/1062)

The Agency's Programme and Budget for 1995 and 1996 (GC(XXXVIII)/5)

The Agency's Programme and Budget for 1995 and 1996 (August 1994 - internal document)
